As the M. & P. train was nearing Tempe, Ariz., a few days ago, a man named Cliff Hamilton, handcuffed and in the custody of an officer, jumped from the train and has not yet been recaptured. He is wanted in Mineral, Texas, for an assault with intent to commit murder at that place last July. He was recently the keeper of a saloon house at Gila Bend, where he was arrested.

At Lander, Wyoming, a few days ago, Bill Gallagher and a Woman with whom he had been living had a quarrel, and Gallagher began beating the woman. Col. W. H. Hoel returned last evening from a trip to Cheyenne, says Friday's Laramie *Boomerang*. He says the people of that city are feeling very good over the prospect of having the Union Pacific railroad located at that place, instead of having the work done at Omaha as at present. They have the shops there where the work could be done and it is claimed that transition on the road for the cars is now brought from Oregon and Texas. Philosophy that the haul to Cheyenne is much cheaper than to Omaha, all of which, of course, is true. The shops at Cheyenne are not so large as Omaha but they are better and are sufficiently large.

Citizens of Vancouver were startled the other day by the announcement that a case of bad leprosy was at Nanaimo, B. C. Correspondents were asked—no nothing until an investigation was made, and Public Health Inspector Thomas was sent to Nanaimo to report. Dr. Thomas returned Saturday. He pronounced the disease, which has become epidemic, chronic diarrhoea of a malignant type. A number of children had died. Week he was there the epidemic was at its height. The disease cannot be accounted for, children under 12 years are the only victims.

On Friday, Joseph Smith, a miner in the employ of Jackson & McGhee at Folsom, Cal., had a narrow escape from death. He was at work in the bottom of a shaft, and at depth of thirty-five feet from the surface he took struck through into an old drift or cave. Smith has barely time to drop his tools, clutch the rope and escape to his partner on the surface when the entire lining dropped out the shaft. It is not positively known how deep the old excavation is. A bucket was lowered over forty feet from the spot where the cave took place without touching bottom.

The Cheyenne *Leader* learns that an application will soon be made to Governor for the pardon of Charles Barnhart, Chris Burton, John Boulter and Kinney, four of the men convicted of grand larceny in the district court of Laramie county last December. The men killed calves in the Green Hills country to save their families from starving. They are unable to exculpate themselves sufficiently in English and are believed to have been induced into committing the crime by the two men who were convicted with them. The movement was started at the Governor's home of three men and the petition is largely signed by responsible and influential men. Rev. H. Wood, of Cheyenne, interested himself in this matter as if the men are let out Governor they will have to release to get in a spring crop for their families.

SUNOL!

The Putnam Nail is the only exclusively Hot-Forged and Hand-rose-Pointed nail.
Look to your smith's shoeing box, if the nails have smooth edges for the whole length they are the PUTNAM, for they are Hammer-Pointed and are not clinched.

The above photo, from a photo taken on the shoeing of Sunol, shows the nails in place and ready to be driven in the usual manner. The nail is then clinched and the point broken off close to the hoof, and the head is then pounded down into the hole made, as shown in the lower group in photo.
