TELEGRAPHIC.

IT WOULD NOT WORK.

The Great Northern Laid a Plan to Break the Strike.

THE FIREMEN WERE STUBBORN.

And the Engineers Declined to Move the Trains with "Scab" Firemen.

SEATTLE, Wash., April 28.—It has transpired that the Great Northern had a well laid plan to break the strike on the end of the line yesterday, but it was foiled by a closing in the ranks of the strikers. The incident took place when the appeals to the loyalty of engine and trainmen to their brotherhood which came from the East, being promised recognition as brotherhood men by the company, their solicitations for the strike began to cool and they announced themselves as ready to go to work. A conference was the next afternoon held, at which the engineers, conductors and trainmen were promised that if they would go to work, President Hill would make concessions. The engineers and trainmen promised to accept provided that the firemen who were not represented at the meeting would accede. It was arranged that the train should go out of the regular depot this morning. The firemen, however, refused at a caucus meeting to accept the conditions and the engineers declined to go out with scab firemen. As the firemen were adrift on this question, time elapsed and the break in the lines of the strikers.

All operators on the line have received notice from Chairman Jones of the order of Railway Telegraphers to return to their posts as the strike was not sanctioned by the order. The telegraphers last night replied to Chairman Jones Dispatch saying they sympathized with the American Railway union and would stay with the union.

A GENERAL TIE UP.

ST. PAUL, Minn., April 28.—A general tie up is one of the immediate prospects of the strike. The Great Northern, the Union Depot company, the Milwaukee & Great Western, one-half of the freight business of St. Paul. The great Northern expects soon to have a search in the yards and the Omaha & Burlington freight trains are stalled in the yards here. The Northern Pacific is connecting with the Minneapolis & St. Louis, which is now due between St. Paul and Minneapolis, and should not be put to serious inconvenience. With the exception of those roads the Milwaukee & Great Western, the prospect of moving freight is a serious one.

THE MINERS' STRIKE.

Men Workers to Throw Aside Their Tools.

RICHMOND, Mo., April 28.—The miners of Ray and Lafayette counties have agreed to call out all the miners except those who furnish coal for the electric light plant and the waterworks.

WILL NOT STARVE.

BIG HILL, Mo., April 28.—The coal miners of this district held a meeting last night and decided not to strike.

DISASTROUS TO BUSINESS.

CLEVELAND, Ohio, April 28.—If the railroad coal strike continues a week longer the results will be disastrous to the business of there. Will be no fuel for manufacturers. A few days will exhaust the supply of fuel on the docks here and the feeling doubtless on the lower lakes are almost equally bare of coal. Buffalo is in even worse condition. The supply at Chicago and Milwaukee is not over for longer than ten days. If matters continue were good the situation would be considered critical by vessel owners.

REFUSE $2 A DAY.

LEWISTON, Ill., April 28.—Four hundred miners in this county are still on strike, but make no demonstration. They refuse $1.50 to $2 per day, though many were asked at county expense during the winter.

CANNOT AFFORD TO STRIKE.

COLCHESTER, Ill., April 28.—The miners here quit work for a little while, but after a thorough discussion of the situation resolved not to join the great miners' strike, deciding that the attempt would be futile. Committees were appointed to canvass the mining district and ascertain how many strikers would join an organization for mutual protection.

THE ARMY MOVEMENT.

A California Regiment Commanded by a Woman.

OAKLAND, Cal., April 27.—The Oakland and San Francisco detachments, second regiment, industrial army, left on the steamer Alvira this afternoon for a trip up the Sacramento river.

The second regiment of industrials which left Oakland by steamer for Sacramento this afternoon, is composed of about 300 men commanded by Mrs. Anna E. Smith. They will not reach Sacramento before morning, and will stop at Newtown, just outside of Sacramento.

NO AID IN SACRAMENTO.

SACRAMENTO, April 27.—Word has been received here that 800 to 1,000 men left Oakland for this city on the steamer Alvira, chartered by the Oakland citizens.

The city officials held a meeting to adopt a method of the situation. It was reported to the meeting that Coxey and Baker had been fully warned not to come here, but declared that he has men enough to force his way into the city; that the rally at company and state and valuable interests here, and it would be an object to them to have his army carried East.

The Mayor, chief of police and the sheriff will meet the invaders on their arrival, and fully tell them they will get no aid or comfort here, and that the first information of the law will be strictly punished. The probability is that if the army attempts to take possession of the Agricultural Park or any other state property, it will be confronted by the militia, as the local citizens are thinking of going into camp for a few days in the morning.

THEY WERE FOILED.

TROTTDALE, Ill., April 27.—The industrial army here has been very quiet all day on account of the rain. About 5 o'clock p.m. they were notified by telephone that a freight train had left, so as they made preparations to leave, and when the extra freight arrived the army was all on the track ready to take it.

United States Marshal Grady read an order from the court to the army and asked them if they intended to interfere with trains, and they answered yes. The engineer cut off his engine and pulled out for Brookfield, fifteen miles distant, leaving the army in possession of the train. The army is still holding the train, but were much surprised when it was set on them that they had been foiled.

GALLY'S NEW FUEL SAVER.

STUART, Ia., April 27.—General Kelly announced tonight that he will make a formal return of forty-one miles to Des Moines, and that he intends to be there Sunday. The industrials presented a solid front when they marched into Stuart at 6 o'clock tonight, but not more than 300 men were in the column, the remaining 800 coming straggling in for hours on foot, on wagons, on the railroad tracks and on the wagon road. The men were well fed at Stuart, and although tired out, are in good spirits.

THEY DO OVER THE CAPITAL GROUNDS.

WASHINGTON, April 27.—Chief of Police Moore said today the Coxey army can parade down Pennsylvania avenue as long as its component parts conduct themselves in an orderly manner. Fuel is one of the rights of an organization, he says, and the police do not intend to interfere. They cannot allow, however, marches into the Capitol grounds.

Nineteen men who have drifted into Washington from other cities were organized into a commune at headquarters by Citizen Rudolphus and sent out to meet the army. After sixteen to twelve miles, three of them telegraph operators, contributions are coming in with discouraging regularity.

DEMANDS LABOR CONVENTION.

BALTIMORE, Md., April 27.—The journey of the army today, though over good roads, was made more than usually weary because of the succession of high hills and deep valleys. There are thousands of sandwiches in the army, and there are gratuities to may go in place before Rockville is reached.

There have been some happenings at Rockville today. "Uncle Joe Smith" is now here with about twenty-five vehicles, with his Coxey's radio such on the hill. The Unknown has offered white badges to his men that "Friendship, Cooperation and Peace, The Unknown Contingent of the Commonweal Army, We have all Lives that bring Peace on Earth and Good Will to Man."

This evening one of the Unknown's badges was shown to Coxey here. He read it, smiled and said:

"There is nothing like competition."

BOMB THROWER'S CAREER.

Outline of the Biography of a Fiend in Human Form.

The Cafe Terminus Outrage and the Infernal Machine Used for the Explosion.

PARIS, April 27.—Emile Henri, the anarchist who on February 12, threw a bomb into Cafe Terminus was born in France, and in company with his father sought refuge in Spain after the events of 1871. He was well educated, but became affiliated with the anarchists, and on May 11, 1892, following the first anarchist attempts, he was arrested, but subsequently released. His employer discharged him on account of his taking part in the anarchist propaganda and after his departure documents relating to the manufacture of explosives, etc., were found in his desk.

On November 25, 1892, an object was found in the offices of the Carmaux mining company, which appeared like a cast iron sausage, the ends being fastened on securely. It was given into the hands of the commissary of police, and as it was being carried away, exploded, killing two policemen and wrecking the room.

On December 30, 1893, Henri hired a room in the Villa Faiers, Rue des Lorraines, under the name of Louis Douin. There he procured the necessary chemicals to manufacture an explosive bomb and also purchased a smoke similar to the one which had caused the death of the three men in the Rue des Bons Enfants. In this lair he placed the explosives and surrounded them by 150 bullets.

On February 12th of the present year Henri left his room, after having notified the porter that he would not return for several days, and went away, carrying his bomb, the Vaillant, wrapped in the coil of his trousers and concealed by his overcoat. Henri walked with a revolver, the bullets of which he had previously chipped, to assure that they might do the most harm—wounds inflicted by chipped bullets being considered almost certainly fatal. He also carried a dagger with a poisoned point.

Armed in this manner, Henri went towards the Avenue de Clichy, and glanced into the restaurant Bignon, and then went to the Cafe Am Ros. Not finding there place as full of wealthy-looking people as he expected, he went to one of the Cafe Terminus, but even that establishment was not full enough of his prospective victims, and as he continued on his way until he arrived at the Cafe Terminus, situated towards the point of the union.

Henri entered and took a seat at a small table near the door, paid for a glass of beer, drank it, called for a second glass and then for a cigar. He was waiting for the crowd to become large.

At 9 o'clock Henri took the lighted cigar from his mouth and applied it to the fuse attached to the bomb which he had concealed upon his person. He then arose, walked toward the door, and, suddenly turning around, threw the bomb in the direction of the orchestra. The bomb struck the electric light chandelier and fell to the ground, throwing out a thick black smoke. A few seconds later the bomb exploded with a loud detonation, leaving a deep hole in the flooring and strewing several wounding a various people. Henri shot a waiter named Mathieu, and a policeman named Poisot before he was overcome. When the police searched his room they found five pounds of fulminating material, but none contained other his crime showing that he had accomplices.

THE UNION PACIFIC.

Senator Peffer Introduces a Bill Relative to It.

WASHINGTON, April 27.—Governor Hoadley appeared before the committee on Union Pacific railroad yesterday afternoon. He said the reasons why the road were doing a total liquidation. The bill proposed by Oliver would satisfy the government. He said it had been touched by adding the better features of all the bills proposed on both sides.

In the senate today the committee refused to report favorably the resolution introduced in the House by representative Hand, inquiring of the attorney general as to the liability of the stockholders of the Union Pacific and Central Pacific companies for moneys loaned by the government to aid to build these roads.

Senator Peffer introduced a bill to provide for a collection of the revenue from the Union Pacific railway company. The bill authorizes the sale of the road and provides that in case no bid is made equal to the amount of indebtedness the government shall take the property and operate the road.

RATES FOR HOME SEEKERS.

CHICAGO, April 27.—The Western Passenger associations have put in one other day deliberating over the proposition to extend to all the territory of the association the rates for home-seeker excursions recently accepted by the Burlington. The idea was that single and one fare tickets for the round trip will be on sale for excursions on May 8th and 29th to all parts of the association territory. The time limits on the tickets will be thirty days.

The Union Pacific is trying to get out of the trouble it has raised with the Western Passenger association lines over emigrant rates. A representative of that line was here today in conference with Chairman Caldwell, but the meeting came to the end the day that nothing was accomplished.

Hanged for Murder.

FAYETTEVILLE, Ark., April 27.—Samuel Vaughn was hanged today for the murder of John Gage in 1891. He had to be carried to the gallows. The rope had worn out and was renewed.

Burned to Death.

BUFFALO, N. Y., April 27.—A fire in Gowanda, N. Y., Cattaraugus county, a village of 3,000 people, last night destroyed the hotel and several dwellings, all of wood. The fire broke at the hotel parlorks in the house.

California Postmasters.

WASHINGTON, April 27.—The President has nominated the following postmasters:

Fletcher A. Cotton, Eureka, Cal.; John G. Miller, Bakersfield, Cal.

G. W. Greene stabs to the Eddy, N. M. Argus, that while he irrigates 6,000 acres of land in various parts of the valley, the average cost of distribution of the water for each of these irrigations is but 25 cents per acre. When the land is properly graded he says the cost is about 10 cents per acre.

WOMEN

ARE OFTEN TREATED FOR THE WRONG DISEASE.

Drs. Shores & Shores CURE Their Patients—$5 a Month For All Diseases—Medicines Free.

Many have consulted us for their family physicians, suffering, as they imagine, one from dyspepsia, one from heart disease, another from liver and kidney trouble, another from nervous exhaustion; the symptoms are so present alike to them, and their very going, probably don't care, doctor gives them some little pill or bottle of medicine, tells them to go home and call again in a week. The patient accompanied goes no better, but worse, cursed from the delay and wrong treatment. Drs. Shores & Shores give a thorough, scientific and systematic course of treatment; the patient comes to the office twice a week, and the doctors not carefully watch the progress of the patient; they do not give any medicine that comes to hand, but carefully prepare each medicine especially for the case.

Mrs. Crowther, who resides at 108 Ninth South and Third West streets, says:—

"I cannot begin to describe my symptoms, for I had so many. For five years I was a sufferer. I had terrible pains in my back and in the pit of my stomach; they were so severe that at night I could not sleep for more than two hours. My head would ache and a constant hawking and spitting. I was so deaf I could not hear an ordinary conversation. I had a weakness caught, no appetite. I was very weak and did not have strength enough to do my housework. I saw in book, and my friends began to imagine I would not live long.

"In this condition I was advised to go to Drs. Shores & Shores, as they were the only specialists who gave evidence of great skill, and I am very glad I did. I have taken from other their treatment nearly four days, and I can say I have no more pains. I feel well and believe it a duty to other sufferers to make my remarkable case public."

Mrs. Crowther resides at 108 Ninth South and Third West street. Go and see her; she will tell you how she was made well and happy.

$5 A MONTH, NO MATTER WHAT YOUR TROUBLE MAY BE, AND MEDICINES FURNISHED FREE.

IT PAYS FOR YOUR TREATMENT, EXAMINATION AND TREATMENT IN THE OFFICE AND ALL MEDICINE REQUIRED IS THE CURE OF YOUR TROUBLE.

IF YOU CANNOT COME TO SALT LAKE

Write for the most treatment. Some of our physicians by personal energy accomplish the most department and by a system of close correspondence continue those out of the city quite as well as those who come to the office. Send for symptom blank. Medicines shipped carefully. Try this treatment.
