IN SOUTHERN UTAH.

Mines and Mining Developments in That Part of the State.

WORK IN STATE LINE DISTRICT.

Operations at Silver Reef, Pioche and De Lamar—Trading on Change—Park City Pickings.

Notwithstanding the fact that already much newspaper talk has been indulged in regarding the new State Line mining district, the conditions in that locality are such as to warrant the statement that before long still more attention will be paid to the district, both through the medium of the press and also through the interest that will undoubtedly be evinced among capitalists and wealthy speculating syndicates.

Mr. E. G. Woolley Jr., who has just returned from a ten days' trip around in and through southern Utah, gives it as his opinion that many of the locations being worked there at present will, in a short time, develop from prospects which they now are to valuable and well paying mines. In the town of State Line there are now from 150 to 200 men, most of whom are engaged in working and developing their claims. Tracks have taken steps towards inducing the United States government to establish a postoffice in the vicinity and are likewise asking for the establishment of polling places for the coming great and important election. Silver is the paramount issue with them and several times now they shown their love for the gold-bugs by turning them in office.

There is a great activity in the camp at present, and the properties that are being developed are mainly owned by the men working them. The Ophir and Horse Mines are making regular shipments to the smelters at Sandy, the former sending ore which shows $1,000 to $1,500 per ton in silver and $10 to $12 in gold, while the latter produces ore running from $200 to $300 in gold and silver. The ore comes from large, well defined, true fissure veins, and the gold is in beautiful colors and is freely panned, showing that it will be very easily worked. The silver is generally found in a sulphide state, but sometimes it has been discovered in a metallic form.

Nowhere in Utah, on which side nearly all the development work is being done, are there better facilities offered for mining. Timber is found there in plenty and of the kind, too, that is best suited for the erection of log cabins and for purposes of fuel. Water of the purest mountain variety is easily obtained, coming down from the canyon almost incessantly. If perchance the streams do play out, the sinking of a 10-foot well will make up for its stoppage through the regular channels. It is estimated that the district will supply sufficient water to run fifteen or twenty mills, besides furnishing that which is necessary for culinary purposes. The Utah and Nevada state line cuts the district at Government Peak, three miles west of State Line.

At Silver Reef, the old time mining district of Southern Utah, the Barbee and Walker mills are in operation, running five stamps by means of water power, and treating high grade ore, which is taken from the upper workings of the Tecumseh, Thompson and others by climbers. The water in the properties of the district is so high at present that it is running over the collar of the California shaft. The men at work, however, are taking out good ore and when a rise in silver comes, the necessary pumping machinery to keep the properties in good shape, will be put in. The mines of this district have hardly been scratched sure, comparatively speaking, and although an immense amount of ore has been extracted from them, there has not been sufficient enterprise shown to test in true reality what these properties contain.

Prospecting is going on all through that county, but very little work is being done except towards Pioche in Nevada, and State Line. The Old Timer, Half Moon, Yuma and Freemont at Pioche are being worked and extensive experiments for obtaining if possible, cheaper methods of treatment on account of the low prices of metals, are going on and have been crowned with a degree of success. The mill at Bullionville is running on gold tailings and experimenting on ore from the Advance mine owned by Moore, W. H. Noble, Lawrence and other Salt Lake people. The cyanide process is used and good results are achieved.

At De Lamar the work being done is principally on the April Fool and De Lamar mines. The Delamar will with the cyanide process run through 200 ton of the pay day and it is understood from reliable sources that the gross production of gold at the mill is from $15,000 to $20,000 per month. The product of the mill is shipped to Milford by means of the De Lamar tailing wagon which carries it in a large tote into which that the product is placed is drawn by four horses, having also a driver and three passengers on every trip. The wagon makes three to four trips a month and it is estimated that it carries from $25,000 to $30,000 each time. The chances from De Lamar to Milford is covered in the days traveling only in the day time and spending the night at Desert Springs. At this place there is a house, outside of which is a large tank, into which again is placed the sale from the wagon and securely fastened for the night. The April Fool mill is doing a good work, and it is believed that negotiations for its sale to De Lamar are now under way.

A good deal of prospecting is going on in the Frisco district, near De Lamar, and fair success is rewarding the labors of those engaged in the work.

TRADING ON 'CHANGE

Mammoth, Ontario and Dalton Sold With sales in the Pit.

There was no exceeding brightness manifested on 'change today, but Mammoth and Ontario of the listed stocks were heavy with transfers, the former selling at $1.90 and $1.97½ and the latter at $10. Dalton of the unlisted class sold in a sale of 1,000 shares, which went at 1½ cents per share.

The closing figures were as follows:

TRANSFERS OF STOCKS.

One hundred shares of Mammoth at $1.92 per share and 100 at $1.97½; 100 Ontario at $10; 1,000 Dalton at 1½ cents. Total shares sold, 1,300.

Condition of the Mines.

The Bingham Bulletin gives it that development at the Alaska in Carr Fork continue to be of the most favorable character. It will be remembered that the latter giving up the richest ore last spring accidentally caught by a crave. It is about 200 feet from the mouth of the tunnel, which has been driven 725 feet. The lessees, Heslop Bailey, R. R. Jones and Otto Dill, are now sinking and raising and have a chute of pay streak exposed above and below—the latter giving up the richest ore. About ten tons are in the bin, and a shipment will be made in a few days. The ore assays $27.20 in gold, 7.5 ounces in silver, 1 per cent copper, and 40 per cent iron. The indications are that the lessees in a fair way to make a big stake, and if our best wishes will help them out they will come stockbroke to carry it.

PARK PICKINGS.

Developments in the Silver King, Daly West and Ontario.

In its mining write-up of the past week, the Park Record says that recent developments in the Silver King have shown that even its owners and the men who know every foot of ore uncovered, are not able to even comprehend the true value of the property, as new and unexpected developments are constantly being encountered. A drift recently run in the direction of the big ledge of ore in the Silver King have in their efforts to tap the Silver King ore body, encountered a vein of Bonanza of an entirely different character from any that has yet been encountered in the lucky concern. The crosscut drives by the Alliance people were broken into in connecting the vein, and from what is learned it is not away from the ore, which is another illustration of how near one can come to a fortune and yet miss it altogether.

A trip to the Daly West mine Sunday last found that property moving along with renewed energy owing to the fact that the new board of management is now working as smoothly as could be desired. For the first time a trip was made to the lower levels of the big property and we do not hesitate to say that the Daly West is all right, that she has mountains of high and low grade ore and that production will soon pound out of the mill of the management. There is one everywhere and in remarkably large bodies, which are opened up in the lower levels, according to mining engineering. The new building works are remarkably convenient in design and complete in finish, and indicate very well that the Daly West means business and not a mere appearance inside and out. The Daly West has entered another half for its big Dugwell air compressor, and when that arrives it will be placed in shape the Daly West plant will be complete in every respect and one of the most efficient in the world. Money cannot buy a better equipment.

An important piece of mine engineering that has long been decided upon and which never fails to interest in the development of the mine hopes to soon begun in the near future, is the proposed long tunnel to tap the Crescent mine some 500 feet below its present deepest workings. The company has decided that such a tunnel is absolutely necessary and when the day comes for the commencement of operations the tunnel will be driven through the mountain according to the old survey made seven years ago. The tunnel will not only benefit the Crescent company through drainage to a great depth and greatly cheapen the cost of ore production, but it will be the means of bringing up a large scope of supposed valuable ground lying between the mouth of the tunnel in "nigger hollow" and the Crescent mine.

The new board of directors of the Independence-Tecora Mining company, whose property is at Dividend, in this mining district, held a meeting last evening at the office of Dr. O. D. Gregor and elected the following officers for ensuing year: G. D. Gregor, president; J. P. Nimms, vice president; A. Leimbter, secretary; R. A. Kloe, treasurer; L. E. Ford, general manager. Mr. Nimms, reported the mine as looking very favorable, there being over two feet of pay ore on the tunnel with the chute constantly widening. The directors levied no assessment as it is expected that the mine will pay its way from this time forward.

Frank Dunscombe who has had charge of the development work on the Putnam group during the past summer, has been appointed foreman of the Valsoy mine and Lou shaft Monday last. Mr. Dunscombe will have entire charge of developments and will systemize the work of development. The owners have come to the conclusion that in order to make a mine out of their promising prospect it is necessary to have a recognized head, some person with requisite knowledge to direct the efforts to the best advantage. Mr. Dunscombe is a thorough miner and we believe will bring that Valsoy out as one of the Park's leading dividend payers. The company has completed its new boardinghouse and is beginning to get matters in shape for the winter.

The Consolidation mine being developed under the superintendency of Henry Rothe, is reported as looking extremely favorable at the present time by those who have recently visited the property. A fine vein has been recently encountered and is being drifted upon and the main matter indeed and placed on the dump gives flattering indications of the near approach to pay rock. Mr. Rothe and other owners of the property are well satisfied with the condition of the mine and are confident that the property is going to prove up all right. Work is being carried vigorously, and the new engine is working to perfection.

Woman's Silver Mass Meeting.

Arrangements are being made by the women of Salt Lake for a large silver mass meeting in the near future. The call reads as follows:

We, the undersigned, women voters of Salt Lake hereby call a mass meeting of the women of Salt Lake, in the Salt Lake Theater, (date to be determined hereafter) in order to perfect a more complete union of all who desire the election of Wm. J. Bryan to the Presidency and to form an organization which shall be auxiliary to the Association of Women Silver Clubs at Washington, Signed:

Mrs. Geo. A. Lowe, Eurithe K. Larkin, Mrs. W. S. McCornick, Mrs. E. Fenton Smith, Margaret Blanchard, Lucy Ann Young, Emily S. Richards, Mrs. Egbert Roberts, Mrs. J. P. M. Farnsworth, Julia Farnsworth, Martha Hughes-Cannon, Lucy Bigelow Young, Priscilla Jennings, Margaret S. Alford, Mrs. H. W. Lawrence, Mrs. Ruth M. Fox, Clara D. Bigelow, Mrs. Martha M. Campbell, Susan B. Phelps, S. R. Thomas, Elizabeth H. Dunbar, Lottie H. Farnsworth, Mrs. Frances Powers, Ida Jane M. Kingsbury, Mrs. F. E. Beaghen, Mrs. Mary Maiz, Mrs. E. D. B. Thomson, Mrs. Martha Harper, Mrs. Demetia Grant, Lillie M. Harris, Colleen M. Allen, M. F. Plumb, Mrs. W. W. Chindwin, Julia E. Hawkins, C. E. Carter, Josephine Henderson, Mrs. F. Kelly, Ellen B. Ferguson, Hiram Y. Lippman, Sarah E. Stewart, Emily Jo. Woodmansee, Mrs. John T. Caine, Lucina U. Lange, Cora B. Hooper, Mrs. L. R. Dickinson, Phoebe Fletcher, C. S. Thomas, Katherine W. Smith, Lydia D. Alder, Mrs. H. W. Stein.

Political Clubs.

A set of Bryan and Dolan silver instruments and two first class clarionets, last night, as follows: E and B cornets, solo, baritone, trombone, tuba as a bagpipe. Address box 400 or G. N. Wetzel, Calder's Mail Pavilion.

THE TRIAL AT OGDEN.

Defendants Adhere Closely to Their Original Story.

The Hearing of Evidence is Drawing Near to the Finishing Point of the Trial.

Special to the News.

OGDEN, Utah, Sept. 14.—Upon resuming the trial this morning, the direct examination of Matt Warner was continued, there being no change in his story and that related by the other defendants. On cross-examination he testified that Milton was shot in the left side just under the arm. No other witness, not even the physician, testified to this wound, but the witness was positive. He was also positive that Dick Stanton shot first, and that Milton was armed. His examination brought out the fact that at one time Warner was arrested for bank robbery and was acquitted. This was in Washington state, and under the name of Ike Lewis. He denied shooting a man or at one at Vernal. He never was shot in the forehead; was once fined in Vernal for attempting to stop George Hughes from shooting.

Walt was recalled and denied that Warner had said he would have shot like he—as that fellow would shoot at the drop of a hat."

Another witness was called and the defense rested. The prosecution commenced, the rebuttal witnesses stating that Warner's horse that was killed was shot on the front foot. The court then took a recess for lunch.

At the opening of the afternoon session, Judge Powers offered in evidence a certified copy of the original agreement with David Milton. It is dated the 4th day of May, 1896, three days before the shooting.

John Bullock testified that he did not say to Coleman, "There's Matt Warner. He would be a good man to go with you." He suggested to Coleman the name of Moody, deputy sheriff. The conversation took place May 4th. Cross-examined he said he had not said to Mrs. Coleman that he would have to deny getting out Warner to Coleman or his business would be injured.

THE GREEN BAG.

Judge Street excused Juror Geo. F. Downey for today.

The county commissioners are holding a meeting this afternoon.

William Kean of Salt Lake and F. S. Lonstal of Utah, were today commissioned notaries public by Secretary of State Hammond.

The suit of Mary A. Tilt vs Frank Jay was today dismissed by Judge Street because no one appeared to prosecute the case.

On motion of Mr. Harkness Franklyn H. Holsclaw of Michigan was today admitted to practice in the Supreme Court.

The petition for rehearing in the matter of the estate of Milton Atwood vs Florence Atwood was denied in the Supreme court today.

Donald A. Todd and Mary Gaine, both of Butte, Montana, were today given a marriage license, as were John Clemente and Sofe Gustabon of Bingham.

On September 10, 1891, Annie Robins obtained a judgment against R. W. Dodge in the sum of $2,174.17 and later assigned the same to R. G. Rayment, who now enters suit to renew the judgment.

The clerk of the Third district court has turned over to McDermott $125 which was found on the person of Thomas Erwin and which was proven to have been stolen from McDermott. It will be remembered that Erwin was sentenced to two years in the State prison.

District Court Orders.

Judge Hilbish took up the law and motion calendar today and the following orders were made:

Hunsaker A. Duncan vs Matt T. Gibbons; demurrer to complaint withdrawn and fifteen days allowed to answer.

Fatmas H. Young vs Levina A. Hudbury et al (two cases); demurrer to and motion to strike out answer and for judgment on pleadings; order sustaining Young's objections and Mr. Wendell as attorney for plaintiff in both cases; Thomas Adams withdrawn.

W. C. A. Moyle vs Pacific Lumber company; settled and stricken from the calendar.

J. W. Eardley vs Girdu Manderson; stricken from the calendar, with leave to reinstate upon payment of costs.

Phiz E. Jones vs Mary E. Jones; $25 attorney's fees allowed plaintiff.

Consolidated Implement company vs James Thompson; order substituting C. S. Varian to try case as judge pro tempore.

C. M. Deere vs Henry Wagner; transferred to Judge Hilbs.

Rachael Crosier vs Oscar Grosbeck et al; judgment for $2,000.50 and $200 attorney's fees against defendants.

Edward T. Stinger vs Salt Lake City Copper Manufacturing company; demurrer overruled and ten days allowed to answer.

Ella A. McGinnes vs John J. McGinnes; decree of default granted in default of defendant, Ella A. McGinnes and Josephine Ferguson testifying.

Mountain Ice company vs Salt Lake City; placed on trial calendar and order appointing F. L. Williams referee vacated.

John Beck vs Alonzo R. Hyde; time extended to forty days to prepare and serve statement and affidavit on motion for a new trial.

Matthew T. Gibson vs Geyser Mining company et al; stricken from the docket, with leave to reinstate.

Sarah J. Williams vs Sarah Williams; demurrer to complaint withdrawn and amended complaint filed.

Political Pointers.

Attorney C. M. Nielson is being crowded for a legislative nomination by his Democratic friends.

J. C. Jensen, the well known abstract and title man, is a candidate for renomination on the county Democratic ticket.

Republican primaries occur throughout the city tonight. Tomorrow night the Democrats will meet to do similar work.

Naphi Times: Warren Foster plastered up some of the Populist lies of reform in a very respectable audience Wednesday and Thursday nights at the court house.

Millard Progress: Men who are always wanting office and working political tricks to get them should be at home on and give honest men a chance.

Logan Journal: Why can't we have Senator Frank Cannon come to Logan to deliver an address on the silver question? Let us try and make arrangements to that end.

Provo Utonian: The silver sentiment is gaining ground every day. We want a few more such talks as Mr. Bryan's, and we can give the laborers on Labor Day. That kind of talk will do more for silver than anything else just now.

Nephi Republic: The Nephi McKinley club was organized the other evening. Many prominent names are attached. It looks very plainly that the McKinley Republicans are stirring and working. The aims and object of the club will be found in another column.

Sandy Independent: Several parties in Sandy are desirous of having a Republican ticket in the field. It has been suggested that an Honest-mike club be organized in order to teach the many asphalts how to wear the white wooden overalls, if any of them should be successful in winning a time to it next November.

For the great silver demonstration at Saltair on Wednesday, the Salt Lake & Los Angeles railway will restore the train schedule of the summer season for this occasion only. The last train will leave the R. G. W. depot at 7:15 p. m. Ample arrangements are made to handle as great a crowd as may come.

Eureka Democrat: There is apparently quite a strong sentiment among adherents of both political parties in this and of the county in favor of justice upon a legislative and county ticket to be voted the coming election. The action of the Democratic state committee in presenting the matter of a three-ply electoral ticket to the silver grey Republicans at their Ogden meeting last week, was no doubt the incentive that fostered this feeling here as well as elsewhere in the state. Nonpartisan and fusion propositions require very delicate handling always and particularly at this time, and we would advise the Democrats to be passive rather than take the initiative in this important matter.

Card of Thanks.

We wish to extend our thanks and gratitude to our friends who so kindly assisted us during the sickness and the funeral services of our darling baby.

MR. AND MRS. F. P. MCNEIL,
429 East avenue, Salt Lake City,
Sept. 13th, 1896.

BRYAN IN ILLINOIS.

He is Receiving a Welcome From the People Everywhere.

MT. VERNON, Ills., Sept. 14.—Between five and seven thousand people packed themselves in the court house square this morning waiting for the coming of Bryan. The brass band played, and the Bryan club, dressed in white duck suits, preserved the line from the hotel to the platform from which Bryan spoke. Bryan was introduced by Judge Semple of the appellate court, who said that he had always been Republican all his life. Bryan said: "Ladies and gentlemen: I appreciate the fact that this meeting is presided over by one who until this campaign has been Republican. I also appreciate the fact that while our opponents may say of me I am young and lacking of public experience, they cannot bring that charge against the member of appellate court whose judgment and heart have helped him to espouse the cause of the people. I appreciate I am glad from day to day that we are finding recruits in our cause from those whose positions in the public life make it difficult for them to do so. Those who apply the name shrubbery or disturbers of the public peace to those who raise their hands against the very doctrine taught by our forefathers. [Applause.] A few months ago I was in your midst as a private citizen, simply representing the cause which was near to my heart, and when I told you here that the brand of my democracy was different from the brand which was being presented by the administration, your city was advertised by those who tried to make it appear that I denied that I was Democratic. [Applause.] My friends, those of you who were sure know that I not only did not declare myself not a Democrat, but that I have always declared myself a better Democrat than any man [applause] who sought to undermine Jefferson and Jackson did for the American people." [Great applause.]

Bryan then proceeded to argue against the gold standard and in favor of establishing free coinage without waiting for the assistance of other nations.

BRYAN'S DENIAL.

EVANSVILLE, Ind., Sept. 14.—W. J. Bryan today denied that he would use the name of Cleveland in his speech at capital. He said he had heard such a rumor and had telegraphed the committee in charge of the meeting at Indianapolis to the effect that it was in accord with his wishes. "It would be a bad precedent," said Bryan, "and one I would not wish to establish. No one knows more than I know the duties of the Presidency ever spoke at the capital, and I do not care to be the first."

LEADVILLE OUTRAGE.

A Cowardly Assault of Four or Five Men on One.

LEADVILLE, Col., Sept. 14.—E. C. Terry, a mountain miner, who worked at the Bohn mine when an attempt was made to start operations there, and who had agreed to work in the Emmet mine, was terribly beaten on the street at 2 a.m. today by four or five men. He is now at St. Luke's hospital. Major Nicholson was passing in as special policemen all citizens who present themselves for duty. Under this order the following made to start the Marion and Emmet mines on the old scale. Rumors continue of threatened destruction of property by the miners.

LONDON, Sept. 14.—A semi-official communication was issued this afternoon confirming the reports of a conciliatory Porte in attitude to assemble the war on occasion of his visit to England.

Call Out The Militia.

DENVER, Col., Sept. 14.—It is reported that Governor McIntyre will soon order the Colorado national guard to Leadville to suppress the disorders due to the miners' strike and protect the men who wish to work.

FOR REPUBLICAN HARMONY

A Magnanimous Proposition by the Peace Committee.

Same Committee Willing—Independent Political Committee Invited to Confer.

Following are the Propositions for Harmony Submitted to the Republican State central committee and the Independent Republican provisional committee by the harmony committee appointed at the Knutsford meeting held Sept. 11, 1896, and adopted this afternoon:

First, That the Ogden and Salt Lake conventions be called off.

Second—That the Republican State central committee and the Independent Republican provisional committee be invited to calling a convention in which all Republicans shall participate.

Third—That said convention shall be called for the purpose of nominating a Representative to Congress and for electing a Congressional Campaign committee.

Fourth—That said call shall also provide for the naming of Bryan presidential electors by the Silver Republicans.

GEORGE L. NYE,
Chairman.

This does not interfere with the Mt. Pleasant convention.

It is understood the State central committee are willing to accept this proposition, their object being to preserve harmony. That was the purpose of calling the two conventions, and they are willing to take any reasonable course to secure it.

The independent committee took the matter under advisement and made no suggestion as to what their view was.

College Opening.

The Latter-day Saints' college opened its doors this morning for the registration of pupils. The outlook is most favorable in every way for a bright and prosperous year, and the grade of pupils admitted is equal to every past occasion. President Done is elated over the prospects of the college, as it is now an assured fact that the high school, commercial and music courses will be crowded. Registration will continue tomorrow morning at the Seventeenth ward meeting house, the commercial building occupied by the high school and music departments of the college.

The opening exercises will be held at the above mentioned place tomorrow afternoon at 1 o'clock. An excellent program has been prepared in which Mrs. Lewis Tooman Edwards, Mr. Horace Ensign, Mr. Thomas Atkworth and Miss Romney will star, while Mr. C. D. Schettler, the skillful guitarist, will render a selection. Addresses will be made by members of the different educational boards.

MINOR MENTION.

Third quorum of Seventy will meet this evening in the Seventeenth ward meeting house commencing at 7:30.

The Twenty-third quorum of Elders will meet in the Farmers ward assembly room this evening at 7:30 o'clock.

The Fourth quorum of Seventy will meet this evening at 7:30 in the Twenty-fifth ward meeting house.

A farewell missionary entertainment will be given in the Fifteenth ward meeting house on Tuesday evening in honor of Elders William Foster and George F. Taylor. A very interesting program has been arranged for the occasion.

The Boston Mammoth Uncle Tom's Cabin Co. will exhibit two days in Salt Lake on Independence Hall lot, commencing Thursday afternoon, Friday, Sept. 18th, Grand Family Matinee Saturday at 2:30. Night prices, children 25c, adults 35c. Matinee prices, children 15c, adults 25c. The only show this week.

STOCKS AND BARGAINS.

New York Stock Market.

New York, Sept. 14.—The stock market opened firm, higher, under influence reduction in London rate of discount, but soon went dreamy. Improvement in sugar, Delaware and Hudson were most important.

In consequence of the decline of silver abroad, bears were active on the opening, and the opening prices were generally lower than yesterday's closing. The decline was attributed partly to a feeling of the decline in India, but later, due to depressed trade conditions.

UNTOLD MISERY FROM RHEUMATISM

C. H. King, Water Valley, Miss., cured by

Ayer's Sarsaparilla

"For the past 7 years I suffered untold misery from muscular rheumatism. I tried every remedy I heard of, and spent a great deal of money for medicine, but it did me no good. I had no appetite, and was wasted to the last extremity. I was so lame at times, were so awful, that I could scarcely walk. I had spasms in my stomach, and was so nervous that I could not sleep. In short, I was a miserable man. I was induced to try Ayer's Sarsaparilla, and I soon felt its effects. I gained rapidly in flesh, my appetite came back, and I was able to do a day's work. I continued taking Ayer's Sarsaparilla, and was soon well and able to do my share of work. I have not had any return of the rheumatism, and I believe Ayer's Sarsaparilla to be the best medicine for the blood ever made."

AYER'S

The Only World's Fair Sarsaparilla.

AYER'S PILLS cure Headache.

NOTICE OF ASSESSMENT.

The Hobson Valley Land and Live Stock Company. Location of claim, Hobson Valley, Wasatch County, Utah.

NOTICE IS HEREBY GIVEN THAT, at a meeting of the board of Directors held on the office of the company, Salt Lake City, Utah, on September 10, 1896, an assessment of ten cents per share was levied upon the capital stock of the company, payable to the secretary of the company at their office in Salt Lake City, Utah.

Any stock upon which said assessment shall remain unpaid on the 10th day of October, 1896, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on the 5th day of November, 1896, to pay the delinquent assessment together with costs of advertisement and expenses of sale.

BY ORDER OF THE BOARD OF DIRECTORS.
HOBSON VALLEY LAND AND LIVE STOCK CO.
Frank Gordon, Secretary.
Salt Lake City, Utah, Sept. 12, 1896.

NOTICE

NOTICE OF CONSOLIDATION IN FULL—Notice is hereby given that the Mining Company, a Utah corporation, "Pittsburg place of business—Salt Lake City, Location of mines—Big Cottonwood Canyon, Salt Lake County, State of Utah, and Mining Stock Sliding Panner, San Juan County, Utah.

Notice is hereby given that at a meeting of the board of directors of the Gold Queen Mining Company, held on the 10th day of September, 1896, at the office of the company, in Salt Lake City, Utah, the following resolution was adopted, to wit:

Resolved, that the capital stock of the company be increased from $1,000,000 to $2,000,000 by the issuance of 1,000,000 shares of the capital stock of the corporation, subject to the provisions of the laws of the State of Utah, to be placed in the hands of the Mercantile Trust Company, of Salt Lake City, Utah, and shall work with the assessment work upon which shall be delinquent on the 10th day of October, 1896, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on the 5th day of November, 1896, to pay the delinquent assessment together with costs of advertisement and expenses of sale.

BY ORDER OF THE BOARD.
GOLD QUEEN MINING COMPANY.
Secretary.
Date of first publication, September 14, 1896.

Sleep

induced by the use of opiate, opiate or narcotic compounds is not a good, decidedly bad. They undermine health and shatter the constitution and the patient is steadily growing into a worse condition—often resulting in the terrible slavery and misery of the morphine and opium habit. Sleep induced by the use of Hood's Sarsaparilla does not perhaps come as quickly, but it comes more surely and more permanently through nature's great restoring and refreshing channel—purified, vitalized and enriched blood. This feeds the nerves with life-giving energy and builds up the system and constitution from the very foundation of all health and life—the blood—pure, rich, red blood.
