The Evening paper is the paper of Today, the morning paper is the paper of Yesterday.

DESERET EVENING NEWS.

5 O'clock ~EDITION.~

TRUTH AND LIBERTY.

NO. 292. THURSDAY, NOVEMBER 7, 1895. SALT LAKE CITY, UTAH. VOL. XXVIII.

THE RESULT.

Republicans Win on the Entire State Ticket.

PLURALITIES 1,000 TO 1,800.

Political Complexion of the New State Legislature.

NO GREAT CHANGE FROM 1894

In the General Vote of the Territory—Locality Preferences for Men Prevail.

The general result of the election is now finally determined, being as given in last evening's NEWS. The doubtful Representative, which appeared strongly yesterday to be in favor of C. E. Allen has been conclusively received that way, and the entire Republican State ticket is elected. Following is the showing by precincts and counties on Governor and Representative, the remainder of the State ticket being between the two:

Beaver County.

*Incomplete.

A close comparison with last year's returns from the precincts yet to be heard from shows that the majorities for Wells and Allen over Cannon and Roberts are not likely to be reduced more than about 400 at a liberal estimate, hence it may be safely asserted that Wells will have a plurality in the State of 1,900 and Allen's plurality will be about 1,900.

Following is the vote on Rawlins (D) and Cannon (R) last year for Delegate to Congress, for comparison. The first column is the Democratic and second column the Republican vote:

Counties.	Rawlins (D)	Cannon (R)
Beaver	78	77
Box Elder	1,060	1,017
Cache	1,316	1,317
Carbon	512	514
Davis	604	604
Emery	21	64
Grand	20	20
Iron	317	313
Juab	283	283
Kane	38	38
Millard	411	372
Morgan	213	170
Piute	49	21
Rich	80	80
Salt Lake	4,000	4,000
Sanpete	1,816	1,177
Sevier	612	801
Summit	1,269	713
Tooele	410	244
Uintah	191	240
Utah	3,867	3,809
Wasatch	417	452
Washington	237	417
Wayne	1,613	1,541
Wells	119	150
Ogden City	1,544	1,448
Grand total	19,939	17,197

The remainder of the successful ticket is as follows:

Secretary of State, James T. Hammond.

Treasurer, J. C. Chipman.

Auditor, M. Richards Jr.

Attorney General, A. C. Bishop.

Superintendent of Public Instruction, J. R. Park.

Supreme Court Judges, C. S. Zane, J. A. Miner, G. W. Bartch.

At present the complexion of the Legislature is heavily Republican. The returns thus far indicate the election of 18 Republican Senators, 6 Democratic, and 2 doubtful; 30 Republican members of the House, 10 Democrats and 5 doubtful.

With the district judges the political lines were not so closely drawn. Of the 9 judges, 5 are Democratic, 3 Republican, with a doubt as to whether Le Grand Young or E. D. R. Thompson is elected in the Third district. Returns today, however, indicate Mr. Young's election by about 40.

In Salt Lake county, outside of the city, Oscar VanCott (D.) was elected school superintendent, receiving 1,614 votes to 1,431 for C. A. Short (R.)

Marriage Licenses.

The following marriage licenses have been issued by County Clerk Stanton: Axel E. W. Hartell, aged 21, of Salt Lake City, and Annette Erickson, aged 18, of West Jordan; Charles H. Crowther, aged 21, and Emma Heverly, aged 21, both of Salt Lake City; Don P. M. Fullmer, aged 44, of Salt Lake City, and Ida Ann Martin, aged 20, of Gunnison, Sanpete county; John W. Laws, aged 25, of Salt Lake City, and Julia Camelia Myers, aged 22, of Kearney, Nebraska; John W. Negus, aged 24, of Plain City, Utah, and Flora E. Cottle, aged 22, of the same place; James Buckley, aged 35, and Eliza Stevens, aged 19, both of Salt Lake City; Robert Andrews, aged 22, of Big Cottonwood, and Miss Lovania E. Bowden, aged 23, of Mill Creek.

The Kentucky Returns.

LOUISVILLE, Nov. 7.—The returns give Bradley a plurality of over 17,000 and the eight counties not yet heard from are expected to swell the figures. The result of the legislature is still doubtful with the chances in favor of the Republicans on a joint ballot.

Another Fashionable Wedding.

WICHITA, Kas., Nov. 7.—Miss Hortie Johnston, the youngest daughter of W. W. Johnston, and Mr. Fred Cooper, a prominent attorney of Los Angeles, California, were married last evening. The wedding was the most fashionable of the season.

Sealers Captured by Russians.

ST. PETERSBURG, Nov. 7.—A dispatch to the Novoe Vremya from Vladivostok says the Russian warship Yakut captured seventeen foreign sealers in the sea of Okhotsk, all having slaughtered seals on board. One schooner chased by the warship escaped.

ALASKANS EXCITED.

The Boundary Question is the Cause of the Trouble.

THE DISPUTE IN A NUTSHELL.

Great Britain Claims a Large Part of Southeastern Alaska With Its Harbor.

SAN FRANCISCO, Nov. 7.—G. A. Carpenter, who was formerly editor of the Alaska News at Juneau, has just returned from the North, and he says:

In the people in the territory are in a fever of excitement over the boundary question in all its details. He discusses the attempt of the Canadian surveying party to locate the line according to their charts as a grab on the part of England. The great scheme on the part of England, he says, besides her natural greed for the gold of the Yukon, is to establish a coaling station and a port of entry on the Alaskan coast, so that she may occupy a position of vantage in the event of an original war or trouble with Great Britain and Russia.

"The dispute, in a nutshell," he said, "is that Great Britain holds, in accordance with the provisions of the treaty, that the boundary line is ten marine leagues in the interior from the outward line of the bordering islands instead of from the coast line of the mainland. By taking the former she gets the islands as the point from which the boundary line parallel England will try to shut out Alaska from her harbors along the mainland. In other words, rob Alaska of the greater part of southeastern Alaska. On American government has always held as its interpretation of the Russo-English treaty that the line is ten marine leagues from the indentations or coast line of the mainland, and there never would have been a dispute if England had a port of entry by which she could reach the Yukon Valley."

THE FAIR WILL

The Contest Not Settled, Say the Attorneys.

SAN FRANCISCO, Nov. 7.—The attorneys engaged in the Fair will contest deny that there is any foundation for the statement made in a local paper that the contest had been compromised. Herman Oelrichs, Charles L. Fair and W. H. Gladding, the latter a trustee under the will of the late Senator Fair, each pronounce the report of a compromise absolutely untrue. The attorneys say that the time for a compromise has passed and that neither side would now accept it even if it were offered.

To Take the Places of the Strikers.

CHICAGO, Nov. 7.—A special from St. Paul says the Great Northern has taken steps to put its business on its old footing. Men have gone out at Kalispell, Devil's Lake and St. Cloud, Minn. Men to take their places have been brought here from Chicago, St. Louis and southern Illinois points. They will leave sometime today for the points on the Great Northern where the men have gone out.

A dispatch from Devil's Lake, N. D., says the Great Northern is still tied up here. No freight trains whatever are being moved. The engineers and firemen are willing to work but cannot get conductors or brakemen to take out their trains.

Colonel Dodge, of Minneapolis, is here to look after the legal side of the strike situation.

Pacific Improvement Company.

SAN FRANCISCO, Nov. 7.—The Examiner says the Southern Pacific company has under consideration the advisability of incorporating the Pacific Improvement company, a concern formed to develop the properties of the road. C. P. Huntington, president of the Southern Pacific, while denying the statement in part, says that the work of the Pacific Improvement company would be abandoned if the company could dispose of what it owns.

ATTEMPTED ROBBERY.

An Aged German Held Up on a Railroad Train.

CHICAGO, Nov. 7.—John Fuller, an aged German from the West on his way to Germany to spend the remainder of his days, was held up on a through Chicago & Erie passenger train at Archer avenue last night by four unknown men who dragged him from the car to the platform where they searched him, but without securing anything. So quick were the men that they got away from the train before the passengers really knew what had occurred.

The crime was one of the boldest of recent months and is only equalled by a similar occurrence at the same point but a few weeks ago when a woman was robbed in her state room while the train stopped at the station on its way east. In the latter instance the robbers made a rich haul. The police were notified and are now looking for the robbers.

Cashier Under Arrest.

TACOMA, Wash., Nov. 7.—Cashier W. G. Pierce of the failed Columbia National bank is under arrest on the charge of making a false entry in the individual deposit ledger, thereby crediting City Treasurer McCauley with making a special deposit of $10,000, when in fact no such deposit was made. It is alleged that his object was to deceive the comptroller of the currency as to the bank's condition.

One Good Turn Deserves Another.

PHILADELPHIA, Nov. 7.—The International Navigation company has libelled the Netherlands-American line steamship Obdam, which was towed into Halifax Saturday with her shaft broken, by the Pennland, for $100,000. It is the general opinion of shipping men that the case is one in which unusually meritorious services were rendered, as the vessel would have been driven ashore on Sable Island and become a total loss during the storm on the following night, had she not fallen in with the Pennland. A strange coincidence is that just six years ago the Pennland was towed into Halifax under similar circumstances by one of the steamships of the Netherlands-American line.

Millions for the Improvement of Canals.

NEW YORK, Nov. 7.—The proposition that the state shall expend $9,000,000 for improving the canals has been adopted. The returns are coming in slowly but accurate figures received from twenty-three counties give a majority of $114,831 votes in its favor. The work done in this city in behalf of the proposition met with great success, for of the 117,311 votes cast on the question, there were only 15,903 against it.

LISTING MINING SECURITIES.

The Question Still up on the Chicago Exchange.

CHICAGO, Nov. 7.—The question of listing mining securities on the Chicago stock exchange, which was again vigorously the governing committee at the special meeting last Monday will not down. It is conceded which the board of governors necessitates the action an independent mining exchange will be organized in this city at once. The action of the governing committee, it is asserted, does not reflect the sentiment of a clear majority of the active members of the exchange. The contention is made that the present business of the exchange is too small in volume and if there is any legitimate way of increasing activity in trading, they, rather than a new set of brokers, should be given the opportunity of securing the benefit.

This alleged major element is opposing the charge that wildcat companies might secure a place on the list—declare themselves in favor of the exchange employing a mining expert to report on the property of every mining company applying for listing privileges. It is probable this suggestion will be adopted by the so-called conservative element as a compromise and that companies with producing mines will be encouraged to list their stock on the exchange.

"It is our opinion," said J. J. Townsend, "that Cripple Creek and other mining companies of high standing should be listed to prevent the establishment of another exchange in this city. The mining boom that every one concedes is coming has every indication of permanency.

"The resolution to permit members of the exchange to join other exchanges within the state," said Frank M. Gage, "will be brought up at every meeting until it is adopted. I will introduce it again at the meeting next Wednesday. A mining exchange is a certainty unless something is done to forestall it by listing good mining securities."

George E. Wright, vice-chairman of the listing committee, said certain conditions are imposed by the exchange before any stock could be listed and if they were complied with by any solid mining company, it was not probable that there would be any opposition.

Seriously Ill.

SYRACUSE, N. Y., Nov. 7.—Thomas G. Alvord, ex-lieutenant governor of the state, is ill at his home in this city, being found unconscious in bed. Mr. Alvord has been failing for some weeks and it is feared that his present illness is of a serious nature.

Summary of Milling News.

MINNEAPOLIS, N. Y., 7.—The Northwestern Miller gives the following summary of the week's milling news:

The Minneapolis mills will probably not make as much flour this week, though the figures will be heavy.

The flour market last week was comparatively quiet. The aggregate sales approximated 115,000 barrels. Minneapolis mills having many orders ahead with the close of navigation approaching are much firmer as to prices than the country mills.

Every mill at Superior-Duluth is running this week and the output may show a small increase. Most of the mills are in a position to accept only a small percentage of offers as they are already contracted ahead until the close of navigation. This condition has the effect of making them rather firm in their views as to what their product should bring and enables them, to a degree, to sell only when offers meet their ideas of values.

At Milwaukee, a great deal of confidence is shown in the future and millers expect to run full time, particularly with the advent of cold weather and the close of navigation, when they will have an advantage over their northwestern competitors in the matter of weights to eastern points.

The week was a dull one at St. Louis.

Valley of the Ohio—Most of the mills in this territory did a brisk business. Drouth continues to affect the greater part of the region indicated.

Michigan mills generally ran at full capacity and had plenty of orders.

New York City—Holders of standard flour were very stiff and buyers got along with hand-to-mouth supplies, hoping for a drop.

Boston—The market for the week was very unsatisfactory. Spring wheat flours were in slow demand, but winter wheat was much wanted.

Philadelphia—Demand for winter wheat flours was good, but trade in spring was generally poor, buyers holding off in hope of a drop.

Baltimore—Flour held its own very well, but was extremely quiet.

Buffalo—High wheat freights by lake put the local millers at a great disadvantage.

MANITOBA SCHOOL QUESTION.

Sensational Document Issued by the Government.

CHICAGO, Nov. 7.—A special from Winnipeg, Man., says:

Of scores of documents that have been issued since the parochial school agitation began, by far the most sensational has just been published by the Manitoba government. It has been kept by the government to be sprung on the eve of the general elections and the effect of the startling document is all that has been expected. It arraigns the Roman Catholic hierarchy for falsifying.

The Roman Catholics have all along contended that their schools were preserved to them under the bill of rights adopted when Manitoba entered the confederation of Canadian provinces in 1870. The Protestant contention has been that while reference was made to parochial schools in a proposed bill of rights submitted in 1870, there was no such reference in the bill ratified and adopted in 1870 by both provincial and Dominion governments. In answer to the Protestant contention the Roman Catholics produced a manuscript bearing date of 1870 which read that the rights of Roman Catholics in their schools should never be interfered with. This manuscript bore evidence of being reliable and authentic and seemed conclusive.

Now, however, the government shows that the date of the document was really 1871 and a scientific photograph to prove reveals that the figure "one" was changed into the cipher. The original figure 1 is by a photograph revealed in faded ink like the rest of the document while the cipher is in fresher and blacker ink.

Socialists in Germany.

LONDON, Nov. 7.—The Berlin correspondent of the Times comments on the immense increase in socialist vot
