MINING, BUSINESS AND STOCKS

POSSIBILITIES OF OHIO COPPER MINE

Probable Ore Now Believed to be Actual at Great Depth.

FIND GOOD ORE IN UPRAISE

Work Being Rushed at New Mill at Lark—Will Be Able to Treat Ore as Soon as it is Ready.

Indications are that the Ohio Copper company property will develope into a mine of far greater possibilities than was as first anticipated when F. Augustus Heinze first became interested in the property. Within a short time the upraise that is being sent up from the Mascotte tunnel, 150 feet beyond the Ohio shaft, to cross cut the ore body that has already been blocked out as "probable" ore, will be in actual ore. That this is true is shown by the showing that is made in the upraise which is still in the country rock and has scarcely struck the foot walls. The showing disposes of the belief that the ore is probable and makes it actual. Thus placing the 6,410,074 tons of designated as probable on the side with 7,074,081 tons of actual ore.

In speaking of the conditions at the Ohio this morning one of the officials of the company said:

"Ore was struck in the raise from the Mascotte tunnel which will crosscut the ore body at a point 150 feet beyond the Ohio shaft. This raise has not reached the foot wall. An assay shows 60 cents in gold, 23 cents in silver and 1¾ per cent copper. The face of the raise is about 500 feet below the 500 foot level of the mine. When it is considered that the ore will concentrate, say 18 into one, the value of the product will be appreciated."

The possibilities that are in sight for this mine seem gigantic when it is understood that the upraise will tap the vein at 1,000 feet and the length of the vein has not been fully decided. Besides this the full depth has not yet been determined.

As soon as the present upraise is finished to the ore body and a level run, another upraise will be started at about 100 feet farther along the Mascotte tunnel. The system in the mine has been so worked out that the cost of working the property will be almost as low as that obtained by steam shovels. Ore can be sent down the chutes above into bins below. Through the three upraises it will be possible to load the ore without moving long distances as was necessary before.

Work at the company's mill at Lark is progressing rapidly and as soon as ore is ready to ship, the plant will be in a condition to receive it. The mill is approximately 325 by 400 feet.

There are solid cement foundations for 200 tables, which will be of the modern Wilfley type. In the rear of the tables will be the Trent Chilean regrinding mills. These will be divided into four units with four mills to each unit, making in all 16 mills. The floor above the regrinding mills will be used for the jigs. They are all on the ground and are of the latest Harts model. There will be 104 of these, and will take up a great deal of floor space. Like below this floor they will have the same solid foundation. In back of the jigs are the rollers, which will be known as the Gates rollers; there will be eight of these, and they will have a capacity of 3,000 tons. Then up at the top of the building comes the tommels an dthe Blake crushers. The bins are in the rear of all these and have a capacity of 4,000 tons.

A trestle will be built immediately from the mouth of the Mascotte tunnel to the level of the bins, which is a distance of 1,500 feet. The ore then can be trammed out with the motors and dumped in a short time in the bins and thence it will go through the various treatments.

The fire protection also is modern and adequate in every detail. The equipment is all in place and the tanks are about threequarters of a mile from the mill proper. The water problem also has been solved and the pumps have been installed, there being four with a capacity of 1,000 gallons a minute to each pump.

The slimers, 74 in number, will be installed in the building adjacent to the mill proper, and Wilfley slimers will be installed there. The people in this little community are anticipating an era of unusual activity and well they may, for when the Mascotte tunnel has been driven through and the ore begins to be extracted and treated this will be one of the liveliest camps in the district.

LIVELY SELLING ON 'CHANGE.

Big Day for Tintic Stocks on Local Mining Market.

Following in the wake of the enthusiasm aroused last week, the market this morning annexed some more of the Tintic specialties and did some strong selling. East Crown Point was listed on the board this morning and started out as an active seller at 3, 3¼ and 3½ cents. East Tintic Development was knocked down several points and sold at the close at 15½ cents. Iron Blossom showed renewed activity and closed slightly higher. Tintic Central and Utah Consolidated were two more Tintic stocks to get busy with the market sagging in the former and going up with the latter.

Little Chief showed more activity this morning than has been shown in many weeks. The price jumped from 29½ cents to 33½ cents cash on the open board.

On the curb market a lively time was had. Bingham Central Standard sold for 32½ cents. Daly sold for $1.12½ and East Tintic Consolidated went for 6 and 6½ cents. Plutus was disposed of at 18 cents.

REAL ESTATE

in all its best forms. Homes, business property, and acreage. We offer only what is good; and our prices are fair to buyer and seller. We have heretofore preferred not to list the property of others but now have increased facilities for handling business and ask you to list with us anything in our line if you ask a fair price and terms.

George M. Cannon Company.

Rooms 512-513 Templeton Building.

We buy and sell good commercial stock; and often have what you want. Call on us. Our prices are fair and our customers satisfied.

LIST EAST CROWN POINT.

East Crown Point Consolidated Mining company was added to the official stock list of the mining exchange this morning. The company was organized July 8, 1907, with J. C. Jensen, president, Heber C. Jex, secretary and treasurer. The capitalization was $100,000, with shares at 10 cents each. Of the 450,000 treasury stock, 215,000 shares were sold. The company now has $1,000 in the treasury and owns nine unpatented claims which have been surveyed. On the property is a hoist and other machinery and a 135 foot shaft. The property is 500 feet from the railroad.

CONCENTRATES.

Reports from New York say that the Guggenheim interests and some of the foremost engineers of the country are investigating the Fink process of smelting.

At a meeting of the directors of the Uintah Treasure Hill at Provo, an assessment of one cent a share was levied on the stock. This will put $10,000 in the treasury.

By an order entered by Judge Morse, the Nevada Mines Exploration company has been dissolved. It was incorporated for $5,000 and the directors were Freeman Morningstar, Vernon B. Cutler, Sereno B. Tuttle, Walter G. Tuttle and L. J. Dull. The Washington Rock company, which was incorporated in 1890, has also applied for dissolution.

The Promontory Mining company, which is to work the Morning Star group in the Promontory mining district, in Boxelder county, has filed articles of incorporation. It is capitalized at $30,000, with the following officers: B. D. Sigfus, president; Lorenzo Seager, vice president; Lim Phillips, secretary, and these with J. P. King and John E. Bowers, form the directorate.

The Bingham Central Standard Mining company has laid out plans for some expensive development work in its property at Bingham. Three shifts are to be placed at once extending the Mountain Maid tunnel. With 250 or 300 feet of work the tunnel will catch the Bingham-New Haven ore bodies. Work will also be taken up in the tunnel on the Burning Moscow vein. Much other development work has been laid out. Sam H. Treloar of the Bingham-Butte company will be mine's manager.

With but two exceptions the old board of directors of the Salt Lake Stock & Mining exchange have been re-elected. R. A. Barney and R. S. Wimmer were elected in the places of H. W. Doscher and F. R. Davis. The members of the board now are James A. Pollock, W. H. Tibbals, W. J. Browning, W. H. Child, J. L. Hmilton, W. D. Nebeker, S. R. Neel, R. A. Barney and R. S. Wimmer. The meeting of the board will probably re-elect James A. Pollock president, James A. Shorten, secretary, and Andy Beveridge, caller, as they have no opposition.

W. W. Bryne has secured an option on the controlling interest of Oregon Pioche Mining company at Pioche, Nevada, which adjoins the famous Mendha mine. A sample from the surface showing of the property, taken recently, returned values of 17.9 ounces in silver and 31.4 per cent lead, or $35.87 a ton. The company owns 4,500 feet along the Mendha vein. A 40-horse power hoist has been installed as well as steam drills. The tunnel recently started in on the vein is now in 75 feet, and another 40 feet will carry the face of the tunnel to the first cross fissure, where two feet of high grade steel galena is exposed in the surface workings.

MARKET REGULAR, CLOSING HEAVY

New York, Jan. 25.—Only slight changes from Saturday's prices resulted from the opening dealings in stocks today which were on a small scale. Gains were in the majority but there were enough losses to make the tone irregular. American Cotton Oil advanced 1¾ and United States Rubber first preferred 1¼. Erie and Reading, Brooklyn Transit and General Leather large fractions.

Sentiment was confused by the uneven course of some of the prominent railroad stocks. Reading met pressure and reacted a point from its opening, while New York Central showed strength. Meanwhile a few of the specialties were rising vigorously. Towards 11 o'clock the market moved up briskly and there was a considerable increase in the volume of business. New York Central gained 2⅜, American Linseed 2, the preferred 3½, American Beet Sugar 1¾, People's Gas 1⅜ and Tennessee Copper 1¼.

The tone became heavy when New York Central reacted a point and Erie lost its advance. National Biscuit and American Tobacco preferred fell 1. Prices stiffened again when St. Paul, Southern Pacific preferred and Rock Island preferred advanced a point and Northern American 1½.

Bonds were irregular.

Only a few stocks moved sufficiently to warrant attention. Rock Island preferred got up 1½, Cleveland C. C. & St. Louis 2¼, and American Locomotive preferred 1. Canadian Pacific yielded a point. An easier tone pervaded the market in the afternoon but prices of the active stocks were not changed. Consolidated Gas declined a point. Great Northern Ore Certificates gained 1 and New York, Chicago ⅞ St. Louis 1½.

The market closed heavy. Prices stiffened in the final hour when Wabash preferred rose 1½ and Norfork & Western and Atlantic Coast Line 1. Prices yielded sluggishly in the late dealings.

LIVESTOCK.

OMAHA.

South Omaha, Jan. 25.—Cattle—Receipts, 2,300; market 10 to 15c. higher. Western steers, 3.25@5.75; Texas steers, 3.00@5.00; range cows and heifers, 2.75@4.85; canners, 2.00@2.00; stockers and feeders, 2.75@5.00; calves, 3.00@7.75; bulls and stags, 2.75@5.00.

WOOL.

ST. LOUIS.

St. Louis, Jan. 25.—Wool, unchanged. Territory and western mediums, 17@21; fine mediums, 15@17; fine, 12@14.

PRODUCE.

CHICAGO.

Chicago, Jan. 25.—An advance of ⅝ in the price of wheat at Liverpool was the chief reason for a firm opening in the opening here. At the start prices were a shade to ¼@⅜ higher compared with Saturday's final quotations, but part of the gain was lost late in the day by selling by pit traders. An easier tone was due to some extent to slightly increased receipts in the northwest. May opened at 1.07⅝ to 1.07⅞, and for a time held within the opening range.

Corn was dull and inclined to weakness. May opened unchanged to ⅛ higher at 61⅞ to 62, and sold off to 61⅝.

Oats were steady on a good commission house demand. May opened ⅛ lower at 51¾ and sold off to 51⅜@51½.

Trade in provisions was quiet but the market was firm owing to lighter receipts of hogs than expected. Prices at the opening were 2½ to 5c. higher.

Close—Wheat—May, 1.07; July, 97¼@97⅜; Sept., 94¼; Dec., 96.

Corn—Jan., 58¼; May, 62@62⅛; July, 62¼; Sept., 62⅝.

Oats—May, 51⅜@51⅞; July, 46½; Sept., 39¼.

Pork—Jan., 17.45; May, 17.12½; July, 17.20.

Lard—Jan., 9.00; May, 9.72½; July, 9.82½.

Ribs—Jan., 8.80; May, 8.95; July, 9.07½.

Rye—Cash, 58@67.

Timothy—March, 3.37@3.37½.

Clover—March, 9.40.

Wheat—Liberal sales by several of the leading commission houses caused a slump late in the day, May declining to 1.07. The market closed weak at the bottom, with May off ½@⅝ at 1.07.

Corn—A firmer tone was manifested during the last half of the day on covgrings by shorts. The top for May was reached at 62¼. The close was firm with May up ⅛@¼ at 62⅝.

SUGAR AND COFFEE.

New York, Jan. 25.—Sugar, raw, steady. Fair refining, 3.25; centrifugal, .96 test, 3.75; molasses sugar, 2.98.

Refined—Steady. Crushed, 5.35; powdered, 4.75; granulated, 4.65.

Coffee—Steady. No. 7 Rio, 7¾@7½; No. 4 Santos, 8¾.

BUTTER AND EGGS.

Chicago, Jan. 25.—Butter — Steady. Creamery, 29@37; dairy, 21½@25.

Eggs—Firm. Firsts, 30.

New York, Jan. 25.—Butter—Unsettled and lower; creameries, thirds to specials, 24@30.

Cheese—Firm; state full creams specials, 14¾@15¾.

Eggs—Steady; western firsts to seconds, 29@29½.

TODAY'S MONEY MARKET.

New York, Jan. 25.—Money on call easy, 1½@1¾ per cent; ruling rate, 1½ per cent; closing bid, 1¼ per cent; offered at 1½ per cent.

Close: Prime mercantile paper 3½ to 6. Sterling exchange steady, with actual business in banker's bills at 4.84.95@4.85.05 for 60 day bills, and at 4.87.35 for demand.

Commercial bills, 4.84⅝@4.84¾.

Bar silver, 52 cents.

Mexican dollars, 44 cents.

Government bonds steady; railroad bonds irregular.

Time loans very weak; for 60 days, 2¼@2½ per cent; for 90 days, 2¾ per cent; six months, 3 per cent.

ALTON PETITION FOR REHEARING DENIED

Washington, Jan. 25.—The petition of the Chicago & Alton railroad for a re-hearing in the case in which that company and two of its officers were subjected to a fine of $60,000 for granting rebates to Kansas City packers was today denied by the supreme court of the United States.

TWO THOUSAND ARE DEFENDANTS IN SUIT

Fifth Week in Parley's Canyon Water Suits Marks Half Way Point In Testimony.

The fifth week of the taking of testimony by Master in Chancery John W. Pike, in the case of Salt Lake City against the Pleasant View Irrigation company and 2,000 other defendants, began today, in the room devoted to meetings of the board of education. The suit involves all the waters of Parley's canyon from end to end, and the outcome will affect the city's water rights in Parley's including the flow into the conduit. Attorneys F. S. Richards and Ogden Hiles have the interests of the municipality in care, while a considerable array of legal talent is present in behalf of other litigants. The hearing is expected to continue for at least five or six weeks longer.

RAILROAD NEWS.

DEMURRER IS OVERRULED.

Judge Marshall Holds Defendants to Answer in Thirty Days.

The demurrer entered by Joseph F. Smith, Joseph W. McMurrin and Henry H. Blood, to the bill filed by Edward Williams, in which the latter seeks to restrain the defendants from acting as executors of the estate of Mrs. Sarah Everhard, has been overruled by Judge Marshall and the defendants given 30 days to answer. Edward Williams is a brother of the late Sarah Everhard, who died in London, England. In her will Mrs. Everhard left the bulk of her esate valued at some $70,000, consisting of $46,761.87 invested in this city, and $20,000 worth of property in London, to the Church of Jesus Christ of Latter-day Saints, with Joseph F. Smith, as trustee-in-trust. The action is brought in an attempt to have the stipulation of the will regarding the distribution of the property set aside, and is based upon grounds perhaps as unique as any case ever presented before the court. The will provides that $25 per month accruing from the dividends on 40 shares of Z. C. M. I. stock shall be paid to Edward Williams, a brother of the deceased, up to the time of his death, when the balance shall revert to the Salt Lake temple, subject to the approval of President Joseph F. Smith. Amounts aggregating $11,800 are bequeathed to a number of others mentioned in the will, after which the balance amounting to in the neighborhood of $30,000 is left to the "Temple of the Latter-day Saints."

UPTOWN OFFICE FOR OGDEN.

From the statement given out at the Weber club there is a prospect of the Harriman and Gould railroads in this city establishing up-town ticket offices and information bureaus at Ogden. This probable action by the railroad companies is the result of the action taken by the members of the various commericial organizations of the city, who have shown the necessity of establishing such offices. The express companies are both installing up-town offices in the junction city and it is thought that there will be no question but what the railroads will do likewise.

ELKS EXCURSION.

Reservations for the Elks' excursion to Los Angeles on Feb. 6, have already exceeded 200. That this excursion to Southern California will be the most successful of the series conducted by the local lodge of Elks is conceded by all. Thet rain will leave Salt Lake at 11 o'clock on the evening of Feb. 6, over the Salt Lake Route, arriving at Los Angeles on the morning of Feb. 8. The excursion has been planned for the most desirable time of the year in southern California, and the week's vacation will be enjoyed by many who are too busy to take such a trip later.

SPIKE AND RAIL.

Traffic on the D. & R. G. Tintic branch was tied up all day Saturday by the spreading of the rails on the track near Homansville. Two cars attached to a freight train were derailed, the cars standing upright on the track. No particular damage was done.

W. H. Bancroft, vice president and general manager of the Oregon Short Line, is expected to return from
