Grand County and Its Mines, Fruits, Minerals, Big Canal, Etc.

CHAMBER OF COMMERCE REPORTS.

Sugar Factory Good News.—The Nevada Southern Railway.—Miscellaneous Matters.

R. A. Richer, member of territorial bureau of information from Grand county is in town. He brought in some very fine samples of grape and cherry wines from this year's fruit. The samples are to be left with the bureau.

Mr. Richer also said that his county would like to exhibit some specimens from its onyx and agate deposits, which are very extensive. Mr. Richer says the agate and onyx in Grand county is unexcelled anywhere.

It is likely that Grand county will exhibit some preserved fruit jars at the Midwinter Fair. Mr. Richer is enthusiastic over its cattle and sheep raising, and the rich meadows of Eck county, which are almost resistless, and he believes it is in the richest county in Utah. He says the people are planning a big canal scheme to take water out for 100 miles of bluff. The water will be taken out from the river, and when the canal is completed it will be 100 miles in length, and is estimated to cost between $3,000,000 and $4,000,000.

THE CHAMBER'S REPORT.

President Richards and Secretary Snyder, of the Chamber of Commerce, are busy on their annual report which are to be presented at the meeting of the Chamber on January 11th.

The report of Mr. Richards will embrace a general statement of the resources and growth of Utah, its advantages as a place of investment, and other features, placed in such shape as will enable ready reference to give a correct general idea of the business and industrial situation and outlook for Utah.

Mr. Snyder's report will enter more into detail in the various agricultural, manufacturing, mining and other industries in the Territory, and will give figures, carefully collected and compiled, relating to the various subjects.

Neither report aims to be very elaborate this year, but both are intended to be sufficiently specific to give a thorough view of the various branches with which they will deal.

SUGAR FACTORY CLOSES.

Tonight the Utah Sugar factory will close down for the season. The run throughout has been characterized by remarkable success. In round figures the output has been four million pounds of sugar. Tomorrow the close of the season will be celebrated by a grand ball by the employes. It will take place in Gerlich's hall, Lehi. Invitations have been sent to the officers and directors, some of whom will go down to the city to attend.

THE NEVADA SOUTHERN.

D. J. Schofield, vice-president of the Nevada Southern, has recently returned from a trip over the road, says the San Francisco Chronicle. The road is now in operation from Baker, a station on the Atlantic and Pacific, a short distance west of The Needles, to Manvel, a town named after the recently deceased president of the Santa Fe. Manvel is in the vicinity of the famous Vanderbilt mining district. The road is doing a heavy ore business, and quite an amount of merchandise for the mining camps is shipped over its tracks.

"Work on the extension of the Nevada Southern to Goat Springs, Lincoln county, Nevada, will be begun at once," said Mr. Schofield. "The contract has been let and the extension will be completed within ninety days. This will add twenty-five miles of trackage to the line. Goat springs is situated in the Yellow Pine mining district. The ores are very rich in lead, and are in demand at the Selby smelter. Ultimately the line will be carried across the western Nevada to the coal fields at Cedar City, U. T."

The coal fields in the neighborhood are extensive and will furnish an ample and cheap supply of fuel for a southern California. From Tonopah, Utah, to the main line of the Rio Grande Western, a branch extends almost due south to Manti and Sallina. From the latter point the Rio Grande Western has surveyed a line through the Sevier valley of the richest mineral and farming section of Utah, and a short distance north of Cedar City. When the Nevada Southern is completed to Cedar City it would be an easy matter for the Rio Grande Western to close the gap between that point and Salina. From Los Angeles to Salt Lake there would be, as nearly as the mountainous character of the country permits, an air line.

Denver and San Francisco capitalists are interested in the Nevada Southern. The main offices are in Denver. At an election which was recently held in that city, at which the following officers were chosen: I. E. Bass, Charles B. Mason, William L. Berkeley and George C. Manley of Denver, and D. J. Schofield of San Francisco. The officers chosen were: President, I. E. Bass; vice president, D. J. Schofield; second vice president and general manager, R. S. DeRemer; secretary and attorney, George C. Manley; assistant secretary, Charles B. Mason.

NEWSPAPER PROPRIETOR SUES.

George A. Hussey is the present editor of the Coalville Times. In the issue of that journal he says: We are under the painful necessity of convincing the intelligence to the people that the former publisher of this paper, E. E. Newell, has left many people in this community in a state of anxiety as to his whereabouts; most of them are fearing that he has absconded. As to our individual interests, we can state that we have worked faithfully for the Chronicle as have others in its employ, and we have failed to receive our money. Mr. Newell has also misrepresented his affairs to us and we lost because of his unfavorable methods of conducting the business of this office. We have papers whereby he places the Chronicle in our hands for the time being, and Mr. Newell has paid the situation of the office for two weeks past, except to collect money for his own benefit. To the public we wish to state that we have in our possession a letter from him wherein it places the Chronicle in our hands, to be conducted as our own, till his return. In conversation with the writer, said Newell has repeatedly said his intentions were to leave Coalville, and that the office would be the property of a stock company, a partial payment by the purchasers having been already made. This statement is believed by the men whose names it was, in conversation with us, as the leaders of the company, and people here feel sufficiently justified in in saying that Mr. Newell has proven to us just what several others have repeatedly said to me. We now call on subscribers to refuse to pay any bills presented for payment as coming from this office except to the proper manager.

NOTES.

The Midwinter Fair executive committee were holding another session at 4 o'clock this afternoon.

The workers in the Bond and Contingent bureau in Big Cottonwood canyon report a thing worse a rich body of ore.

The branch of the Rio Grande and Pacific Railway, from Thistle to Mammoth, is to be in operation before, late to opened for traffic on January 1st.

The Davis county court, which was visited yesterday afternoon by Mr. W. E. Hubbard, is stated in last evening's NEWS, made an appropriation of $200 for the Utah exhibit at the Midwinter Fair.

SALT LAKE EXCHANGE BOARD.

Today's energy board exchanges amounted to $276,275.

Territorial Auditor.

It was expected today that Governor West would appoint a Territorial auditor to succeed Arthur Pratt, resigned, but up to a late hour he had not done so. The appointee of the office, as heretofore announced, are W. Hall, J. W. Whitehead Jr., and Hon. John T. Caine. With a vacancy, it is claimed by the knowing ones, in favor of the last named gentleman.

The Art Exhibit.

One of the most interesting places in the city to spend an hour or two is at the art exhibition on First South street, which will continue open until after New Year's day. The array of paintings, many beautiful, and the others many gems of art. The hall is well lighted and comfortably warmed, and nothing seems wanting to promote its success.

The art reception is to be held on Saturday evening, from 7 to 11 p. m., when there should be a big attendance of lovers of the beautiful.

The reception to be given by Mr. Kinney, which was announced for Saturday evening at the exhibition rooms has been postponed till Tuesday evening.

AMUSEMENTS.

THE SHADOWS OF A GREAT CITY will be performed for the last time tonight. Last evening's house was a very good one and the appreciation was as marked as ever.

FANNY DAVENPORT will no doubt have her great success in Sardou's famous play of Cleopatra. It goes without saying that the great American actress will present her play with all the magnificence that characterized the performances given here before. The company in several instances has been changed, and one incident added to the way of improved scenery, costumes, etc. Other stars may go on their way to a broken pick, but Miss Davenport, who is never tired of making new additions to her conception of the character, has provided, as usual, some amusing novelties and improvements of the play scenes of the Nile. The contrast has so many charms, is so many sided that it repays an artist to keep continually studying the possibilities.

Monday night Fanny will receive its only representation here, the balance of the engagement being devoted to Cleopatra.

THE HOYT OPERA CO. will present Dazie's operetta of Pauline at the Eighteenth ward hall tonight, a part of the proceeds going to the pool-hall of the ward. Miss Della Dayton is the soprano, Miss Annie Swearer the alto, Mr. Ashworth the tenor, Mr. Hugh Dougall the baritone, Mr. Gill the bass and Mr. Alex Piper the business manager of the organization. The well known Christensen line, seconds will play with the singers.

THE POLITICAL DEBATE.

Final Negotiations Being Made by the Committee this Afternoon.—Republican Speakers.

The final negotiations between the Democratic and Republican committees for the big public political debate at the Theater on next day night were being carried on this afternoon, but up to the time of going to press the arrangements had not been completed.

It appears that there is a desire on the part of some of the interested men to have only two speakers on a side instead of three as contemplated by the Democrats. In addition to Mr. Varian it was quietly mooted today that C. E. Allen would speak for the Republicans, and if the number is not cut down C. W. Bennett or another worthy claimant to his steal will also appear in the arena.

The Democrats are still anxious to adhere to the original proposition of three men on a side. Prior to Christmas today there was no change contemplated in the personnel of their champions unless it should be necessary to make one in the case of J. H. Moses, who it was thought might not be able to appear. Altogether the contest promises a great deal of interest and both parties are looking to the event with marked anxiety.

Col. Little's Funeral.

The funeral of the late Col. Jesse C. Little will be held at 2 p. m. on Friday next at the residence of his daughter, Mrs. Annie Dye, at No. 151 E. First south street.

ELECTIONS "THIS" SETTLED.

Drawing of Lots by Proxy Before Territorial Secretary Richards.—Names of the Lucky Ones.

Territorial Secretary Richards and a high range again today at a drawing of lots for offices. The proceeding is one which ought to be unknown quite well by and to serve to relieve some of the surface expression of a little expectancy on the part of those who are obliged to undergo the operation.

The lucky and the unlucky aspirants for this kind of a jump. They were John E. Eyre and Neal A. Welling, who at the last meeting proved to be the successful. Mr. Eyre was represented by Attorney Thomas Alexander and Mr. Welling by himself. Mr. Adams drew the lucky piece of paper, and the Eyre-Welling party were in all. Eyre.

The next case was that of the right to the office of superintendent of schools for Emery county to which the contestants were William H. Dalley and Henry Leigh. Adams also represented Dalley and again drew the lucky piece of paper from the hat. Mr. Leigh's interests were based after by Captain F. P. Armstrong.

Adams is counted as a sort of election he cannot resume to always wins whether he represents a Democrat or Republican. He has an unbroken record in the report.

BOTH CHARITY AND BUSINESS.

A Proposition Submitted to the Relief Committee by the Great Soap Company.

The following communication is self-explanatory:

Ex-Governor A. L. Thomas, City.
Chairman Grand Relief Committee:

Dear Sir—At a meeting held in the Assembly Hall to raise funds to help the poor we endeavored to do good, and we now desire, with the aid of our merchants and the charitably disposed public, to give further aid to fund. Our plan is one that will bring a good, substantial aid if we can get the general efforts of the general public, and in asking them to join with us they can do so in the knowledge that they have done it through a Beneficial Enterprise, and not but they have contributed a dividend to one another, in helping the poor, the other in helping humanity, both of which we hold all agree are worthy of our hearty support. Should this meet your approval, as it should, and be done with other institutions will they follow the example, and in a very short time we will have raised a good, substantial fund. We will say, before starting our plan, that without the combined efforts of the merchants and for general public to the months of November and December the amount we would have paid into this fund would have been very little. This should be enough to convince the skeptical, and that if a few firms will join in our plan of using this fund it should be kept in a good, healthy condition, and relief will be accomplished in the regular routine of business.

Our proposition is as follows: During the months of January, February and March we will give to any of this city Boards one of the gross sales of our soap, cup with during the above three months, and five per cent on every box of our Star Laundry soap, and five per cent on every box of our Star Laundry soap, and doing business in outside towns with on the first of each month, notify us of the amount of our goods that have they handled, and the money from whom purchased. As we need only to insure it will be necessary for us to have this information, as we are doubtful the amount our Salt Lake jobbers have shipped to outside towns during the month, and thereby saves of the amount consumed in Salt Lake City. A representative of each of the Salt Lake papers will be asked to be present on the first of each month to witness presence the sum out of the month's sales will be checked over.

Now, as the cordially disposed people join in making this fund as large as possible, and hence if all people who use soap will use Star Soap in the store and call for our goods during these three months, what will it amount, in cents and cents, to the fund? Believing, as we do, that this will prove a great help to unions from fund in a very liberal and effective way, we ask the public to assist us in their accordance by giving us their every support.

Commencing to do our part in the work, we are,

Truly yours,
[illegible]
