RAILROAD TO DEEP CREEK.

C. E. Wantland Recommends the Incorporation of a Local Company.

LAND POOL SCHEME SUGGESTED.

He Gives the Details of His Plan and is Confident that it Can be Made a Success.

Councilman Wantland said to a NEWS reporter this morning: "I have a plan to promote the building of a railroad to Deep Creek and am confident that it can be made successful. It is as follows:

"Incorporate a local company to cover the route from Salt Lake City to Deep Creek, following a course (not fifty miles west of Garfield) which will make the line available for a Los Angeles course as well as Deep Creek, and the Northwest and San Francisco.

"The authorized capital stock is great enough to cover the entire line from Salt Lake westward, but the capital to be subscribed now need not be over $500,000, which could be established at the minimum and would be sufficient to build fifty miles of road starting from a point on the Union Pacific just west of Garfield. When that fifty miles is built the Union Pacific or Santa Fe will be glad to make traffic arrangements to cover the business and prevent another line between the Lake and the city. This of course can be rejected or accepted as circumstances may warrant. It would be well of course for the company to secure rights of way into the city at the start, but active building should commence where the present line ends.

"It will be easy to extend to or from the city after the first fifty miles are completed, all will admit. To get the stock will be the trouble. The most feasible plan would seem to be the 'Land Pool,' to be operated about as follows:

"After securing all possible assistance, right of way, grading from land owners of Tooele county (through which the road will run), considerable labor can be secured to complete grading from Salt Lake and other counties. The latter will be contributed in exchange for stock in the railway. Some the contracts can probably be paid for in part at least by such subscriptions. Mine owners in Deep Creek and districts between there and Salt Lake will contribute to the railway company either cash, labor or interests in their claims. It can be safely estimated that donations of labor, use, right of way and cash which can be secured from interested parties will amount to $100,000 at the $500,000 estimated cost—the remaining $300,000 to be raised from a land pool. Property owners of Salt Lake City and county to form a syndicate incorporated or require a trust for the subscribers and to the value of say $300,000. The syndicate to subscribe for stock in the railway company $300,000, making $600,000 available on which to borrow at home or abroad the $300,000 or so much as may be necessary to complete the fifty miles.

"The fifty miles completed can be bonded to extend the road at least fifty miles more, or far enough into the mining camps to secure the advantages the city desires. The fact that Salt Lake City had taken such a step in the direction of helping itself would prove to be worth millions to the land values long before the road was completed, and the land syndicate could sell its property at a handsome advance and distribute the railway stock to subscribers.

"This pool is feasible and has been mentioned to and practically approved by some of the strongest men of the city. There is no doubt about the ability of the people to put up unencumbered land to this extent, and there is certainly no doubt about getting at least $100,000 contributed in labor, supplies, etc., in exchange for stock in the railway company. By making it a local affair it would have the strength of the community back of it and would be bound to succeed.

"By not wasting energy at first on the twenty miles between the city and the lake there would be no fight with the present roads, either of which would be glad to make favorable trackage arrangements to obviate the necessity of a third line between the lake and the city.

"This road would put new life into the city and bring in just fifty miles nearer to San Francisco and Los Angeles."

SCHOOL BOARD MATTERS.

Cash to the Amount of $220,500 Will be Needed During the Year Commencing July 1, 1893.

The board of education met in regular session last night, all the members being present.

The committee on sites and buildings recommended that the Hendy & Meyer Engineering company be notified that the committee will, before March 12, make examination of the heating plans placed by them in the Lincoln and Bryant building, with a view to acceptance of same. Adopted.

The committee on sites and buildings recommended that the superintendent of buildings be authorized to make changes in the Hamilton school as follows: To build a 17-inch wall on the south side of the southwest classroom, to divide the class rooms from the hallway floor the three west rooms, which are about three feet above the surface, with wood, instead of cement, and to cut doorways in said rooms for class and cloak rooms. Adopted.

The same committee reported that they had decided to lay wooden floors over the cement in the southeast and northwest rooms on the ground floor of the Franklin school and to fit them in class rooms. They also recommended the acceptance of the Hamilton school upon the receipt of a certificate from the superintendent of buildings stating that same has been finished in accordance with the contracts. They also recommended that the south rooms on the ground floor be fitted for school rooms. Adopted.

The same committee recommended that the contract for the heating of the Jackson school building made between the board and the Hendy & Meyer Engineering company on October 24, 1892, be annulled for the following reasons: That the system is not satisfactory and that it has not been complied according to contract; that it is erected in unworkmanlike manner, unnecessarily delaying and injuring the building, and that they have not computed the same in accordance with the specifications as to the distribution of air in the class rooms. Laid on the table for one month.

The same committee recommended that authority be granted to one to purchase made to be placed in front of the drinking fountains at the Lowell school; to purchase wire mesh for the doors and fountains at the Hamilton school; to purchase ten thermometers and one gong for the Hamilton school; that Adeline Burgon be appointed janitor for South Town school at $10 per month, and that William Knight be appointed janitor of the Lincoln Park school at the same salary. Adopted.

The committee on teachers and school work made the following recommendations:

That Mrs. Major be transferred from the special school to the Lincoln Park school, to take the place of Mrs. Mapleson, who has resigned, and that her salary be raised to $75 per month.

That Mr. Angelengo be given a leave of absence for three weeks with a continuance of salary, in order to permit him to go to Chicago to install the educational exhibit for Utah, his expenses to be borne by other parties.

That the Liberty Park school be discontinued, as the attendance is too small to justify the expense.

That the superintendent be authorized to discontinue the school in the Hicks building as soon as the Hamilton school is ready for occupancy and that the children be transferred from that school and the Second ward school to the Hamilton, adapting one room in the Second ward school to accommodate small children.

That Miss Robsins, who has acted as principal of the Lowell school for the past month, be paid $80 per month from January 27th during further services.

That upon the transference to the Lowell school of Mr. McKay, to act as principal in that building, that Mr. Work who is now principal of the second ward school, be transferred to the principalship of the Tenth ward school at a salary of $100 per month.

Adopted, except as to the paragraph relating to the Liberty park school, which was resubmitted to the committee.

The committee on finance submitted the following estimate of funds required for the school year commencing July 1, 1893, as required by law:

Expenses	$ 15,000
Payment of teachers	170,000
Payment of text-books	11,000
Janitors' salaries	18,000
Fuel and light	8,000
Repairs and contingencies	8,000
Rent of buildings	2,000
School supplies	3,000
Interest on bonded debt	35,000
Sinking fund	30,000
Total	$320,000

The board will receive from the territory about $50,000 and $30,000 from the county, which, deducted from the sum required, will leave $120,000 to be covered by the city school tax for 1893.

The committee asked the approval of the estimate and that they be instructed to forward a copy to the assessor and collector as required by law.

CLAIMS ALLOWED.

The following claims were allowed:

Teachers' salaries for month ending Feb. 28	$14,208 90
Janitors' salaries for February	1,162 50
Rent of buildings for school purposes	45 00

Deseret News Publishing company, printing	14 00
Geo. Parker and assistants, moving school goods	100 50
Crockett Bros. & Byron, stamped envelope down	22 50
Total	$16,546 75

Adjourned for one week.

San Juan Stake Conference.

The quarterly conference of the San Juan Stake of Zion was held at Bluff, San Juan county, Utah, Feb. 19th and 20th, 1893.

Besides the Presidency of the Stake, most of the High Councilors, Bishops and their counselors were present. The weather was beautiful and the meetings were well attended.

The Bishops' reports were encouraging, and showed that a majority of the Saints are doing better, and increasing in faith, tithes, offerings and good works, and that they are prospering financially as well as spiritually.

The meetings and instructions given at the conference were on the principles of forgiveness, humility and unity.

The Y. M. M. I. A., Relief and Primary associations held their respective conferences, which were well attended.

The general and local authorities were unanimously sustained.

The quarterly conferences are times of re-uniting, and although some of the Saints travel a distance of over a hundred miles by team, they seem to be paid for their sacrifices in meeting together, in coming out and traveling through snow, mud and sand to reach and attend the conferences.

CHARLES S. WALTON,
Stake Clerk.

Democratic Committee.

There will be a meeting of the Democratic County Central committee at 3 o'clock Saturday afternoon at George W. Snow's room, third floor of Hoop & Ellerbeck block, to transact important business. By order of the executive board.

J. S. TORRANCE, Chairman,
JOHN BERRY,
GEORGE W. SNOW,
EDGAR A. SHELL.

An Acknowledgment.

The grand jury had several little matters to clear up in their room before separating late yesterday afternoon, subsequent to the presentation of their final report to Chief Justice Zane. Among others the adoption of the following:

Resolved, That the grand jury tender to Hon. L. A. Rockwell thanks for the courteous manner in which he has conducted his business with it.

Resolved, that the grand jury expresses to Deputy Marshal Springer its thanks for the courteous and efficient manner in which he has served it as bailiff in charge.

J. J. THOMAS, Foreman.
ERNEST KLEINEDAM, Clerk.

Mr. John Hoagerjord

President of the San Pedro stake of the West Jordan Stake, S. L. Co., says Hood's Sarsaparilla gave him a clear mind of anything he ever took for blood troubles with the

Liver and Kidneys

which had suffered for a long time, and he says it has done them good, and strongly recommends it to all who need such a medicine.

Hood's Sarsaparilla

Sold by druggists. $1 a bottle. Prepared only by C. I. Hood & Co., Lowell, Mass.

HOOD'S PILLS are a mild, gentle, reliable and efficient cathartic. Sold by druggists. 25c.

$1.00
School Shoes,
5—10½.

Good Looks.

Good looks are more than skin deep, depending upon a healthy condition of all the vital organs. If the Liver is inactive you have a Bilious look, and if your stomach be disordered you have a Dyspeptic look, and if your Kidneys be affected you have a pinched look. Secure good health and you will have good looks. Electric Bitters is the great alterative and Tonic, acts directly on these vital organs. Cures Pimples, Blotches, Boils, and gives a good complexion. Sold at A. C. Smith & Co's Drug Store, 50c per bottle.

All Free.

Those who have used Dr. King's New Discovery know its value, and those who have not have now the opportunity to try it Free. Call on the advertised Druggist and get a Trial Bottle, Free. Send your name and address to H. E. Bucklen & Co., Chicago, and get a sample box of Dr. King's New Life Pills Free, as well as a copy of Guide to Health and Household Instructor, Free. All of which is guaranteed to do you good and cost you nothing. A. C. Smith & Co's Drug Store.
