PROVO.

PROVO, UTAH, JAN. 14, 1895.

First District Court.

The following business was transacted in the First District court Saturday:

Richard Tyson vs. E. J. Hammond et al; motion to consolidate in this cause overruled.

H. S. Brooks et al vs. Lake Shore Irrigation Co.; defendants allowed to amend complaint; demurrer sustained. Afford, plaintiff, and Jesse Moser appointed.

W. H. Parker vs. Thomas F. Taylor; cause to abatement with no objection to open court.

T. T. Tanner vs. Wm. H. Palmer; continued to January 26.

C. H. L. Jones vs. W. H. Palmer; continued to January 26.

James P. Hansen, of Spanish Fork, was granted a divorce from Jennie Hansen, on the grounds of adultery. The case was not contested. The co-respondent, Magnus Erickson, is now serving out a sentence in the penitentiary for the offense. At the time Erickson was sentenced Assistant Prosecuting Attorney Thomas and A. A. King, attorney for Mrs. Hansen, claimed to have proof that the divorced husband had committed the same offense with Mrs. King, and that he had taken her to Salt Lake and lived with her. The attorneys now state that they did not find sufficient evidence in this respect.

The divorce suit of Sarah Vincent vs. Thos. H. Vincent, filed a few days ago, was dismissed on motion of plaintiff.

A decision was rendered in the case of Lincoln Irrigation Co. vs. C. E. Nickens et al., determining the rights of the various parties interested in the waters of the Middle Provo and other streams of water flowing into the canal.

Spanish Fork Congo has commenced a suit against David J. Willis and one Sarah Wilkins for $21.65, due on a promissory note, with interest at the rate of 10 per cent from July 17, 1894.

TERRITORIAL ITEMS.

From Park City, Bingham and Brigham City.

Park Record: A car of machinery for the Ontario electric light plant, consisting of one dynamo and attachments, arrived from the east yesterday over the U. P. The water motors have been shipped from San Francisco and are expected to arrive within the next few days. As soon as the machinery all gets here it will not take long to get the plant in operation, as work on the building is being rushed and no delay will be experienced on account of its non-appearance. The wiring has all been done, so no about all that remains to do will be to place the machinery in position and turn on the water.....An accident happened over at the mouth of the Ontario drain tunnel Wednesday morning, where the power house of the Ontario electric light plant is being erected, that caused slight injuries to four men and a serious injury to Peter Kirkwood. The men were raising the fifth beat in the building, when the brace to which the block and tackle was attached pulled off and allowed the beat to fall. It pulled the fourth beat with it and the men were caught beneath the wreck. Peter Kirkwood was struck on the head and knocked insensible, while Monte Mahoney, Morgan and Dunnigan were sore about the body but were able to go to work the following day. Kirkwood, however, was laid up for repairs and is not able to go to work as yet. It was a lucky accident and it is a wonder that one or two were not killed outright. The building upon which the men were working is progressing rapidly and will soon be finished.

Brigham Juggler: Fred Hillman & Co. are doing a roaring business at the old tannery building. They are shipping most of the raw hide to markets in Utah and southern Idaho. Last week 4,000 pels were bought into town. These would average four pounds of wool to the pelt. This wool, when it is pulled and washed, is worth from eight to fifteen cents. So this one establishment was worth about $1,500. Seven hands are now employed at the tannery.

Bingham Bulletin: The West Mountain Placer company have finished cutting the station and jump room and have lowered the pumps and placed them in position. Work is now being done in sinking downward, and with a larger force it is to be done at the time when the company begins operations. The force was very noticeable between this week and the week before. This company always business, and nothing will interfere for the better expense they have been to by the Park City Mining Stock Board. They are sure to find an honest ground.

Effective Expenditure in Indiana.

A Crawfordsville (Ind.) man has advertised his house for sale as follows: "In order to take sufficient funds to supply my 19-year-old daughter with all the conducting required for her high school faculty as a matter for an offering in our limited but educational institution, I find that, my salary being insufficient, I am compelled to sell my home. At the rate the school faculty is going they won't turn out a whole with enough common sense left to set a dinner table."

Mrs. Judge Peck

Dyspepsia

Mrs. Judge Peck Tells How She Was Cured

Indigestion and Dyspepsia should end the following letter from Mrs. H. M. Peck, wife of Judge Peck, Justice of Supreme Court, and a lady well known in Washington Circles:

"It is my duty and a pleasure to bear testimony to the good Hood's Sarsaparilla has done me. I was troubled with Dyspepsia a long time and tried many medicines in the hope of finding relief, but without avail. I was induced to try Hood's Sarsaparilla by the testimonial of a friend, and I have taken a good deal of it with very satisfactory results. I have also taken Hood's Pills with good effect. I feel that I have taken a great deal of good from Hood's Sarsaparilla."

Heart Trouble.

Almost everything I can think of seems to do me a little different condition and sensation, but Hood's Sarsaparilla stands first, there and a third improvement takes place in my health. The old pain, weakness and distress in the region of the heart, which I have had so long, is almost gone. I have taken a good deal of Hood's Sarsaparilla."

Greatly Recommend It.

I have had an excellent appetite and nothing I can mention disturbs me. It seems to be just the right medicine for me. I shall continue to take it and shall always speak a good word for Hood's Sarsaparilla.
