TRUTH AND LIBERTY.

NO. 188. WEDNESDAY, JULY 12, 1893. SALT LAKE CITY, UTAH. VOL. XXVI.

A STRANGE VISITOR.

Arrival of the Scandinavian Viking Ship at the Fair.

A NOISY WELCOME TO CHICAGO.

Blowing of Whistles and Booming of Cannon in Honor of the Representatives of a Misty Past.

CHICAGO, July 12.—The day opened clear and hot at the World's Fair grounds, but later a refreshing breeze from the lake sprang up. The temperature was kept busy registering salutations.

During the morning the gallant fleet put out to meet the Viking ship, bearing city and World's Fair officials and prominent citizens. The Viking was sighted off Evanston and the United States vessels fired a salute, and joined in the procession to the Fair grounds. Off Van Buren street Major Harrison went on board the Viking, and presented the captain and the crew the freedom of the city. Then amid a chorus of cheers, blowing of whistles and booming of cannon, the fleet proceeded to the park and on arrival the visitors were escorted to the Administration building where they were welcomed by the Exposition officials.

SOUTH DAKOTA BUILDING.

The handsome South Dakota building at the World's Fair was dedicated today in the presence of several thousand people. The building was beautifully decorated with flags, bunting and flowers.

THE BUSINESS WORLD.

Baseless Rumors Weaken the London Stock Market.

LONDON, July 12.—Stocks fell considerable excitement. American railroad securities declined 1 to 5 per cent, the latter being Chicago, Milwaukee and St. Paul. The weakness affected the whole market. It is stated that a very few brokers are in a critical situation largely due to the baseless rumors telegraphed from New York yesterday concerning the soundness of a member of Judge Hughes' firm, concerning the soundness of which no doubt is entertained here. Bar silver 33 pence.

W. H. Moore, a stock broker has failed.

Another failure was reported later, that of Frank Boyer, a stock broker. The news of this unofficial close was very unsettled. It is hoped that other brokers will fail tomorrow. American railroad securities were exceedingly depressed, the principal declines being: St. Paul 1 to 6; Michigan Southern 4; Union Pacific 2; Santa Fe 2; Santa Fe income 1 to 1½; Central Pacific 1½. All other American railroad securities fell ½ to 1.

EXCHANGE BUSINESS IN NEW YORK.

NEW YORK, July 12.—Stocks opened with enormous business and weak with losses of from ½ to 2 per cent. Chicago, Milwaukee and St. Paul and sugar were the weakest. The excitement ran high and John street was flooded with unfavorable rumors.

The downward movement continued after the opening. Lead fell off fractions 2½ to 3½, Jersey Central 2½ to 3½, general electric 2½ to 3½; sugar 1½ to 2, cordage, 2 to 2½, new preferred 4 to 6½, Union Pacific 2½ to 3½, St. Paul, 1½ to 3½. Rumors were again put afloat regarding the financial standing of leading capitalists and a prominent Broadway trust company was said to have sold a block of securities, chiefly Vanderbilt stocks and general electric. Other unfavorable reports were started, but could be traced to no authentic source. When it was found that the rumors could not be verified, a more hopeful feeling developed, and a sharp rally ensued. Northwestern jumped to 1½, general electric to 18. St. Paul to 64, sugar to 114. At 11 o'clock the market was quiet and steadier.

At noon money on call was stringent at 10 @ 20. After 11 o'clock stocks weakened again declining ½ @ 2. Sugar and general electric were prominent in the declines. Near midday the pressure let up some and the market became steadier. At noon the market was feverish.

One of the chief items contributing to the excitement and weakness was the rumor of the Vanderbilts being entangled to market a lot of his securities. Inquiry, however, developed the fact that a well known trader, in no way connected with Vanderbilt, was forced to throw over some $4,000 shares of high priced Vanderbilts, and the bears took advantage of the fact to depress the market. The general opinion is that there is nothing in the situation to warrant yesterday and today's losses. On the contrary, among the banks and in financial circles, a better state of affairs is reported.

This afternoon call money fell to 6@7 and stocks became calmer, assisted by the rumor that four millions in gold were being taken for import to London. At at 2 o'clock, however, there was renewed selling on a large scale. Burlington leaks to 84, St. Paul to 74, Rock Island to 81½. At 2:15 the market was heavy.

Money active 5 to 20 per cent; last loan 5, closing offered at 8. Bar silver 78. Mexican dollars 65. The selling movement of stocks, which set in about two o'clock, soon exhausted itself and a rally quickly followed. Dividend payers were in better request and a recovery of ½ to 1½ followed. The market fell off fractionally from Sterling exchange was easier at the close and rumors of gold imports were again revived. Bankers are inclined to believe that the steamers leaving the European points next Saturday for New York will have half a million on board. The three and three are now on way and have, it is said, $1,000,000 gold for local transits.

SILVER.

NEW YORK, July 12.—Silver is dull and weak. Ten thousand ounces were sold at 71. Commercial bar silver fell to 70; Mexican dollars to 65.

WASHINGTON, July 12.—The effect of silver to the treasury today aggregated 315,000 ounces at $0.72 to $0.735. All was declined and $6,715 tendered.

A BOOKSELLER ASSIGNS.

CHICAGO, July 12.—Charles W. Barnes, stationer and bookseller, made an assignment this morning. The assets are $127,000 and the liabilities $158,000. Judgments entered against him last night caused the assignment.

PLANKINGTON DIRECTORS ARRESTED.

MILWAUKEE, July 12.—The grand jury has indicted all the officers and directors of the Plankington bank for transactions leading to the failure of that institution. The officers have gone out to make the arrests.

The indicted bank officers were subsequently arrested and gave bail.

A BANK FAILS.

SHENANDOAH, Ia., July 12.—The Bank of Commerce has failed. The last statement showed assets of $255,000 and a surplus of $10,000. The deposits are $176,000.

ANOTHER BANK.

GARNETT, Kans., July 12.—The Bank of Garnett, one of the leading institutions of Anderson county, has failed. No statement is made. The bank held $17,000 county funds. It is believed it will be able to pay in full.

SECRETARY APPOINTED.

WASHINGTON, July 12.—The comptroller of currency has appointed E. E. Fogg receiver of Nebraska National Bank of Beatrice.

Blacklisted Barrels.

NEW YORK, July 12.—The remains of Justice Samuel Blatchford were placed in the family vault at Greenwood cemetery today.

THE CHOCTAW TROUBLE.

Governor Jones Will Probably Not Defy the Federal Government.

He is Dependent on the United States Troops for His Own Safety.

WASHINGTON, July 12.—A report from Caddo, I. T., is to the effect that Governor Jones has stated that the Choctaws under sentence to death would surely be shot. This is discredited at the Interior department. General Armstrong, acting commissioner of Indian affairs, said today, that he did not believe Governor Jones made the statement ascribed to him and further did not believe the governor intended ever to shoot those under sentence, except possibly one or two of the more desperate ringleaders. From an official source it is intimated in case Governor Jones insists upon the judgment of the Choctaw court being carried out, the government might withdraw the protection of troops, when the Lochs adherents would make short work of releasing the prisoners. However, no trouble is anticipated, as it is not thought the governor will deem it expedient to ignore the expressed wishes of the President in the matter. It is very probably said that it is only the presence of the United States troops at Antlers that keeps Governor Jones in his seat, and that he is in no condition to make threats against the United States, for the rival faction would probably clean him out in short order if the protection of the United States were withdrawn.

SEARCHING FOR BODIES.

The Search in the Ruins at the Fair Grounds Already offensive.

CHICAGO, July 12.—The search in the ruins of the cold storage warehouse at the World's Fair for more bodies continues. The mass of twisted iron and rubble has been well nigh sifted and it will probably not be completed before the end of the week, notwithstanding the fact that a huge derrick has been erected to facilitate the work. It was rumored late last night that eleven more bodies had been discovered in the debris, but this proved untrue. This morning when it was discovered that the carcasses were those of sheep, which had been in the cold storage. Meats and vegetables in the warehouse are already beginning to taint and turn sour and it is feared that it will become very offensive, if not dangerous to health unless it can be removed. Already the odor is becoming extremely disagreeable and the men find it difficult to work steadily at the ruins. It is now believed that the report is true that Blenhuter, a capitalist of Marquette, Mich., is among the victims of the fire trap. He was interested in cold storage and on the morning of the fire he told friends with whom he was stopping that he intended to spend the day in the cold storage pavilion. He has not been seen since. Louis J. Frank, the fireman who jumped from the tower, died this morning at the hospital in the Fair grounds.

Justice Coulridge Better.

LONDON, July 12.—Lord Chief Justice Coulridge has entirely recovered from yesterday's indisposition and was on the bench this morning.

Tired of Prohibition.

TOPEKA, July 12.—In a letter to A. J. Richards, for Fort Scott, Attorney General Little, intimates that the state administration has thrown prohibition over.

AN INSANE PUGILIST.

He Attacks a Friend with a Pair of Brass Bells.

CHICAGO, July 12.—William Kehoe the well known light weight pugilist from California, has been taken to the detention hospital violently insane. Before being taken in custody he made a violent attack on his roommate, Carl Edelmuth, another Western pugilist. They arrived here about a week ago from Portland, Oregon, and were trying to arrange for a sparring bout. Kehoe has acted rather strangely of late and this morning while sitting pleasantly with his friend he became violent and seizing a pair of iron dumb bells, made a fierce attack upon him. Edelmuth was struck on the head and fell to the floor unconscious and bleeding profusely. Kehoe then attacked everybody in the place, but was finally overcome by the police after a fierce struggle. The wounded man was removed to the Alexian Brothers hospital in a dangerous condition. Kehoe was taken to the detention hospital.

Bordemaster Bounty Law.

Special Dispatch to the NEWS.

NEWCASTLE, Wyo., July 12.—The county law on predatory wild animals passed at the last session of the legislature, which allows $5 for wolves and $1 for coyotes, to be paid by the county in which the animals are killed has been a heavy burden upon several of the counties in the northern part of the state. In Weston county alone the bounty paid for the quarter ending July 1st amounts to $2000. Many of the pelts presented for the bounty are young wolves, and as protection the county commissioners have decided not to allow a bounty except of full grown animals.

Requisition for an Alleged Horse Thief.

Special Dispatch to the NEWS.

CHEYENNE, Wyo., July 12.—A requisition has been issued upon the governor of Iowa for one Elmer Tabor who is now under arrest at Des Moines upon the charge of horse stealing. The arrest was made upon the complaint of the prosecuting attorney of Uinta county, Wyoming. It is charged that Tabor stole a car load of horses from Star Valley which he shipped east, disposing of them in Omaha, Kansas City and Des Moines. Sheriff Ward of Uinta has gone to Iowa after Tabor.

Cleveland Decides Not to Go.

BUZZARDS BAY, July 12.—President Cleveland decided not to go fishing with Joe Jefferson today. He drove over to Bourne this morning to meet Jefferson, taking Colonel Lamont and Dr. Bryant, who were to accompany the actor on a cruise.

AMUSEMENTS.

THE FACE IN THE MOONLIGHT—THAT MR. Mantell has scored a telling impression in Salt Lake was evident last evening, when the theater saw a greatly increased audience to witness his second performance. His new play is a more interesting and thrilling story of the hundred days between the return of Napoleon from Elba and the battle of Waterloo, and its main attractiveness is in the fact that Mantell essays two characters both widely differing, and makes a number of lightning changes almost bewildering in their effect. The part of the grown up Paris gamin, a hardened depraved scamp, was his best work, and it was admirable throughout. The other role is that of a noble French officer, whose resemblance to the scamp (his half brother) induces his betrayed to believe him guilty of a murder of which she was a witness, and turns the masquerade of the play, was not so well sustained, though it did possess the opportunities of the other role. Miss Barnes looked charming and did some effective acting, and the remainder of the support showed to better advantage than on the opening night.

MR. AND MRS. KOHLER gave a most pleasant musical recital at their home yesterday afternoon, to a large number of fashionable people. Mr. Kohler, Mr. Weber, Mrs. Jennie Hewing Wandrow, Miss Winship, Mrs. Silva and the Carlesbaum brothers were the artists who made up the delightful program rendered.

PROF. ARNELD'S concert is attracting a great deal of attention among musical people. It is to be hoped the committee having it in charge will profit by past experience and not sell out the house beforehand by their individual efforts. No other part can make a successful concert at this time of the year, and the professor's abilities are such that it would be a thousand pities not to have him greeted by a full house on the occasion of his first public appearance in this city.

To Save Disfranchisement.

William M. Diamond was this morning pardoned by Governor West and released from the penitentiary later in the day. He was convicted in the Third district court, of manslaughter, and sentenced to three years' imprisonment. His term, under the Cooper act, expires tomorrow, but the pardon was granted today to prevent his political disfranchisement.

John Raul was also pardoned by the Governor and released last evening. He was sent up from Ogden, Dec. 21, 1891, two years for assault with intent to commit rape and had plead hard for a pardon to save his citizenship. His term expired today, executive clemency being shown, as in Diamond's case, to avoid his disfranchisement.

One Goes, Another Comes.

Mr. W. J. Shotwell, who has been located here as general agent of the Denver and Rio Grande Railway, and in that position has made many friends, has recently been promoted, and leaves this evening for his new post, general agent of the same progressive and enterprising road at San Francisco. Salt Lake's good wishes go with him.

His successor in the local field is Mr. B. F. Nevins, who, like his predecessor, is a gentleman of energy and ability, and in whose hands the interests of the "scenic line" will be well cared for.

Sad Death.

A telephone message was received in this city this morning announcing the death last night of the wife of Elder Chas. G. Hyde, Bishop of Hyde Park, Cache county, Utah. The news was a surprise to her friends in this city, they not knowing the lady was sick. Mrs. Hyde was about twenty-two years of age, and had been married some two years. She was highly respected in the community where she resided. We sincerely sympathize with Brother Hyde in his hour of trial.

THE SUICIDE MANIA.

It Affects a Fifteen-year-old Boy at Grantsville.

HE IS REPROVED BY HIS FATHER

And Shoots Himself in the Left Breast With a 38 Caliber Revolver.

Grantsville, Tooele county, had a shocking case of attempted self-murder at noon today, the perpetrator being a fifteen-year-old boy whose father formerly resided in this city, where some of the family now are.

About noon today James Palmer had occasion to scold his son Willard over some trivial matter. The boy did not relish the parental reproof, and immediately secured a 38-caliber revolver, with which he made an effort to send a bullet through his heart. He aimed a little too low, but it lodged a dangerous and perhaps fatal wound, the ball entering his left breast, passing just under the heart, and lodging in his back, where it still was at latest advices this afternoon.

Dr. Dodd, of Tooele City, was sent for, but had not reached the Palmer residence up to the time the latest intelligence was received from there. The wounded boy was still alive, and conscious at those. During his periods of consciousness, it is stated, he makes things uncomfortably disagreeable by swearing vehemently and carrying on in a manner which greatly shocks all who are within sound of his voice.

DR. C. W. UNGER AGAIN.

His Second Arrest for Practicing Medicine Without the Requisite License.

Dr. Charles W. Unger, of this city, is once again called upon, at the instance of the board of medical examiners of this Territory, to answer the charge of unlawfully practicing medicine without having first obtained a certificate from that body. A complaint was sworn out against him in United States Commissioner Pratt's court this morning, and a warrant for the defendant's arrest was soon afterwards placed in the hands of Sheriff McGinnis, who had no time in going in search of him.

It will be within the recollection of readers of the NEWS that early in May last similar proceedings were instituted against both Dr. Hasbrouck and Dr. Unger. The former was fined $50, and an appeal from the commissioner's decision is now pending in the Third district court.

Dr. Unger, on June 23rd, entered a plea of guilty to the charge, but excused himself by stating that his original certificate was turned in a fire at Chicago. He, however, promised that he would not again practice medicine in this Territory until he could legitimately do so, likewise undertaking to withdraw his advertisements from the newspapers and to remove his sign. It likewise appeared that he was making preparations to leave the city. In consideration of all of which Commissioner Pratt imposed a nominal fine of $5 and costs, amounting to about $7 in all. It is now alleged that the defendant did not keep his word, and the present complaint alleges the date of the latest offense to be June 30th.

Today's Probate Court.

Probate Judge Blair made the subjoined orders this morning:

Estate of Mary Goldsmith, deceased. Hearing on final account and petition for distribution. Account allowed and distribution ordered.

Estate of Hyram Hyde, deceased. This matter was continued till July 21st, at ten a. m.

Estate of Samuel Green, deceased. Hearing on account and petition for distribution. Allowed.

Estate of John E. Nelson, deceased. Continued till July 22nd, at ten a. m.

SENATOR PFEFFER.

He Will Be Here Tomorrow on Irrigation Business.

United States Senator Pfeffer, of Kansas, is to be in Salt Lake tomorrow. His object is to investigate the irrigation system here, and for this purpose he will visit the beet farm on the Utah sugar factory's property at Lehi. The farm is under a thorough system of irrigation, and the superintendent of the works, Thomas R. Cutler, Esq., will fully explain the details of "watering the crop" to the distinguished Populist.

From Ann Arbor.

R. A. Shipp of this city returned yesterday from Ann Arbor, whither he has been for the past three years as a student. Mr. Shipp has taken a course in literature and law, and has graduated in each department, taking the degree of "bachelor" of letters and of law. He has been also admitted to the bar of the supreme court of Michigan. It is his intention to remain at home a short time and then go east to take a post graduate course at Harvard next year.

Mr. Shipp says that Utah has been represented at Ann Arbor for the past year by quite a large colony. There have been thirty-two regular students at the university, and with students at the high school and the families of some who were in attendance there were about fifty people in all. They have been diligently engaged in disseminating information about Utah, and have met with good success in removing prejudice and giving a proper expression regarding the people of Utah. Mr. Shipp is in excellent health and spirits.

WILL HE VISIT US?

Doubt Regarding Vice-President Stevenson Coming to Salt Lake.

The local Democracy and the public generally are in a quandary regarding the hoped-for coming of Vice-President Stevenson. Only indefinite and unsatisfactory rumors have been received that he would visit Salt Lake at all, and it is now believed that he will pass to by on his way to the coast and Puget Sound country over the Santa Fe and Northern Pacific.

Considering the expected visit of the vice-president, Governor West said to a NEWS reporter today: "No official or authoritative information has been received from Mr. Stevenson or any of his representatives and in the absence of knowledge concerning the matter the Democracy cannot act."

It is a well known fact that the vice-president must be back in Washington on the assembling of the special session of Congress on the 17th prox. and it is barely possible that he will not devote any time to a visit here, though it is earnestly hoped that he will make it his business to stay over a day on his return trip to the east, in case he fails on the outgoing part of the journey.

In the event of the arrival of the Vice President tomorrow or next day he will be given a warm reception by the Utah Democratic club at either the Knutsford or the Templeton hotel. The society has been busy during the entire day in endeavoring to locate the distinguished party, but up to a late hour this afternoon had not succeeded.

TO SCANDINAVIANS.

An Opportunity for Many of Them to Secure Family Records.

Peter Hansen, Danish Consul here, has been able to accommodate a great many of his countrymen here by securing genealogical information for them. He has just received word that the records of the island of Bornholm, Denmark, are now accessible to him, for obtaining the records of five people for several generations back. The chief ecclesiastical dignitary there has designated Mr. Hansen his representative here for people of this section who wish to obtain their genealogy.

Mr. Hansen has met with gratifying success in genealogical matters in various parts of Scandinavia, and those who desire such information would do well to communicate with him. His address is No. 267, Seventh East street, this city.

Juvenile Choir, Attention!

Every one of the twelve hundred members of the Juvenile choir is wanted at the Assembly Hall next Saturday afternoon at 3 o'clock. Important.

EVAN STEPHENS,
Director.

Real Estate and Investment.

The Salt Lake Real Estate & Investment Company have filed articles of incorporation with the county clerk. The incorporators are William Burke, Mary L. Burke, John I. Daly, Thomas Marshall and William C. Hall. The officers are William Burke, president and treasurer, John J. Daly, vice-president, and W. C. Hall, secretary. The company will carry on a general real estate business with headquarters in this city, but will extend operations to other states and territories if so inclined. The capital stock is placed at $100,000, divided into 10,000 shares of the par value of $10 each.

LOOK AT THE COMET.

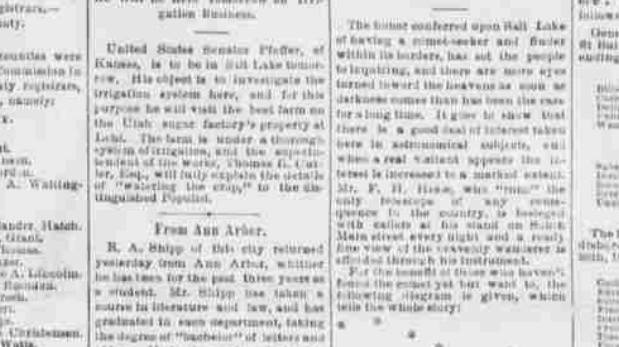
Where to Find the Newly Discovered Wanderer Tonight.

HE IS MOVING WESTWARD FAST.

A Diagram Showing Just Where He is Now and Where He Was Found.—Amateur Observations Numerous.

The honor conferred upon Salt Lake of having a comet-seeker and finder within its borders, has set the people to inquiring, and there are more eyes turned toward the heavens as soon as darkness comes than has been the case for a long time. It goes to show that there is a good deal of interest taken here in astronomical subjects, and when a real sensation appears the interest is increased to a marked extent. Mr. F. H. Hoag, who "found" the only telescope of any consequence in the country, is besieged with callers at his stand on Main street every night and a ready fine view of the heavenly wanderer is afforded through his instrument.

For the benefit of those who haven't found the comet yet but want to, the following diagram is given, which tells the whole story:



The "dipper" will be readily recognized. There are two pairs of stars near it, which to the observer will be south of the dipper. The comet shows at the extreme right (east) from the remoter is where it was first discovered; the location between the two pairs of stars and further to the left (west) is where it was at 9 o'clock last evening; and that still further to the left and nearly above (south) of the western pair of stars shows where it will be at that hour tonight. The comet has a rapid western movement with a slight southern inclination.

Cometary science is at as much of a standstill nearly as though the world were not now in possession of improved apparatus and advanced education. The same may be said of the sun, the moon and many other of the glowing objects with which we are familiar by appearance and continuity only. But every new discovery adds something to our store of a treasonable knowledge and it is gratifying to see Salt Lake gaining recognition in that particular.

Articles of Incorporation.

With Territorial Secretary Richards this morning were filed the articles of incorporation of the Cottonwood Creek and Big Lake Wagon Road. The objects set forth are to construct and operate a wagon road between a point known as Cottonwood creek canyon, three and a half miles east of the town of Annabella, and Big Lake, four miles south of electric point of Annabella county, Sevier, Utah. Annabella will be the principal place of business. The capital stock is placed at $700. There are twenty-one incorporators, all residents of Annabella, who have taken stock ranging from one to five shares, with the exception of Wm. L. Parks, president of the New Mill Co., who holds thirty-eight. R. H. Barney is president and Wm. L. Parks secretary of the new company.

Sandy's Election Judges.

When the County court on Monday last adopted a resolution incorporating Sandy as a city of the third class, three judges of election were appointed—C. J. Schmidt, Jas. B. Jensen and Axel Johnson. In order, however, that assurance in complying with the law may be made doubly sure, the Utah commission this morning deemed it advisable to cover any doubtful legal point by also appointing judges. This they did, naming the same gentlemen as those chosen by the selectmen.

Not Caught Yet.

Despite the vigorous search that has been made for the two convicts who managed to get away from the penitentiary on Monday evening, nothing had been heard of them up to the time of the NEWS going to press.

A LARGE DIVIDEND.

All Former Years of Z. R. M. S. Exceeded by the Tenth.

AN INVESTMENT THAT PAYS.

Annual Election of Officers.—Dividend of Nine and Three-quarters Per Cent.—Financial Statement.

There was a large attendance of interested people in Z. C. M. I. shoe factory last evening, at the tenth annual meeting of Zion's Benefit Building society. The purpose of the assembly was to hear the report of the secretary, Edgar Howe, and to elect officers for the ensuing year. The president of the society was Thomas G. Webber.

The election resulted in the following choice of officers:

T. G. Webber, president; Wm. H. Rowe, vice president; L. S. Hills, treasurer; Edgar Howe, secretary.

Directors—H. J. Grant, Arthur Pateman, Lilias A. Smith, W. J. Halesman, A. W. Carlson, D. A. Swan, Thos. Hull, Robert S. Wells, O. P. Arnold Jr., John F. Bennett, Edgar Howe.

Auditors—J. H. Burrows, David McKenzie, Jas. M. Barrow.

The report of the secretary was a most satisfactory showing. The dividend declared by the society for the past year was nine and three-quarters per cent. This is the highest that has been paid during the society's existence. A summary of the report is as follows:

The first series of shares has received a dividend for the ten years, on the $20 that has been paid in, at the rate of 50 cents per month, of $59.25. Each series drawn a dividend this year as follows: 1st, $9.17; 2nd, $5.42; 3rd, $4.70; 4th, $4.07; 5th, $3.41; 6th, $2.76; 7th, $2.12; 8th, $1.49; 9th, 99c; 10th, 29c.

During the ten years since its organization the society has received nearly half a million dollars in subscriptions to members, and to withdrawing members have paid more than a quarter of a million dollars, besides $37,361.93 in dividends. In total there has been more than half a million and of this nearly a quarter of a million has been repaid by the borrowers. Of the large list of loans that has been made, the society has foreclosed mortgages in two instances, and in each of these the borrower had deserted the property. This is a record unparalleled in building societies.

The society has had $30,000 borrowed money. This sum was taken at seven per cent, and has proved a good investment. It is now being repaid according to the conditions of the loan.

After hearing the report, electing officers, and attending to some minor business, last evening's meeting adjourn ed.
