LOCAL AND OTHER MATTERS.

THEATRICAL.—The audience last night was even still larger than on either of the two previous evenings of Mr. Emmet's engagement, and equally as appreciative, and demonstrative. The neat and clever playing of Miss Edith Clawson, as little "Fritz," has been a subject of general remark among those who have attended. We also congratulate Mr. M. Forster on the decided hit which he makes in his rendition of Lawyer Grim. There is not much to do in the part, but what there is of it, is enacted by him in a manner highly creditable to so young an actor. Mr. Thorne also renders the part of Robit in a very satisfactory manner. He is a painstaking, careful actor, being invariably well up in his parts, making him one of the most useful and reliable members of the company.

The announcement that Mr. Emmet will give his inimitable rendition of "Fritz" to-night, will doubtless be very gratifying to the public, and especially to those who have not yet had an opportunity of seeing him. Although he has other and pressing engagements to fill, he has been induced, at the solicitation of numerous friends, to appear one night more. It will doubtless be a long time before a treat of a similar nature will be placed before the Salt Lake public again: therefore there will, in all probability, be another crowded house to-night. In the concert scene Mr. Emmet will introduce a number of entirely new character songs and dances, which will be an additional attraction.

A TEN-YEAR OLD RIVAL TO EMMET.—The Louisville *Courier*, speaks thus, of a little nature, named Moses Simmons:

"He claims to be ten years of age. He is a full-blooded African, and as keen as a briar. For one so young he has a remarkable knowledge of people and things, and has, in addition, several singular natural gifts. He is a good ventriloquist, and possesses the power of imitation to a remarkable degree, and if the great ranter, McKean Buchanan, possessed his powers as a delineator, he would not be compelled to shake hall rent, advertising bills, etc. Moses sings and dances with the precision of a professional negro minstrel, and in his delineation of Dutch character approaches Joe Emmet."

THE UTAH SOUTHERN.—It having been decided to construct the Utah Southern with 4 feet 8½ inch guage instead of the 3 feet, as was at first contemplated, it was thought best to select a different route from the one chosen for the 3 feet guage. The first street west of the State Road was pitched upon as the most fitting, but for several reasons it was deemed best to run the line through the centre of the next block west, the County Court preferring to make arrangements for the right of way on behalf of the company with the owners of the lands than to have the street occupied by the line. This new line has been examined to Little Cottonwood, but as the stream there is an extremely difficult one to cross, the point at which that will be effected has not yet been decided upon. The work, however, has been pushed ahead with such vigor, that if the iron were here the laying of it could be immediately commenced.

THE SERMON TO-DAY.—We recommend all into whose hands this number of the News may fall to read the remarks by President Young which it contains. The ideas entertained by many with regard to special manifestations being given or not given to them direct from the Almighty are often the cause of needless uneasiness and anxiety of mind, many persons believing that if they are not favored with them they are rejected by the Lord, and their hope of salvation is vain. Such notions are the result of incorrect traditions and the reception, as truth, of that which is false. The ideas advanced on this subject by President Young may be new to the minds of many; but if any of the class of persons referred to above who may read to-day's discourse can divest themselves of old notions, and will peruse it carefully, they will find it replete with good, sound, common sense, and calculated to comfort the hearts and sooth the fears of all who have obeyed the gospel for the love of it and live according to its precepts, whether they have or have not received the testimony of the "storm." The notion that some have that when they obey the truth they must have some startling, overwhelming manifestation to prove to them that it is true, is simply ridiculous. The results of a practical observance in daily life, of the principles of the gospel of Jesus Christ, will infallibly demonstrate its truth, and as infallibly bring the testimony of the still small voice of the "peace" creating spirit, and that will keep a soul steadfast when signs, wonders and miracles fail.

TERRITORIAL NEWS.—By Deseret Telegraph:

OGDEN, 12.

A lead of cinnabar has been discovered five miles north of here, in the mountains between Ogden and north Ogden. It assays an excellent quality of quicksilver. A quantity has been sent to Omaha, for accurate assay. A ton or more will be forwarded to Salt Lake shortly, to determine the amount of quicksilver per ton. It was discovered by Messrs. Nellis, Caley and Driver. It is well defined, and is traced for a thousand feet.

BAD CONDUCT.—We are sorry to learn that in some of the wards of this city there is a number of boys who delight in a kind of mischief which is exceedingly annoying and exasperating to the residents where such depredations are committed. The last instance of the kind which has been brought to our notice occurred at the beginning of last week, when several people residing in the Ninth and Third Wards had their fences torn down and other property destroyed by some of those senseless young rowdies. Some of these boys are known and we would advise them to stop this disreputable conduct and turn their attention to nobler pursuits, for if they indulge in such unmanly practices it may lead them to actions that are still worse, making them a discredit to their parents and all connected with them. The attention and training of the majority of the boys and young men of this community is of such a nature as to render such instances of flagrant misconduct entirely inexcusable on their part. It is true that boys in the very nature of things, require some outlet for the manifestation of an exuberance of animal spirits, but when they so far demean themselves as to indulge in the wanton destruction of property and the annoyance of neighbors they should be severely punished. There are many harmless and legitimate ways for boys to amuse themselves without encroaching on the rights and privileges of anybody.

We understand that some of the individuals, whose property has been damaged in the above manner, purpose offering a reward for evidence that will convict any of the guilty parties. Probably if an example were made in one or two instances it might have the effect of putting a stop to the practice.

THE FASTEST RACE HORSE has turned up in California, one that eclipses the famous "Dexter" and all other celebrities of the turf, he having run a mile in 2 14½, which is said to be the fastest time on record. This wonderful horse, a few months since, did service in the cart of a San Francisco butcher, and was sold for $150. His present owner, Mr. Leland Stanford, paid $3,900 for him, and it is believed that he would now command as many thousands. The pedigree of the animal is disputed, but he is believed to be a St. Clair.

SUDDEN DEATH AT CORINNE.—The *Corinne Daily Journal*, of yesterday, says:

"Last evening, as Mr. John Smith and his wife were returning home, and when near their residence, on Colorado street, Mr. S. was taken suddenly ill, and entered the house of Mrs. Russell, where he expired in a few minutes. This sad affair will cast a gloom over our city for some time. Mr. Smith was Quartermaster of this Department, which position he has held for some time, with credit to himself and to the entire satisfaction of the Government."

Special Notices.

American Manufactured Silks.—Those wishing to purchase real genuine silks will do well to read an advertisement of Z. C. M. I., who have on sale a large quantity of the Black Gros Grain Silks, manufactured by Cheney Bros., Hartford, Conn. These silks possess many advantages over all other goods in that line: the longer they are worn, the better they appear; they are not liable to crack, and never change color. d168 1

NEW GOODS!—Mrs. STENHOUSE has just received a very fine assortment of Ladies' and Children's Linen, Percale and Lawn Suits; also a large variety of Boys' Summer Cloth and Linen Suits, Waists, etc. She has a very large stock of Perfumery, from the establishment of J. D. Edrehi, from whom she has obtained the sole agency for Utah, and therefore is prepared to sell at the very lowest rates.

BEING an Agent for the sale of this most valuable article, having seen them tried in different deep wells, and finding them give universal satisfaction, I offer them to the public as the best means of raising water for culinary use, irrigating, washing carriages, extinguishing fires, or any other use for which a force pump may be applied. From the tests I have put them to, more water can be raised than with any other pump now offered to the public with the same power. As some objections have been made to these pumps for deep wells, I have tested them in one 324 feet deep, from which I raised twelve gallons per minute. They are positively non-freezing, and will not get out of order. If references are wanted or instructions in relation to them, call at my place on Emigration Street, one block east from State Street.

THE ORIGINAL and GENUINE SUGAR-CURED

Are branded, viz.:

☞ C. B. DUPEE (only)

ANY other brand than the above, with a similarity of the same, is a fraud, and is done to deceive the purchaser.

C. B. DUPEE established the brand of the "DUPEE HAMS" in 1854, in Chicago.
