MINING, BUSINESS AND STOCKS

GREAT VOLUME OF BUSINESS.

Heavy Weight Stocks Participate Freely and Run Total Into Big Figures.

DALY JUDGE AND LITTLE BELL

Columbus Con. Made Some Advances —So Did Ajax—Honerine Closed Lower.

A big volume of business was transacted on the floor of the Salt Lake Stock & Mining Exchange this afternoon. Altogether, there were 16,275 shares transferred, for which was paid $37,792.75. Daly Judge started the ball rolling with a sale marked up at $11,-87½ and was followed by a lot of Little Bell at $13.25. May Day stiffened, while a few shares of Silver King were bought at $29.50 and $30. The bulk of the trading, however, was done on the open board, when Ajax moved up to 34 and Columbus Con., starting at $7.65 sold up to $7.80. Honerine, offered at the beginning at $3.05 was taken, but closed on a decline of 10 cents a share. A few lots of Nevada Hills were brought out.

The closing quotations and sales were reported as follows:

BLUE BIRD GROUP.

Beaver County Mine to be Operated By Cripple Creek Capitalist.

J. T. Hawkins, engineer on the staff of James F. Burns of Cripple Creek, Colo., has arrived in the city and will leave for Milford over the Salt Lake Route this afternoon to inaugurate a development campaign at the property of the Blue Bird Copper & Gold Mining company, upon which Mr. Burns secured an option during his late visit to this state.

Mr. Hawkins was here also, some time ago, and was the engineer who made a favorable report to Mr. Burns and which resulted in the Colorado man taking hold in this state.

It is said that since Mr. Burns went home favorably impressed with the opportunities for the development of big mines in Beaver county several other Cripple Creekers have begun to get interested, and it is not unlikely that more deals will follow.

THE INDIAN QUEEN.

Shipment of Copper Ore Coming From This Beaver Property.

Lorin Morrison, manager of the Indian Queen mine in the Copper Gulch section of Beaver county, came in from the south yesterday and will remain in town several days.

Mr. Morrison is prosecuting a very vigorous campaign at the Indian Queen, and states that he will soon report in the local markets with a car of good ore.

A report has been current for several days that some strong financial interests have been making overtures to Mr. Morrison for the purchase of the Indian Queen, but on this subject he was non-committal.

OUT OF NEWHOUSE.

Travel Towards Osceola is Reported to Be Quite Heavy.

An arrival from Newhouse, Beaver county, brings the information that the travel towards Nevada from that point is increasing daily and that hardly a day passes without three or four stages leaving with a full load of passengers. While a few go through to Ely, a great many stop off at Osceola and in that vicinity. The passenger list is usually made up of prospectors, miners and investors.

CONCENTRATES.

George Gunn has returned from a business trip to Ely, Nevada.

The Sacramento company will pay its usual monthly dividend tomorrow.

Supt. A. P. Jacobson of the Columbus Consolidated of Alta, is down from camp.

The shaft at the New Stockton mine at Stockton has been let down to the 1,000 foot point.

William H. Dale has returned from a trip to Lovelock, Nevada, where he has been on mining business.

A car load of machinery has been ordered for the Lucky Dutchman mine in the Crescent, Nev., district, and the list includes a hoisting plant.

Joe Bamberger, a son of J. E. Bamberger and prominently identified with a New York brokerage firm, is expected to reach the city in a few days.

Gold Butte, Nev., is now a regularly established postoffice with W. C. Sharp as postmaster. Heretofore, citizens of this new camp have obtained their mail at St. Thomas, about 25 miles away.

Secy. Durant of the Consolidated Flagstaff mine at Alta will leave for Goldfield, Nevada, this afternoon on a flying trip. He expects to return next Monday and proceed at once to his home in Milwaukee.

Manager R. L. Edwards of the City Rocks mine at Alta is at that property today, accompanied by his uncle, James P. Edwards, and Frank Voight, both of whom are large shareholders in the City Rocks company.

The announcement of officials of the Nevada Northern railroad that regular train service would be inaugurated next Saturday as far as Currie's ranch, 62 miles south of Cobre on the Southern Pacific, will make cheerful reading for mine operators of Cherry Creek and vicinity.

Walter C. Orem, J. D. Wood, and F. J. Haggenbarth departed for Yerrington, Nevada, today to make an inspection of the Douglass copper property recently acquired by them. They are making the trip as the guests of Superintendent Buckingham of the Oregon Short Line.

The ore receipts of the Taylor & Brunton Sampler today amounted to 21 cars from Tintic, 2 from Bingham, 3 from Nevada, 2 from Colorado, 2 from Idaho and 1 from Milford. The Pioneer reported 2 cars from Stockton 3 from Bingham, 2 from Alta, 2 from Nevada and 4 from Tintic.

Col. C. G. Noble, editor of Goldfield's lively afternoon paper, has retired from editorial work and will hereafter devote his entire attention to his mining interests. Col. Noble will be succeeded as editor of the Sun by Mr. A. M. Aller, for nine years connected with the San Francisco Chronicle, said to be a man of wide experience and splendid attainments.—Goldfield News.

A. B. Lewis, founder of the Majestic and Imperial companies in Beaver county, is in the city again, having returned from a trip to the Imperial yesterday. Mr. Lewis says preparations are being made to resume work at the Imperial, and that some shipments will likely be made from that property before very long. Mr. Lewis will be here but a day or two, when he will return to New York.

O. P. Posey and W. E. Mitchell both of New York have lately acquired considerable property in the Bullfrog district and will organize several companies. One of these groups consists of three claims adjoining the Amethyst ground and will be known as the Amethyst Extension Mining company. Five more claims adjoin the Gold Bar and will be called when organized the Trinidad Mining company. These gentlemen are said to represent large eastern interests and are known to have purchased ground at Manhattan.—Goldfield News.

NEW CAMP NEAR INDIAN SPRINGS

Manhattanites Get Excited on Seeing Free Gold Specimens And Start a Rush.

NEW CAMP NAMED BRONX.

Review of Progress Being Made in Development of Some Well Known Properties.

Special Correspondence.

Manhattan, Nev., May 27.—It is wonderful how soon the town can be practically depopulated by news of the finding of gold. Such was the case Thursday last, when a miner stopped on Main street to exhibit some wonderful specimens of free gold. Upon inquiry, the miner said he secured the samples from his own property about five miles south of Manhattan. The news spread quickly through the little mining camp, and everyone made haste to go to the scene in the hope of locating something good for himself.

The locators of this new strike have named their camp Bronx. It is situated at Indian Spring, four and one-half miles southerly from Manhattan. On three claims, the Empire No. 3, Empire No. 4 and Empire No. 5, good values have been obtained. This part of the district is known as the granite belt, and huge porphyry dykes cut through the granite. These dykes are mineralized at various places. The ore occurs in fissure veins of porphyritic quartz and hydrous silicate known as talc. The veins already uncovered range from four to 16 feet in width, and widen with depth. Values from $87 to $6,400 per ton in gold have been obtained. The whole country has been located, and many other properties have disclosed good values.

Development work on the Gregory group of the Manhattan Nevada Gold mines is being pushed forward rapidly. The drift from the bottom of the 75-foot shaft is now in the hill 50 feet, and the face is in good milling ore. Bids will be out tomorrow to run this drift another 50 feet, which will cut the big quartz ledge and thoroughly open up the hill on this property. The ore now being taken out pans very well, and shipping values are momentarily expected.

Ore has been uncovered on the Oregon Fraction of the Manhattan Gregory Extension, and development work is being pushed forward with vigor to open up the ore bodies. Strong croppings protrude from the hills on this property, and all are mineralized.

A short distance to the south of the famous Gregory group and Gregory Extension property, rich ore has been uncovered in a tunnel which is being driven on the Vesuvius claim of the Manhattan Croesus Mining company. A ledge has been opened up which is 30 feet in width, and an 18-inch vein in this ledge will average $1,100 per ton in gold. Selected samples assay over $3,000 to the ton.

A few feet from the Vesusvius are the Holland No. 1 and No. 2 claims, on which a large ledge has been opened up, and good values obtained. This section of the district is rapidly coming to the front, as rich pay ore is being found almost daily. From the surface indications on the Hollands, a producing mine will soon be in evidence.

The Manhattan Monte Christo Mining company owns four claims very close to the Holland group, and three well-defined ledges have been uncovered, all yielding good gold values. Active development work is being prosecuted on this property. A rich strike was made two days ago on a claim adjoining the Monte Cristo, at the foot of Timber hill. It is stated that a shipment will soon be made from this property. The Monte Christo property is but a short distance from the Old Manhattan mines, which were worked for silver 30 years ago. A company has taken over the old Manhattan property, and is working it for gold, with every good success.

On the Sherron group just east of the Old Manhattan property a 20-foot ledge has been opened up and shipping ore is being sacked preparatory to shipment.

The shaft on the Manhattan Express is down 12 feet, and the formation is a tufa, or conglomeration of malapai and granite. The ledge near by is dipping toward the shaft, and it is expected the shaft will cut this ledge at a depth of about 50 feet. As the ledge gives values on the surface, a good paying ore body is looked for at depth.

The drift from the shaft of the Cowboy property is in 12 feet at this writing and the entire face is in the same heavy iron sulphide ore as last week, but the values are getting better with every shot. If they improve during the next week as they have the past, the company can easily begin shipments from its property. The values run in the neighborhood of $60, per ton in gold.

Development work is being pushed forward with all haste in the tunnel of this property, and the big ledge which crops above is expected to be daily encountered. The face of the tunnel is in ore that pans well in free gold and assays above $30 per ton. The character of the ore is identical with that being taken from its neighbor, the Manhattan Consolidated.

The large tunnel which is being driven into the hill on this property is now in 60 feet, and has the distinction of having been in ore for its entire distance. The immense 300 foot ledge which the tunnel is crosscutting is heavily mineralized, and every one of over a hundred assays taken during the progress of the work has shown values ranging from $2 to $30 in gold. The tunnel has at least 240 feet more to run before cutting through this ledge. Already one of the biggest milling propositions in the state have been opened up and the half is not told. Its neighbor on either side are in shipping ore, working on the same ledge, and it is very reasonable to assume that a high grade proposition will soon be developed.

This property, to the west of the Consolidated Manhattan, is in shipping ore. The shaft is down 90 feet, and the bottom is all in high grade ore. A hoist has been ordered, and as soon as erected the development of the property will be more expeditiously carried on.

ANOTHER MAGNOLIA SHIPMENT

Harry Lowery is making his fouth shipment from the Magnolio, says the Lode of Delamar, Nev. This makes his second shipment this month. The product of the mine is showing up better than ever, there being $165 ore in the present shipment. This proves that Delamar is not a one-mine camp. There are other prospects here that capital for development would show to be fully as good as the Magnolia or De Lamar.

UTAH DIVIDENDS.

Eight Mines Made May Distributions Aggregating $115,500.

Eight Utah mines distributed dividends during the month of May aggregating a total of $115,000. The mines represented and the amounts paid by them were: Silver King, $50,000; Grand Central, $15,000; Beck Tunnel, Consolidated, $20,000; Victoria, $5,000; Uncle Sam Consolidated, $5,000; Yankee Consolidated, $5,000; Sacramento, $5,000; Utah, $1,000.

SELLS MINING GROUND.

A. H. Mayne Disposes of Round Mountain Property for $35,000.

Private advices received today from Manhattan conveys the information that A. H. Mayne has closed a deal for the sale of an attractive property in the Round Mountain district, known as the Blue Jay group. The property was owned by A. H. Mayne, C. E. Mayne, Patrick O'Farrell and Camp of Goldfield and Child, Cole & Co., of this city. The consideration is said to be about $30,000.

THE MEXICAN CON.

Supt. Frank Moorehouse Sending on to Market at Rapid Pace.

Conditions at the property of the Mexico Consolidated, which is controlled by Bingham Consolidated interests, are reported to be in a most satisfactory condition. A message from Superintendent Frank Moorehouse contains the information that there is $20,000 worth of ore in transit; $20,000 worth at the smelters awaiting treatment, while he has ore of the value of $200,000, Mexican money, ready for shipment. The Mexico Consolidated is located at Guanacevi, state of Durango. Quite a number of Salt Lakers are shareholders.

WILL EXERCISE OPTION.

A Boston authority says that J. A. Coram will exercise his option on 100,000 shares of the stock of the Balaklalla Copper company at $15 a share. The option expires in June.

LOCAL MARKETS.

The washouts on the O. R. & N. railroad have cut off, for the rest of the week, the supply of Hood River strawberries; and as the California season is over, these berries will be scarce in the local markets for the remainder of the week. The straight price has in consequence gone up to 25 cents per box for the present. The general fruit and garden truck markets are otherwise well supplied, as supplies are being rushed in from southern California, southeastern Nevada, although there is a temporary scarcity in cherries. Grape fruit is new in the market, and frogs have disappeared with the raise in temperature. Poultry is plentiful and prices are falling.

There have been large and fine supplies of oranges, lemons and new potatoes from the coast, with pine apples from Cuba and Florida, tomatoes from Florida, and goodly quantities of cucumbers from Texas. There is a scarcity in lemons, and prices have gone up one dollar per case, the wholesale price ranging from $5 to $5.50. The prices obtaining in today's local markets are as follows:

RETAIL.

Timothy, per cwt	1.10
Alfalfa	.85
Corn, per cwt	1.45

STOCKS OPENED AT ADVANCES.

Backwardness of Some Leaders Took Edge Off Rise Elsewhere.

MARKET BECAME QUITE DULL.

After Midday the List Was Sold More Freely, Yielding Being Considerable.

New York, May 31.—American stocks were sustained in the London market during the holiday interval here and opening prices of stocks in New York were at advances over Tuesday's closing. The dealings were light. Illinois Central advanced 1¾, Tennessee Coal L and Louisville & Nashville and Kanawha and Michigan large fractions.

A number of the most important stocks did not join in the early rise with any enthusiasm, especially Northern Pacific, Reading, Amalgamated Copper and U. S. Steel. The backwardness of these leaders took the edge off the rise elsewhere after a while and a fairly active market was converted into a dull and drooping one. Stocks embraced in a common ownership or closely related in other ways were bought with confidence, including the Vanderbilt and Hill stocks. The principal advances were Illinois Central 4, Northwestern and C. C. C. & St. Louis 3½, Great Northern preferred 2½, New York Central, Northern Pacific, Consolidated Gas, Tennessee Coal and Third Avenue 2, St. Paul, Colorado Fuel and American Steel Foundries stocks 1½ to 1¾ and General Electric, Sloss-Sheffield Steel, Pressed Steel Car and Allis-Chalmers 1 to 1¾.

The market was very dull but the strength of special stocks held prices. Consolidated Gas jumped 5 points on a judicial decision in favor of the company. Great Northern preferred rose 4, Northern Pacific 3¾, Louisville & Nashville 1¾, Atlantic Coast Line 1½, Delaware & Hudson 1¼ and Western Maryland 1.

Bonds were irregular.

The list was sold more freely after midday. Illinois Central falling off 2 points from its highest and a number of other important stocks yielded to below Tuesday's closing. Hard coal stocks were especially weak, the depression in Pennsylvania and Reading affecting some of the lower priced stocks. Allis-Chalmers preferred improved 2, Denver & Rio Grande 1¾, Pullman 1½ and Southern Pacific 1. Pennsylvania declined 1¼ and Reading nearly a point.

The market developed very irregular tendencies in the late afternoon, but the fluctuations were mostly small. The rise in St. Paul was about wiped out before the market took a turn afterward. Reading recovered over a point, but the market otherwise became feverish. Kansas & Texas gained on and United Railway & Investment 2¼. Kansas & Texas preferred dropped 1.

Southern Pacific moved up 1½ and carried Union Pacific with it nearly a point. These and a few special movements were of little influence. United Railway Investment rose 2, the preferred 4¼. Nashville, Chattanooga and St. Louis 2¼; Allis-Chalmers, ½, Denver & Rio Grande preferred ¼ with Central Railroad of New Jersey, Sugar and Beet Sugar 1. Wells-Fargo Express sold at an advance of 15. Twin City Rapid Transit and American Linseed lost 1¼ and Distillers' Securities 1. Towards the last prices receded again, St. Paul getting below Tuesday's close and Union Pacific losing its advance. The closing was easy and dull.

LIVESTOCK.

CHICAGO.

Chicago, May 31.—Cattle—Receipts, 6,000; market steady to strong. Beeves, 4.00@6.00; cows and heifers, 1.75@5.15; stockers and feeders, 2.75@4.65; Texans, 4.00@4.60; calves, 5.25@6.75.

Hogs—Receipts, 23,000; market weak to 5 cents lower; estimated tomorrow, 19,000. Mixed and butchers, 6.30@6.52½; good heavy, 6.45@6.55; rough heavy, 6.30@6.40; lights, 6.25@6.50; pigs, 5.40@6.15; bulk of sales, 6.45@6.50.

Sheep—Receipts, 15,000; market strong. Sheep, 4.60@6.25; lambs, 5.40@8.05.

OMAHA.

PRODUCE.

CHICAGO.

Chicago, May 31.—The wheat market today was almost exclusively a weather market and prices were easier. The weather in the southwest was reported clear and favorable while in the northwest there were traces of rain. Pit traders and commision houses were free sellers. July opened a shade to ⅛@¼ lower, at 82⅛@82¼ and declined to 81⅝@81¾.

Minneapolis, Duluth and Chicago reported receipts of 279 cars.

The corn market was inclined to be weak. July opened ¼ to ¾ lower at 46½ to 46⅝, advanced to 46¾ and declined to 46⅛@46¼.

The oats market was a trifle easier. July opened ¼ lower at 33@33⅛.

Provisions were easier because of a 5-cent decline in live hogs. July pork was down 15 to 17½ cents at 16.17½ to 16.20. Lard was 5 to 7½ cents lower at 8.77½ to 8.80. Ribs weer down 5 cents at 9.42½.

Cash: Wheat—No. 2 red, 80; No. 3 red, 84@88; No. 2 hard 82@84; No. 3 hard, 78@82; No. 1 northern, 81@85; No. 2 northern, 83@85; No. 2 spring, 82@85.

Corn—No. 2, 49¾@51; No. 3, 49½@49¾.

Oats—No. 2, 33@33½; No. 3, 32¾@33.

There was free selling all day and the close was easy with July off ½ at 82@82½.

Corn—The close was firm with July ⅛ @¼ higher at 46¾@47.

Close: Wheat—May, 82¾; July, 82@82⅛.

Corn—May, 49¾@49¾; July, 46@46¼.

Oats—May, 33⅞; July, 33¼@33⅜.

Pork—May, 16.30; July, 16.30@16.32½.

Lard—May, 8.72½; July, 8.77½.

Ribs—May, 9.35; July, 9.40.

Rye—Cash, 61@63.

Flax—Cash, northwest, 1.12½.

Timothy—Sept., 3.65.

Clover—Cash, 11.25.

Barley—Cash, 41@55.

SUGAR AND COFFEE.

New York, May 31.—Sugar, raw, steady. Fair refining, 2 13-16; centrifugal, 96 test, 3 15-32; molasses sugar, 2 11-16.

Refined—Steady. Crushed, 5.30; powdered, 4.70; granulated, 4.60.

ALKALI SPRINGS STRIKE.

Goldfield, Nev., May 31.—Remarkable strikes have been reported from near Alkali Springs, 17 miles northwest of Goldfield, and today Goldfield is nearly depopulated of mining men and prospectors. For two days the stream of gold-seekers had been pouring into the district from Goldfield and nearby camps.

The ore taken out much resembles the Tonopah, bearing gold and silver in nearly equal quantities. The smallest assays brought from the district today ran $77 to the ton, and an average of a number went $549.10. Some picked samples not included in the average assay went $15,000. The district appears to be about seven miles long by three wide. It is only five miles from the railroad with wood and water at no great distance. Goldfield is greatly excited over the find.

HAVE YOU TRIED IT?
We mean the plan of saving money by buying furniture and carpets from us. We are headquarters for all kinds of household goods. A fine line of Combinations Cases and Buffets just arrived. Call and examine our goods and get prices before purchasing.
