A $2,500 HOUSE.

It Is of Artistic Design, Well Built and Conveniently Arranged.

(Copyright, 1891, by American Press Association.)

It does not follow because we are not rich we may not build a beautiful house. On the contrary, a greater effort should be made in proportion the parts of the design so as to get the particular effects for the outline of the building, with little or no ornamentation. Simplicity is the keynote of success in architectural design and decoration. The illustrations here shown represent the plans and a perspective view of a conveniently arranged eight room cottage, suitable for a family in moderate circumstances. It is to be located on a plot of ground of 80x 150 feet. 50x90 in dimensions, and is placed some distance from the street so as to secure a good sized yard in front of the building, which in itself is always a pleasing feature. A cellar extends under the entire building. The foundation walls are of field stone or brick laid to a line on both sides in cement mortar. The piers which support the veranda and back porch are of brick.

PERSPECTIVE.

The first story comprises a parlor 12x15 with a corner fire place, and is lighted by two windows in front and one on the side, and communicates with the hall and dining room by large openings which are provided with portieres, poles and rings at the top, to which suitable curtains may be attached. The woodwork about these openings is so constructed that folding doors can be substituted for the curtain arrangement at any time. Adjoining the parlor is the staircase hall, 12x10 in size, which communicates with the dining room by a hinged panel door at the back, and is entered from the veranda through an entry wide front door. The dining room, 12x15, is lighted by a bay window of the full width of the room—which gives a classical effect inside and an exceedingly picturesque appearance on the exterior. The dining room communicates with the kitchen through the pantry and with the sitting room through the large opening similar to the parlor. Underneath the front stairs is the china closet, fitted up with shelves and suitable drawers for cutlery. The sitting room, 12x14, opposite the dining room, gives the proper balance to the plan in appearance and accommodation. A veranda extends across the front of the house and on the side the full depth of the parlor.

FIRST STORY.

A pretty porch over the front protects the stoop. A door from opens from the sitting room directly upon the veranda, which is a very convenient feature, especially for warm weather. Lately in the kitchen (12x12) with back stairs to the second story and stairs to the cellar, with a closet for stores between the doors as shown. The pantry is well arranged and is fitted up with shelves in the usual way. The kitchen is provided with a sink and portable range without a brick opening. Two reasons may be given why this is preferable to the built in range. First, it is cheaper, and second, it is cleaner. The kitchen is wainscoted 3 feet high to protect the walls. The outside kitchen door is also protected by a hood, some porch. In the second story are four good sized chambers, with a closet for each, a large hall, back stairs leading to the kitchen and a flight leading to the attic, which is simply floored and the whole left unfinished. The building is of wood above the cellar, constructed with balloon frame, the walls sheathed with rough boards and covered with waterproof paper, and clapboarded on the outside, with the exception of the gables, which are shingled. The walls and ceilings on the inside are been finished on two coats of brown mortar and

SECOND STORY.

seasoned lath. The floors are of dry North Carolina pine, all other woodwork, except the ceiling and newels of the stairs, is of white pine, painted two coats; all roofs shingled, leaders of zalvys and all flashings, leaders, etc., of I. C. tin; all exterior woodwork painted two coats.

D. W. KING.

A child such must ever contribute to health, be it in infancy or adult life. But mothers in humble circumstances quite generally find it impossible to devote as much time to nursing babies as they would wish, and so, as their children grow older, the bath is given less often. It certainly should be persisted in daily throughout the dog year. After that period it may not be needed so often. But during the next two years a bath ought to be administered at least every other day.

English as the Is Pronounced.

"Papa, what does c-o-l-o-n-e-l spell?"

"Kernel, my son."

"And does c-o-l-o-n-e-l spell camel?"—Harper's Bazar.

THE CRY OF MILLIONS
OH, MY BACK!
STOP IT NOW,
SOON IT WILL BE TOO LATE.
I have been troubled many years with disease of the kidneys and have tried many different remedies and have sought all those different physicians without relief. About the time of April I was suffering from a very severe attack that almost prostrated me in each of my support. But I was told about Mr. Hanley's OREGON KIDNEY TEA. It did me good. I immediately commenced using the tea. It had an almost astonishing effect, and to the astonishment of all the people around home, in a few days I no longer needed a crutch, that I was a sick man. I will recommend the tea to all sufferers as I have done.

The book is bound in four different styles and sent postpaid to any address at the following
PRICES: 45 cents, 65 cents, 85 cents, and $1.10.

A Warning
To Horse-Owners.
The Split Nail in this Shoe recently latined the horse from which it was recently taken in Worcester, Mass. One point of the nail came out in the proper place for clinching, and so deceived the blacksmith who shod the horse. The other point went to the direction shown in the illustration, pierching the tender part of the foot called the "quick," from which the horse was made unfit for use nearly two weeks.
This is not an unusual case. The same thing is liable to happen with any nail of the ordinary high quality. Since the nailed are fitted in the shoes, the Putnam Nail Co. has placed a caution label on the boxes containing their nails, which reads:
DANGEROUS!
Be careful in driving these nails, as they are liable to split if driven in the same manner as other nails. Should they show a tendency to split, they should be withdrawn and a new nail used.
The Putnam Nail
CANNOT SPLIT, SLIVER OR BREAK.
It is the only Hot-Pressed and Hammer-Finished Horseshoe Nail in the World made by machinery in precisely the same manner as the old-fashioned hand-made nail.
The United States Government protects the process of their manufacture through patents, and other firms who make or advertise a Horseshoe Nail as here described, are guilty of infringement and Deceiving the Public.
AS YOU VALUE YOUR HORSE
Insist on your Blacksmith using the PUTNAM. It is absolutely safe.
For sale by all dealers in Horseshoe Nails. Sample box by mail. Mention this Paper.

WHY THE DESERET NEWS SHOULD BE SUBSCRIBED FOR IN PREFERENCE TO ANY OTHER PAPER.
1. It is the Organ of the Church of Jesus Christ of Latter-day Saints, and the Deseret News is the medium through which the views, wishes and instructions of the Church Authorities are expressed, and given to the Saints.
2. It may always be relied upon as advocating or defending the right side of every question proper for public journals to treat upon.
3. It is devoted to the interests of the Latter-day Saints and has, from the time of its first issue, valiantly defended their rights and advocated the principles in which they believe, and every Latter-day Saint should therefore feel under obligations to do his part in helping to sustain it.
4. It is not published for speculation, and never has been, but for the good which it is capable of accomplishing; the profits, if any there be derived from it, being devoted to extending its sphere of usefulness, and benefitting the community.
5. It is doing its utmost to establish home industries, among which are paper making and type-founding, stereotyping and electrotyping—branches necessary to the development and independence of the community, but which, during their infancy (which in this Territory they have not yet passed), can only be carried on at a pecuniary loss.
6. There is no danger of any subscriber to the News falling to get what he subscribes for through failure of the business of a competitor, or by a sudden stoppage—incident to the case of hundreds of newspaper ventures every year.
7. It is now printed throughout in new and readable type, so that even the aged can peruse it without difficulty or danger to their eyesight.
8. It is free from objectionable advertisements, so that no parent need fear that his children will have their minds corrupted from having access to it; in fact, it refuses thousands of dollars worth of the best paying advertisements annually, because it is devoted to the moral and spiritual interests of its readers instead of to getting gain at their expense.
9. Its tone is not regulated by public opinion nor the hope of gaining subscribers or advertisements. It advocates that which is right and condemns that which is wrong, regardless of results, temporal or otherwise.
10. It never necessitates its readers by printing of columns of self-praise for news items.
11. The News practices no deceptions and resorts to no subterfuges to induce people to subscribe, but on the contrary, relies to stand on its own merits as the people's newspaper, with a promise only to do its utmost to give its patrons the full value of their money—a promise which it has endeavored to faithfully keep in the past.
12. In conclusion, if a Latter-day Saint can afford to subscribe for only one newspaper, that paper should be the Deseret News, and if more than one, the News should inveriably be the first.
