WESTERN NEWS ITEMS.

Mine Accident in Nevada: Two Men Horribly Mangled.

A TRAIN HELD UP BY ROBBERS.

Town Improvements at Phoenix, Ariz.—Shocking Suicide.—Other Paragraphs from Exchanges.

The new sewer system of Phoenix, A. T., is completed.

Thousands of fruit trees are being planted in and about Prescott, A. T.

Beet pulp is being shipped from Grand Island, Nebraska, to neighboring towns.

Eddy, N. M., has a new six-column daily newspaper called the Current.

The citizens of Yuma, Yuma county, have raised $5000 towards the erection of a flour mill for that town.

The Alvarado, (Alameda county) beet sugar factory has finished work on beets, having cut 15,000 tons this season.

The Norfolk, Nebraska, sugar beet factory closed for the season last week after making 9950 barrels of granulated sugar.

A new business block, to cost $200,000, is being contracted for at Phoenix, Arizona. It will be built by San Francisco capitalists.

Frank Williams and Frank Lewis, the famous LaSalle (Colorado) train robbers, have been sentenced by Judge Downer in the district court to thirteen years' imprisonment at hard labor.

Grain threshing has been going on at a lively rate in Laramie county, Wyoming, during the present spell of fine weather, but there is much of the harvest to be threshed yet.

In Nebraska the farmers are husking their corn, and the weather is favorable for drying the crop. A few farmers are selling their corn and oats at 25 cents a bushel, but they are few. Farmers generally are holding on for higher prices.

In the United States circuit court at Carson, Nevada, the case of the United States government against United States Marshal Kelley's bondsmen to recover $2000, judgment was rendered in favor of the government in the amount of $185. Ex-Governor Adams was one of Kelley's bondsmen.

A fire broke out near the tunnel of the coal mines at Blossburg, New Mexico, recently. The flames were sucked into the tunnel and made their way inward toward the central workings, burning the track and timbers. These mines are very extensive and produce seventy-five cars of coal per day.

In the supreme court of Idaho on Tuesday the writs of mandamus against Auditor George, of Logan county, were applied for. The court remanded the matter to the district court of Logan county, which is now in session, and which, in the opinion of the court, had original jurisdiction in the case.

Hon. Silas Alexander, the newly appointed territorial secretary of New Mexico, has taken the oath of office. He has much to occupy his time as the legislature meets December 26th. Mr. Alexander is a native of Pennsylvania. He has been in the Rocky Mountains some fifteen years, first locating in San Juan, Col., and thence removing to Hillsboro, about twelve years ago.

Peter Logue has been killed in a mine at Aspen, Colorado. As the men were going down the ladder in the electric winze, a miner named John Marolin slipped and knocked Peter Logue off the ladder. Logue fell from between the third and fourth levels to the sixth level and rolled down the winze, to the seventh level, a distance of 315 feet. He was crushed all out of shape.

News has just been received at Albuquerque, New Mexico, that Elias B. Sargent, a well-known citizen of Kingman, in Arizona, cut his throat from ear to ear with a razor, severing the jugular vein. Although prospering, he was of a melancholy disposition and on several occasions threatened to take his life. He was undoubtedly temporarily insane when he killed himself. He leaves a wife.

Adjutant General Kennedy and Major Manford Smith have taken a flying trip over to the Indian reservation, says the Aspen (Colorado) Times, for the purpose of finding out whether the redskins are on their reservation or killing game in Garfield county. They departed Sunday morning. The adjutant general has no hair on his head to lose, while the major's pompadour locks would be easily missed, and it is to be hoped he will take no chances.

Another big strike was made in the Surprise mine at Cook's Peak, New Mexico, last week. It is said to be the biggest strike yet made in the district. A cave was broken into which is 600 feet long with ore the entire length of it. The ore runs 60 per cent lead and 8 ounces in silver per ton. Cook's Peak is one of the best camps in New Mexico, and the production of the mines there is increasing rapidly. The strikes which have been made there this year indicate that the mountains are full of caves of rich mineral.

A colony of twelve families, all English farmers, arrived at Albuquerque, New Mexico, last week direct from London, England, accompanied by A. F. Spawn, president and founder of the American Colonization company. They have purchased lands in the famous Rio Puerco valley near that city, and will enter largely into the fruit-raising business. Mr. Spawn expects a dozen more families from England by the next steamer. Those already there are a better class of emigrants than was expected and all have considerable money.

K. Kohlenburg, a homesteader near Eddy, New Mexico, realizes a net return of $500 annually from his apiary. When the sage was plowed up last spring, he bought 100 stands of bees. They have not been allowed to swarm. They have made fifty pounds of honey for each colony, but half of it only has been taken from them. The honey has sold readily at twenty cents a pound for comb, and twenty-five for extract, bringing $500. There is only one piece of alfalfa near there, but when all those places are in alfalfa, the bees will do better.

The Syracuse, Neb., Journal says: "The big sheep train which had been expected for some days came in yesterday morning in five sections making seventy cars in all, bringing 7,000 sheep for Antwerp & McKee. These sheep were driven through from Idaho to Grant, Perkins county, Nebraska, from whence they were shipped by rail. When the train left Grant it had 8000 sheep, 1000 of which belong to a man at Fremont, and 1000 to Mr. Hogeboom, of Nebraska City cereal mills. As already stated these came here, which added to the first shipment in by Mr. Van Antwerp last year. These gentlemen will be several thousand dollars ahead by the next fourth of July."

Will cotton grow in Colorado? So well assured were we that it would that we sent to Texas four years ago and imported ten pounds of seed grown under irrigation at an altitude of 3000 feet. This seed we cut out among friends in various parts of Colorado and where some failed by not properly caring for the canes, others succeeded in producing very good samples of cotton, and the World's Fair people will be able to make quite a showing with cotton grown in La Plata, San Miguel and Mesa counties. These results are fairly satisfactory, and cotton growing under irrigation ought to be more generally looked into, especially just now, when trade is looking up and showing better than it has for years. Colorado and cotton may in time become synonymous terms.—Field and Farm.

The great Northern westbound through passenger train was held up by three robbers near Malta, a station east of Great Falls, Montana, on Wednesday morning, between 3 and 4 o'clock. A few minutes after leaving Malta two men climbed over the tender from the coal pile on to the engine, covered the engineer and fireman and made them stop, while the third held the conductor and brakemen at the end of a gun. The messenger was forced to open the local safe, from which, it is claimed, only $25 was secured. He did not know the combination of the big through safe. The robbers evidently did not have the proper tools to break it, and decamped without molesting the passengers.

Walter E. Ware of Salt Lake and John Waechter of the Sybille have returned from their hunting trip to Elk mountain and vicinity, says the Laramie Boomerang of the 30th ult., and they had the good sport and the good fortune to bag considerable game. They brought in seven deer with them which they killed in the Wagonhound country and one of the finest pair of horns ever seen in these parts. One of the deer they killed was enticingly devoured by two mountain lions which they saw, but could not get a shot at. They report game as scarce and think that in a few years there will be none left. Ware had quite a tussel with a big silver tip bear cub managed to allow him enough with his knife to make him let go and start for the mountains while Walter had a foul face at the house where he received attention from the cook. Mr. Ware will leave the city in a few days for Salt Lake. Mr. Waechter left this morning for the Sybille.

Edward Nottle and William Hughes were instantly killed on Wednesday, in the underground workings of the Sierra Nevada mine. They were charging a round of holes for blasting in the face of a drift from Kenosha tunnel and had a bucket filled with sticks of giant powder, caps and fuses near the place where they were preparing to blast. It is supposed that the end of the fuse hanging outside of the bucket came in contact with a lighted candle and when the fire reached the caps they exploded the entire mass of powder. The bodies of both men were badly mangled, both of Hughes' legs being torn off above the knees. Nottle's skull was crushed by a fragment of flying rock and other parts of his body were torn in fragments. Hughes was a native of New York, aged 55. He leaves a widow and one child. He was a member of the Assembly branch of the Nevada legislature during the last session. Nottle was a native of Cornwall, England, aged 45, and leaves a widow and four children.

How Much will you Risk for One Cent!

THE difference in price between the PUTNAM NAIL and cheaper brands [illegible]

Are you willing to use the cheap [illegible] with all their [illegible]

The process of their manufacture is against them. [illegible]

Now this is how you can save the two or three hundred dollars you would have to pay for a good horse, [illegible]

Use the Putnam Nail.

It is Hot-Forged from the best Swedish iron rods, while at a welding heat, by the action of Hammers alone, and then Hammer-Pointed.

Thus, the old hand process is followed, which was hot-forging nails under hammers, and hammer-pointing them by the shoer, cold, without any clipping or shearing whatever.

AND THE NAIL CANNOT SPLIT.

But it will cost you one cent more for each horse shod!

The shoes will stay on longer and your repairs [illegible]

ALL FOR ONE CENT.

Send for samples to

The Putnam Nail Co.,

NEPONSET, BOSTON, MASS.
