THE SALINA CALAMITY.

Statement That Puts It in a Different Light.

In the First Report Owen A. Kelley Was Unjustly Treated—The Fact Is Now.

CENTRAL, SEVIER COUNTY,
July 8, 1896.

To the Editor:

I see a piece in your paper concerning the accident at Salina on July the 4th. That piece states that I placed myself forward and the committee forbade it, but it is a mistake. I was urged to assist them. The anvils were placed near the brewery, and I mixed them about eight or ten yards, and one of the committee, Thomas Oliver, went for the fuse. It was brought and myself and Delbert Harper loaded the under anvil. The horn and the top anvil had no powder in. After this we returned to the brewery to hear the Declaration of Independence read. Then by request of committee I fired the anvil. While turning toward the brewery I heard the scream of the girls and ran to see what was the alarm, observing that the fuse had burnt and a piece had fractured the girl's leg. As to the story that I mounted a horse and rode away, it is a mistake, for I remained in Salina until Tuesday morning.

OWEN A. KELLEY.

SALINA, SEVIER COUNTY,
July 10, 1896.

To the Editor:

A piece has appeared in the columns of your paper against one Owen Kelley, and I consider it my duty to answer and correct the statement.

Owen Kelley is a young married man, well respected by school house county. He lives at Liberty. He came down to Salina to spend the Fourth of July and went to the hall. The young men that were firing the anvil asked him to help them. One of the cones got a boy after a wagon horn. When the horn came Kelley said a young man named Harper asked him. The latter asked Kelley to touch it off, so he did it. Before firing the anvil Kelley said it was too close to the people, and he carried it farther away and would have carried it still farther, but the other young men said it was far enough, so he took it a step or two farther and put it down. He only did what he was asked to do, and nobody ever insisted on him not shooting. He was not on a horse at the 4th of July. He never ran away. He went with the people up to the meeting, and came from there walked with my boys to home. He stayed here and went to the funeral on the 5th and left my place on the 7th for his home.

It is true some few tried to raise a mob and drag him to town, but such characters seldom have courage to back any one.

Salina has fired horns before and has had them burst before, and I guess it would be hard to find a town that has not done the same thing. But they will never learn this simple lesson that it is dangerous. If there was any one to blame it was certainly the city officers. But I have no one to accuse. Most accidents occur through carelessness. HYRUM H. FERRIS.

Insane Asylum.

Yesterday the board of directors of the insane asylum met at Provo, all the members being present.

The medical superintendent reported 128 male and 110 female patients a total of 238, in the asylum. One died while the board was in session, having had 235. The deceased was Gilbert Hallett of Summit county. He died of general debility and old age.

Dr. Healy submitted the following names of appointments made, which the board confirmed: Joseph Graham, carpenter; John Gutherlea, night watchman; Simon Snyder and George Perry attendants.

The institution has recently been thoroughly renovated and the inmates are being more carefully classified than heretofore, this being to the opinion of the present management a matter of much importance.

In House of Missionaries.

Elder Philip Maycock, an instructor in the Latter-day Saints College, and Elder Joseph Stringfellow, a graduate of that institution, both of whom are members of the Third ward, have recently been called on missions, the first named to Germany and the other to England. On Tuesday evening next an entertainment in their honor will be given in the Third ward chapel. It will be a concert, and refreshments will be served. No doubt it will be a very pleasant affair.

Fight at Mammoth.

Special Correspondence of the News.

MAMMOTH, July 8, 1896.—The Bingham Consolidated mill was again the scene of another fight last night between Foreman Lindsey and workman Dennis. From the information gathered here today, it appears that the foreman entered some of the workmen rather heavily, and Dennis, one of the second floor men, hearing the remark and being somewhat prejudiced towards Lindsey, began showing the foreman.

Lindsey remonstrated with him, only to be violently attacked by Dennis. The foreman was equal to the occasion, however, and the fight commenced. Neither Wrestler nor Quick Mixture being the desired end of the fracas. The sequel finds Lindsey down, and Dennis in the same Charles Jason carried in and called Doctor Hoff. He revived the worst and would have one his friends home.

This latter is a heavy cut on the scalp and the foreman is certain that Dennis got out of the fight with just a few scratches. Lindsey swore out a warrant here this morning, and it will be Mike Mullin is on the board for Dennis but as yet he has been unable to catch his man.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which result before properly informed, pleasant, effective remedies were unknown. There is comfort in the knowledge that no more forms of medicine are needed to use actual disease, but simply to a complete knowledge of the cause, which the pleasant, gentle laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the only remedy which presents internal cleanliness without debilitating the system in which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the enlightened, enlightened, Syrup of Figs stands highest and is most largely used and gives the most general satisfaction.

going to lose money, lots of it, unless our tea is what we say it is; for we're going to give money back if you don't like *Schilling's Best*, and that means giving you tea for nothing—and then here's all this advertising going to waste.

Foolish! But maybe our tea *is* pure Japan and fresh and best, and maybe you'll try it, and like it, and buy some more, and never want anything else.

Maybe we aren't foolish after all.

Horses Kick

In self defense. It is their main argument. Much of it could spare the sight. Hoofs take no notice, but stick out to kick. Horseshoes are used with a view to protection of the danger that is liable to follow.

This is what happens! One part some one shoes is shaved for the clinch, the other is not shaved, and the point is left sharp and the clinch of the hoof is filed and taken off the hoof.
