MINING, BUSINESS AND STOCKS

BUSINESS OF THE MINING EXCHANGE.

During the Month of September The Sales Aggregated a Little Over $30,000.

STAR CONSOLIDATED ACTIVE.

Stock Has Advanced Some This Week —So Has Lower Mammoth—Today's Quotations and Sales.

The week closed with the sale of 108,916 shares of stock on the floor of the Salt Lake Stock & Mining Exchange for which was paid the sum of $30,031.03. During the month 440,143 shares were transferred, the cash value of which was $119,717.08.

Star Consolidated and Lower Mammoth have both advanced on the strength om improved physical conditions. In the former mine developments made on the 300 level are of an encouraging character, while in the Lower Mammoth a steady improvement is noted by the management on the 1,500 level. Columbus Consolidated of Alta has been active and the losses sustained by the stock early in the week have been largely regained, for today 200 shares were sold at $2.10 a share. New York Bonanza has remained around 28 cents. There seems to be a growing opinion that an assessment will be called for before the close of next month. Victoria, Yankee Con., and Carisa have also been on the list of active stocks.

Today's closing quotations and sales were reported as follows:

STRIKE IN THE SUNRISE.

Find Made Last June Has Developed Into a Big Thing.

Some very good news comes down from Gold Mountain to the Richfield Reaper this week. One piece of information is that development work proves the strike made on the Surprise ground last June by J. W. Jopes to be a bigger thing than was first credited. The ledge now averages, in a tunnel only 30 feet long, 13 feet in width, panning free gold all the ledge.

The vein is apparently in place and has well defined walls, the hanging wall being birdseye porphyry and the foot wall being a quartzite porphyry. The vein is more or less decomposed quartz and easy to extract from the mine.

According to the small amount of development work done on this property to date it leads all other prospects in its merits of making a paying proposition in the future. No doubt this ledge matter could be treated with a mill very cheaply.

According to the best judgment of a number of mining men on the mountain this is a milling proposition to begin with. It is not yet determined what the Surprise company will do this fall and winter in the matter of developing the property. At present the usual force is going ahead pushing the tunnel on the vein.

SEPTEMBER DIVIDENDS.

A Total of $266,500 Distributed Among Shareholders During Month.

The September dividend record of Utah's mines shows that shareholders in eight companies have been the recipients of $266,500 in extra spending money.

The mines contributing to this distribution and the amounts are:

Daly-West, $108,000; Silver King, $100,000; Consolidated Mercur, $25,000; Grand Central, $12,500; Victoria, $10,000; Uncle Sam Consolidated, $5,000; Sacramento, $5,000; Utah (Fish Springs), $1,000.

GREATEST IN WORLD.

What Minister Dudley of Peru Says of Cerro de Pasco Mines.

Irving B. Dudley, the American minister to Peru, whostopped in Mexico City on his way from Lima to the United States, recently declared that the Cerro de Pasco Mining company of New York, which represents the Hearst-Haggin-McCune interests, has in Peru the greatest copper proposition in the world. Mr. Dudley is quoted as saying:

"The Cerro de Pasco Mining company has spent $12,000,000 gald and has not yet marketed a ton of ore. The money has been well spent and will bring enormous returns, for the mines of the company are undoubtedly the richest copper properties in the world. The money has been spent in opening the mines, in the erection of a smelting plant and in the construction of a railroad 120 miles long. The company proposes to market its ores in the United States, and when it begins production, which will be within the next year, it will become a most important factor in the copper world."

ACTIVITY IN TULE CANYON.

J. M. Blair Returns Greatly Enthused Over This Nevada District.

The Tule Canyon mining region in Esmeralda county, Nevada, has made a distinct hit with J. M. Blair, a brother of the late George E. Blair, who returned from a trip to that country a few days ago. He brought with him a small bottle filled with course gold which he washed out himself from three bucketsful of gravel taken from the Esmeralda placer ground in which his brother's estate owns a one-fifth interest.

The officers of the Esmeralda company are: W. H. Wells of Philadelphia, president; C. T. Austin of Denver, vice president and Frand H. Lathrap of Goldfield, secretary.

The property is located 35 miles west of Goldfield and situated between the placer claims recently purchased by the John Hays Hammond-Guggenheim syndicate. Mr. Blair believes it has wonderful possibilities, in fact, he expressed himself to a "News" representative during the day as being dumbfounded at the showing there. In addition to the placer claims, the Esmeralda company owns a quartz claim with a ledge which crops for a distance of 2,000 feet. On this claim a shaft has been put down 80 feet and is to be continued to 200 feet.

The parties connected with the Esmeralda are also he principal sharseholders in the Red Dog Mining company, which owns adjoining property.

In speaking of Goldfield, Mr. Blair says it it truely a wonderful camp. People who have been there, but who went out to escape the hot weather, are returning; others are coming in with them and the outlook for a prosperous winter are exceedingly good.

Business men and brokers, Mr. Blair says, are taking steps to protect the public against the floatation of "wild cat" mining schemes, which have found the camp a prolific field for operation in the past.

In Tule canyon a great deal of activity is in evidence and several companies have ordered new gasoline hoisting engines and equipment preparatory to carrying development forward on an extensive scale.

The Esmeralda company has 160 acres of timber land on its property.

Star Con. Development.

According to advices received from Supt. Turner of the Star Consolidated mine in Tintic last night, he is looking for an important change to take place on the 300 level of that property, where development is in progress. It was reported on the streets during the day that the superintendent had already cut a 5-foot vein of ore there which will average all of $25 to the ton.

Work in the shaft is progressing, it now being down at least 800 feet.

At the Lower Mammoth.

An arrival from Tintic during the day gave out the information that developments being carried on on the 1,500 level of the Lower Mammoth mine are of a character which indicates that the ore body encountered there will prove to be an important asset of the company. It is understood that the management will forward a car of ore to market in the near future, possibly next week, from this portion of the mine.

Tonopah Dividend.

A message from the east brings the information that the Tonopah Mining company has posted a dividend of 25 cents a share or $250,000, which is payable on Oct. 21 on all stock of record of Oct. 10.

FROM THE BUSY CAMP OF TINTIC.

B. S. Williams Has Been Appointed Superintendent of the Eagle and Blue Bell Mine.

THE FLYING DUTCHMAN ORE.

Sample Brought in from Erickson District Creates Attention in Eureka —The Week's Shipments.

Special Correspondence.

Eureka, Utah, Sept. 29.—B. S. Williams has been appointed superintendent of the Eagle & Blue Bell mine, and Mr. James Clark, who has been acting in that capacity since the resignation of James Creighton, has been appointed foreman of the mine.

Albert Ekker is in the city from the Erickson district and is showing some fine samples of copper ore taken from the incline shaft on the 100 foot level of the Flying Dutchman property. The ore is of a good shipping quality and a large body of the metal has been uncovered.

Wm. McCullough, Sr., who has done the hauling for the large mines of the east end for several years, has sold out to A. E. McMullen. The ore bins at the Uncle Sam mine are filled to over-flowing with ore and the other mines are nearly in the same condition, as Mr. McCullough, who has taken a contract on a railroad, took his teams with him and Mr. McMullen will not be able to begin hauling until tomorrow.

The jiggs at the May Day mine are now producing about three car loads of concentrates per month. The jiggs are operated under a lease, the mines furnishing the ore, water, etc., necessary to operate them. The jiggs will run for a cougle of months longer.

The ore shipments for the past week from the mines of Tintic district amounted to 127 carloads produced from the following mines:

Gemini, 11; Centennial-Eureka, 62; Bullion-Beck, 6; Yankee Con., 2; Eureka Hill (lease), 1; La Clede, 1; Eagle & Blue Bell, 6; Swansea, 8; South Swansea, 1; Victoria, 1; Mammoth, 17; Grand Central, 5; Carisa, 4; Ajax, 2.

WILL RUN TUNNEL.

Snow-Darst Company Preparing to Work In Provo Canyon.

Special Correspondence.

Provo, Sept. 30.—Dr. C. B. Snyder, who is the local representative of the Snow-Darst company, is advertising for bids to drive a 300-foot tunnel on the company's holdings east of Provo. The tunnel will be driven near Provo canyon and is intended to open up one of the deposits of broken anthracite coal from which the company intends to generate gas to be supplied to Salt Lake and other towns of the state.

A warranty deed from Peter M. Peterson and Louisa Peterson of Salubria, Idaho, to the Beck Tunnel Consolidated Mining company, has been filed with the county recorded. The deed conveys for a consideration of $1,500, 124.22 acres of land in township 10 south, range 2 west, Salt Lake meridian, except the following mining property within the boundaries o fthe land conveyed: The Pythagoras mining claim, the Smuggler mining claim, the Anaconda mining claim, the Ryan, the Paxman and the Paxman No. 2 millsite, and the right of way of the Tintic Range Railway company.

CONCENTRATES.

Clarence K. McCornick is en route to New York.

Joseph Dederich departed for Newhouse last night.

Broker E. L. Sheets returned to San Francisco this afternoon.

General Manager E. W. Clark of the Ophir Hill mine of Ophir is in the city.

E. W. Griffith will return to the Bullfrog, Nevada, country, tomorrow morning.

The annual meeting of Horn Silver shareholders is scheduled for next Monday.

Manager Henry M. Adkinson of the New England mine at Bingham is in from camp for a few hours.

The board of directors of the West Quincy mine at Park City made an inspection of that property yesterday.

Imer Pett, chief clerk in the offices of the Bingham Con., has gone to the Bear river country to try his hand at duck shooting.

Broker H. W. Descher made his appearance in the pit yesterday afternoon after an absence of several months in Europe where he visited the scenes of his babyhood.

The ore and bullion settlements reported by McCornick & Co. yesterday were as follows: Crue ore and concentrate, $34,000; base bullion, $44,700; gold bullion, $20,000.

The directors of the Golden Reef Mining company met in Elsinore a few days ago and levied an assessment of a half cent a share. The property is located near Marysvale.

Captain Henry Stern of the Tintic Mining & Development company, has advised local officials of the company that he has awarded contracts for five McDougall roasters for the Yampa smelter at Bingham.

W. H. Clark, general manager of the Gibraltar Mines Syndicate, A. H. Mayne and Mr. Wescottl confidential man for former United States Senator Kearns of Utah, left this morning for the Bullfrog district. The party will inspect the great Gibraltar strike and the other famous Bullfrog properties. Mr. Wescott will go through by way of Las Vegas to Salt Lake City.—Goldfield Sun.

While Supt. Ole Larsen and M. F. Murray were at the Log Cabin and Gold Development properties last week it was decided to put a compressor at the mouth of the lower tunnel on the Gold Development ground and push this tunnel to the mineral region under the ridge of the mountain. The work in the upper tunnel on this ground has responded handsomely and a fine showing is now made which justifies the resumption of work in the other tunnel at lower depth.—Richfield Reaper.

The Trapper's Pride mine furnishes the latest sensation in mining circles in Gold Mountain. The Richfield Reaper has it from a reliable source that a new strike of good gold ore has just been made in this property. The vein at the point of latest development is over 10 feet wide, of gray quartz streaked with the blue cast ore which carries the values and is the characteristic ore of the mountain. Free gold can be seen all through this blue stain with the naked eye and it shows up with panning to be a milling proposition.

BUSINESS NOTES.

Many of the stocks in the local list are now quoted ex-dividend, but the usual drop in price after dividends has been a very slight one, and the quest for favorites continues as eagerly as ever. The largest transactions during the week have been in Idaho Sugar, in which large blocks have changed hands at prices ranging from $13.80 to $13.90. Sanpete & Sevier and Western Idaho are also in strong demand; the quotations below include stock and options. Amalgamated common and Lewiston fell off slightly during the week. Z. C. M. I. is quoted $168 ex-dividend.

An item of interest to stockholders is found in the advance of Consolidated Wagon Common, to $100.00 at which figure a block changed ownership today. The preferred is equally strong at $107.00. Utah common has also strengthened and deals have taken place all the way from $6.10 to $6.40.

TRADING IN STOCKS WAS VERY DULL

At Opening Prices Yielded, Then Came a Rally but Advance Soon Ceased.

BANK STATEMENT A SURPRISE.

Caused Prices to Rebound—Money on Call Nominal—Closing Dull, Steady.

New York, Sept. 30.—Dull trading and very small price changes made the opening dealings in the stock market thoroughly uninteresting. Gains of a point in Canadian Pacific and Railway Steel Spring were the only notable changes.

Yielding of prices was checked but there was little encouragement offered to bid up prices, and after the list rallied to lost night, the general advance ceased. Quite a handful of specialties moved wide enough to attract atention, and just before 11 o'clock the railroad equipment and the Reading stocks were bought heavily. Reading first preferred rose 3¾ and Colorado Fuel preferred 2.

The industrials continued to advance but the railroad list was stationary before the appearance of the bank statement. All items were a surprise and prices rebounded, but only a fraction for railroad stocks. Amongst the industrials Consolidated Gas rose 3½, Linseed 1, the preferred 2¼, Republic Steel preferred, Paper and Pullman 2, and U. S. Rubber preferred, Tennessee Coal, Cotton Oil, Virginia-Carolina Chemical and Paper preferred 1. St. Louis & San Francisco second preferred rose 3. Reading first preferred 4½ and Atlantic Coast Line, Northwestern and Northern Pacific 1. The demand was not fully sustained and the closing was rather dull and barely steady.

Money on call nominal; no loans. Time loans firm; 60 and 90 days and six months 4½ per cent.

Prime mercantile paper, 4½@5 per cent.

Sterling exchange steady with actual busines in bankers' bills at 4.85.25@4.85.30 for demand and at 4.82.30@4.82.35 for 60-day bills.

Posted rates, 4.83@4.83½ and 4.86@4.86½.

Commercial bills, 4.81¾@4.82.

Bar silver, 60½.

Mexican dollars, 47.

PRODUCE.

CHICAGO.

Chicago, Sept. 30.—The wheat market here was subjected to general selling pressure today and as a result the feeling was extremely weak. The principal factor in the situation was the continued excellent weather in the northwest for the movement of the new crop. Lower prices for wheat at Liverpool further aided the bears. December opened ¼ to ⅝ lower at 84½ to 84⅝, sold off to 83¼@83⅜ and closed weak with December off 1⅜ at 83¼.

Minneapolis, Duluth and Chicago reported receipts of 1,135 cars against 1,100 cars a year ago.

Weakness of wheat had a depressing effect on the corn market. December opened unchanged to ⅛ lower at 43⅞ to 44, sold off to 43⅝@43¾ and closed ¼ lower at 43⅝.

Oats were weak, December opened a shade lower at 28⅛ and eased off to 28.

Provisions were easier, but very quiet. January pork opened 2½ off at 12.40; lard and ribs also were down 2½, at 6.80 and 6.30 respectively.

Cash: Wheat—No. 2, red, 84¼@85¼; No. 3, red, 83¼@84; No. 2, hard winter, 82¼@87; No. 3, hard winter, 81¾@85; No. 1, northern spring, 88@89; No. 2, northern spring, 85@87; No. 3, spring, 80@86.
