WATCHES JEWELRY

ABOUT three months ago all the watchmakers in this city agreed and subscribed to certain prices for work in their line, for the purpose of obtaining uniform and Cheap Rates. This agreement, however, has already been broken by several watchmakers, who are undersiling their colleagues and thereby proving themselves untrue to their written word. In consequence of which, the undersigned has withdrawn his name from said agreement and established his own prices, cheaper than any other watchmaker's in Salt Lake City.

CLEANING WATCHES $1.50 A PIECE

And everything else in the line of

WATCHES and JEWELRY

Reduced in the Same Proportion.

Articles and Workmanship Guaranteed to Give Perfect Satisfaction.

CARL C. ABRUSSEN,

Per J. NEILSEN Manager.

Salt Lake City, Sept 12 dim

For You, Madam,

Whose complexion betrays some humiliating imperfection, whose mirror tells you that you are Tanned, Sallow and disfigured in countenance, or have Eruptions, Redness, Roughness or unwholesome tints of complexion, we say use Hagan's Magnolia Balm.

It is a delicate, harmless and delightful article, producing the most natural and entrancing tints, the artificiality of which no observer can detect, and which soon becomes permanent if the Magnolia Balm is judiciously used.

EASTERN.

NEWS FROM THE METROPOLIS.

Improvement.

NEW YORK, 6.—The *Times* says: A careful review of our real estate market shows an increase in building this year over the corresponding eight months of last year of 322, and an increase in the estimated cost of $5,644,312. All things indicate a genuine and considerable improvement in the demand for real estate, but not sufficient to warrant speculation. It is a good sign every way that property which bring proportionately the highest price and sells most readily is that adapted to first class dwellings or that on which substantial buildings are actually going up. The Vanderbilts are erecting three residences on Fifth Avenue, to cost $1,200,000.

Murder Trial.

The Hayden-Stannard murder comes up in court again to-morrow and promises to absorb public interest. The counsel for the State are Judge Lynde Harrison, T. M. Waller, State attorney for New London, who prosecuted the Cobb-Bishop case: for the defense, Geo. H. Watrous, president of the New York, New Haven and Hartford Co.; F. Jones, a prominent Hartford criminal lawyer; L. M. Hubbard, of Wellingford. Considerable difficulty is expected in obtaining a jury, as nearly every man in Connecticut is believed to have formed an opinion.

Newspaper Complaints.

The *Herald* says: About one in ten of the population who visited Central Park yesterday, beheld instead of the beautiful garden for which so much money has been paid, a plot of ground so shamefully neglected that to put it in proper order again, will cost considerably more than the sum nominally saved by reducing the appropriation.

The same paper says: The way our Custom House is managed is an insult to the American character. Among the recent instances, one of the most odious, is the detention of the Epsom Cup won by Pierre Lorillard's horse Parole.

The Weather.

The weather continues almost unprecedentedly delightful for this season. The thermometer at midnight indicated seventy, and the Signal Service predictions show that in all probability we shall have several days more of continuous summer weather. The thermometer has not fallen below fifty but once this season. Although hotels and bathing houses at the sea side are officially declared closed, many thousand pleasure seekers yet visit Coney Island every day.

Political and Financial.

The last of the inspectors of election was appointed to-night. Tammany's interest foots up 1,356 of them, just one quarter of the whole number. August Schell was duly sworn in, but Tilden was excused, having sent a telegram making known his intentions of going into the country. To-morrow is the first day of registry for the city, with prospects of a heavy list.

It is reported on the street and by many believed, that Vanderbilt has had transferred to his name 150,000 shares of old stock of the Erie. The *Advertiser* affirms that positively the London committee will soon be represented here by Sir Edward Watkin, chairman, to hand over control of the property in the interest of the bond and preferred stock holders to Vanderbilt.

Skipped the Track.

Cromwell, representing himself as a Californian, now engaged in the O'Leary belt contest, says he was sick with malarial fever on Saturday last, but is all right again. He says he is a California physician and worth $100,000; was in the service of the Hudson Bay Company, and claims to have walked twenty-one days in succession.

Cromwell, the pretended California Indian scout, physician and pedestrian, was the first to drop out of the walking match.

"Gummy" Blair.

The *World's* Washington special says: Mongomery Blair, who is a strong Tilden man, declares if Tilden is not nominated by the Democratic Convention next year, he will play over again the part he played in 1848 and defeat the party. The *World* calls on Tilden to squelch "that ancient maker of mischief," Blair.

Sprague's Insanity.

The late legal movements against Sprague caused the latter to say to his friends that his enemies mean to ruin him and send him to the insane asylum. The report of Sprague's insanity is attributed here to Conkling's personal friends.

The Walking Mania.

NEW YORK, 6.—The great six days' walk for the O'Leary belt bids fair to cause almost as much excitement as the recent contest for the Astley belt. The start was advertised to take place at 1 o'clock this morning. Thirty-five men will start.

At midnight, the audience in the garden had increased to over 6,000. The crowd was rather a rough one, and the band played a number of lively airs in an endeavor to keep them quiet. Captain Williams was on hand with a large force of officers, and he had his hands full in keeping order. As the hour of 1 o'clock approached, the excitement became intense, and the garden was thronged. As the pedestrians left their tents, cheering began and the vast building shook with the applause. The track was filled with 35 men, who hope to win the belt, dressed in all colors. The men were ranged in rows of five deep. Each of the pedestrians bores a large number on his chest by which his identity was distinguished. There were fully 9,000 persons in the garden at the start. "Blower Brown" was warmly greeted on appearing. Then the men shook hands with each other before starting and took positions in order of their numbers. A start was effected at 1 o'clock sharp. The sight was a fine one. Some ran swiftly, others slowly, while some walked. The majority, however, were running. "Blower Brown" settled down into a quick run. The first mile was finished in 5.50 by Fitzgerald, who was two laps ahead of all others.

School Quarrel.

NEW BRITAIN, Conn., 3.—The school board, sometime since, allowed the Catholics to conduct the town school, on the pledge of the teaching being non-sectarian. The pledge was violated and the Protestant children withdrawn, when the school became distinctively Catholic. The priest, Carmody, now seeks to have a school erected on a convent plan and placed on the same footing, and has actually obtained concession from the school board. Great indignation followed, and as the election for members of the board takes place next Monday, there promises to be a sharp and bitter contest.

Thirsting For Blood.

JANESVILLE, Wis., 6.—At two o'clock this morning a mob of about 500 men, headed by a large party from Fulton, where Baumgarten recently butchered little Sandy White, assembled about the jail here, and demanded that the murderer be delivered to them. The sheriff had, however, a few hours notice of their coming, and had hurried Baumgarten away. The mob were satisfied after making a thorough search of the jail that he was not in the place, and at about three o'clock they returned to their homes. It is not known where Baumgarten was taken, but probably to another county.

Gold Abundant.

WASHINGTON, 6.—The sub-treasuries are all supplied with gold, and are paying it out freely on current obligations, and the Treasurer's checks for called bonds are being paid by the assistant treasurer in New York in gold through the Clearing House.

A $5,000,000 Utah Mine.

CHICAGO, 6.—The Horn Silver mine, of Frisco, in Southern Utah, was sold here this morning, to eastern purchasers for $5,000,000, the par value of the stock being $10,000,000. The net earnings are reported to be over $4,000 per day.

Attempted Suicide.

CINCINNATI, 5.—A distressing and probably fatal attempt at suicide occurred this morning at a boarding house. No. 311 West 4th Street. Miss Lillie George, a pupil of the Cincinnati College of Music, 18 years of age, whose home is at Bonaparte, Iowa, was engaged to be married to Mr. Fred M. Feryman. Two o'clock yesterday morning he was taken with congestive chills and died at 10 last night. She attended him faithfully during his illness, and before he died, said "Good bye, George, we will not be separated long." This forenoon she placed the muzzle of a pistol over her left breast and fired. Although not dead, there is very little hope of her recovery.

The Missing Balloonists.

The *Times Journal* has a special from Girard, Ills., from its reporter who left last night with John Wise, Jr. to explore Macoupin Creek bottoms for the lost balloonists, which says: They have found no trace of the balloon or its occupants in that section, and that they do not believe it came down south of Springfield. It was seen Sunday night by farmers east of Girard, very high in the air, and circulars were also found near Illiopale, on the Wabash Railroad, between Springfield and Decatur. This explodes the Macoupin Bottom theory, but there are little grounds to base another upon, and as much mystery surrounds the fate of the aeronauts now as at any previous time.

THE INDIAN WAR

The Deceased Officer—Movements of the Troops.

CHICAGO, 6.—The *Times* has full correspondence touching the expedition of Major Thornburgh. Assistant-Adjutant-General Williams at Fort Omaha, has compiled it for the purpose of answering certain adverse newspaper criticism. It shows that Thornburgh was selected as the man most fit for the task, by order of the General of the Army. It calls attention to the fact shown by correspondence, that Agent Meeker and the Governor of Colorado considered one hundred men sufficient to enforce order among the Indians; also that Thornburgh himself regarded the three companies of cavalry and the one of infantry, in all two hundred men, which he took, amply sufficient for the expedition. Thornburgh was cautioned by telegraph, after he was well on his way, to advance with prudence, and if he had reason to believe his force insufficient, to communicate with the headquarters and call for more, which he would receive. He was advised that the matter was left entirely to his discretion.

On September 28th, Thornburgh sent this, his last telegram from the Camp on Bear Creek, Colorado: "Have met some of the Ute chiefs here. They seem friendly and promise to go with me to the agency. They say the Utes do not understand why we came here; have tried to explain satisfactorily; do not now anticipate trouble."

The conclusion is that Thornburgh was one of the most prudent and discreet of officers, and was thrown off his guard by the savages, and that blame can neither be imputed to him or to the Department.

Chicago, 6—The only news at military headquarters is the following dispatch:

Rawlins, Oct. 6.

Nothing has yet been heard from Colonel Merritt's command. Am expecting a courier at any moment. Information from citizen sources, which seems perfectly reliable, states that Price's command was seen three days since. Up to that date he had seen no Indians; also that Captain Dodge's wagon train, escorted by a small detachment of colored soldiers, reached Price's command; but the citizens did not learn where Dodge's company was.

GEORGE CROOK,
Brigadier General.

Cheyenne, 6.—Colonel Brackett, with the Third Cavalry, leaves Fort Laramie to-morrow, to take command of his regiment in the field. He will be joined here by Major Evans and Carlton and proceed to the front.

New York, 6.—The *Times* says: It is asserted that the $150,000 due the Utes for the San Juan mining region has not been paid. If so, the troubles now arisen may be traced to the bad faith of the government.

Rawlins, Wyo., 6, 10.45 p.m.—No courier has yet arrived. General Crook arrived here this morning and returned to Fort Steele this evening. At 10.30 this morning two companies of the Third Cavalry under Captain Henry, and six companies of the Seventh Infantry under Colonel Gilbert, left here for the Ute country. Three companies of the Fifth Cavalry and three companies of the Third Cavalry and two companies of the Fourth Infantry will arrive from Fort McKinney to-night or to-morrow.

FOREIGN.

GREAT BRITAIN.

Condensed Foreign News.

LONDON, 6. — The *Standard's* correspondent at Simla, under date of the 5th of October, says: The report that the garrison of Shutagarda was entirely cut off from Ali Kebyle and Kushi is false. Gen. Roberts' force is detained to day by difficulties in procuring transportation, but will arrive at Cabul to-morrow.

Reports are current that the Afghan artillery did not join the mutineers, but at present protect the Ameer's property and family. They, however, now threaten to sack the city and disperse unless the Ameer returns.

The *Times'* Simla dispatch says: Orders have been issued to shoot marauders in Afghanistan wherever seen.

Reports are continually arriving from Mandalay of barbarities being committed on persons suspected of looking to the British for protection.

The King of Burmah has not withdrawn his claim to the Eastern Karrenne country. In consequence of the rains, it is impossible to ascertain whether he has taken any steps to enforce his claims. If he has occupied the territory, forces will doubtless be sent in the cold season to expel his troops, but it is unlikely any further measures will be taken against him until he gives fresh provocation.

A large fire is raging in Holywell Street, Strand. The fire broke out at No. 49, occupied by John Carrigan, hatter, which, with No. 50, occupied by John B. Lennox, printer, and other shops on the opposite side of the street, are already gutted. The entire street is in danger of destruction.

A cabinet council has been summoned for to-day. The *News* thinks it is hardly likely this is done merely to decide upon the term of further formal prorogation of Parliament. It is more likely that the cabinet will to-day decide whether it is desirable to call Parliament together before Christmas.

The *Standard* states semi-officially that in consequence of the increasing gravity of the situation at Mandalay and the evident danger to the British interests in India, the Indian office has requested the admiralty to station sufficient naval force at Rangoon for their protection.

The Russian press makes a fresh burst of hostility against England and Germany. The St. Petersburg *Nuevo Vremyra* says: Sooner or later a war of life or death with England is inevitable. The only question now to be considered is which is the most available route to Hindostan.

Parole has been supported for more money than any other horse in the Czarewitch stakes. Jockeys who have ridden him think he cannot stay on the course over two miles and a quarter. His trainer and owner are confident of winning.

The Duke of Beaufort, proprietor of a large estate in England and Ireland, says: It is impossible to compete with American productions. He advises that British farmers should devote their attention to raising cattle.

The iron ship builders and boiler makers association of Stockton-on-Tees has resolved upon a strike unless the masters modify their action relative to a reduction of wages.

CENTRAL AMERICA.

A Communist Outbreak.

PANAMA, Sept. 25.—A dispatch from Ocana on the river Magdelana received at Barranquilla on the 17th inst., reports the rising of communists at Bucaramanga in the State of Santander on the 9th inst. The Alcalde, Pedro Collazos, headed a crowd of ruffians in an attack upon several wealthy establishments, among others the only bank in the place, and completely sacked them, killing and wounding the persons who endeavored to defend them, and also burning the buildings. They then retired to the two Cuartals, carrying their plunder and there entrenched themselves, bidding defiance to the authorities of the State. The city remained in a state of alarm and terror four days. Many families fled to the woods and others barricaded their doors and kept guard night and day. Gen. Wilcher, president of the State, hastened from the capital, Socorro, more than 60 miles distant from Bucaramanga, with a small but disciplined force, attacked the robbers in their entrenched position and completely routed them. He killed several of the leaders and took many prisoners.
