SARATOGA CONVENTION

Fairchild Will be Nominated for Governor of New York Today.

BLACK, IT IS SAID, WILL NOT RUN.

Chauncey M. Depew Will Place Col. Roosevelt's Name Before the Republican Convention Today.

SARATOGA, N. Y., Sept. 26.—There is hardly an important observer here who does not believe that the state ticket nominated by the Republican state convention tomorrow will be headed by Col. Theodore Roosevelt for governor and Timothy L. Woodruff for lieutenant governor.

Chauncey M. Depew, who is to name Mr. Roosevelt, arrived here during the afternoon and is positive that his speech will be well received by the Rough Riders. Mr. Depew said tonight that he had not gone into the question of the platform, but he was sure that, if he did so, it would be time enough for him to do so. He said that he was strongly convinced that it would not be disloyal.

One of the first callers on the governor today was Mr. Platt, and following a pleasant conversation with the governor, cordially received by the Platt leaders, Senator Ellsworth and several others of the Platt faction. It was felt Mr. Platt, Mr. Payne and Governor Black had a very pleasant conversation, and there is every indication that the convention tomorrow will be harmonious. The fact that the platform will indorse Gov. Black's administration is indicative of good feeling.

The nomination of the party today put the finishing touches on the platform and their decisions to confer the renomination upon Governor Black afterwards. It will be one of the relatively platforms ever adopted by a Republican state convention, comprising not more than a thousand words. The platform will not deal with national issues, but will only touch on questions of a national scope, including an indorsement of vigorous prosecution of President McKinley's administration.

One of the most important planks will be one in favor of the retention of the Philippines and against the return to Spain of any conquered lands. Another plank will recommend the passage of a currency bill which shall recognize the government paper money as the basis of the gold standard.

The Republican state committee met tonight and arranged details for the temporary organization of the convention. A feature of the proceedings in the absence of active of delegation contests. This was the first pre-convention meeting of the Republican state committee, at which the bottom of contested seats were filled. Bruce E. Payne was selected as temporary secretary of the committee.

PRESIDENT TO COME WEST.

Will Visit Omaha Exposition and Continue Journey to Denver.

Washington, Sept. 26.—The President will leave Washington on October 5th in the morning, arriving at Chicago Tuesday at 11 a.m., via Pennsylvania. Without stopping he will take the Burlington route for Omaha, making a daylight run through Illinois and a portion of Iowa.

After the Omaha visit the President will go to Denver, returning via Omaha and the Northwestern road to Chicago to attend the peace jubilee exercises in that city October 18th.

Four members of the cabinet will accompany the President, namely, Secretaries Gage, Smith, Bliss and Wilson and their wives, also Gen. Miles and Commodore Philip of the Texas and Assistant Postmaster General Heath.

WHAT SPAIN DESIRES.

Will Contend Strongly for the Integrity of Spanish Sovereignty in Philippines.

Madrid, Sept. 26.—The cabinet this evening has under discussion Capt. General Blanco's telegram concerning the American claims in connection with the evacuation of Cuba.

Don Almodovar de Rio, minister of foreign affairs, has been instructed to contend strongly for the integrity of Spanish sovereignty in the Philippines, on the ground that the protocol between Spain and the United States is silent on the question, and also to make a firm stand regarding the Caroline Islands and the Philippine Islands of 1881 if Luzon is ceded to America.

Should the United States prove inexorable, it is expected, the commissioners will yield over to the claim of the commission, commercial and political, compatible with the retention of Spanish sovereignty in the Philippines, but in the event of losing a portion of the islands, they are instructed to refer the whole matter to the concert of the Powers rather than allow the right of preference over other powers, should Spain cede the entire group of the Philippine islands. It is understood, however, all instructions are based on concessions. Most of the commissioners and attaches speak English.

ARRIVE IN PARIS.

The Commissioners Were Received by the U. S. Ambassador and Large Crowds.

Paris, Sept. 26.—The peace commissioners of the United States arrived here today from Boulogne and were received by a special station by the United States ambassador, a number of Americans and the Spanish ambassador. A large crowd outside the depot witnessed the departure of the commissioners for Quai d'Orsay. Every from England to this city was observable.

THE DREYFUS CASE.

Sad Story Published by the London News Concerning M. Zola's Health.

London, Sept. 27.—The Daily News this morning commences the publication of a series of articles which is to explain the Dreyfus affair. The Daily article concerns the resignation of M. Casimir-Perier of the French presidency, which it describes as a strange, sad story. The article says:

"The person in the secret are the Baron Comte von Munster, M. Dumay, M. Thornton, Gen. Mercier, Gen. Billot, Col. Schwarzkoepen, Count Esterhazy and the late Henri, who alone knew the French ministry, others had the power in their hands.

"In December, 1897, a detailed report of the Dreyfus affair, which Count Von Munster sent by the usual channel to the Austrian foreign minister, M. Dumay, intercepted at the French frontier, and it reached the emperor without being a few days later. This fact is now known to the information bureau of Berlin and Germany advised Count Von Munster to demand his passports for the offense was regarded as colder and as offensive to the emperor, on the occasion of the Kaiser's visit. Count Von Munster made this demand at the palace of the Elysee President Casimir-Perier was overwhelmed with the evidences of the resolution and was beside himself. In an extraordinary scene he gave his word of honor to repudiate all other, they with full knowledge of the offer, and sincerely promised to prevent a repetition of it.

"Count von Munster issued and sent a second report of this interview. The document was carefully intercepted and photographed, the negative arriving at the French foreign office within forty-eight hours.

"Three days later, on January 11 1898, Count von Munster called at the cabinet of the French foreign office and protested that Germany would mobilize her troops forthwith unless satisfaction was given for the new insult. A dramatic scene followed. Count von Munster outspoken, a note to violent feelings, especially M. Casimir-Perier with having dishonored him in the eyes of the emperor.

"M. Casimir-Perier was crushed and could not reply at first, but so sorry to sacrifice the country. I will never give him the satisfaction. I will not yield to sacrifice the country. I will have my revenge." Then he said: "I will not yield to sacrifice the country. I will have the president. I pray his majesty to be satisfied."

The days later M. Casimir-Perier resigned."

COL. BRYAN HAS MALARIA.

Flushed with Fever, He is Unable to Return to Jacksonville.

He Will Remain in Washington Until the Fever Has Run Its Course—Is Not Believed to be Serious.

Washington, Sept. 26.—Col. WILLIAM J. Bryan of the Third Nebraska regiment was unable to leave Washington today for Jacksonville. "I have a touch of malaria," he said this evening, "and my physician told me today that I would have to remain here for three or four days."

Col. Bryan was in bed, where he passed most of the day. His face was flushed with fever and he remarked that he guessed he was a little tired out. "I have been delaying my return to Jacksonville," he added, "for two or three days in the hope that I would be better the next day and be able to resume the journey."

Col. Bryan expressed the reluctance with which he had admitted his illness. While he is disposed to look upon his illness as trifling. It is not improbable that he will have to remain in Washington longer than he has been calculating on, to enable the fever to run its course.

British Steamer Wrecked.

New Orleans, Sept. 26.—A cablegram received here reports that the British steamer Veila, Capt. Mooney, from Liverpool, has been wrecked off Santo Domingo. The steamer was built at Greenock in 1885, and is 298 feet long and a good freight carrier.

TELEGRAPHIC BREVITIES.

Gen. Sir Herbert Kitchener has been elevated to the peerage.

In Madrid Spanish is stated at 66. Gold was quoted at 57.50.

Open instructions from Washington, schools in Santiago will be opened from the first Monday in October.

Sixty-five Klondikers arrived at Vancouver, B. C., on the steamer Horse yesterday. A majority were broke.

The city of Santiago, Cuba, is cleaner and healthier now than ever before in its history. No cases of yellow fever are reported.

The whaling steamer Newport arrived in San Francisco yesterday afternoon from Point Barrow with 1,000 pounds of whalebone.

Gen. Stewart L. Woodford last night received from Acting Secretary of State Allen formal acceptance of his resignation as minister to Spain.

The Mississippi board of health has received no reports of new cases of yellow fever in Jackson, but several very suspicious cases are under surveillance.

Gen. Lee leaves Jacksonville this evening for Washington, and it is understood he goes there on a summons from the department. Gen. Burt arrived yesterday.

Col. Richard Day, the United States minister to Chili, arrived at Lima, Peru, safely last night, with Mr. G. A. Delahunde, the new United States consul at Bolivia.

Capt. Hanson and a seaman of the steamer Bonita were drowned at Cabin, Cal., while attempting to make shore in a heavy surf. Two other sailors were rescued.

The navy department has decided to send the big ocean-going tug Iroquois, now at San Francisco, to Honolulu for the use of the naval station to be established there.

The United States coast survey party under John Hilgard and J. Fleming have returned from Alaska. Their work is of great importance, as the result will doubtless be considered in determining the international boundary.

The Chicago platform Democrats in New York Democratic state convention will make a determined effort to have the convention indorse absolutely the last national Democratic convention platform, and unless it relents to the free coinage of silver.

Miss Viola Allen made her metropolitan appearance in Hall Caine's adaptation of his novel The Christian, at the National Theater, Washington, last night, before a very large and fashionable audience.

The yellow fever situation in the far South looked a little worse yesterday. New cases, eight new cases, in Wilkinson County on Mister, M. Dumay, M. Thornton, Gen. Mercier, Gen. Billot, Col. Schwarzkoepen, Count Esterhazy and the late Henri, who alone knew the French ministry, others had the power in their hands.

"In December, 1897, a detailed report of the Dreyfus affair, which Count Von Munster sent by the usual channel to the Austrian foreign minister, M. Dumay, intercepted at the French frontier, and it reached the emperor without being a few days later. This fact is now known to the information bureau of Berlin and Germany advised Count Von Munster to demand his passports for the offense was regarded as colder and as offensive to the emperor, on the occasion of the Kaiser's visit. Count Von Munster made this

DISPUTE SPAIN'S CLAIM.

The Bones of Columbus Form the Subject of Contention.

ARE CLASSED AS PERSONAL PROPERTY

By Spain and Presented by the Prelates—Her Claim is Conceded to be Just.

New York, Sept. 26.—Frederick Crouch was asked last night for his opinion as to the attitude of the commission of the Spanish commission as likely to be assumed by the Spanish commissioners, and replied: "Spain is in a position to dictate terms to Cuba and that the powers of the American and Spanish commissioners are limited. Since the occupation Mr. Goodwin was also asked if he believed Spain was justified in claiming the possession of the ashes of Christopher Columbus, the Spaniards asserting this the ashes come under the classification of "personal property." Mr. Goodwin said: "Spain is entitled to the possession of the remains of Columbus, which accompany the surrender of part of Cuba. Spain is loath to surrender the remaining part of Cuba, of which Havana is the citadel, at some time and yet finds, her rights, such as they are, depend on the terms of the protocol, and it is a reasonable construction to be placed upon the case of international law upon her contention that the ashes of Columbus are included in the land. "Upon the construction of the protocol and these three distinct rights of Spain, namely, the right to the remains of Christopher Columbus, I know of nothing which will prevent the Spaniards from exercising a joint duty to the most illustrious mail Spain has ever produced. There is no, no legal obligation, at least any monetary value to be attached to the greatly distinguished remains, although as a matter of sentiment, they would probably produce a high price at auction, but even then, if the sugar refiner of international fame refined as a valid feature of the case that much value could be placed on such relics it could not affect the claim of Spain for she might then claim that the ashes of the distinguished discoverer were personal property and that she had a right to remove them to her own soil.

"The desire of Spain to keep these venerable bones within her own control and to give them due reverence in the future, as in the past, is not unnatural. She is not bound to deliver them over to the custody of another nation which might not treat them with the reverence which, in the eyes of Spain at least, they deserve.

"Spain has the possibility of the probability that Spain will endeavor to utilize her time-honored custom to procrastinate and put off the time for evacuation, that is, of course, possible. A clash of opinion might then arise which, if produced, might lead to embarrassment and complications. We should then be driven to insist on Spain's departure from the island. If she refused to comply with our reasonable demand then the last resort of kings might have to be again resorted to—certainly a very unfortunate consummation."

Yellow Fever at Jackson.

Jackson, Miss., Sept. 26.—The board of health is in receipt of a message from Dr. W. A. Ratliff, at Wilkinson, stating that a case of sickness has appeared in the Tatum family which shows symptoms of yellow fever. The case has been thoroughly isolated and there is little danger of a spread, as nearly everybody in Wilkinson has actually had the yellow fever during the epidemic last year. The board of health has received no reports of new cases of yellow fever, but several suspicious cases are under surveillance.

NAVAL EXPERT NEEDED.

Captain Bradford Requested to Join the Peace Commission at Paris.

Washington, D. C., Sept. 26.—The first word that has come to Washington from the American members of the peace commission since their departure was received at the navy department today, being a telegram requesting that Capt. Bradford, chief of the equipment bureau, be sent at once to Paris to assist the commission. As the officer is the leading expert of the navy department regarding coaling in the ocean routes and strategic points, the inference is that the commission expects to begin promptly the consideration of those subjects, so far as they relate to the Philippines and the Ladrones.

Respecting the latter group, in which the United States commissioners are to make a selection for a coaling station, it has been found that the coaling harbor is on the island of Guam, the capital of the group, which was captured by one of the warships bound for Manila, and if that is taken there will be no little of the group that left without an owner, further that it is believed that it would be best for both parties, the United States and Spain, to allow all of the islands to go with Guam into United States control.

Capt. Bradford has taken passage on the Lucania, sailing from New York next Saturday.

CHRISTOPHER COLUMBUS.

His Remains, Just Exhumed, Have Lain in Place Since 1796.

Both the Monument and Mausoleum Will be Located in Spain and Reported at National Treasure.

The remains of Christopher Columbus, which have just been removed from their niche in the cathedral preparatory to their shipment to Spain, had laid in their late resting-place since January 10, 1796, when they were brought from Santo Domingo, that island having been ceded to France by Spain.

Since the date mentioned, the remains have had to an open niche in the wall of the presbytery of the cathedral, a yard and a half above the ground, between a pilar supporting the main arch and the choir. In 1891 there was placed in front of the niche a slab of doubtful artistic taste, representing in relief a bust of the great navigator and bearing this inscription in Spanish:

"May the remains and image of the illustrious Genoese, Christopher Columbus, discoverer of this new and in the remembrance of our nation."

After the four hundredth anniversary of the discovery of the New World by Columbus, the Spanish Cortes included in the Cuban budget large sums for the erection of a monument to the memory of the discoverer, to be erected in the most conspicuous place in Havana, and the construction of a mausoleum to hold the ashes. This mausoleum, the work of the Spanish sculptor Mariano Benlliure, was sent to Havana and placed upon a base erected in the center of the cathedral close to the niche that contained the remains.

The monument, the work on which was entrusted to the sculptor Benlliure, was to begin promptly the remains were to Havana. It was to have been paid for by an appropriation included in the budget of the island, but circumstances have prevented the plans made on the occasion of the celebration of the four hundredth anniversary of the discovery of America, and it is probable that both the monument and the mausoleum will be placed in a Spanish city in Spain, where they will be looked upon as one of the treasures of the Spanish nation.

THE DEADLY CYCLONE.

Much Damage is Done and Several Lives Lost at Merriton, Canada.

St. Catherines, Ont., Sept. 26.—A cyclone struck Merriton, ten miles from this city, with terrible violence this afternoon, blowing down houses and injuring many.

The Lincoln paper mill was unroofed and half the roof was blown off the powerhouse of the Ontario gas works.

Other prominent buildings unroofed are Lyons' Lake Shore hotel, the Orange hall, the public school, St. James church and the Presbyterian church.

A few minutes before the public school, when it collapsed, the children were covered with piles of debris, and many were badly injured. Fortunately, fast, one of the pupils, was dead when taken from the ruins.

Mrs. Charles Cline was killed just as she was about to enter the front door of her home, a large piece of timber crashing through her skull.

In St. Catherines the armory of the local militia was completely demolished. Part of chimneys crashed through the roof of the collegiate institute, narrowly missing a company of students who were at drill.

Hatcliffe's large cabinet on the banks of the Welland canal has completely disappeared. The St. Catherines's home was badly wrecked.

James McBeth, and Maude O'Neil, employed by Lynch jewelry store, who were injured, died tonight, making a total of five deaths. Many reports are coming in from the country of houses being blown away and people injured.

Oh, the Pain of Rheumatism!

Rheumatism often causes the most intense suffering. Many have for years vainly sought relief from this disabling disease, and are today worse off than ever. Rheumatism is a blood disease and Swift's Specific is the only cure, because it is the only remedy which can reach such deep-seated diseases.

A few years ago I was attacked by inflammatory Rheumatism, which became so severe that I was for weeks unable to walk. I tried several prominent physicians and followed their treatment most faithfully, but was unable to get the slightest relief. In fact, my condition grew more and more alarming every day. Then I decided to try S. S. S. Before allowing me to have it, however, my guardian, who was a chemist, analyzed the remedy and pronounced it free of potash or mercury. I felt so much better after taking two bottles that I continued the remedy, and in two months I was pronounced well. The cure was permanent, for I have never since had a trace of Rheumatism though many times exposed to damp and cold weather.

W. H. FOSTER.

6711 Fowlton Avenue, Philadelphia.

Don't suffer longer with Rheumatism. There is only one way to get relief, and that is to purify the blood. Our physicians will be glad to answer any question you may ask, and they can not reach your trouble. Don't experiment with doctors—their potash and mercury will add to your disability and completely destroy your digestion.

S.S.S. For The Blood

will cure perfectly and permanently, and is guaranteed purely vegetable, and contains no potash, mercury, or other mineral. Book mailed free by Swift Specific Co., Atlanta, Ga.

SYRUP OF FIGS

NEVER IMITATED—THE QUALITY.

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of this fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. It is enjoyed its beneficial effects, please remember the name of the Company—
