TELEGRAPHIC.

IN FAVOR OF CUBANS

Resolutions Adopted by Enthusiastic Friends in New York.

CLEVELAND'S NAME IS HISSED

and That of Maceo Greeted With Outbursts of Applause—A Big Street Parade.

NEW YORK, Dec. 21.—The demonstration in favor of the Cuban insurgents, under the auspices of the Society of American Friends of Cuba, tonight, was a remarkable one. Four thousand men marched from East Eighty-seventh street to Cooper union, led by Frank Meyer, a survivor of the Virginius massacre. The parade was divided into ten columns. A large American flag was borne at the head of the procession, which moved to the strains of a drum corps of fifty pieces and four bands.

When the marchers reached Cooper union the great hall was crowded and few of them were able to wedge their way in. The hall was decorated with American and Cuban flags, and there were pictures of Washington, Lincoln, Maceo and Gomez.

Colonel Ethan Allen, president of the Cuban league, called the meeting to order and stated its objects. Several times during Colonel Allen's speech, when President Cleveland's name was mentioned, it was hitarly hissed. There were will outcrops when Maceo's name was mentioned.

A series of resolutions were read and adopted, from which the following are extracts:

"The Cuban republic is entitled to receive forthwith from the nation an official recognition of its independence. Such action by these United States would not only be in accordance with international law and also in harmony with the rule heretofore applied to other American states, but would be the practical enforcement of that policy enunciated and defended by us all, which was enunciated by President Monroe, that any attempt upon the part of European powers to enlarge their system over any portion of this hemisphere against the will of its people would be considered by the United States as dangerous to their peace and liberty.

"In our judgment President Cleveland mistakes the impulses which sway the American people when he says: 'They view with wonder and admiration the cheerful resolution with which vast bodies of men are sent by Spain across thousands of miles of ocean, that the costly Gem of Antilles may still hold its place in the Spanish crown.'

"On the contrary, the American people view with horror this army of demons whose purpose is to overthrow the mother and slaughter of unoffending subjects. This voluntary eulogy of Spain, whose revolting perfidy is on every page of our history for the past 400 years, could have been said with equal audacity of England a century ago, when George III marshaled his Hessians upon our soil and tapped every wigwam for his tomahawk to secure the reduction of the colonies.

"We indignantly repudiate the idea that their heartless treatment of the Cuban patriots should be continued because otherwise difficulties are apprehended with Spain."

Gen. Bradley T. Johnson of Virginia said he believed that 90 per cent of the people of the United States were in favor of Cuban independence, and that fully 75 per cent favored this government helping the insurgents to end the struggle. He declared that the Cubans have as good a government as did the colonies in the days of Washington, and that it is the duty of the United States to recognize it right away.

Dr. A. M. Fernandez Ybarra, secretary of the meeting, announced that W. E. D. Stokes had subscribed $1,000 to the fund, a lady $100 and a gentleman $500, and read a cablegram from the junta's agent in Paris, saying that the total collections there amounted to $100,000.

Boy Found Guilty.

DENVER, Colo., Dec. 21.—The federal jury this evening returned a verdict of guilty against C. H. Dow, president of the defunct Commercial National Bank, Sidney G. McMillan, receiving teller, and O. E. Miller, president of the Miller Herald Treatment company, on charges of misapportionment of funds, making false entry, and aiding and abetting the same. There were thirteen counts in all. Miller, through the alleged connivance of Dow and McMillan, secured loans from the bank during 1891 and 1892 to the amount of about $125,000.

Cuba Needs Arms Not Men.

WASHINGTON, Dec. 21.—Mr. Quesada, the Cuban representative here, said tonight that the junta is not responsible for the enlargement for the Cuban cause that are now said to be going on throughout the United States.

"It is not our desire to break the laws of this country," he continued, "and the enlistments are a clear violation of them. We do not need any more men in Cuba now. Besides the 25,000 or 35,000 we have in the field we have 60,000 we cannot arm. Any one who attempts to be enlisting men under our authority is an imposter."

Italy's Cuban Policy.

ROME, Dec. 21.—In the chamber of deputies today Signor Imbriani, the radical leader, submitted a motion inviting the government to ascertain the truth as to the death of "the brave and generous Maceo."

The Marquis di Rudinì, the premier, begged Signor Imbriani to withdraw his motion, which, he said, might disturb the friendly relations of Italy with the brave Spanish people. Sig. Imbriani persisted in his motion, amid uproar in the chamber. The president loudly called for order.

The matter was dropped.

In Favor of Santa Monica.

LOS ANGELES, Cal., Dec. 21.—The latter town held its first session in the chamber of commerce hall today to hear arguments concerning the construction of a deep water harbor either at Santa Monica or San Pedro. The meeting was presided over by Admiral Walker, a member of the board. E. G. Cortheil, a representative of the Southern Pacific company, opened the argument in favor of Santa Monica. The speaker made liberal reference to the views of army engineers in relation to the advantage of Santa Monica and read a letter from Senator Frye, chairman of the Senate committee on commerce, on the subject of a deep-water harbor, which strongly favored Santa Monica from several points of view. Mr. Cornell then went to the maritime features of the case.

Ex-Senator Cole of this city then spoke in favor of Santa Monica from a commercial standpoint.

The meeting will be continued tomorrow.

TRIAL OF SANGUILLY.

His Attorney Insists on Compliance With the Law.

HAVANA, Dec. 21.—The re-trial of the case of Julio Sanguilly, sent down on an appeal of the supreme court at Madrid on a charge of treason and conspiracy, began at 1 o'clock today. Sanguilly arrived in court escorted by eight guns d'armes and looking healthy and in good spirits.

The trial opened with the reading by Chief Clerk Ocharde of the prosecutor's petition that the defendants should be sentenced to imprisonment for life and pay half the expenses of the trial.

Public Prosecutor Lejuio then ordered the evidence for the prosecution, consisting of letters signed by General Jose Aldama, bearing the defendant's nomination as a colonel in the rebel army, also a revolutionary statement of the witnesses and the expert testimony taken in the Inner Sanguilly trial.

Sanguilly's attorney, Antonio Mesa, entered a protest against the trial on nothing the product of the treaty between Spain and the United States, which makes necessary and requires a jury composed of six persons.

He also claimed that the formalities had been neglected, contrary to articles XX and XXI of the law of April 17, 1821. He insisted that the jury, who claimed that the law of January 12, 1877, was sufficient to not having been duly respected.

Senor Sanchez's protest on the ground of the law not having been received will form the basis of a new appeal to the supreme court at Madrid, which will probably be successful.

The trial was continued until tomorrow.

Weyler Must Do Something.

CINCINNATI, Dec. 21.—The Commercial Tribune special from Key West says: Havana advices tonight are that a certain rumor is that Captain Gen. Weyler had been commanded from Madrid to take the field again, supposedly to attempt to stop Gen. Gomez in his march through Matanzas and Santa Clara provinces, where Gomez is overrunning the country and keeping the Spanish garrisons unquantitable.

Near Puerto Cabello an engagement between about two hundred Cuban insurgents and 300 Spanish guerillas under Captain Murillo is reported. The Cubans outnumbered the guerillas and not fifty of them to the machete. Murillo was among the killed. The Cuban loss was over thirty.

Crop Prospects in Europe.

LONDON, Dec. 21.—The Mark Lane Express, reviewing today its crop prospects, says: While the wheat is somewhat late in growth, this is no drawback; for a late spring growth of the autumn-sown wheat and rye is reported from all the districts of Central Europe; but in France matters are not nearly so satisfactory.

The weather in Russia is very unsettled, frost and thaw reigning in rapid succession, with bad effect on the autumn-sown grain.

The Argentine crop is not thought to be very large; but advices conflict.

Foreign wheat does not sell well, even at a decline, but everybody expects it first trade until after Christmas and brisk business during the first fortnight of January.

Explosion of Dynamite in a Mine.

WILKESBARRE, Pa., Dec. 21.—A terrific explosion of gas occurred this afternoon in Baltimore shaft No. 2 of the Delaware and Hudson company. Fifty-two miners were imprisoned, but all but a late hour tonight fourteen had been rescued alive, and there was still hope of reaching the others before the deadly after-damp claims them as victims.

Why France Failed in 1862.

PARIS, Dec. 21.—The Gaulois today publishes interviews with Gen. and ex-Minister De Barail, M. Imbert de Saint Amand, and a foreign diplomat, all of whom represent Great Britain and Spain for abandoning France in the Mexican expedition of 1862, the object of which, they say, was to create an American government to counterbalance the power of the United States.

A Race War On.

MAYFIELD, Ky., Dec. 21.—A part of the mob that hanged Jim Stone this morning went on the rampage again tonight. Nine houses of negroes were fired at the residence of Tom Chambers, colored, and the house was afterwards burned. There is much bitter feeling, the negroes having made threats to avenge the lynching of Stone and the killing of Henry Finney.

France and Russia.

BERLIN, Dec. 21.—A dispatch from St. Petersburg to the Cologne Gazette says the enthusiasm created by the Franco-Russian alliance has somewhat cooled, owing to the French attempts during the Czar's visit to Paris to prejudice him against the proposed gold currency, the French, it is explained in the dispatch, being opposed to that policy on political grounds, urging that the gold standard is the cause for the dwindling of the large stock of gold collected by M. De Witte, minister of finance, which France contended, was Russia's greatest support in the event of war.

The Feeling in Spain.

LONDON, Dec. 21.—The Standard's Madrid correspondent says that the government has signified to the Washington government that it is satisfied with the friendly tone of President Cleveland's message and with the attitude of Mr. Olney before the Senate committee on foreign relations. This correspondent says:

"Senor Canovas will not take the slightest notice of talk or resolutions by Congress so long as the executive preserves an attitude of harmony with the usages of international law, which Spain is entitled to expect both from President Cleveland and President McKinley. He is certain that American common sense will astonish the American press and people when the jingo scare is ended."

Rumors of additional war preparations must be received with caution, as the ministers are only acting within the budget limits. They do not wish any aggressive measures to be attached to purely defensive precautions and to the provision of war stores for Cuba and the Philippine islands.

Fortifying Cuban Harbors.

NEW YORK, Dec. 21.—A Havana correspondent telegraphs to the Evening World today as follows: Pursuant to telegraphic instructions from the navy departmental Madrid, Admiral Navarro on Saturday examining narrowly dispatched a commission of engineers to the East to co-operate with the military authorities and hurry the harbor defenses of Santiago de Cuba and Guantanamo.

At Santiago several large caliber Krupp guns have just arrived and are being placed at strategic points to defend the port against possible attacks from a foreign enemy. A number of torpedoes have also been laid.

The Pacific Roads.

WASHINGTON, D. C., Dec. 21.—Senator Pettigrew today introduced the following joint resolution:

"Resolved, that the secretary of the treasury be and is hereby directed to pay the holders of Union Pacific railway company six per cent first notes the amount due thereon and take possession of the Union and Kansas now held as securities for said notes; said bonds and stocks being the property of the Union Pacific railway company.

"For the purpose of paying out the provisions of this act the sum of ten million dollars or so much thereof as may be necessary is hereby appropriated, viz.:

"Proposals for the purchase of $2,790,000 first mortgage bonds of the Central Pacific, Union Pacific and Kansas Pacific railroads, the outstanding part of the sinking fund of the Central Pacific railway were today opened at the treasury department. There were ten bids for the whole or part of the amount offered at various prices. Among the bids was one from J. P. Morgan & Co., of New York, offered par with interest at six per cent, aggregating $162,85. Computations necessary to determine whether this offer is better than the aggregate of others have not yet been made.

The Sultan Promises Everything.

CONSTANTINOPLE, Dec. 21.—The Russian ambassador, M. de Nelidoff, had an hour's audience with the sultan on Saturday, at which he urged the introduction of reforms and granting amnesty to the imprisoned Armenians. He majesty asserted that the reforms agreed upon by the powers entirely had been executed and promised to issue an amnesty in a few days. Subsequently the ambassadors exchanged views relative to the new reform proposals to be submitted to the sultan.

A Religious Fanatic.

BRIDGETOWN, N. J., Dec. 21.—A Jersey, religious fanatic who murdered his father near Vineland last week, lies in the court house here with two bullets in his arms and a gaping wound, the result of being shot in the head. He was sent by Sheriff Cressamon while trying to murder Keeper Walker, but could not be secured until Walkins felled him with a club.

No Pardon for Bellamy.

ALBANY, N. Y., December 21.—Governor Morton has refused pardon of commute sentences of John T. McKane.

Bryan in Chicago.

CHICAGO, Dec. 21.—William J. Bryan arrived in Chicago today from Lincoln. He stated his visit was purely one of business connected with the publication of his book. Bryan will go to Atlanta, Ga., tonight where he will lecture on Thursday.

AN IRRIGATION ENTERPRISE.

The Yakima Investment Company to be Reorganized.

SAN FRANCISCO, Dec. 22.—The Yakima Investment company of Washington, which Pahl Schulze has wrecked before he committed suicide, is to be reorganized. A new corporation is to be formed, and one of the largest irrigation enterprises of the Pacific coast, to some extent, is to be placed upon its feet. A. G. Booth has just returned from Boston, where he went as an attorney for the Safe Deposit and Trust company of Boston, to consult with the Electric corporation. He reports that the plan of reorganization met with favor and has now been practically agreed upon by the principal parties interested. The property involved is estimated at from $1,500,000 to $1,600,000 in value, it is located in the Yakima valley, in Washington, and acres of land were bought from the Northern Pacific road and a main canal with laterals and ditches of a length of 350 miles were built at a cost of $700,000.

From time to time land, water and water rights were sold. An issue of $450,000 in bonds was made secure by mortgages, in which the Safe Deposit and Trust company was named as trustee. The hard times came and people could not raise money to complete his scheme. Suit for foreclosure was brought by the trustee, receivers were appointed, of whom Paul Schulze was one, and soon after he committed suicide under sensational circumstances. During the interval receivers' certificates to the amount of $450,000 were issued and it is said the holders of these and the bondholders who are interested in the reorganization plan which the Safe Deposit and Trust company has taken the initiative.

The London and San Francisco bank and the Electric Corporation of Boston, are also largely concerned as holders of bonds and certificates.

Brazil Claims Guiana.

NEW YORK, Dec. 22.—The Herald's correspondent in Rio Janeiro, Brazil, telegraphs that it is semi-officially announced that the Brazilian government is in possession of documents of the greatest importance in relation to that part of Guiana which is now in dispute between Great Britain and Venezuela.

These documents, it is stated, give satisfactory proof that the territory in question is properly within the domain of Brazil.

It is also declared on the authority of persons in confidence that when the dispute between England and Venezuela is settled, Brazil will formally present her claim to the territory and expects to triumph over all claimants.

Everyone Pleased.

CHICAGO, ST. LOUIS and EAST.

ONLY TWO DAYS LOST via SANTA FE ROUTE TO CHICAGO AND ST. LOUIS

You leave Ogden, or Salt Lake in the evening, and after breakfasting in the sumptuous dining cars of the SANTA FE ROUTE, on the third morning, you arrive in Chicago or St. Louis in season to attend to business or pleasure with all fast trains for the East. Some one has said recently that the track of the ATCHISON, TOPEKA & SANTA FE railroad was in such perfect condition that the long distance run of the "Fleet" on the New York Central could be equaled if such expected, by the magnificent locomotives.

J. D. KENWORTHY, General Agent,

Room 411 Dooly Block.

"Freedom from oscillation."

In the issue of February 15th, the "Railway Age" of this magazine gives a very interesting account of some record-breaking runs on the Burlington Route between Galesburg and Chicago. The article says in substance:

"The Burlington's main line track allows the Lightning speed to be made with a remarkable freedom from oscillation. The train 'yaws' over the joints with a delightful rhythm and the passenger seldom realizes that he is riding at an extraordinary speed."

Freedom from oscillation is specifically challenging as a success for all over the country. No matter how great the speed, the train is so steady as to allow moving object-glasses.

How small it is otherwise will send a stock, steel rolling stock, such engines as the Burlington's.

W. F. McMILLAN, Gen'l Agent, Salt Lake City. 11 Walker Block.

WE INSURE YOU

A safe, pleasant and comfortable journey on one of the finest equipped trains in America. The limited trains on the Erie between CHICAGO AND NEW YORK are without a peer, and are

FREE

Of any Extra Charge. Don't forget it's the Erie. Having Dearborn Station, Chicago. City ticket office, 242 Clark Street. Going east or west you are on the train

FOR ONE NIGHT

And a day, and have all the comforts of home.
