SILVER QUESTION.

Members of the Colorado Silver Association Meet Together at Denver;

ADDRESS BY FRANCIS G. NEWLANDS, OF NEVADA

A Twelve-Car Coal Train Runs Down A Mountain Side: Several Killed.

CENSUS TROUBLES AT ST. PAUL, MINN.

The East African Agreement.—A Unofficial Negro.—An Austrian Town Burned.

By Telegraph to the NEWS.

Colorado's Silver Men.

DENVER, June 18.—A meeting of the Colorado Silver Association was held here today, and was addressed by Francis G. Newlands of Nevada, a member of the national silver committee appointed by the St. Louis convention, who has been in attendance at Washington through the winter. He gave an account of the pending legislation and of the position of the parties and the Administration and prominent politicians with reference to it. He urged an extension of the work of the national silver committee, the organization of a bi-metallic league, under the presidency of General Warner of Ohio, which is to act in co-operation with the bi-metallic leagues of France, England, Germany and Italy, and is to extend in those countries the work of educating and preparing pamphlets in the languages of the various countries, with a view to inviting the producers and agricultural classes with the political consents of those countries who have declared themselves almost unanimously in favor of the bi-metallic system in the war upon the mono-metallic gold standard.

The meeting was one of great earnestness, and resolutions were adopted favoring free coinage, opposed to bullion resumption and advocating the retirement of those senators and congressmen who vote for such a measure.

Anglo-American Agreement.

PARIS, June 18.—*Le Temps*, commenting on the Anglo-African agreement says: "When we think of all the glorious memories connecting equatorial Africa with the history of English explorers, and when we consider how recent are Germany's claims and the danger of cutting in two the English possessions, we can only conclude that Lord Salisbury has very powerful reasons for making such large concessions. We vainly seek to discover what secret concessions Germany has made which could explain Lord Salisbury's generosity."

Hitting at Salisbury.

LONDON, June 18.—The Chronicle protests against Lord Salisbury going out of his way to enlarge the territory of Germany when there is the utmost necessity on account of Newfoundland to cultivate the friendliness of France. It thinks the government's blunder has brought the country within a measurable distance of a dissolution of parliament.

Life Insurance Association.

BOSTON, June 18.—Delegates from the various life underwriters' associations of the country met today and formed a national association. A constitution was adopted providing that the organization be called the National Association of Life Underwriters, with the object to advance the best interests of the cause of life insurance throughout the country.

The Whisky Trust.

NEW YORK, June 18.—The wholesale liquor dealers of this city are thoroughly in earnest in their fight against the whisky trust. At a meeting today they decided to raise a fund of half a million with which to buy one or more distilleries. When finished they will find themselves to sell no whisky but that made in their own distillery.

French Loan.

PARIS, June 18.—The budget committee has passed finance minister Rouvier's bill for the loan of 7,000,000 francs of 3 per cent perpetual rentes.

Plunged Down a Mountain.

ASHEVILLE, N. C., June 18.—A terrible accident has occurred on the Western North Carolina road. On the southern side of Balsam mountain to Melrose, about three miles, there is a fall of fully 600 feet. Owing to this tremendous grade an engine is kept constantly there to help trains up and down the mountain. On account of the heavy rains the track was very slippery last night and when a twelve-car coal train started down the mountain it soon got beyond control of the engines with all brakes set. The speed quickened until a tremendous rate was reached, when suddenly the rails spread and the entire outfit plunged headlong down the mountain side. Engineers Smyra and Tunstall and Brennan Taylor were killed. The others of the crew escaped with broken bones and serious contusions.

Census Troubles.

MINNEAPOLIS, June 18.—A party of officers armed with a search warrant went to St. Paul early this morning to recover the census records confiscated last night by Deputy Marshal Doggett. They were driven out of Commissioner McCafferty's office at the muzzle of revolvers. The city is in wild indignation over the proceedings.

Rutgers College.

NEW BRUNSWICK, N. J., June 18.—This was commencement day at Rutgers College. The endowment fund has been increased by $60,000, and Garrett Winants, of Bergen Point, N. J., presented the deeds of a $100,000 dormitory.

The Jury Disagree.

LONDON, June 18.—The jury in the case of Miss Weidemann against Captain Robert Horace Walpole for breach of promise disagreed.

A Cruiser Aground.

PHILADELPHIA, June 18.—The dynamite cruiser Vesuvius started from League Island for Brooklyn this morning. In a short time she grounded on a spit of land at the point where the Schuylkill river empties into the Delaware, and could not be gotten until late in the afternoon. She then proceeded on her voyage, and it is not known whether she was injured or not.

A Bridge Collapses.

NEW YORK, June 18.—A section of the bridge leading from the sea wall in front of Hudson Square Park, Hoboken, gave way tonight, falling and precipitating about forty persons in the water beneath. It is thought they were all rescued, though it is impossible to tell whether or not some of those who were on the bridge were drowned. At a late hour tonight the friends and relatives of many known to have been in the vicinity of the bridge, and who had not returned to their homes, were anxiously scanning the neighborhood for traces of them.

The Denver Tragedy.

DENVER, June 18.—The physicians have succeeded in resuscitating Mrs. Jones, who was shot by her husband this morning, and an investigation shows that the ball did not pass through the heart, but through the lower lobe of the left lung, and was taken out of her back. The wounded woman, however, is very low and not expected to live till morning.

The Prophetess.

ST. LOUIS, June 18.—Mrs. Woodworth, the alleged prophetess and faith-healer, who says that she predicted the Pacific Coast convulsions, lies for the last 52 weeks inside this city her home, established by her quarters in a so-called "gospel tent," at corner Jefferson Avenue and Gamble Street. Prophetess Woodworth recently struck a run of particularly hard luck. For the last two nights her tent has served as a mat for bushels of bricks and cobblestones hurled by a mob which indignantly repudiated Marie and her pretended gifts. She declares that she is being persecuted because Father Harty declaimed against her last Sunday at St. Bridget's Church. She believes that the Roman Catholics are persecuting her, and says she will not disseminate her revivals.

The British Commons.

LONDON, June 18.—In the Commons last night Smith, government leader, said that he would introduce on Monday a motion for the earlier meeting of parliament, a curtailment of debate on the Queen's speech, and a suspension until the next session of complicated bills like the land purchase measure.

Gladstone gave notice of a resolution protesting against such a grave change in parliamentary usage and constitutional practices. He complained strongly that everything appeared to be sacrificed to the passing of the Irish land bill.

Smith admitted that if his motion were adopted he would ask an adjournment of the land purchase bill until the next session. The majority would forget to pass the licensing bill, notwithstanding the promise thereof. He declined to say anything about the Irish local government bill.

Senate.

WASHINGTON, June 18.—The Senate, proceeding upon the consideration of executive business, the doors were reopened at 1:30. The conference report on the anti-trust bill was reported and agreed to. Both houses recede from their respective amendments, and the bill remains in shape as it passed the Senate. The Pendleton pension bill passed the Legislative, executive and judicial appropriation bill.

An amendment was agreed to increasing the salary of twenty-six committee clerks from $1,000 to $1,200, and the salary of clerks to senators from $1,200 to $1,200. The Senate disposed of seventy pages of the bill and adjourned.

Murder of a Partner.

DENVER, June 18.—This evening at 5 o'clock George McCartney met E. A. Milburn on Sixteenth street, between Stout and Champa, one of the most crowded thoroughfares of the city, when he pulled a revolver and fired five shots at Milburn, two of which entered his head, producing wounds of death which he cannot survive.

Milburn is a carriage manufacturer, and McCartney had been in his employ, but later on they entered into some kind of partnership. Trouble arose between them, and Milburn had McCartney indicted for embezzlement, which was the direct cause of the shooting this afternoon. Both men have families, and stood well in business circles.

A Fearful Storm.

HURON, S. D., June 18.—A terrible storm is reported to have occurred in Potter County last night, near Appomattox. It is stated that a cloudburst occurred, filling the rivers and flooding the surrounding country. Several people are said to have been drowned. Much damage was done near Lebanon by high winds, and two men are reported killed.

A Hot Contest.

BAYOU SARA, La., June 18.—The election for state senator yesterday was hotly contested. As a result of a fight in the Ninth Ward, Hillard Richardson and Edward Taylor, prominent young men, were fatally injured.

The East African Agreement.

BERLIN, June 18.—The *Deutsches Reich*, commenting on the East African agreement, says it could not have believed Germany would relinquish her claim to such a vast territory.

The *Berlin Post* thinks the government has only renounced claims of a doubtful nature.

An Austrian Town Burned.

BUDA PESTH, June 18.—The town of Petscenskij has been burned. One person was killed and many injured, and many are missing. One thousand persons are homeless.

A Brute.

NEW YORK, June 18.—Officer Charles Beck had his left cheek torn off tonight by a negro, one James Lillienguild, who is a waiter on the Providence route. The negro got into a quarrel with some of his companions on the pier about baggage, and Beck, Officer Beck arrested him. The negro knocked him down and bit a piece of his cheek out before he could be prevented. Other negroes tried to aid Lillienguild, but reinforcements arrived in time to save Beck's life.

Lottery Petitioners.

BATON ROUGE, La., June 18.—When the House met today the Speaker received a petition from Benjamin Newman, of London, offering a million and a quarter yearly for the lottery privileges applied for by John A. Morris.

Central American Union.

SAN JOSE, June 18.—Subject to the final approval of Congress, the President of Costa Rica has agreed to accept the draft of resolutions regulating the Central American Union, passed at the conference at Salvador in October, but will send a commission to each of the republics to arrange for provisions for liberty of the press, the regular succession of the executive and the sanctity of human life, three points omitted by the conference.

Democratic Convention.

LITTLE ROCK, June 18.—The democratic State convention nominated for governor, James P. Eagle; Secretary of State, R. B. Schlein; auditor, W. S. Dunlap; attorney-general, M. L. Atkinson; superintendent of public instruction, I. H. Shipp; treasurer, R. B. Marrow; land commissioner, C. B. Mergers.

SOME OF THEM.

Principal Changes Made By The Senate Committee In The Tariff Bill.

THE METAL SCHEDULE CONSIDERABLY ALTERED.

In the Sugar Schedule There are Several Rather Important Alterations.

THE FISH PRODUCTS OF AMERICAN FISHERIES.

The Flax, Hemp and Jute Schedule Re-Modelled By The Committee.

By Telegraph to the NEWS.

THE CHIEF CHANGES

Made by the Senate Committee in the Tariff Bill.

WASHINGTON, June 18.—Following are the principal changes made by the Senate committee in the tariff bill:

Glassware classifications are changed and a large general reduction made.

A large number of changes were made in the chemical schedule, many decreases and some increases. Among them tannic acid, or tannin, is reduced from $1 to 50 cents per pound. Crude glycerine from 2 to 1½ cents; opium containing 9 per cent or less of morphia and opium prepared for smoking increased from $10 to $12 per pound; brimstone and sulphur, not otherwise provided for, are transferred to the free list, as are also muriatic and sulphuric acid, not otherwise provided for; peppermint oil is made 25 per cent ad valorem, instead of $1 per pound; butyric or propylic alcohol, dutiable in the chemical schedule at 10 per cent ad valorem, is transferred to the liquor schedule and changed to $2 per gallon.

Many changes are made in the earthenware and glassware schedule, all reductions, among other glass and glassware, not otherwise enumerated, which, in the House bill, are covered by six separate paragraphs, are consolidated in one paragraph, including small mirrors and lenses, and made to pay a duty of 45 per cent ad valorem, this being in the nature of a large general reduction.

IN THE METAL SCHEDULE

the following are some of the changes: Iron ore containing more than 10 per cent of copper, half a cent per pound on copper, instead of 1½ cents. Chain iron of hoop iron or steel, dutiable at 1 cent. Cable iron is made to include iron from ten to twenty wire gauge. Cable iron, dutiable at 1½ is made to include iron of finer than No. 20 wire gauge. Iron or steel rails are reduced from $12.44 to $11.20 per ton; the provision that after July 1, 1891, manufactures of which the plate is the chief part shall pay, in addition to the rule of duty upon the plates, the ad valorem duty of 35 per cent is stricken out; manufactured steel of a reduction of one-tenth of a cent per pound on all grades; cold polished iron or steel, one-fourth cent per pound, instead of one and one-fourth cents; cast hollow ware, two and one-half cents per pound, instead of three cents.

The provision making 45 per cent ad valorem the minimum duty on chains was stricken out. The duty on shotguns and revolvers, 30 and 40 per cent ad valorem, is changed to a specific duty from 40 cents to $5 each, according to value, and 35 per cent ad valorem. Fine copper imported in the form of ore, 1 cent per pound, instead of 1 cent; old copper 1 cent per pound, instead of 1½ cents; coarse copper and copper cement, 1 cent per pound, instead of 1½ cents.

COPPER IN OTHER FORMS,

not manufactured, 1½ cents per pound, instead of 2 cents; nickel and nickel alloy, 8 cents per pound, reduced from 15 cents; clock time, 15 cents per pound, reduced from 15 cents; gold watches and gold watch cases, 25 per cent ad valorem, reduced from 40 per cent; mica, dutiable at 35 per cent ad valorem, and nickel, crude, dutiable at 5 cents per pound, are transferred to the free list.

In the wool schedule, waxed boards are made $1 per thousand feet, instead of $1.50. The House provision fixing an equal retaliatory duty on sawed lumber imported from countries imposing an export duty on logs was stricken out, and a provision inserted making the duty imposed in such cases the same as the rates under the present law.

In the sugar schedule the two cents per pound bounty is extended to maple sugar. No bounty will be given for less than 500 pounds of sugar per year. Persons who apply for or receive bounty not entitled thereto shall pay a fine not exceeding $5000 or be imprisoned for a period not exceeding five years, or both. Sugar between 12 and 16 Dutch standard, will pay a duty of three-tenths of a cent per pound, instead of being free, as provided for by the House bill. Sugar above 16 Dutch standard, six-tenths of a cent per pound, instead of four-tenths of a cent.

AMONG THE CHANGES

in the agricultural schedule are: Barley, 25 cents per bushel, reduced from 30 cents; barley malt, 40 cents per bushel, reduced from 45 cents; cleaned rice, 1½ cents per pound, reduced from 2 cents; uncleaned rice, 1 cent per pound, reduced from 1½ cents; rice flour and rice meal, 1 of a cent per pound, reduced from 1½ cents; cabbages, 1 cent each, reduced from 3 cents; fish not specially enumerated, ½ a cent per pound, reduced from 1 cent. The duty on oranges, lemons or limes in packages is reduced 50 per cent in bulk, $1.50 per 100, instead of $2.50; grapes, 60 cents per barrel of three cubic feet, instead of 2 cents per pound; chocolate, 2 cents per pound, reduced from 3 cents; prepared cocoa, not specially provided for, 2 cents per pound, reduced from 4 cents.

The provision giving to exporters of meat a draw back of the duty paid on the salt used in curing the meat for export is stricken out.

Following are among the changes in schedule on spirits: Whisky and other beverages, still wines in jugs, containing each not more than one pint, $1.85 per case, instead of $1.85; any excess beyond the invoice quantity, 6½ cents per pint, instead of 5 cents, but no additional duty is assessed on the bottles or jugs; fruit juice not specially provided for, containing not more than 18 per cent alcohol, 50 cents per gallon, instead of 60 cents;

SODA AND SIMILAR WATERS

in bottles, containing not more than three-fourths of a pint each, 10 cents per dozen, instead of 13 cents; containing more than three-fourths of a pint, and more than one and one-half pints, 20 cents per dozen, instead of 26 cents; natural effervescent mineral waters, transferred to the free list.

Among the changes in the schedule of cotton manufactures are: Cotton cloth valued at more than 5 cents per square yard; if bleached, 2½ cents per square yard; if printed, 4 cents instead of 50 per cent, ad valorem. The provision that ready made clothing having India rubber in its composition shall be subject to a duty of 60 cents per pound and 50 per cent, ad valorem is stricken out. All pile fabrics, bleached, 12 cents per square yard and 20 per cent, ad valorem; if dyed, colored, stained, painted or printed, 14 cents and 20 per cent, ad valorem, instead of 19 cents per square yard and 20 per ad valorem. The maximum duty on hose is 40 cents per dozen pairs and 40 per cent, ad valorem, instead of $1, and to 40 per cent; the maximum duty on shirts and drawers is $1.25 per dozen and 40 per cent, instead of $2.25 and 40 per cent. Corsets are eliminated as a separate paragraph, and duty will be charged according to the material of which composed.

ON GLANCINGS, DATS AND FLANNELS

for underwear, valued at not more than 30 cents per pound, the duty will be the same as that imposed on one and one-half pounds of wool, first-class, instead of one pound. On trimmings and buttons, of which wool or worsted is a component part, the duty will be 60 cents per pound and 60 per cent ad valorem, instead of 70 cents and 60 per cent.

In the silk and silk goods schedule goods by the piece are made dutiable at 50 per cent, an advance. The provision that silk clothing, when composed in part of India rubber, shall pay a duty of 10 cents an ounce and 60 per cent ad valorem, is stricken out.

In the sundries schedule a minimum duty of 50 per cent ad valorem is provided for in the glove paragraph. Painting and statuary not otherwise provided for, 30 per cent ad valorem, from the free list; common clay tobacco pipes, 35 per cent ad valorem, reduced from 70 per cent.

In the list, pelts and other proper products and goods of Indians passing and repassing the boundary line of the territories of the United States are dutiable.

The provision concerning the fish products of American fisheries and fresh or frozen fish caught in fresh waters, except salmon, is made to read: "Fresh fish caught by citizens of the United States in the high seas or in the open waters of the lakes bounding the boundary between the United States and the Dominion of Canada."

Ores of nickel, containing more than 2 per cent copper, are to pay a duty of 1 cent per pound on the copper contained therein, instead of ½ cent per pound. Tapioca is made free.

WITHOUT ANY MORTGAGE

Pitch or coal tar is added. Works of art, etc., brought for temporary use or exhibition, and not for sale, may be admitted free for a term of six months, may be retained in the country an additional six months, in the discretion of the Secretary of the Treasury. Gypsum or sulphate of lime is taken from the free list and made dutiable at $1 a ton.

The schedule of flax, hemp and jute manufactures undergoes many changes, including: Binding twine, 1½ cents per pound, instead of 1½ cents; cotton bagging, of the value of six cents or less per square yard, 1 cent and 2 per cent per square yard, instead of 1 cent and 5 per cent; brown and bleached linen cloth containing less than 100 threads to the square inch 35 per cent ad valorem, instead of 50 per cent.

In the wool schedule, Russian camel's hair is taken out of the wools of the third class. The woolen and worsted yarns, valued at not more than 50 cents per pound, the duty will be two and a half times the duty imposed on a pound of unwashed wool of the first class, instead of twice that duty, and on woolen and worsted cloths, knit fabrics and manufactures of every description made wholly or in part of wool, valued at not more than 30 cents, the duty per pound will be three times the duty imposed on a pound of unwashed wool of the first class, instead of twice that duty.

FEDERAL ELECTION BILL.

The House committee on election of President and Vice-President and representatives in Congress decided, by a party vote, to report with some amendments the federal election bill agreed upon in the republican caucus Monday night. There will be a minority report.

A Compromise Likely.

WASHINGTON, June 18.—There is a strong probability that the difficulty arising over the position in which the Republicans in the House find themselves in consequence of the passage of a free coinage silver bill by the Senate will be overcome for the present by reference of the measure to the Coinage, Weights and Measures Committee; indeed, it was said that the Speaker had late this evening entered that the bill be referred to that committee. Representative Conger, chairman of the Coinage Committee, had several interviews with Reed during the day, and, supported by other members of the House, urged that, under the rules, the only proper thing for the Speaker to do was to make the reference mentioned. Conger, at 11 o'clock tonight, said that he did not believe Reed had decided the question, though he might have done so. Under the rules the reference could be made at any time and nothing more would be necessary than the Speaker's order. It is believed by friends of the original House bill that this reference would result in securing time within which to reach a compromise basis upon which both Senate and House can stand. The conservative silver men are of the opinion that the outcome of the proposed reference of the bill back to committee would be the passage of a liberal silver bill and the defeat of the Senate bill.

Dyspepsia
Makes many miserable victims every year. Distress after eating, headache, heartburn, sour stomach, faintness and capricious appetite are symptoms of this very widespread and growing disease. Hood's Sarsaparilla tones the stomach, creates an appetite, promotes healthy digestion, relieves the headache, and cures dyspepsia.
"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. In an hour after eating I had a faintness or tired, all-gone feeling."
All-Gone Feeling
As though I had not eaten anything. Hood's Sarsaparilla did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced. It relieved me of that faint, tired, all-gone feeling. I have felt so much better since I took Hood's Sarsaparilla, that I am happy to recommend it." C. A. PAGE, Watertown, Mass.
"I had dyspepsia many years, and despaired of ever being well. But Hood's Sarsaparilla has entirely cured me." MRS. J. S. BAILEY, Marblehead, Mass.
Hood's Sarsaparilla
Sold by druggists. $1; six for $5. Prepared by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

Smile Again on Me!
signed Tom to his beloved. He knew not what gave her such a charm in his eyes. Her teeth, preserved by sozodont, which she had used from girlhood, did his business. Sozodont has lover by virtue of MATRIMONY.

The Great American Chorus.
Sneezing, snuffing and coughing. This is the music all over the land just now. "I've got such an awful cold in my head." Cure it with Ely's Cream Balm or it may end in the toughest form of catarrh. Maybe you have catarrh now. Nothing is more nauseous and dreadful. This remedy masters it as no remedy ever did. Not a snuff nor a liquid. Pleasant, certain, radical.

James Marsh, of Aten, Nebraska, after an experience of four years in selling Chamberlain's Pain Balm, says: "It is the best and most reliable liniment ever produced." A fifty cent bottle of it will accomplish more in the treatment of rheumatism, lame back or severe sprains than five dollars invested in any other way. For sale by Z. C. M. I. Drug Department.

Go to SPENCER, BUNTZER & Co., opposite City Hall, for Tin Roofing, Guttering, Spouting, Stoves and Tinware, etc.

Pains and Aches ARE PROMPTLY CURED BY St. Jacobs Oil
Maywood, Essex, Aug. 22, 1888.
I suffered two years with pain in my side; doctor failed to help me. St. Jacobs Oil cured me; no return of pain.
F. LEMONS, P. M.
Carlisle, Pa., February 11, 1888.
I was hurt in the left hip and tried several physicians without obtaining relief. Less than a half bottle of St. Jacobs Oil cured me.
