THE TARIFF BILL.

Some of the Features of the New Measure Said to be Radical.

FREE WOOL IS ONE OF THE ITEMS.

The Idea of Tariff for Revenue Only Carried Out.—Cleveland and Carlisle Persue the Bill.

WASHINGTON, Oct. 26.—It is understood that a rough draft of the proposed tariff bill is now in the hands of President Cleveland and Secretary Carlisle for perusal. Some of the features of the bill are radical. The Springer free wool bill, which passed the House at the last Congress, is incorporated into the bill, practically without change. There is to be a radical cut made in the glass schedule.

There will be a considerable enlargement of the free list, by the addition of raw materials, and a heavy cut in all articles which are not properly revenue duties. The idea of a tariff for revenue only is adhered to quite closely, yet this application may not be made to coal and iron ore, which go on the free list, and there is a very considerable slashing down of the entire iron and steel schedule. The tax on whisky will be increased not above 20 cents. An increase in the beer tax is practically decided upon.

The subcommittee have not quite made up their own minds on the sugar question, but they have practically determined not to try to get any revenue out of sugar. The sugar bounty will go, however. Either an income tax or an inheritance tax will be provided to increase the revenues.

The Stewart Will.

NEW YORK, Oct. 26.—The re-trial of the suit of Alexander Stewart against Judge Henry Hilton was begun today before Judge Daly, in the court of common pleas. Ex-Judge Curtis is opening for the plaintiff, traces the pedigree of his client and proved his relationship to the late Alexander Stewart, whose will is involved in the suit.

For Missionary Work.

MINNEAPOLIS, Minn., Oct. 26.—The reports of the national convention of the Woman's Foreign Missionary society, Methodist Episcopal Church, presented at today's session, showed that the different branches contributed $237,156 for missionary work during the last year, an increase of $11,917 over the previous year. The report of the missionary bears showed the assets to be $9621, and the circulation about 37,000.

Not Great Coming West.

NEW YORK, Oct. 26.—The Chicago and St. Louis special train which drew out of the Pennsylvania railroad depot this afternoon in Jersey city, had attached to it the private car Malet, in which was Mrs. U. S. Grant with her party, bound for Catoosula, where they will spend the winter on the ranch of Jesse R. Grant.

The Battle Creek Harvest.

BATTLE CREEK, Mich., Oct. 26.—The coroner today adjourned the inquest in the Grand Trunk wreck until November 8th, in order to give Lawyer Hurlburt time to investigate some testimony he expects to produce in behalf of Conductor Scott, who is now willing to go on the stand. The body of Mrs. S. D. Wood, of Cuba, N. Y., was positively identified today. This body is the one sent to Edwardsburg as Mrs. E. A. Aldrich.

Pain His Hope to Hypnotize.

CHICAGO, Oct. 26.—George Painter, who escaped with murderer Wilkerson to be hanged on December 1st, says he thinks hypnotism will help him secure a pardon. He declares that a man in a hypnotic state must tell the truth and act just as he did on the occasion he is questioned about. Painter hopes Governor Altgeld will permit him to submit to experiments, with a view to securing a pardon.

She Had Her Revenge.

OMAHA, Neb., Oct. 26.—Mrs. Elias Rudinger of South Omaha, confessed to her husband that she had been intimate with Henry Reiser. Rudiger Asked Reiser to make a similar statement, in order that a divorce might be procured quietly. Reiser declined to do this. The evening Mrs. Rudinger asked Reiser to help her, and he refused again. The woman then fired twice at her seducer, one shot severing the spinal cord.

A STEAMER ASHORE.

The City of New York Probably a Total Loss.

SAN FRANCISCO, Oct. 26.—The Pacific Mail company's steamer City of New York went ashore this evening in a fog at Point Bonita and will probably be a total loss. She sailed for China and Japan at 3:30 p. m. About 4:30 p. m. the big ocean steamer was lost sight of and shortly thereafter the booming of cannon could be heard and signal rockets could be seen as they burst above the fog.

Soon every tug in the bay was racing for Point Bonita. Arriving there it was found that the vessel was hard and fast on the rocks, having gone on full head.

As soon as the ship struck there was a scene of wild confusion. A couple of hundred Chinese in the steerage set up a howl that could be heard miles across the Golden Gate. Captain Johnson and the officers soon restored order.

The steamer has eight feet of water in her hold and the tugs cannot move her. The loss will be half a million, it is estimated. All the passengers have been taken off and are being brought back to the city.

Though the steamer is doomed, it is believed she will hold together until the cargo can be jettisoned. Her cargo of merchandise is valued at $150,000. She also carried $130,000 in treasure.

Corbett is Willing.

ASBURY PARK, N. J., Oct. 26.—The eight-round go J. J. Corbett received a dispatch from the Olympic club, New Orleans, offering a purse of $20,000 for the Corbett-Mitchell glove contest to be decided at their club. Corbett immediately replied his acceptance of the offer, but stipulated that the club put up a deposit of $10,000 as a guarantee for the fight to make off to New Orleans. The sheriffs stopped the club to make the date for the contest earlier than set by the Coney Island Athletic club, and suggested the latter part of November. Corbett said: "I am anxious to accommodate Mitchell, and now that I am relieved of the Coney Island club agreement, I see my way clear to do so, although the purse is less than that I contended for with Sullivan."

A Mining Suit.

SPRINGFIELD, Ills., Oct. 26.—Arguments were commenced today in the United States circuit court in the case of the Uncowoo King Mining company, whose property is located at Uncowoo Kings, Yavapai county, Arizona, against Orrin N. Floer and George P. Harrington, on a motion to enjoin Floer from holding a stockholders' meeting or attempting to vote the stock of Wash C. Cheesbro, which is held by proxy, or from selling or assigning the shares of stock in the mine, and also to enjoin Harrington, the secretary, from issuing any new certificates of stock for those now held by Floer.

The arguments were continued until November 10th, and Judge Allen ordered Floer, Harrington and J. L. Marchand to turn over to the court all books and accounts of the company held by them.

A New Gunboat Launched.

NEW YORK, Oct. 26.—The new gunboat Machias arrived here this morning from her trial trip. There is considerable doubt as to her stability and the report of the government inspecting board will be looked for anxiously.

TAMMANY ORATORS.

New York Democrats Endorse the Administration.

NEW YORK, Oct. 26.—The Democrats held a great rally in and around Tammany hall tonight. It was a ratification meeting of the campaign and in a blaze of red fire the Tammany orators again enunciated Democratic principles and vied with each other in proclaiming the Simon for office of the men whom they had put in nomination. Resolutions were passed during the course of the evening commending the platform of the Democratic party to the people at large, endorsing the policy of the President, governor and municipal administration, and particularly endorsing the work of the organization itself.

Governor Flower presided. In his speech he said: "We made Grover Cleveland President a year ago because we thought men wanted a strong man there to stand up for an honest dollar, and we want to show in this election that the people of New York are again behind and that they endorse an administration. A Republican victory in New York this fall would be interpreted by the country as a rebuke to the Democratic administration and would mean that the people of the Empire state believe in perpetuating a law which has done so much mischief. Do not let the Empire state be so misrepresented."

The other speeches were confined principally to state issues.

Fire in a Penitentiary.

LINCOLN, Neb., Oct. 26.—A fire which caused a great scare in the city, through rumors of heavy loss of life, but happily unattended by fatalities, broke out in the enclosure of the state penitentiary in the manufacturing buildings of the institution about 8 o'clock this evening. It had its origin in the foundry-room, spread rapidly and entirely consumed the room, as well as the cases in which are the range works and harness shops. There was some anxiety among the convicts, but they were safely in the eighteen dungeons, and Warden Beemer provided for their transfer to another part of the building.

ARCTIC EXPLORERS.

A party Starts for the Northern Regions in Small Boats.

PITTSBURG, Oct. Oct. 27.—Captain Aaron Kingdon, of California and party of ten left Pittsburg today to drive small vessels, their objective point being Herrell Island, in the Northern Arctic Ocean, about two hundred miles north of where the Jeanette was lost. The boats are not ordinary lifeboats, but ordinary skiffs, and Captain Kingdon is confident of the success of the expedition. From Pittsburg the expedition will go down to New Orleans, then through the Gulf of Mexico to the eastern coast of South America, to Cape Horn, up the West coast to Behring Sea and the straits and into the Arctic seas. In the party are Captain Kingdon's wife, his brother-in-law, and C. H. Spangel and wife. They expect to be gone a year.

SCENE AT A CIRCUS.

A Big Lion Breaks Loose and Creates Terror.

NEW YORK, Oct. 26.—Wallace, the big lion belonging to Hubrich's Australian circus, today escaped from his cage and mangled and killed a horse and badly injured the owner, Frank Hubrich. Two women and two children, who were in the building were rescued with difficulty through the hay loft door. There was a scene of wild confusion, and the other animals in the building were wild with fear, their yells adding additional terror to the scene.

Cannibals in Tramp.

When Mr. Hudson was in Patagonia, he fell in with a gang, who told him that always after the first few rounds of the game he knew some of the cards as they were dealt. He recognized them by a difference so slight that another man could not detect it even when it was pointed out to him.

Mr. Hudson is an ornithologist, and he says that this same peculiarity sharp eyed man was greatly surprised when he was told that half a dozen birds of eighteen were feeding and singing about the house. He had never seen any difference in them, he said. In size, color, shape and actions they were all alike, and they all sang and twittered alike, so far as he had ever noticed.—Youth's Companion.

Russian Oil Kings.

The wealthy Russian oil kings, the Nobel brothers, who have driven American oil out of nearly all Europe, have no lack of crude petroleum, for they own it themself and it seems to oil wells near Baku, and several are plugged down, not being wanted at present. One of these monster wells has suddenly spouted 40,000,000 gallons to the surface, and not long ago the great Droujba fountain was found to be flooding at 500 feet and ejected the oil at the rate of 9,000 tons a day.—London Tit-Bits.

BRAZILIAN REVOLUTION.

Official Reports Represent the Insurgents in a Bad Fix.

Admiral Mendoza's Officers—The Chilean Sailors Remanded to Ship.—Other News.

PARIS, Oct. 26.—The special delegate of Brazil received a dispatch from Rio, dated October 25th, 8 p. m., which says the insurgent vessels are scarcely able to move from the fact that they are in need of extensive repairs, that their bottoms are foul and deficiency of coal almost extreme. The vessels are compelled to remain in the lower part of the bay, in order to avoid the fire of the new shots which would be sent in the government. Regarding the report that Admiral Da Mello, despairing of making any further progress, would bombard every place within reach of the guns of the fort of the government of the harbor, with the intention of joining with the insurgents in the southern provinces. The town of Nictheroy, the entrance of which was repeatedly announced, continues to make hostile resistance to the rebel squadron.

The Brazilian refugees said that the best force at the disposal of President Peixoto is numerous, well disciplined, able and willing to defend the federal government against the Constitutionalists. The reports circulated that the federal government has the support of all the states of the Union. The Brazilian minister states officially that the city of Rio de Janeiro is perfectly tranquil and business is being transacted as usual.

NEW YORK, Oct. 26.—The *Herald's* Montevideo advices from Rio says the report that Rear-Admiral Benham of the United States cruiser Newark was recalled and ordered to Washington for saluting Admiral Mello, and paying an official call on the leader of the insurgents, was received with surprise. He reports that from the outbreak of the revolution Admiral Mello has received recognition from the ships of foreign nations in the harbor of Rio. All the commanders of foreign war ships exchanged treats and continued notes with Mello.

Entertaining the English.

BUFFALO, Oct. 26.—The municipal authorities of this city entertained the officers of the British squadron at luncheon this afternoon. The mayor of Buffalo presided, and had an effective toast for Admiral Sir Michael Culme-Seymour and the duke of Genoa, in command of the Italian squadron. The usual complimentary speeches were made and toasts drunk amid great enthusiasm. A reception was held at the municipal theater this evening.

The Duke of Genoa entertained the officers of the British squadron at a banquet aboard the Lepanto this evening. This was followed by a reception at the residence of Admiral Lebrun.

A Comet Rock Falls.

BERLIN, Oct. 26.—The Frankfurter Zeitung announces the failure of the bank of Pfeifer & Hardmann of Cassel, with liabilities of 4,000,000 marks. Pfeifer has absconded.

Stabbed and Killed.

LONDON, Oct. 26.—A dispatch to the Times from Zanzibar says a lieutenant attached to the Italian steamer Stalloni, was recently stabbed and killed at Merkeni, a seaport town of East Africa. The death of the Italian lieutenant was immediately avenged by the bombardment of Merkeni, during which a number of Somalis were killed and considerable damage done to the town.

The Sinking of a Gun Boat.

NEW YORK, Oct. 26.—Recent dispatches from Haiti throw new light on the sinking of the gun boat Alexandre Petion, which is said to have gone down in a hurricane near Cape Tiburon. It appears now that the vessel was sent to the bottom by paid agents of General Manigat, leader of the revolutionary party, who for years has been plotting for the overthrow of President Hippolyte.

TREATMENT BY MAIL.

No Necessity of Coming to the City for Treatment.

Almost every sick person writes asking the question, "Can I be cured at home?" We unhesitatingly say, "Yes, in most cases." We can do this by the system of medicine we use, which is a specialty with us, and by our system of home treatment. Our success in curing patients at their own homes is as great as that of our patients who come to the city for treatment. Our medicines are sent by mail or express, securely packed from observation, to any address, with full directions for their use. Many of our patients who have been cured at home by our treatment have written us that our success is wonderful, but we do not think it so, for we know the virtue of our medicines, and we know that if our patients follow our directions we can cure them. We have cured many who have spent years and hundreds of dollars with other doctors, who had given them up to die, and who had tried every so-called remedy they had heard of, without avail, and who had lost all faith in medicine and in mankind, and who had been made to believe that their diseases were incurable, and that death was the only relief for them. We have cured many such cases. Our success in curing the worst cases of Catarrh, Lung Diseases, Nervous Debility, Kidney and Bladder Troubles, Rheumatism, Blood Poisoning, Skin Diseases, Piles, Rupture, Dropsy, Stomach Troubles, Deformities, Diseases of Women, Diseases of the Eye and Ear, Deafness, Throat and Lung Diseases, Paralysis, Epilepsy, Spinal Diseases, Diseases of the Liver and Kidneys, Diseases of the Blood, Skin and Nervous Diseases, Blood Poisoning, Blood Impurities, Contagious Blood Diseases, Syphilis, Gleet, Stricture, Varicocele, Impotence, Sexual Debility, Diseases of the Bladder and Urinary Organs, Diseases of the Rectum, Tapeworm, Catarrh, Asthma, Bronchitis, Throat and Lung Diseases, Consumption (if not too far advanced), Diseases of the Heart, Liver, Kidneys, Stomach, Bowels, Nerves, Blood, Skin, Bones, Joints, Muscles, Bladder, Rectum, Prostate Gland, Testicles, Urethra, Scrotum, Penis, Epidermis, Scalp, Hair, Eyes, Ears, Nose, Throat, Lungs, Chest, Breast, Side, Back, Spine, Limbs, Feet, Hands, Nerves, Muscles, Blood, Flesh, Bones, Joints, Nails, Teeth, Tongue, Lips, Face, Complexion, Voice, Cough, Dyspepsia, Indigestion, Constipation, Piles, Dizziness, Fainting Spells, Loss of Appetite, Sleeplessness, etc., are all cured by Medicines Mailed, Delivered and Sent Everywhere. I'M A WELL MAN.

Are the startling but yet true words spoken by Mr. Rock, who was suffering from Catarrh of the head, throat and stomach.

"I feel sound the disease is so bad, so far gone, so hopeless, so far from the ring, simply stated, so far out of the reach of medicine, that I feel that I am in my grave. Think of a man coming to life after being dead for years! Think of a man who had given up all hope of ever being well, who had spent years and hundreds of dollars with other doctors, who had been made to believe that his case was incurable, and that death was the only relief for him, who had tried every so-called remedy he had heard of, without avail, and who had lost all faith in medicine and in mankind, and who had been made to believe that their diseases were incurable, and that death was the only relief for them. Very Important Word Received From the East.

We have received important word from our buyer, Mr. Fyler, in the East, that he has purchased 200 more Ladies' and Misses' Jackets—the greatest of all purchases he has ever made. Bought at 50c on the dollar. Think of it! Ten per cent less than our last great purchase. An immense manufacturer's line, who was pressed to do it. They are here and on sale today. They'll go quick. We are doing the Cloak trade of Salt Lake. Crowded every day. We were compelled to increase our number of salesladies. Let us impress upon you strongly once more. Remember, today, Wednesday, it will be a memorable one. 200 lovely Garments.

OUR MOTTO—QUICK SALES AND SMALL PROFITS.

Our $9, $1, $5, $7 and $10 Cloaks are lovely. It costs nothing to see them.
