References to and letters of recommendations from the most eminent Professors of Music in the East.

JOY TO THE AFFLICTED!

LAUGHING GAS!

Look the Million! I take pleasure in informing my numerous friends and the Public, that I have been to great expense and trouble in buying the Patent Right for Salt Lake City for the best Nitrous Oxide Gas Apparatus that is manufactured, as is proved by its being used by the Royal Families of England, France and Belgium, also by Dr. Colton in the Dental Institute, New York.

The Gas made by this Apparatus *only* is absolutely pure, and no unpleasant choking or strangling sensation is experienced, as may disgusting gas used in taking it but one can breathe perfectly natural, every way, and you would not suspect that you were breathing any thing but the purest air. It is, in fact, the new discovery of all the properties the patent extraction of Teeth.

I have a large supply of the same Teeth which I took the First Premium in Paris last summer.

Also five different kinds of Tooth Powder for Inserting Teeth, including the kinds used in England and France.

Particular attention given to preserving the natural Teeth. Terms moderate. Call and see.

BREVITIES.

Ole Bull, the great violinist, is performing in Chicago.

When we make an idol of a woman she usually becomes idle.

The courts of New York have granted fifty-three divorces during the year 1867. Chicago boasts 300 more than that.

The Pope has already imprisoned three thousand persons for sympathizing with Garibaldi.

Four feet of snow have fallen in the valleys of Southern Kansas, where it is rarely seen to the depth of over four inches.

At a recent celebration of the victory, in Lucknow, four hundred elephants formed a part of the procession.

Ten thousand yards of oil cloth per week have been made in a Maine factory during the past year.

Longfellow says that "Sunday is the golden clasp that binds together the volume of the week."

Congress has given to the different railroad companies 124,000,000 acres of land.

Patrick Farley, of New Haven, caused the arrest of his little daughter, the other day, on a charge of stealing a dollar from his wallet, for the purpose of having her sent to the almshouse, so that he need not support her.

Sir Samuel Baker, in his late book, "The Nile Tributaries of Abyssinia," says:—

"There is no divorce Court among the Arabs. They are not sufficiently advanced in civilization to accept a pecuniary fine as the price of a wife's dishonor; but a stroke of the husband's sword, or a stab with the knife, is generally the ready remedy for infidelity."

Cassius M. Clay, our Minister to Russia, creates a sensation periodically in St. Petersburg, by appearing one day with very white (natural) hair, and the next day with jet black (dyed) locks. Then for a few weeks he varies in hirsute hue from blue-black to delicate pea-green.

Dr. Adam Clark, who had a strong aversion to pork, was called upon to say grace at dinner where the principal dish was roast pig. He is reported to have said: "O, Lord, if Thou canst bless under the gospel what Thou didst curse under the law, bless this pig."

The projected canal from Chicago to the Mississippi River can be built 160 feet wide, 8 feet deep and furnish navigational facilities for vessels of 1,000 tons, at a cost of $18,217,000. The route would be by the way of the Michigan and Illinois Canal and Illinois River.

New York has had 25 mercantile failures since New Year's, with liabilities for about $3,000,000. The heaviest have been in boots and shoes, blocks, dry goods, and clothing. The Broadway leading dealers have now put down fine goods, especially silks, from 12 to 15 per cent.
