MINING, BUSINESS AND STOCKS

BUSINESS LIGHT ON THE EXCHANGE

Stock Market Sluggish, While Figures Remain Practically Stationary.

NEW YORK CAPTURES LAURELS

Does the Trading of the Day With Sales Up to 19 Cents—Lower Mammoth Weakens.

New York captured the laurels on the exchange today and sold freely a little above the figures of the day before. While the stock failed to show material strength, it rallied somewhat from the attack made upon it yesterday afternoon and dropped shares at 18½ and 19, with closing offerings at 19¼. Lower Mammoth suffered a setback, selling from 40 to 38 and closing with a bid of 37½. During the call Daly-West contributed 50 shares at $13.90, while May Day was active between 8 and 9 and Uncle Sam went at 31½. Columbus Con. was firm at $1.80 and Daly-Judge was a seller at $5.87½. Comstock found a taker at 8 cents. On the whole the market was sluggish and there was no marked disposition to do business.

The closing figures were as follows:

STRIKE AT PANAMINT.

Sensational Discovery Reported in the Wild Rose District.

The Bullfrog Miner says a party left that camp recently for the newly organized Wild Rose district in the Panamint Range, the scene of "Shorty" Harris' recent sensational strike. In the party were Billy Cocorane, Deputy Sheriff Tom McCabe, Len McGarry, the groceryman, Joe Simpson, a prospector, and a lot of others. There has been quite a stampede to the new district, Cocorane says there have been as many as 1,200 locations already made around the strike.

The Eclipse mine has about 250 sacks of ore on the dump that will go about $400. At a depth of 85 feet the ledge widened out to 14 feet, of which two feet is sacking ore, no sorting being necessary. The remainder of the vein is of good milling values, and to date not a ton of waste rock has been taken out of the shaft. The vein was only four feet wide on the surface with value of but $1.60. The wonderful increase of values at depth, sensational assays of $16,000 being obtained in spots, has given encouragement to work throughout the district.

The Denver piled up 500 sacks of ore in August going between $400 and $500.

GEOLOGY OF NEVADA.

Mr. Spurr of Government Survey Prepares Interesting Bulletin.

The fact that the United States Geological survey has just brought out a second edition of the bulletin written by Mr. Josiah Edward Spurr descriptive of the geology of Nevada south of the fortieth parallel and adjacent portions of California, bespeaks its value and popularity. After a word of introduction and a chapter explanatory of formation names, Mr. Spurr discusses his subject under four heads: ranges of east-central Nevada, ranges of west-central Nevada, ranges of southern Nevada, and the Great Basin ranges of California. The illustrations include eight photographic plates and 23 figures and sketches.

The field work upon which Mr. Spurr's report is based, was done in the summer and fall of 1899. After visiting the Wasatch range to study briefly the Paleozoic section, as determined by the fortieth parallel survey, Mr. Spurr proceeded to Eureka in Nevada, and there spent two weeks in studying that section, the best and most complete yet discovered in the far west. Feeling finally ready for untried ground, he left Eureka and proceeded southeastward to Hamilton, and then to Ely. From Ely the route ran to Osceola in the Snake Creek range, thence cross that range and northward up Snake valley to Pleasant valley, where a westward course was again taken. Shellbourne and Cherry creek, the latter in the Egan range, were next visited, and thence the way led northwestward to Ruby lake, and so back to Eureka.

During part of the journey, some of the region which had been mapped by the fortieth parallel survey was traversed, this route being purposely chosen so as to permit study in the field of the application of the fortieth parallel geologic section. From Eureka Mr. Spurr set forth a second time, going southward to Hot creek, and thence westward to Belmont. The country to Carson was then traversed, the more or less inactive mining camps Ione, Ellsworth, and Downieville and the Indian reservation at Walker Lake being passed. At Carson, a short time was spent, and the famous Comstock lode and the southern end of the Virginia Range were visited. From Carson the route was southwestward past Wellington, Hawthorne, Sodaville, Columbus and Silver peak, to Lida. From Lida the course was again toward the east, and the state of Nevada was again crossed by way of the Ralston Desert, Twin springs, and White river, to Pioche. From Pioche, Meadow Valley canyon was followed southward to the Indian reservation at Moapa or West Point, not far from the Colorado, then a turn to the west being made, the state was crossed a third time, by way of Indian springs and Pahrump valley, into California. Funeral range was crossed and Death valley entered at Furnace creek. From here the expedition went southward, and crossing the Panamint range at Windy Gap, proceeded by way of Granite Wells to Johannesburg. From Johannesburg the party proceeded through the Mohave desert, crossing the Santa Fe railroad at Hinckley. The journey finally ended at San Bernardino. This trip lasted about five months and covered over 2,000 miles of territory.

The primary object of the expedition was to make the roughest kind of a general geologic map, such as might fill up the great gaps in the map of the western United States. In order to accomplish the style of mapping desired with as much economy of time and labor as possible, Mr. Spurr determined to avoid any duplication between his route and those already traveled by geologists, and carefully planned his journeys with that end in view. The result is that hardly any spot in the region examined can be found which is more than 30 miles from a point of observation. This would probably be sufficient in any country for a reconnaissance map on a scale of 40 miles to the inch, but in the great basin region of Nevada and California the conditions are especially favorable, so that a map can be made which has far more value than in ordinary regions. It is a source of regret to the author of the bulletin, however, that so rough a topographic map must be presented as the vehicle for his geological information. An effort has been made to include in the text all the known facts concerning the geology of this region, whether obtained by the writer or others.

Mr. Spurr's bulletin (No. 208) is published for general distribution and may be obtained, free of charge, on application to the director of the United States geological survey, Washington, D. C.

Salt in Death Valley.

At the southern extremity of that uncanny cavity in the earth known as Death Valley, a great ledge of pure rock salt has been found, and preparations are making to work it. A man named Osborne is interested in the deposit, and an expert from the New Liverpool salt works is inspecting the salt mine with a view to shipping as soon as Borax Smith's railroad comes within reach.—Bullfrog Miner.

SALT LAKE MEN TAKE BACK SEAT.

Are Retired from Montana-Tonopah Directory After a Rather Stormy Session.

KNOX FORCES TRIUMPHANT.

Reports Show that Mine is in Prime Condition and Able to Produce Regular Dividends.

The annual meeting of the stockholders of the Montana-Tonopah Mining company came to an end yesterday afternoon with the Knox forces triumphant in the election of officers and directors for the ensuing year. As stated in last evening's "News," the local contingent was entirely at the mercy of those from the outside, and long before the matter came to a vote, it was evident that their strength was not sufficient to enable them to hold on. The minority faction was diametrically opposed to Mr. Knox, but despite this he still had sufficient strength to win out, and did so with 562,865 votes, as against 311,965 cast by the other side. At times the meeting was rather stormy, but the able manner in which Judge Campbell of San Francisco filled the chair, tended to suppress the bitter feeling which otherwise might have made itself manifest during the session. The directors elected were Charles E. Knox, George S. Nixon, A. J. Samuel, George F. Badgett, Dudley Baldwin, R. B. Wantier, R. P. Dunlap, J. J. McQuillian and Thomas J. Lynch. Those defeated were C. E. Morris, W. H. Dickson, A. C. Ellis, Jr., M. L. McDonald and George A. Bardett. The election of officers resulted as follows: C. E. Knox, president; R. P. Dunlap, vice president; George F. Badgett, second vice president; Edgar C. Knox, secretary and treasurer.

The reports submitted showed the company to be in a prosperous condition, while the mine also is in splendid shape. The financial statement shows the following:

RECEIPTS.

From ore shipments	$401,526.14
Transfer fees	289.50
Toll on cars	192.00
Dividend on treasury stock	16,589.60
Total receipts	$418,597.64

DISBURSEMENTS.

Operating expenses, labor, etc.	$ 12,421.85
Ore handling account	12,845.70
Development and permanent improvement	21,867.77
Sundry departments, including labor and supply in assay office, blacksmith, machine and carpenter shops, salaries, traveling expenses and office supplies	114,452.52
	$253,587.64
Dividend No. 2	160,000.00
Balance cash in banks	84,959.90
	$418,597.94

During the year a total of 8,028 tons of ore of the gross value of $70.01, or a total value of $562,054.29, was shipped to market. The cost of transportation and treatment was $19.99 per ton, or $160,528.15. This leaves the net value of the ore shipped approximately $50.02 per ton, or $401,526.14, as shown in the financial statement.

MANAGER'S REPORT.

The report of retiring General Manager Donald B. Gillies was a rather lengthy one. After enumerating all the improvements that have been made at the property during the year and the new equipment provided, the report shows that there was 5,380 feet of development work done, exclusive of all stopes, and that there is at present 12,-605.16 feet of workings in the mine.

Manager Gillies' report then takes up the development of the mine in detail. It mentions the opening of fine bodies of sulphide ore on the 765-foot level and recommends a connection with the North Star mine's workings at that depth, for the purposes of development, ventilation and safety of the miners employed in both properties.

"It is estimated that the ore reserves of the mine today will total 60,000 tons of shipping grade," says the report. "No estimates or calculation has been made as to the quantity of milling ore, as what is considered milling grade, and that which is too low to mill, depends entirely on local conditions."

In the matter of dividends, Mr. Gillies reported some time ago that $100,000 could be paid whenever the directors cared to call for it and that amount could be maintained quarterly. He based his conclusions on what had been accomplished at the mine in paying up its indebtedness and the monthly earnings beginning with March of this year. During March to July, inclusive, the monthly earnings had averaged $49,-838.22, or practically $150,000 per quarter. Deducting $45,000 per quarter for operating expenses and the mine was earning $105,000 net. As the treasury stock would earn $16,500 of an $100,000 dividend, it only required $83,500, or $21,500 less than the earning capacity, to meet such a dividend.

Utah Posts Dividend.

The directors of the Utah mine at Fish Springs met yesterday afternoon and posted another dividend of $1,000, the books closing tomorrow and payment to be made on Tuesday, the 19th. The mine continues the even tenor of its way and only yesterday marketed 28 tons of ore, showing as much as 141 ounces silver and 31 per cent lead, which brought the neat sum of $2,535. The company's directors are well pleased with conditions, and expect such dividends to continue for an indefinite time.

CONCENTRATES.

President Charles E. Knox of the Montana-Tonopah left for San Francisco today.

Secretary M. C. Morris of the Bullion Beck has returned from an enjoyable trip to New York.

John Dern, manager of the Lower Mammoth, went out to Tintic today to make an examination of that property.

The Pioneer sampler had on hand today two cars of ore from Alta, two from Tintic, three from Bingham and one from Stockton.

The day's receipts at the Taylor-Brunton sampler amounted to five cars of ore from Tintic, two from Bingham and two from Nevada.

E. G. Woolley, the well known stock broker, left for the Grand canyon today in company with Senator Smoot, Congressman Howell and party.

Ore and bullion settlements as reported by McCornick & Co. late yesterday afternoon amounted to $78,300, divided as follows: Base bullion, $42,-300; gold, silver, lead and copper ores, $36,000.

President S. W. Tulloch of the Sevier Consolidated on Gold Mountain visited that property on Monday last, accompanied by Congressman Joseph B. Showalter of Pittsburg and Mrs. Miranda B. Tulloch of Washington, D. C. They were well pleased with conditions at the mine.

The stockholders of the Signal Peak Mining company met Monday last at Richfield and elected the following officers for the ensuing year: D. D. Hanks, president; Al Rowley, vice president; E. E. Hoffman, secretary and treasurer; J. H. Nelson, general manager; W. C. Dodge, director. The company owns properties on Gold Mountain and has developed a good body of ore showing an average value of $19 per ton in gold and silver.

WEATHER REPORT

Record at the local office of the weather bureau for the 24 hours ending at 6 a. m. today:

Barometer reading at 6 a. m., 29.52 inches; temperature at 6 a. m., 56 degrees; maximum, 78; minimum, 52; mean, 65.

Precipitation since the first of the month, .36 inch.

FORECAST TILL 6 P. M. SATURDAY

Local forecast for Salt Lake City and vicinity:

Fair tonight and Saturday.

WEATHER CONDITIONS.

Precipitation occurred over portions of Alberta, Kansas, Missouri, Nebraska, Iowa, Minnesota, Manitoba, Illinois, Michigan and Florida. Thunderstorms were quite general. It was raining this morning at Dodge, Kansas and Kansas City, Missouri. Excessive rainfall was reported at Kansas City, 2.92 inches.

A BOLD ROBBERY.

Home Set on Fire and $130,500 In Bonds and Gold Stolen.

Los Angeles, Cal. Sept. 15.—Early today the home of Dr. W. W. Ordway was set on fire and while its occupants were fighting the flames the supposed incendiaries entered and stole a hand bag containing $130,000 in government bonds and $500 in gold. They took the cash threw the bag and bonds into the fire and escaped. The bag was recovered before it had been destroyed, though many of the bonds were badly scorched. The rear of the building had been saturated with oil, but the fire was soon extinguished.

RACE RIOT STOPPED.

Sheriff Arrests a Number of Persons at Henderson Mound, Mo.

Henderson Mound, Mo., Sept. 15.—Sheriff Henry and a posse of deputies today stopped the race riot trouble here and have restored peace by arresting a number of persons believed to have been implicated. The arrests were made without violence and it is now believed there will be no further trouble. The race war resulted from the employment of negroes to replace whites in doing some of the heavier work in a lumber mill.

A JAIL BREAK.

Five Prisoners Get Away From Douglas County, Neb., Jail.

Omaha, Sept. 15.—Five men confined in the county jail here drilled out the bolts, broke one of the bars of the steel lattice work enclosing their cells and escaped early today.

All of the prisoners except Hary De Lacey, who a few days ago was sentenced to two years in the penitentiary on the charge of swindling, were serving sentences on minor charges.

To Out-Of-Town Newsboys—Christmas News.

TO the army of enterprising news boys who sell the Deseret News in cities and towns outside of Salt Lake. This paper will present a handsome watch to the boy whose record shows that he has sold the greatest number of papers, including the Christmas News, between Sept. 15, 1905, and Jan. 1, 1906. In addition the picture of the successful newsboy will be printed in the Saturday "News."

MARKET SHOWS UNSTEADINESS.

It Opened up With Prices Generally Higher Than Last Night's Close.

AND TRADERS TOOK PROFITS

Advance in Call Money Had a Depressing Effect and Everything Fell Back.

New York, Sept. 15.—With only a few exceptions among a few important stocks prices rose over last night's level in the opening dealings in the stock market today. The Wabash securities were affected by the rival railroad forces trying to get control of that property, the preferred advancing 1% and the common a point. There were gains of a point by Great Northern preferred, and Minneapolis, St. Paul and Sault Ste Marie preferred. Missouri Pacific rose a large fraction.

Traders took profits on the overnight rise and the market reacted. Increasing strength, however, in the various Gould securities encouraged general buying again. Very little feature developed outside of the interest attached to the contest for control of the Wabash road. Missouri Pacific, C. & O., Wisconsin Central preferred, Minneapolis, St. Paul and Sault Ste Marie reacted ½ and United States Rubber stocks improved 1 to 1¾.

The demand for stocks subsided to some proportions allowing prices to drop under smaller offerings. Many stocks got slightly under last night's closing level. Special movements were advances in United States Rubber of 1¼, the preferred 2 and Hide and Leather preferred 1¾. Great Northern peferred lost 1.

Bonds were steady at noon.

Little encouragement was given to the advance in the soft coal stocks, and after that movement ceased, and call money reached 4 per cent, the entire market fell back. Losses were confined to the more active favorites and reached 1½ in Northern Pacific and a point in St. Paul, Union Pacific, Erie, Amalgamated Copper, Smelting and Tennessee Coal. The Wisconsin Central stocks, Norfolk & Western, and Republic Steel achieved gains of 1 and Chesapeake & Ohio 1½.

Offerings decreased and the market became steadier when the call loan rate eased off again. There was no special effort to put up prices. Most of the weak stocks hovered around the lowest. Locomotive moved up 1.

LIVE STOCK.

CHICAGO.

Chicago, Sept. 15.—Cattle—Receipts, 2,000; market steady. Beeves, 3.75@6.35; stockers and feeders, 2.40@4.40; cows and heifers, 1.35@4.10; Texas fed steers, 3.25@4.50; western steers, 3.10@4.80.

Hogs—Receipts today, 12,000; market 5 cents higher. Mixed and butchers, 5.05@5.70; good to choice heavy, 5.15@5.50; rough heavy, 4.90@5.10; lights, 5.10@5.35; pigs, 4.80@5.25; bulk of sales, 5.50@5.55.

Sheep—Receipts, 10,000; market steady. Sheep, 5.00@5.90; lambs, 4.25@6.60.

OMAHA.

South Omaha, Sept. 15.—Cattle—Receipts, 2,500; market steady. Native steers, 3.75@6.10; cows and heifers, 2.75@4.50; western steers, 3.00@4.85; Texas steers, 2.75@3.50; cows and heifers, 2.00@3.40; canners, 1.50@2.30; stockers and feeders, 2.25@4.25; calves, 2.50@5.50; bulls, stags, etc., 2.25@3.50.

Hogs—Receipts, 4,500; market 5@10 cents higher. Heavy, 5.10@5.25; mixed, 5.15@5.25; lights, 5.20@5.30; pigs, 4.50@5.00; bulk of sales, 5.20@5.25.

Sheep—Receipts, 3,500; market 10@15 cents lower. Westerns, 4.50@5.00; wethers, 4.25@4.50; ewes, 3.50@4.25; lambs, 6.00@6.75.

KANSAS CITY.

Kansas City, Sept. 15.—Cattle—Receipts, 3,000; market steady. Native steers, 4.00@6.00; native cows and heifers, 1.65@5.25; stockers and feeders, 2.50@4.25; western steers, 3.00@4.65; bulls, 2.00@3.25; calves, 3.00@6.50; western cows, 1.75@3.25.

Hogs—Receipts, 8,000; market 5 cents higher. Bulk of sales, 5.10@5.30; heavy, 5.15@5.30; packers, 5.15@5.35; pigs and lights, 4.50@5.20.

Sheep—Receipts, 1,000; market steady. Muttons, 4.25@5.25; lambs, 5.25@7.60; range wethers, 4.00@5.25; fed ewes, 3.75@4.50.

WOOL.

ST. LOUIS.

St. Louis, Sept. 15.—Wool, steady. Territory and western mediums, 28@30; fine medium, 22@26; fine, 18@20.

PRODUCE.

CHICAGO.

Chicago, Sept. 15.—Unsettled weather in the northwest had a strengthening influence on the wheat market here today. Higher prices for wheat at Liverpool tended to stimulate demand for that cereal here. December opened ⅛ to ¼@¼ higher at 83⅝ to 83⅞@83¾. A

After advancing to 83⅞, the price settled back to 83⅝.

Minneapolis, Duluth and Chicago reported receipts of 825 cars against 554 a year ago.

Wet weather was again a bullish influence in the corn pit. Other factors that contributed to the firmness were higher cables, smaller local receipts and lighter shipments from Argentina.

December opened a shade to ⅛@¼ higher at 44½ to 44¼ and advanced to 44⅝.

As a result of continued demand from experiers a firm tone prevailed in the oats market. Shorts were active bidders. December opened unchanged to ¼ higher at 28⅝ to 28⅝ and sold up to 29@29⅛.

Provisions were firm in sympathy with a decent advance in the price of live hogs. Trading was fairly active. January pork was up 7½@10 at 12.30.

Lard was 2½@5 up at 6.82½. Ribs were up 5 to 7½ at 6.45 to 6.47½.

Cash: Wheat—No. 2, red, $1@1.03½; No. 3, red, 82½@84; No. 2, hard 83@89; No. 3, hard, 82@85; No. 1, northern, 90; No. 2, northern, 86@88; No. 3, spring, 80@87.

Corn—No. 2, 54¼; No. 3, 53¾@54.

Oats—No. 2, 27; No. 3, 26@26¼.

Oats—No. 2, 27; No. 3, 26@26½.

Demand from a leading bull gave greater impetus to the advancing tendency of prices. Through the remainder of the session the market was reliably strong. For December the highest point of the day was reached at 84⅝. The market closed strong with December up 1 at 84⅝.

Corn—The market was firm the entire session. The close was at the highest point of the day with December up ⅝ at 44⅝@44¾.
