DESERET EVENING NEWS.

5 O'clock -EDITION.-

TRUTH AND LIBERTY.

NO. 267 SATURDAY, OCTOBER 6, 1894, SALT LAKE CITY, UTAH. VOL. XXVII.

FROM AGES PAST.

The Remains of an Ancient American City Discovered.

HUNDREDS OF ACRES IN EXTENT.

Ruins of Immense Buildings—Granite Columns—A Perfectly Preserved Aqueduct.

PANAMA, Oct. 5.—Word comes from Bogota that the remains of a prehistoric city have been discovered near the crater of the volcano Purace, in the Andes mountains. The buried city covers hundreds of acres, and contains the ruins of great buildings with immense granite columns. Portions of an aqueduct in an almost perfect state of preservation have also been found.

HIS ANTECEDENTS.

W. L. Strong, the Republican Candidate for Mayor of New York.

NEW YORK, Oct. 5.—Col. W. L. Strong, the Republican candidate for mayor of New York, has for years been a striking figure in New York. He has for years been president of the Central National bank and the Home Life National Bank of Brooklyn. He is a director of the Erie railroad, the New York Security & Trust company, the Metropolitan Trust company, the New York Life Insurance company, the Fisk Rock Island and several other corporations. He is president of the Club Society, his predecessors having been Generals Thomas Ewing and Wagner Swayne. The colonel was born in Richland county, Ohio, in 1827. When he was sixteen years old he went to Wooster as clerk in a large dry goods store. He remained there until he came to New York in 1853. Here he began life as a salesman in a dry goods house of L. M. Wilson & Co., remaining until 1860, when he transferred his services to one dry goods and commission house of Farnham Dale and Company. In 1870 the firm began William L. Strong & Co., and is now one of the richest houses in the dry goods district.

Wants to be Hanged.

JERSEY CITY, N. J., Oct. 6.—Patrick Gorz, who shot Clara Arnim in Hoboken, August 12, will not be tried on Tuesday next, the day set for trial by Judge Lippincott, simply because the accused refused to be tried. Hennys he is guilty, and wants to be hanged as quickly as possible. Under a law passed last winter the court is restrained from accepting a plea of guilty in capital cases, and in the dilemma that has resulted Judge Lippincott has decided to certify the matter to the supreme court in order to obtain an opinion as to the constitutionality of the new law. The case will be argued at the November term.

TOOK POISON.

Business Reverses the Cause of the Rash Deed.

SAN FRANCISCO, Oct. 6.—The body of James Crossman, a well known man and prospector, was found in his room at the Baldwin hotel last night, and on a table at his side was a bottle of a deadly compound of ammonia and a glass half full of the same drug. Several letters addressed to his wife and friends give pecuniary reasons for the suicide as the cause of the act. Crossman was a pioneer of 1852 and at one time amassed some very valuable properties. He was part owner and manager of the Tennessee tin mines in southern California, which are to be reopened shortly by an English syndicate.

FIGHT WITH PRISONERS.

Cumberland County Jail the Scene of a Desperate Combat.

FAYETTEVILLE, N.C., Oct. 5.—"Not on your life," said Jailer Clark, when he opened the heavy iron door of cell No. 7, in Cumberland county jail to supply a meal to Louis Crawford, Jim Burns and Elijah Bertue last night. Louis Crawford, a veteran convict, who has done time in both the Carolinas, made a rush at the jailer with the intention of smothering him with a blanket, which he had in his hands. Clark perceived his object, quicker than he could revolver and fired, mortally wounding the prisoner in the left side. The shot, however, did not stop Crawford's rush, and he succeeded in overpowering Clark with the blanket and bore him to the floor in the corridor, shouting to his companions to come on and help him. He struggled meanwhile with the jailer to get possession of the pistol. As his companions tried to leave the cells to aid him, Mac Lonzo Weaver, jail mulion, who had accompanied Clark, quietly closed and locked the door in their faces. In the meantime the other prisoners had rallied to Crawford's assistance and in the desperate battle which ensued, Jailer Clark's pistol was again discharged, seriously wounding Assistant Jailer Bramble in both feet and also an unknown prisoner. After a battle of eight Clark and Bramble succeeded in driving the prisoners back to their cells.

MRS. LOWELL TO LEAD.

Her Plan of Campaign for the Reformation of New York.

NEW YORK, Oct. 5.—The woman whom the Rev. Dr. Parkhurst has been seeking to "lead the campaign of Reform" has been discovered. She is Mrs. Charles Russell Lowell, the daughter of the venerable Mrs. Shaw who has given to the cause of woman suffrage four daughters. Mrs. Lowell is perhaps better known as Josephine Shaw-Lowell. She lives next door to her mother's house and is a woman of social prominence as well as a woman of intelligence and thought. Social problems have for a long time engaged her attention, but her assumption of the leadership of Dr. Parkhurst's idea was considered impossible by those who know her best.

Mrs. Lowell comes of a family that have long been connected with public affairs. Her sister, Mrs. George Wm. Curtis, is a woman of rare attainments. Another sister is Mrs. Robert E. Schirmer, a leader in the aesthetic society of the city.

Mrs. Lowell said last night: "I feel called upon to undertake this work. The outrages of law that have so long been tolerated near the centre of this city have stirred me deeply, and when Dr. Parkhurst, through the press, urged the women to use their influence in a concerted effort, I felt called upon to respond. I did not come forward when the first invitation was offered, because I felt that many other women were more fitted to head a movement, but when I saw the apathy, I felt it my duty to take up the work, I could not do less."

"What are your plans?"

"Briefly, they are to organize women that they will see and understand just why is the crime in our form of municipal government exist, and what the remedies are. Women should be as much interested in local government as men, for they have the same interest to protect and the same opportunities to lead."

SCARCITY OF BANANAS.

Plantations on Cuba Destroyed by a Cyclone.

NEW YORK, Oct. 5.—The steamer Tyrone, which arrived in port last night, reports that she was unable to get her usual cargo of bananas because of the cyclone which swept throughout the eastern end of Cuba. None were to be had, all being destroyed by the cyclone. The plantations are devastated and in ruins. Hence it is estimated that 500,000 bunches of the fruit were destroyed. The vessel returned here with a small cargo of sugar and tobacco.

BOTH FOUND DEAD.

A Husband Follows His Wife into Eternity.

HALIFAX, N. S., Oct. 5.—In the town of Inverness, on the opposite side of Bedford basin, Alexander McKenzie, forty-five years old, and his wife, were found dead in their home last night. They had taken poison. A note left by McKenzie says that his wife has accidentally poisoned herself, and as he could not live without her, he had resolved on suicide.

McKenzie was formerly in the royal engineers and electrician. He had been out of employment recently and was despondent and it was thought that he poisoned his wife. McKenzie worked for some years in the United States, first in New York and afterward in some electrical works in the west.

The Whom Court Martial.

VANCOUVER, Wash., Oct. 5.—In the Whom court martial trial the evidence for the prosecution has been completed. No new features were introduced. The defense will begin their case today.

The Bandits Still at Large.

TUCSON, Ariz., Oct. 5.—The men who held up the Southern Pacific overland last Sunday night are still at large, although the officers are confident of effecting their capture. Some believe the bandits have reached the great Yaqui basin, where it is practically impossible to apprehend them.

STOLEN WHEELS.

Hundreds of Bicycles Disappearing and Shipped West.

LAFAYETTE, Ind., Oct. 5.—A state bicycle detective association will be organized by Indiana wheelmen. During the season now drawing to a close hundreds of wheels have been stolen and shipped to Chicago and western cities. It is to the recovery of stolen wheels that the detective agency has opportunity to accomplish the most work.

It is proposed by the promoters of the association to perfect a similar organization in Illinois and other western states in which bicycle thieves have been unusually bold in their operations.

A TITLE AND A FORTUNE.

Both Fall to the Lot of a Young Man by Adoption.

CHICAGO, Oct. 6.—The news of the adoption of C. E. Willie, a young man 30 years of age, by Mrs. H. O. Garrison and his consequent accession to nobility is a title and about $9,000,000 has stirred up a good deal of interest in unexpected quarters. A number of other persons who pretend to be heirs of the Lord Berry from whom the estate was derived, have come to the conclusion that they would lose to have a part of these millions and are coming to Chicago to see about the matter. Some of them have already arrived, but have not been received with open arms by Mrs. Garrison, who disclaims any knowledge of their kinship.

FRANTIC ON ACCOUNT OF A RAT.

An Elephant Breaks Loose from a Circus in San Francisco.

SAN FRANCISCO, Oct. 6.—The reason for the strange actions of Jess, the circus elephant which went on a rampage early this morning and after breaking her fastenings and nearly breaking her keeper's ribs, ran through the streets of San Francisco, has been discovered. Jess has always been perfectly docile and must be handled by any of the circus people. While she was being paraded through the streets this morning by her keeper, they believed that the big animal acted as if frenzied by fright. Finally when she allowed to come near one of the keepers noticed something protruding from the end of her trunk. He pulled it out and found that it was a live rat. The elephant had been lying on the ground asleep with her trunk stretched in front of her, and it is supposed that the rat ran up her trunk. The animal contracted the muscles of her trunk and held the rodent fast. When the rat had been removed the elephant gave sign of great satisfaction and made no further resistance to being led back.

The Crew Saved.

NEW YORK, Oct. 5.—The steamer Ocanto from Bermuda reached this port today, having on board Captain Forbes, Mate Joseph Connor and nine seamen from the American bark Albemarle, burned at sea on September 28. The crew took to the boats and were picked up on the 29th by the British bark Roanoke, and landed at Bermuda.

PEKIN THREATENED.

Seventy Japanese Ships Enter the Gulf of Pei Chili.

GREAT EXCITEMENT AT SHANGHAI

The Chinese Forces Hastily Withdrawn from the Capital of Manchuria—The Japs Advancing.

LONDON, Oct. 6.—A Shanghai dispatch says seventy Japanese transports and warships have been sighted in the Gulf of Pei Chili. The news has caused great excitement at Shanghai and elsewhere.

A dispatch from Shanghai today says the masters of the Chinese junks which arrived at Chee Foo yesterday report having sighted a large fleet of Japanese transports escorted by warships on Tuesday night. This Japanese fleet was then entering the Gulf of Pei Chili, and after steaming westward some distance the course of the warships and transports were altered to northeast. The Japanese fleet numbered seventy ships. Their presence in the Gulf of Pei Chili has caused the greatest excitement at Shanghai. In London it is believed the Japanese fleet is the force of 30,000 men which left Hiroshima, the Japanese headquarters, on September 20th, under sealed orders and under command of Field Marshal Count Oyamakwsho, the Japanese minister of war.

A dispatch received at New Chwang, the Gulf of Lao Tung, says the Chinese are in full retreat from Moukden, which is threatened by the advance of Japanese troops from Corea, and the Japanese force is said to have been landed near Pasiel Bay and not far from the Russian territory bordering on Corea and the Chinese province of Manchuria.

Another report which reached London from Shanghai says it is believed at the latter city the Chinese forces which have been defeating Moukden have been hastily summoned from that place to oppose the proposed Japanese landing either in the Gulf of Pei Chili or the Gulf of Liaotung. The Chinese have been hurriedly adding to their fortifications at New Chwang in anticipation of a Japanese attack upon that port or their landing in the neighborhood.

CHINA BORROWS MONEY.

TIEN TSIN, Oct. 6.—The Chinese government has authorized a firm here to raise a loan of $10,000,000.

Damage by a Typhoon.

HONG KONG, Oct. 6.—A typhoon has swept over this port. Much damage was done among the small craft in the harbor. One vessel was sunk and all hands drowned.

Sailors Raiding the Country.

LOURENZO MARQUEZ, Delagoa Bay, Oct. 5.—The Kaffirs are raiding the cattle within a mile of the town. A panic prevails.

Ordered to China.

PARIS, Oct. 5.—The Temps says three French cruisers at Brest have been ordered ready to start to China.

Advices from Khartoum.

MASSOWAH, Oct. 5.—Advices from Khartoum say Kosta is among over the occupation of Kassala by Italians. He summoned a convention of emirs to discuss measures of retaliation. Kosta is afraid of an advance upon Khartoum owing to fears of a revolution. He has ordered Khartoum fortified. European and Egyptian prisoners at Khartoum are treated with increased severity. It is feared Lupy will be killed.

BELGIANS AND ARABS.

A Number of the Latter Killed by Belgians in the Congo State.

LONDON, Oct. 6.—The Exchange Telegraph company announces that African mail has brought the news of serious fighting between Arabs and Belgians in the Congo state. It is alleged that Belgians claimed trans and heavy fighting, and then beaten in the Arabs and massacred them without quarter. Another account says the Arabs, commanded by Chief Bonnitier, after the truce agreed upon a conference which was eventually commenced, but almost immediately afterward the Arabs' powder magazine exploded. This caused both sides to suspect treachery and fighting was resumed. The Arabs were surrounded on all sides by the Belgians and were nearly all massacred. Chief Bonnitier escaped but a majority of his followers perished. Over thirty chiefs were numbered among the slain. The Belgians captured 300 lakhs' worth of property.

Bank Statement.

NEW YORK, Oct. 6.—Weekly bank statement: Reserve, decrease, $1,581,825. Loans, increase, $2,710,200. Specie, increase, $294,800. Legal tenders, decrease, $818,600. Deposits, increase, $2,807,900. Circulation, increase, $38,200. Banks now hold $39,400,000 in excess of the requirements.

Wilson Renews.

NEW YORK, Oct. 6.—Among the passengers this afternoon on the New York today were Mr. and Mrs. George J. Gould and family and Congressman W. L. Wilson. Wilson said: "I feel fully recovered from my recent illness." His face was a picture of health. "I did not go over to talk tariff," he said, "but I met leading financial and business men in London last week at a chamber of commerce dinner. I told them the new tariff bill was not made to cut them but to cut Americans."

Massachusetts Republicans.

BOSTON, Oct. 6.—The Massachusetts state Republican convention committed in Music hall today. Congressman Cogswell, selected for permanent president, sent a telegram daily that his physicians would not permit him to attend; therefore the temporary president, Samuel T. Winslow, was continued as permanent president. Carlile Gaff, Jr., read a speech Cogswell had written. Senator Hoar, chairman of the committee on resolutions, read the platform, which was accepted. Senator Lodge moved the renomination by acclamation of Governor F. T. Greenhalge, and the motion was adopted. Similar action was taken as to Lieutenant Governor Roger Wolcott. William M. Cox was nominated by acclamation for secretary of the commonwealth, and Henry M. Phillips for treasurer and receiver general; General John W. Kimball, auditor; H. M. Knowlton, attorney general. Governor Greenhalge addressed the convention.

A Rich Cherokee Shot.

VAN BUREN, Ark., Oct. 6.—Near Salisaw, I. T., Nathan Jones, deputy United States marshal, shot and instantly killed Newt Fry, one of the wealthiest Cherokees. Fry shot at Jones first and was attempting to shoot again when killed. Jones was guarding a prisoner whom Fry attempted to rescue.

BRIEF TELEGRAMS.

Senator McPherson, of New Jersey, has written a letter stating that he is not a candidate for a fourth term in the Senate.

Speculation on N. Y. Change had more vim today than usual on Saturday. There was a general advance in the market.

Prof. Leyden, a Berlin specialist, who has been in attendance upon the czar, says his patient is suffering from Bright's disease, but the disease is as yet in its mild form though complicated with malaria.

Since his arrival in the City of Mexico, Carlos Ezeta, the ex-president of San Salvador has been the recipient of distinguished attentions. He is anxiously expecting the arrival of his fellow exiles, Generals Calderon and Bolanos.

PREMIUMS ON DAIRY PRODUCTS

Methods of Determining Merits—Names Of the Winners.

In determining the merits of a sample of butter at the Fair, flavor counts 45 points, grain 25, color 10, salt 10 and packing 10; total, 100. The sample is examined and tested scientifically, and the points are determined and the award is made accordingly. The process is scientific and the result does not depend upon the mere opinion or caprice of the judges.

The methods of determining the merits of a sample of cheese are similar. Flavor counts 40 points; texture 25; closeness 10; color 10; finish 10; total 100.

The best sample of butter at the Fair was that of Mrs. Wm. Naylor. It is hand made, in the old fashioned way, and was not intended for the Fair at all, but some of the lady's friends persuaded her to show some of her butter, as the scientific test gives it 99 out of a possible 100 points. It was made on a ranch at Mountain Dell, where the mountain grass and pure water no doubt help the quality. But the fact must be conceded that Mrs. Naylor knows how to make good butter.

The official awards in the dairy department, as published in the papers, have been incorrect, and special pains have been taken to furnish them herewith from official sources.

The Kaysville Creamery company, receives a gold medal for the best quality and display of butter.

The Nephi Valley Creamery, of Moroni, Sanpete county, for the best quality and display of butter, also receives a gold medal.

The Charleston Creamery company, of Charleston, Wasatch county, for the best display of cheese and $2 from the society, for the best 10 pounds of butter.

L. Hansen was awarded a diploma and $5 for the best cheese under one year old, and a gold medal and $10 for the best quality and display of cheese.

Appended to the report of the committee is the following:

D. A. & M. Society.

Gentlemen—We respectfully recommend an award of a gold medal to the Kaysville and Meadowview Creamery companies for prize number 41, as we consider their butter, in quality and display, about equal.

Respectfully,
ROBERT FARRER,
ABEL S. GARDNER,
Awarding Committee.

The recommendation of the committee has Alden acted upon up to the time of going to press, but the awards as above given are based upon the expectation that it would be accepted, hence the same award to the Kaysville and Meadowview creameries.

The apparent conflict between the Charleston dairy and Mrs. Wm. Naylor is explained by the fact that Mr. Auerbach gave $5 for the best ten pounds of creamery butter, and the same amount for the best ten pounds of butter other than creamery.

The above is the revised action of the committee, and changes some of the awards previously announced. Great interest has been taken in the contest in the dairy department, and the above are the final results.

Special Train to Ogden.

In order to accommodate Conference visitors who desire to remain for the Sunday evening meeting in the Tabernacle, the Union Pacific will run a special train to Ogden, leaving this city at 10 p.m., Sunday. This is in addition to the special leaving at 4:30 p.m. that day.

San Juan County.

Hon. F. A. Hammond, of San Juan county, who is up to Conference, reports his part of the country as doing fairly well. Crops have not been as good as usual, owing to scarcity of water. Cattle and sheep, however, have done very well this season, and a good return is anticipated from beef and mutton. The mines are being worked steadily, but there is no extraordinary movement.

GRADES AND RAILS.

The Grass Creek Terminal Vigorously Pushing Work on Its Road.

RAILS WILL SOON BE LAID.

The Diamondville Coal and Coke Company Begin $20,000 Worth of Work on Monday.

Some of the recently incorporated companies of this city apparently propose to be known by their quiet, vigorous work rather than become famous by loud sensation, newspaper advertising or by other means of securing public notoriety and notice.

Among those are the Grass Creek Terminal Railway company and the Diamondville Coal and Coke company, both of which are made up of some of the most solid business men of the Territory. The former company today completed the repairing of the old grade for the four miles and the survey in the old Church mines, Grass Creek Junction. The laying of rails is the next thing in order, and that is a task that will soon begin.

The latter company which is made up of H. F. Walker, president; W. H. Remington, vice president, Stewart H. Field, secretary, and Mr. E. Cummings, treasurer, will on Monday morning next begin laying a 3,000 foot switch from their coal and coke works at Diamondville, Wyoming, to connect with the Oregon Short Line.

The contract for the grading machine let to W. N. Iiro, of this city, who is now well on his way with 50 men and teams to do the work. The contract for building trestles, sheds, houses, offices, etc., has already been let and the lumber purchased. On the completion of the work above referred to large quantities of the Diamondville coal which is said to be of a very superior quality will be shipped to Salt Lake and other Utah towns as well as to other prominent western points.

SUPERINTENDENTS MEET.

They Discuss the Question of Unifying Educational Efforts.

In response to a call by Territorial Commissioner of Schools Lewis, a meeting was held this afternoon in the University. Prof. Lewis, upon being introduced by Superintendent D. H. Allen, expressed great pleasure at meeting so many of the county superintendents of the Territory, and to know that their presence meant the promotion of the cause of education in the Territory.

Professor Lewis presented for the consideration of the convention (1) The adoption of the course of study as recently formulated by a committee of the county superintendents of the Territory. (2) The grading into a uniform system the public schools of Utah. (3) The establishment of an annual association.

President Talmage of the University was then called upon, and delivered an address, calling attention to the necessity of unifying the work and concentrating the efforts on the part of the leading force of the Territory.

After the address by Dr. Talmage, the matter of adopting the course of study for the public schools was being discussed when the News went to press.

Those present were: President Paul, of the Agricultural College; President Kerr, B. Y. College, Logan; President Talmage, of the University; Superintendent Miles, Piute; Professor Stewart, Matthews, Marshall, Cummings, Whiting, Allen, Miss Brotherhood, Dr. J. M. Tanner, Superintendent Reid, of Weber; Superintendent Christensen, Utah county; Superintendent Christensen, Tooele county, besides many others interested in educational work.

MILLARD HOTEL BURNED.

Fire Started From a Lamp Left by a Man Who Went Off to Play Cards.

Mr. H. W. Hales, of Deseret, arrived in this city today, bringing with him the information that the Millard hotel at Oasis was completely destroyed by fire on Thursday night.

It appears that a man left a lamp standing in a window in his room about 8 o'clock at night and went down to play a game of cards. By some means a short time afterward the flame of the lamp was communicated to the curtains and from there spread rapidly. The alarm was given by some young ladies who went upstairs to dress for a ball to be given in the neighborhood that night. A glance showed that the building, which was a two story frame structure, was doomed. By the hardest kind of work the furniture and clothing on the first floor was all saved, but everything above the first story was destroyed with the building. The loss was $4,000. The insurance amounted to $2,000.

IDAHO POLITICS.

Mr. S. A. Kenner Says the Situation Is Very Much "Mixed."

Mr. S. A. Kenner has returned from a two weeks' stumping tour in southern and eastern Idaho. During his absence he delivered seventeen speeches. He will return on Monday again to enter the arena and remain there until very close to the time of election.

"The Idaho political situation," he says, "is very much mixed. The principal element of doubt is the strength of the Populists, which is generally conceded to be considerable. In fact, the issue is so that the real fight is between them and the Democrats, the Republicans figuring thus to the rear. Of course this is conjecture pure and simple, but it is pretty well assented that the Democrats are carrying on a splendid and well arranged campaign, seemingly well encouraged as to the probable outcome. All parties have good tickets in the field, so that it has become largely a question of political principal and national issues. The United States senatorship is a matter of great moment, and if the Democrats and Populists were united the question would be settled in advance; but they are not and so it is fairly probable that either of the parties will not be a clear majority in the legislature the situation is interesting.

"Crops are splendid, grain especially showing a magnificent yield. Some of the promoters of Fremont county are on exhibition at the fair here and are worthy of inspection by the visitor."

WOMAN'S WORK.

In Public, Bewildering in Variety and Extent.

Very properly, the department of woman's work has been given a great amount of space, but the latter has been utilized to remarkably good advantage. This exhibit embraces a bewildering variety of articles which is alike admire and delight to make. There are many quilts which show remarkable "method in their madness," and there are quilts which show beautiful harmony, coloring and construction. There are many beautiful specimens of ladies' and children's wear, and of all kinds of needle work, which have been made in Utah homes, and show the taste and skill of Utah ladies.

The lack of singling out the individual exhibits that are worthy of mention has been great, but it is attempted here; but there is one that commanded much surprise and admiration. It is floral work made by Mrs. Lucy A. Alexander of the Evanston ward in directly, who is 82 years of age.

Such work as is shown in this exhibit is to be commended, for it indicates taste, refinement, and the spirit of making home pleasant.

Judge King Arrives.

Associate Justice King arrived from Provo during the noon recess and took his seat on the Supreme Court bench this afternoon.

THAT "ROMANTIC STORY."

A Little Miss Who Exhibits a Phenomenal Disregard for the Truth.

A little 11-year-old miss, apparently homeless and friendless, was seen wandering about the streets in an aimless and dejected manner last night.

Her strange actions attracted the attention of a kind-hearted pedestrian, who became interested in her story and took her to police headquarters, where she repeated it substantially as follows:

First of all she said that her name was Estelle Kinsburg and that she was 11 years of age, although she looks at least 13; that she was born in San Francisco and went with her parents to England, where both of them were interred; that in her orphan wanderings in London she was found and cared for by a Mormon Elder named Andrew Jenson, who agreed to bring her to America and give her a home; that Jenson died two or three days after leaving Liverpool and that his body was thrown into the middle of the Atlantic; that she arrived at New York absolutely without a protector, but there she says she met a gentleman and lady who became interested in her case and refreshed her and brought her to Salt Lake—her destination—while they continued on their way to San Francisco, dropping her off the train to care for herself.

Ridiculous and inconsistent as was her narrative there were those who believed it at the hall. Last night she was given a temporary resting place at the home of Officer Miner.

Today her story was proven wholly false in every particular by Dr. Allen who has charge of the county infirmary. Dr. Allen says that about five weeks ago she came to the Poor House claiming to have sailed from Provo. She said at that time that her parents had died in England and that she had come to Utah from Europe some months ago; that a party had given her a half dollar with which to come to Salt Lake, and that the conductor had let her off the train at Sandy; that she was sent from there to Salt Lake.

Selectman Bamberger took charge of her and failing to find a home for her in a private family, sent her to the poor house, where she stopped for a few days when Dr. Allen secured a home for her with William Langford, a conductor in the employ of the Utah Central. He remained there until yesterday when she ran away and told the "romantic" story as related above.

Dr. Allen took her back to the infirmary today where he will keep her for the present at least. The doctor stated to a News representative that the girl is as bright a child as any he ever saw. But at the same time he confesses he never saw any person, young or old, that can equal her for plausible stories and untruthful utterances. Her father was found today. He lives at West Jordan and his name is Nels Nelson. The latter states that the child is wholly ungovernable and that no one has dared to take her back since she was gone so there is a possibility of finding some one who can control her better than he can.

Marriage License.

A marriage license was issued today by Probate Clerk Mohr to William M. Jefferson, of Crochet, California, 36, and Miss Fannie Hancock, of this city, 19.

THE SUPREME COURT.

Report Of Examiner J. P. Bacha On Ex-Receiver Lawrence's Report.

IN REGARD TO CHURCH PROPERTY

Miscellaneous Business Transacted By the Judges This Morning.

An adjourned session of the Supreme court was held this morning, the judges present being Chief Justice Merritt and Associate Justices Bartch and Smith. Judge King was absent.

The petition for rehearing in the case of Daniel Hauser, tax collector of Weber county, vs Weber county was denied.

CHURCH PROPERTY MATTERS.

The petition of Colonel J. H. Winder, receiver of the property of the late corporation of the Church of Jesus Christ of Latter-day Saints, to be allowed to make repairs at the Gardo House to the sum of $1,000 was denied, as this sum was not considered necessary to put the building in a proper condition.

Colonel Winder was formally appointed receiver for the Perpetual Emigration Fund company, with the same bonds as given by the late receiver, H. W. Lawrence.

Clerk Jos. P. Bacha, as examiner of the report of ex-Receiver Lawrence in the Church case, reported that he had found the same correct. The period covered the time between January 16, 1893, up to and including August 31 last, when the present receiver was appointed. On the 16th December, 1893, the amount held by Receiver John R. Winder was $14,011.92. The total receipts during the time covered by the report amounted to $3,362.31, and the expenditures to $1,119.70, of which sum $976.65 was spent in paying and repairing the Gardo House, and the balance on other property in the hands of the receiver, water taxes for the Gardo House, and compensation for back salaries to the receiver, which sum has been reduced to $10 per month; the receipts thus showing an excess over disbursements for the period of eight months of $2,243.11.

The receiver was allowed $75 per month as compensation during said term and Mr. John A. Marshall $40 per month as attorney's fees.

As no expenses had been incurred in this ex-inhabitant, the examiner was allowed $25 for his services.

MISCELLANEOUS.

A petition was presented from members of the bar and citizens of Cache valley asking that Hon. Moses Thatcher be appointed U. S. Patent as a Supreme Court commissioner, to act for Cache county. The petition was granted.

A petition was also read from a large number of residents of Uinta county asking that the Supreme Court appoint the nomination of Mark Fletcher, Supreme Court commissioner, on the ground of incompetency. The petition was referred to Clerk Bacha for examination and report.

The application of Attorney Arthur Brown for compensation in the case of the United States of America vs the late corporation of the Church of Jesus Christ of Latter-day Saints was referred to Clerk J. P. Bacha to take testimony and report.

George A. Costigan, of this city, made application to practice law in the Supreme Court of this Territory. Referred to examining committee.

James H. McDonald, of Michigan, who had practiced in the supreme court of that state, and in the U. S. circuit, of New York, was admitted to practice in the supreme court of this state, were admitted to practice in this court.

F. L. Daggett was appointed a U. S. commissioner for the second judicial district.

Motion to allow appeal in the case of Kourtes vs Oakmon was argued and submitted. The case involves the title to a parcel of land on the corners of Utah Lake.

Complimentary Musical.

A complimentary informal musical has been arranged for Tuesday evening next, the 9th inst., at the hall of the Calder's Music palace, to which a number of well known artists will take part. It is understood that the promoters as an answer to the expressed wish of many of Mr. W. L. Walker's friends to hear that talented gentleman once more before he leaves for the East.

PRIZES TO BABIES.

There Were 263 Entries—Names of the Winners.

The fact that there were two hundred and sixty competitors for the four prizes offered for the prettiest babies, is a sufficient commentary on the enthusiasm with which "Utah's best crop" is cultivated. That so large a number of mothers should have situated the jam that these did, is also a sufficient commentary on maternal pride in this community. Some one has said that it is the privilege of every mother to look upon her own as the prettiest and sweetest babe in the world, and those proud and happy mothers were lustily exercising this privilege.

Of course 259 of them failed to win any prize at all; that is they failed to receive one; but each will doubtless console herself with the reflection that the judges didn't know a masterpiece baby when they saw one.

The first prize, $25, was awarded to Cyril, child of Mrs. M. L. Farley, of Ogden. The little daughter of Mrs. Sylvia Tobias, Sylvia, took the second prize, $15. Mrs. John Nelson's little son, Elmer, took the third prize, $10, and Mrs. James's child took the fourth prize, $5.

The competing little ones were carried in procession before the awarding committee, who, presumably, "took points" as rapidly and correctly as possible. But that satisfaction was given by their decisions is beyond the possibilities.
