BUSINESS ON THE EXCHANGE.

Trading Still More Active in the Pit This Morning.

BRISK SALES IN THE "D'S."

Big Demand for Geyser Marion at Better Figures—The Market Generally Firm.

To all appearances business is gradually getting better on the stock exchange, the volume of trading this morning being much improved over that recorded the day when white stocks were also improved and brought good figures all along the line. The sales made reached a total of 53,500 shares which had a value of $15,495.75.

In listed stocks every "D" on the board took part in the trading, the list being headed by Deseret which sold at $1.85 and was freely offered at $1.90. Daly was active at $1.22, while Daly-West sold at $10 and Dalton & Lark did business at 9½ and 10 cents. Lacy, which followed, was also a good seller, the stock changing hands above and below 60, and Four Aces continued in good demand at a good figure, sales being made up to 27½. A feature of the call was Geyser-Marion and in it the brokers fought freely, the stock selling between 82 and 82½ and closing "with a bid of 82½. Sales in this stock amounted 4,700 shares, after one was bought at 80¾, and Lower Mammoth had a downward tendency with sales as low as 66½. Northern Light found takers between 46 and 70, Sunshine went at 57 and Star Consolidated did business between $1.22 and $1.24½.

Attention to stocks of a lower order brought out transfers of Emerald at 11 cents, Prince at the same figure, and Golden Eagle at 7½. In Iron Silver there was business at 50½ cents, while Mammoth sold plentifully for a half and Uncle Sam went at 37 and 36. Sunbeam was strong and had heavy dealings at 42, while Yates was lost at $1.24 and $1.25, and then the morning call was at an end.

The closing figures were as follows:

LISTED MINES.

Bar silver, 59¾.

Mexican, 47½.

Government, steady; 2s, 1.97½ asked for reg. 1.98 do coupon, 1.98; 4s reg. 1.11; coupon, 1.12½; 5s reg. 1.13½; coupon, 1.13.

STOCKS AND BONDS.

New York, March 8.—The London market for American securities did not sympathize with the rise in the local market yesterday, quotations from that center showing general declines. The home dealings were not influenced by the foreign traders, opening prices generally showing improvements. The rise halted while the market digested traders' offerings. Heavy purchases at the lower level soon lifted the market to a higher level than before. The strongest work of the day taken, substantial improvements were made in the leading specialties. Pacific Mail, sugar and Brooklyn Transit were striking conspicuous attention. The market had its usual period of stagnation and prices gravitated towards a lower point. The bears helped along the tobacco, sugar, tobacco and Union Pacific pfd. were particularly weak, which caused a moderate following of other shares.

Bonds were well sustained, but there was little doing.

SUGAR.

New York, March 8.—Sugar, raw, strong; fair refining, 3 15-16; centrifugal, 96 test, 4 13-16. Molasses sugar, 3 13-16; refined, firm; crushed, 5¾; powdered, 5⅛; granulated, 5⅛.

DENVER LIVE STOCK.

Denver, March 8.—Cattle—Receipts, 300. Market steady; best steers, $5.35 @ $5.60; steers, $3.35 @ $4.60; feeders, $3.30 @ $4.40; stockers, $3.00 @ $4.35; bulls and stags, $2.00 @ $3.10.

Hogs—Receipts, 600. Market steady; light chars, $3.55 @ $3.60; mixed, $3.40 @ $3.45; heavy, $3.40 @ $3.50.

SAN FRANCISCO MARKETS.

PRODUCE.

San Francisco, March 8.—Wheat—Steady. Dec. 120; cash 119¾.

Barley irregular; new, 96¾; cash, 117½.

EXCURSION TO TINTIC.

SUNDAY, MARCH 12th.

The Rio Grande Western will operate special excursion from Salt Lake City and Utah county points on Sunday, March 12th, to Eureka, Mammoth and Silver Cliff. Train leaves Salt Lake City at 9:00 a. m. $2.00 round trip. Utah county rate, $1.50. Return special will leave Silver Cliff at 4:30 p. m., Mammoth 4:45 p. m. and Eureka 5:00 p. m.

LOCAL MARKETS.

Salt Lake City, Utah, March 9, 1899.

POULTRY.

Below are wholesale buying figures on poultry, butter, eggs and cheese. The selling figure is 10 per cent higher.

There is a big demand for poultry and the market is very bare. Dressed poultry drawn, with heads and feet off, bring figures as follows:

Turkeys, per lb	14
Hens	10@11
Roosters	08

BUTTER AND CHEESE.

Creamery butter	19
Cheese, Utah (new)	10

EGGS.

The egg market is well supplied at present, and prices are very weak and still declining.

GRAIN.

Wheat—100@65 cents per bushel.
Oats—$1.20@$1.25 per hundred.
Corn—$1.00 per hundred.
Cracked Corn—$1.10 per hundred.
Bran—80@$1.00 per hundred.
Flour—$3 00@3.50 per hundred.
Shorts—$1.00 per hundred.

HAY.

Timothy—$10.00 per ton.
Mixed—$9.00 per ton.
Alfalfa—$6.00 per ton.

FRUITS.

APPLES—Good stock—Utah, in good demand, per bushel, 75@$1.00.
PEARS—In good demand, per box, $1.25 to $1.50.
LEMONS—California, per box, $4.00 @5.00.
NAVEL ORANGES—$2.50@$4.25.
BANANAS—$2.00@2.50.

UTAH IS IN IT.

New Smelting Company Takes In All But Guggenheims' Plants.

New York, March 8.—Announcement was made today of the union of the interests that have agreed to enter the newly organized consolidated smelting and Refining company. It includes all but the plants of M. Guggenheim Sons in the United States and Mexico. Of the $50,000,000 capital $15,000,000 will be kept in the treasury, to be pledged for the purpose of negotiating with M. Guggenheim Sons.

Copper Mining Consolidation.

New York, March 8.—It is reported from Boston that the Isle Royale Copper Mining company, capital $2,500,000, and the Minnesota Copper company with a capital of $2,000,000 have been consolidated. The Isle Royale is known as the Hancock-Lewiston corporation, and the Minnesota, which was incorporated at Trenton, only a few weeks ago, is a Standard Oil property.

Rich Republic Strike.

A dispatch from Stockton, Wash., says that the richest gold ore yet found in Republic camp in the Colville reservation was discovered in the Fog Hill claim Wednesday. Tellurides ore was encountered in the shaft at a depth of twenty feet which assays $18.97 per ton. The camp is greatly excited. Three stages come to camp daily, loaded to the guards, and large numbers are going in by private conveyance and horseback. Experienced mining men predict the camp will have 5,000 people before midsummer, and 10,000 by the end of the year.

Bunker Hill Gold Values.

The dispatches tell of a sensational strike of gold ore in the Bunker Hill mine on Palmer mountain, in Gamson county, state of Washington. This claim was owned by "Pinnacle Jimmy," who handed it to the British American corporation of London. That company threw up the bond and Patt K. Clark of Spokane, president of the Republic company, immediately took the bond and started experienced miners at work. The face of the tunnel is now in remarkable rich ore and from sixty pounds of rock taken from the waste dump, and hounded out in a hand mortar, fourteen ounces of gold was taken.

MINES AND MINING MEN.

Hon. P. T. Farnsworth expects to be home from the south in the morning.

A shipment of copper, the first since the recent tie up, came in from the Mercur mill today.

The Bullion-Beck directors will meet tomorrow to take action on a dividend.

Joe Hutchinson, lieutenant governor of Idaho, was in the city today shaking hands with his numerous friends. Mr. Hutchinson was caller on the Denver stock exchange 16 years ago, and he became acquainted with a number of people now operating in this city, all of whom he was very glad to meet.

WILL DEVELOP BINGHAM CLAIMS

Highland Copper Mining Company Prepares Its Articles.

OWNS THE BLUESTONES.

The Mines of Tintic in Good Shape—Victoria Incorporated—Copper Mountain Assay.

Articles of incorporation of the Highland Copper Mining company were prepared for filing today, the incorporators being F. E. Wilson, A. J. Weber, M. E. Smith, James F. Sprout, Marion Sparks, C. E. Cole, Thomas A. Cole, H. M. Stephenson, William H. Cox, A. L. Jacobs, W. Y. Orsmill, V. P. Wells, Mrs. A. D. Young, Mrs. A. L. Sparks, G. F. Dillon, Joseph Wilson, W. P. Lynn, H. G. Brockman and John N. Sharp.

The company has a capital stock of 150,000 divided into 500,000 shares of the par value of 30 cents each, and its properties consist of the 10 claims Nos. 1, 2, 3, 4 and 5 on Mountain mining district, Salt Lake county, one hundred thousand shares of the capital stock are now set aside as treasury stock, from the sale of which the company will derive means for the development of the property. The directors are W. M. Stephenson, John N. Sharp, W. P. Lynn, V. P. Wells, W. Y. Orsmill, F. E. Wilson and A. L. Jacobs. Mr. Wilson is president, John N. Sharp, vice president, V. P. Wells, secretary and W. P. Lynn, treasurer.

The Bluestone claims have been examined by expert mining men and pronounced among the best in Bingham, and those interested now for big results as soon as development has progressed sufficiently to justify it. The company proposes commencing work immediately on a double compartment shaft which they will sink a sufficient depth to tap the ore body.

THE MINES OF TINTIC.

All Reported in Good Condition—Marcha Washington Strike.

The mines of Tintic received special attention the past few days from W. F. Smith, manager of the Colorado Boy mine, who came in this morning showing the camp's produce and bearing witness to new life and consequently new developments, the same brought on by the apparent return of spring. Mr. Smith visited a number of properties, all of which says he, are showing up well and demonstrating more and more every day that they contain ore bodies of no mean value.

The Midnight Bonanza, says the gentleman, is getting into a nice pocketing, quite quartz heavily impregnated with lead and gersdorfite. The shaft is even now 50 feet and, it is the belief of those interested, that the vein will be cut within twenty-five or thirty feet, as all rock now being raised is full of mineral.

The West Mettling Glory was visited. Yesterday at a depth of thirty feet, says Mr. Smith, fourteen inches of ore similar to that in the Midnight Bonanza was encountered in the property, the material being a copper pyrites. The ground lies west of the Morning Glory and south of the Sunbeam and Tesora, and it is believed it has an extension of the Tesora vein, all indications pointing strongly to this contention. Mr. Smith also looked over the Joe Bowers and the Tesora, all of which, says he, are in prime condition and well calculated to develop into paying mines. The Tesora and Sunbeam people are making for the erection of buildings similar to those on the Four Aces, and the new machinery will be installed just as soon as it is placed on the ground.

The gentleman was much pleased with the outlook for the Rich Republic and believes the making of a big copper mine, while on his return he was informed that a strike had been made in the Marcha Washington, in which Manager Hatfield had just repaired so Mr. Smith took the train for this city.

THE VICTORIA COMPANY.

Incorporated at Provo to Work Ground Near to the Grand Central.

Special Correspondence.

Provo, March 8.—The Victoria Mining company has filed articles of incorporation with the county recorder. The object of the incorporation is to conduct a general mining business. Provo is named as the principal place of business. The incorporators are: C. E. Loose, L. Holbrook, Reed Smoot, Provo; William Hatfield, Salt Lake, and J. C. Sullivan, Eureka. They form the board of directors, with L. Holbrook president, Reed Smoot vice president, John H. Tuckett is the secretary and treasurer. The Victoria property is situated in Tintic mining district, is owned by the company and the capital stock of 802,000 is shares of the par value of 25 cents each ($200,500 in the value). The Sullivan, the Six Shooter, the Victory (patented claims) and the Victoria No. 2 (incorporated). These properties join the Grand Central on the north. One hundred and twenty-four thousand six hundred shares of the Victoria company are held in trust by L. Holbrook, which it is the intention to give the stockholders of the Grand Central Mining company an option to buy. Mr. Holbrook, as a board of directors have an interest into an agreement with J. C. Sullivan to purchase his interests in such mining property partly owned by the Grand Central for the sum of $20,000, and a special meeting of the Grand Central stockholders has been called to meet in Provo on March 15 for the purpose of considering and approving the action of the board in regard to this and other transactions contemplated by the company's business.

The Superior Gold and Silver Mining company has filed notice of appropriation of the water of Antelope Springs near Lehi for use on the Tintic branch of the D. G. W. railroad.

Copper Mountain Assay.

That the Copper Mountain mine in northern Arizona is worth having, is apparent from an assay made of the ore brought to Salt Lake several days ago by G. W. Jones. Samples taken from the surface gave 28 per cent copper, while the ore in the tunnel is said to be much richer. Mr. Jones is interested in the property, of Kanab and was down settled in Tombstone's "News." Mr. Johnson and associates evidently have a good property, and, if the News knows, they are now negotiating for

Iron Tinic Properties.

P. W. Madsen, F. H. Auerbach, Alma Sanderson, ex-Mayor Mayor, Henry J. Wallace, Henry Madsen, John P. Sorenson and Andrew O. Brown signed their names to a set of mining incorporation papers, the last being the Deseret man. P. W. Madsen, Auerbach and Hoberlin are interested in claims in the Tintic district. The Madsen has a capital stock of $50,000, and the others $50,000 in shares of 10 cents each.

OUTPUT HAS BEEN OVER-ESTIMATED.

February Product Throughout the Country Below Expectations.

PIG IRON GETTING SCARCE.

Heavy Requests Continue to Come In for Finished Material and Famine Continues Unabated.

New York, March 8.—In its review of trade conditions the Iron Age will today say: Our monthly iron furnace statistics are of special significance because they show a further decline in the active capacity at work. The coke and anthracite furnaces running on February 1 were rated at 232,022 tons per week. On March 1 the output was estimated at 222,881 tons per week, a falling off of 8,800 tons per week. Furnace stocks at the same time declined 6,000 tons.

The February product throughout the country was far below expectations. Thus in the Pittsburg district the furnaces which on the basis of their January made, were expected to produce in February a little over 43,000 tons per week, actually made little over 39,000 tons per week. Aside from the considerable reduction due to climatic conditions, the owners for the past two months have pretty thoroughly proved that new capacity cannot be made available even when it is needed. This preparation are doing on in different parts of the country on an extensive scale is certainly true, but consumers of iron must reckon with the fact that it takes as many months to get ready as it does weeks by estimates.

American manufacturers deservedly possess a reputation for their ability to rush, but in spite of that fact our furnace capacity does not possess the celerity for which it is given credit. The present very lucrative prices will bring every old pot into line, but it takes time to accumulate the feat of putting the cripples on their legs.

In the meantime the pig iron markets are being swept bare of supplies for longer and longer periods. Prices have been heavy sales in the Northwest, our Chicago correspondent reporting sales of foundry iron approaching 5,000 to 6,000 tons. It is a noteworthy fact that in spite of our rapid advance the southern makers have still been selling iron for export.

Recent advices from Europe indicate that the latest trouble there is the scarcity of foundry coke.

Little is heard of late from those who preach moderation as a sacred duty; everybody is too busy harvesting to worry about the seeds in the next crop.

The steel market is at a standstill. The few who are forced into the market pay what prices the stray sellers who can meet deliveries choose to ask.

The weekes bar mills are said to have practically concluded their plan of consolidation, which is to take in thirty-four out of thirty-eight works in the territory west and south of a line drawn through Pittsburg. Moore and Schley of New York are to finance the undertaking which, according to present claims, is to provide about $1,000,000 for the building of a modern steel plant on the shore of Lake Erie, probably in the Cleveland district. The capacity of the western and southern mills is said to be about 800,000 tons of bars annually.

The tube consolidation has not yet reached the point where the organizing syndicate is ready to accept subscriptions.

The American Steel and Wire company have strengthened their hold on raw material and on wire rods by the purchase of the plant of the Shoenberger Steel company of Pittsburg.

The demand for wire continues to come in for finished material of all kinds and the famine in such lines as plates continues unabated.

The results of an overindulgence in food or drink are promptly rectified, without pain or discomfort, by taking a dose of HOSTETTER'S STOMACH BITTERS. Try it. D. C. M. I. Drug Dept.

"Give me a liver regulator and I can regulate the world," said a genius. The druggist handed him a bottle of De Witt's Little Early Risers, the famous little pills. P. C. Schramm, McCornick Building, corner Main street, First South.

For foul bites, burns, indolent sores, eczema, skin disease, and especially Piles, DeWitt's Witch Hazel Salve stands first and best. Look out for dishonest people who try to imitate and counterfeit it. It's their endorsement of a good article. "Witch Hazel" is not imitated. Get DeWitt's Witch Hazel Salve. P. C. Schramm, McCornick Building, corner Main street, First south.

Advertisers who desire to reach the country population of the Western States and Territories should patronize the "Semi-Weekly News." Its circulation books are open to all advertisers.

Not one child dies where ten formerly died from croup. People have learned the value of One Minute Cough Cure and use it for severe lung and throat troubles. It immediately stops coughing, it cures colds, P. C. Schramm, McCornick Building, corner Main street, First South.

As the season of the year when pneumonia, la grippe, sore throat, coughs, cold, catarrh, bronchitis and lung trouble are to be guarded against, nothing "is a bit substitute" will "serve the purpose," or is "just as good" as One Minute Cough Cure. That is the one idea this remedy fills all lung, throat or bronchial troubles. Insist upon having it if "something else" is offered you. P. C. Schramm, McCornick Building, corner Main street, First South.

Before the discovery of One Minute Cough Cure, ministers were greatly inclined to coughing congregations. No cause for it now. P. C. Schramm, McCornick Building, corner Main street, First South.

The classified advertisements of the "News" on the 8th page form a most popular medium of information between small advertisers and the great public. The price of an advertisement is within the reach of any and all. Express your wants through the "News."

The Semi-Weekly "News" is the great country paper of the intermountain region. It circulates in every city and settlement in Utah, and in most of those of Idaho, Wyoming, Arizona, Colorado, New Mexico, Montana, Nevada, Western Canada and Old Mexico, as an advertising medium it is unexcelled.
