MINING STOCKS IN GOOD TONE TODAY

Strike in the Eagle Sends That Stock Skyward.

SUNSHINE ALSO A FEATURE

Heavy Sales of Boston De La Mar Above a Cent—Daly and Ontario Firm.

TODAY'S METALS:
SILVER 62¾
LEAD $4.10
CANTON COPPER, 16¾c a lb

The mining stock market was gratifyingly firm today, sellers especially holding their own with bull-dog tenacity, this strong things in general a decidedly healthy complexion. The call on the Salt Lake exchange was not a record-breaker, by any means, but a fair volume of business came out, the sales being 25,200 shares for the sum of $[illegible].

Also, the first to do business, did it between $1.40 and $1.50, sales in this stock amounting to 1,100 shares. Daly goes exhibition of a slight spurt and sold at $1.65, while Dalton stood firm at 32 cents, with the stock wanted a trifle above the figure. One of the features of the call was Eagle, the report of a four-foot body of high-grade silver ore, sending that stock skyward and causing good business at 11¾ and 12 cents a share, the better figure capturing 12,000. Four Aces was practically stationary and sold up to 32¾, while small blocks of Gamma, Lower Mammoth and Northern Light changed hands at stationary figures, these latter having quite well quotations posted on previous occasions. Another feature of the market was Boston De La Mar, which was freely dealt in between $6 and $7, this business being followed by trading in Star Consolidated at $1.60 and South Swansea at $1.40 and $1.45. Swansea vagged a little, but Ontario was much improved, the bid being $[illegible].

In second-class stocks the brokers found Joe Bowers active above 15, while Small Hopes was in demand, De La Mar at 13¾, took Emerald at 11¾, and bonded Midnight Bowers at 2¾ to 4. Golden Eagle also sold, this stock making transfers at 3¾.

The closing figures were as follows:

MARKET REPORTS

NEW YORK MARKETS.

New York, May 1.—Trading in Metropolitan street railway was demoralized at the opening, the price dropping twelve points in less than ten minutes. Other local stocks were under the influence of other speculation showed wide changes. Sugar reacted sharply while Anaconda mining and some of the steel stocks improved. The violent drop in Metropolitan street railway was due to the physical condition reported by the promoters, the heavy decrease in the net revenue of the road through the operation of the Fourteenth Street tunnel.

At the lowest a prominent interest took all the stock offered and this discouraged further general selling movement which carried the price up to 172½.

Third avenue meanwhile dropped 8 points but Manhattan and Brooklyn transit recovered in Saturday's closing quotations. Speculation in traction shares coupled with the uncovering of the lower priced speculation, caused a general reaction in railway stocks, but their losses were subsequently more than regained. There was further weakness in sugar, some shares fighting for fractions while others made points. The general market was very nervous and a short time before noon the tobacco stocks forced renewed selling by both accounts.

Railroad bonds moved narrowly with prominent tone.

COPPER.

New York, May 1.—Copper quiet; lackes, 16¾ @ 16¾; exchange, 16¾.

THE BOOK OF MORMON."

Two lectures by Dr. James E. Talmage, on account of its origin, with evidences of its genuineness and authenticity. Prepared by appointment of the authorities of Shem from Dr. Talmage's book "The Articles of Faith," but are presented in separate form for the use of investigators and students. Price 10c. For sale by the Deseret News.

YOUNG IN YEARS, RICH IN VALUES.

Washington Mine at Frisco Has Ore Worth $250 a Ton.

GOOD SIZED BODY OF IT

Future of the Hailey Gold Belt—Jacobs Back From the East—Miscellaneous Mining News.

On exhibition in the office of the Horn Silver Mining company in this city are some excellent samples of ore from the Washington mine at Frisco, which was visited the latter part of the week by Messrs. F. T. Farnsworth and M. C. Morris. The ore is a lead carbonate showing bromide silver and assays, says Mr. Farnsworth, 62 per cent lead and 30 ounces silver to the ton. This material is exposed in the shaft to a depth of 15 or 20 feet and is vastly different to that first encountered, carrying as it does, double the values and being of superior quality in every respect. The gentleman report the mine in excellent condition, and say that south all the ore is right in splendid shipping variety and almost equal to the samples brought in. A shipment is now in transit, and others will follow in quick succession.

Jacobs Back From the East.

J. G. Jacobs, manager of the Salt Lake & Mercer railroad, arrived from New York this morning, after a three months sojourn in the gay metropolis, where he endeavored to place bonds. He says his trip was in a measure successful, but believes he will return in a week or so, to fully finish up the business in hand. Mr. Jacobs was accompanied by his family and reports a most enjoyable outing. He says the scandalous stories published about Utah of late have given the people a black eye in that section, but Gentiles, nevertheless, that Utah mining stocks stand well in the East and are highly regarded by the investing public. Good properties, says he, will find a ready market in New York.

Claims Transferred.

Special Correspondence.

Provo, May 1.—Lieutenant H. Shepard et al of Salt Lake City, have conveyed by mining deed to the Copper Beauties Mining company the following mining claims, New York, Michigan, Iowa, Top, Negro, Huron and the Hurah. J. M. Hart et al have conveyed to the same company the Titus, Whorl and Ninety-nine mining claims, all situated in Tintic mining district.

Rich Copper Discovery.

Eureka is running high over the find of Jim Bergquist and Gus Wilkins, who have uncovered a large vein of high grade copper, located between the Dreadnaught and the smelter. The Bismuth company having been seeking the first from the vein for some time back, and now this latest discovery will result favorably. It is whispered now that the owners of the Bismuth would prefer not to sell at this new discovery will enhance their property to a great extent, but the eastern company with which they are negotiating hold an option on the property for thirty days which time has not yet expired. From reports and the location of the vein it is estimated by mining men that a vast amount of wealth is there to be unearthed.—Vernal Express.

Emery County's Copper Vein.

Special Correspondence.

Price, Carbon County, April 28.—From reports the great copper belt which promises to be a fake but is a mere reality. The vein can be traced for eight miles and selected samples have assayed as high as 50 per cent copper and a small amount of gold, while the average runs about 40 per cent copper. In the shallowpiggs the vein is from one to eight inches in width and the camp is within a few miles of an unlimited coal supply.

THE HAILEY GOLD BELT.

Wilson Speaks Well of it and Looks Into the Future.

That the Hailey gold belt is a worthy proposition and will yet become a setting of bonanzas, is the candid opinion of F. E. Wilson, who came to Salt Lake from Hailey, Mr. Wilson reports John Q. Parkhard's Top Top in tip-top shape and says it is really the only defined lode worked at Hailey. The property has a stamp mill nearly ready to start, and to work rocks of by everyone is the opinion. Considerable work is going on in that section at present and the hauling in of new machinery would indicate a very lively and busy campaign this season. A mine sampled by the gentleman showed free gold in rich abundance and has to another lot of ore by assayed 64 ounces silver, 40 per cent lead and $1.60 gold to the ton.

Mr. Wilson is manager of the Valley View mine in Blaine county, which he also visited. This property, he says, is looking better than ever before and he hopes soon to be able to make regular shipments. There is considerable snow yet in the mine, which retards development work, but, in the main, conditions are highly satisfactory. The manager expects to go back again in a week or so.

MINES AND MINING MEN.

The Bismuthic deal is practically closed up.

Twenty cars of ore were shipped from Silver City last week.

G. A. Dawson is now in charge of the Peyton mines as manager.

Seven Sutherland Sisters
HAIR GROWER
should be used by every woman, man and child desiring a rich, full head of hair, luxuriant whiskers, mustache or eyebrows or the hair. It thrives just the same in perfumed or in the hair balls and throughout the world. Some of half a million of them are in use. It prevents dandruff and makes the hair soft and glossy. It is the most refreshing, invigorating and perfumed dressing that can be obtained.
Beware of dealer substitutes and imitations. If your dealer cannot supply you, write to us and we will see to it that you are supplied.

Davis & Co.
Honest Clothiers.

The Weber and Nearer mill at Park City will probably start up soon.

David J. Cook has been appointed notary public for Utah at the Union mine of Park Heritage.

As expected, Captain De La Mar arrived in Salt Lake yesterday afternoon.

The recent strike in the Eagle mine at Mercur is said to assay upwards of [illegible] an ounce.

Stockholders in the Sacramento company have received their respective portions of a $1,000 dividend today.

It is estimated that between 200 and 300 people went to Tintic and Mercur yesterday over the Oregon Short Line.

Fred Dorn went out to Mercur this morning. His brother Oscar returned Saturday evening with a good report of the camp.

Four cars from Bingham and ten from Tintic reached the Taylor & Bruton sampler today, while the Conklin reported eight from Tintic.

It is reported that Frank Kipperbe will succeed Thomas Weir as the Highland Boy company's manager, while Mr. Manning will be general superintendent.

W. M. Evans has applied for membership on the Utah exchange. Pending a vote on his application the gentleman will enjoy the privileges of the floor.

Thomas Weir, of the Highland Boy, was out at Bingham later giving express instructions to the superintendent. He says the work is being pushed along with the usual vigor.

Vernal Express: John Pope and Joseph Stevenson, contract for 50 cords of blue gum wood, to be delivered on the Sunday night. They report that the oil rose for a quarter of a mile through the sandy ground before it is finally lost, and as the country is quite porous there is a considerable flow.

Price Advocate: The first car of coal was shipped from Castle Gate, where work out of Price last Saturday, bound to the Chicago from that takes up the whole product of the Reeves Mining company, operating on the reservation of the Uintah Indians.

Articles of incorporation of the Oregon Mining company, with a capital stock of $1,000 in shares of 10 cents each, have been filed with the county clerk. Timothy Eaton is president, Josiah Burnett, vice president and treasurer, and C. L. Hodges, secretary. The property for development is a nine-tenths interest in the Oregon claim, in Big Cottonwood district, and located at Alta.

Horses Kick
Shearing Process
Putnam Nails
are exclusively Hot-Forged and Hammer-Pointed, precisely like the old-fashioned hand-made nail. The peculiar needle nail portions of them closely resemble hand-made nails, and the "Hot-Forged" process, if they could speak, would say, "Hammer-Pointed." Hence they are Stronger, Sharper, Stiffer and Stick and in Spite Never to Break and in
Absolutely Safe.
Ensure the nails to your smith's shop, for your shop, right, right are the Hot-Forged Putnam. Ask for the Hot-Forged Putnam, if they stick right. If the dealer says the genuine Hot-Forged Putnam, take the nails home and hammer them and see for yourself.
Hand-rug, wicket gauge, nailed on bottom of box, in stamps or silver.
PUTNAM NAIL COMPANY, Neponset, Boston, Mass.

For sale by L. C. M. I., Clark Eldredge & Co., Salt Lake Hardware Co., and Geo. A. Lowe, Salt Lake City, Utah.
