Special Correspondence.

Mt. Pleasant, Sept. 4.—Ernest Hansen, the 16-year-old son of Ole Ernest Hansen, of Mt. Pleasant, was seriously shot yesterday afternoon, in the mountain, and his life was despaired of. He had shot through the palm near the index finger, breaking the bones of the hand and injuring his first finger to such an extent that it was necessary to amputate it. It is hoped the second finger will be saved. The forearm above the wrist was also broken.

M. C. Hansen having received permission from the doctor to go to town, the survivors went into the mountains in search of fuel to use in his creamery, taking his son, Ernest, also Charles Lindstrom and Alton Halstrom, with him. Ernest had a gun and he and his friends, with them a couple of shotguns. On reaching Cow Ford the boys stopped while one cut his hair in the bark of a tree. Ernest carried one of the guns and stood up on the ground holding his folded hands over the muzzle. While in this position the gun was discharged through his hand, exactly known, with the bullet entering the bone and being fired, while many shot passed into his chin, lips, nose, making some bad flesh wounds, and entering the brim of his hat. He fell to the ground with a groan but lived immediately. With the report of the gun his companions called for help.
