MARKET REPORTS.

NEW YORK MARKETS.

New York, April 8.—The trading at the stock exchange at the opening lacked the exciting incidents of yesterday's market and business was only normal. Some stocks made good gains, including Sugar preferred, which was up four points. Others favored the dull side, notable Federal Steel preferred, American Steel and Wire and Continental Tobacco, especially the latter displayed a cautionary tendency after the first few minutes. Volume of the stock sold at a fraction of a point after a brief interval, with the more important of the Vanderbilt, American Steel, Sugar, Brooklyn Transit and the Iron and Steel properties. The decline in these shares approximated three points. Liquidation by broken bears seemed to purchase at the low level yesterday with some offerings from the bears who predicted an unfavorable bank statement was the chief impetus to the decline. The market abroad yielded sympathetically. But the bears were limited to fractions except in New York Central and Burlington. After a time the pressure eased and prices worked up gradually with the leaders making the most progress. The stock exchange as been notified that the bank statement and its appearance was the signal for an active buying movement which carried prices of many stocks materially above last night's close. The demand embraced specialties and standard issues alike but the former figured for the largest gains. The bank statement shows a loss in surplus reserve of $12,825,825 and cash of $1,450,900. These items were counteracted by a shrinkage in loans of $1,245,700, and deposits of $1,252,300. Realizations were prompted at the higher range which prevailed. Sugar, Sugar and Brooklyn Transit of much of their advantage. The closing was weak with net changes slight to fractional.

Among the specialties the variations were pronounced either way.
