WORKING AROUND US

Heaviest Purchases of Wheat and Flour Ever Recorded.

A BRINE SHRIMP'S PHOTOGRAPH.

Salt Lakers Attack an Easier Form—Iron County Gold—Business and Mining News.

The record of the flour mills and dealers in grain and flour is that this fall has witnessed the heaviest purchases of wheat and flour ever known in one season in Utah. The News articles pointing out the danger of scarcity of breadstuffs have had the effect of drawing the attention of the people to the subject to such an extent that a vast number of families that heretofore have lived from hand to mouth as it were on the staff of life, now have several months' supply to their bins.

"It has been a splendid thing for Utah," a gentleman who is well acquainted with the situation stated in conversation today. "The people were awakened to realize the situation, and rushed to get in breadstuff. In doing this they used money that would have gone, in many cases, in channels that were unprofitable. The purchase of needless luxuries and the indulgence in unnecessary pleasures have been checked, and the cash turned to good account in getting flour and wheat."

The price of wheat took another upward step today, and is now quoted at sixty cents in carload lots. A further rise of five to seven cents is anticipated within a short time, as the time when farmers were moving to wheat to get cash to meet taxes is past, and there will be still less offered on the market.

PHOTOGRAPHY FAR EXCELLENT.

The latest curiosity is one of the curios of life that exhibit the wonders of the Great Salt Lake. It is barely a stone's throw from the mainland, and is an inch long, and to the naked eye affords little more than the gratification of a passing curiosity. By the aid of the microscope, however, it becomes to the student an object of deep interest, and the art of photography is successfully called in to display to construction to those who have not the privilege of going at Brine-shrimp fashion. By the aid of the microscope Dr. J. E. Talmage has just produced a marvelously exact picture of the brine shrimp, many times magnified. Its appearance and construction, when for the contents frequently which has been prepared, and not drawn sketch, are shown with wonderful distinctness. The picture is a gem of the photographic art as the illustration of the minute object employed.

RAIN TODAY.

While there is little increase in the 4 hours of moisture measured the past week, the money can be in will easily for harvesters. In New York, as shown by Bank of Commerce parties in this city, the financial condition is more stringent than in Chicago. Loans were negotiated in the latter city on several percent, but interest than was demanded in New York.

CLOSED BY ATTACHMENTS.

Rohrer & Co., druggists and merchants, of Nampa, Idaho, locked up Saturday. Their stock is valued by attachments for amounts aggregating $2,8.

The legal war that of a week Lake saloons closed, Shiffman & Co.

MINERAL SURVEY TERRITORIES.

Silver City Mine reopened Bear has pushed into a trip to Wasatch, Parley, Cox Creek and Spring Valley, says the Deseret News. He reported that a great strike of coal miners throughout Carbon is threatened. A meeting of the coal miners is to be held today or early days in meeting their pay rolls and the main object is being paid to the coaler in Denver banks. At Price the Deseret says the Utah Coal Company is ready days notified by telegraph for men, and at Lafayette, Boulder is using the miners are paid to checks for the week November 12. Reports received by Mr. Beal from the Castleton Fuel and Iron company's mines at New Castle show that 120 men are refusing to work on account of an order recently issued requiring the miners to make use of safety lamps instead of candles. The order was the result of an inspection of the mines by Mr. Beal, as he issued the mines to be highly dangerous from gases. The men say are taking a vigorous kick against an order from the company requiring them to take their dinners to the mine instead of making a trip to the surface for the purpose.

A mine smelting of mines of Louisville, Erie and Lafayette, Boulder county, has been called to take place on Sunday. The mine and mine in Erie has been 100 feet to be present. At Coal creek over 100 miners have been on a strike for ten days on account of losses to receive pay. Under the coal companies (mines a railroad) return in paying four men, Mr. Beal saw little prospect of active operations in the mines for some time to come.

BOYS INSPECTOR'S REPORT.

The report of Robert Forester, coal mine inspector for Utah, has just been issued by the government printing office at Washington. It is a pamphlet containing 53 pages of printed matter, and a large number of plates mostly illustrating the workings of the Castle Gate mine, which furnishes nearly one-half of the Utah coal. The report gives interesting figures on the Utah coal output, which aggregated 265,000 tons annually. Complete extracts with made from it by the News were the immediate was filed with the government, in March last.

PAIR "SECOND" TERM.

On the 29th the Ontario will release 41 ounces of bullion containing 28,000 fine ounces of silver.

Robert Hawkinson met with a painful accident just after closing on the 26th by which he lost the fingers of his right hand. He was repairing the tons in the mill, when one of the wheels fell on his arm, crushing the result as above stated. Dr. Wilson attended the wounded.

L. E. Hanford, the jeweler on the corner, was the victim of a burglar on the evening of the 27th, to the amount of $17. Of that amount $15.50 was in gold, and $1.50 in cash. The money was drawn on the First National bank, in favor of John Wilson, and bore the signature of David Keith, Mr. Hanford presented the check at the bank just preceding the Chicago Dealing promptly became the Chicago, and the writer was soon accompanied by Mr. Keith. At the writing no trace of the thieves has been found.

Mike Wilson, an old and popular miner, got out of the Dry Gulch, was caught in a cave of slide Tuesday afternoon, the 24th, on the 1000 foot level of No. 1 shaft, where a section is being cut. While clearing up after a blast of rocks had been fired, a large slab of rock slipped from over the wire and caught Mr. Wilson, knocking him down and bruising him up in a severe manner, besides cutting a large and ugly gash in his head. No bones were broken, however, and Mr. Wilson is doing nicely. James Ivers brought the news from the mine and Dr. Wilson attended to his injuries. Wm. Campbell was hurt at the Dry mine next afternoon at the same place, and in the same manner as Mike Wilson. However, Mr. Campbell's injuries were not very severe, and he will be at work again in a few days.

BUSINESS COMPANY OFFICERS.

At a meeting of the stockholders of the Horsesnoe mining and milling company held On 27th the following officers and directors were chosen for a term of six months: Wm. A. Miller, president; H. Hylander, vice-president; E. S. Whitney, secretary and treasurer; A. W. Ellis, Thorald L. Hansen. The company owns several claims in Boyer canyon, Camp's gulch, which are now being developed. Assays show $20 to five milling pay.

NOTES.

Salina, Sevier county, Press: E. E. Malmrose shipped 2000 head of sheep east Tuesday morning. They will be wintered in Iowa and put on the Chicago market in the spring. Mr. Malmrose will spend the winter at Waterloo City, Iowa.

U. S. Wardleigh, better known as "Utah," cut his throat the week with razor razor, inflicting one gash the and a quarter inches in length, and two others of an inch each, from the effects of which he died.—Times (Ala.) Ledger.

Ogden Standard: Mrs. S. M. Freeborn is anxious to obtain information concerning the Niagara Mining company, whose mines are located near Highlands, in Idaho. Her husband has been awarded the company for its exhibit exhibit at the World's Fair. Mrs. Freeborn is a stockholder in the company.

Secretary J. S. Foster of the Morgan Gold Mining company, was in a pleasant call on the 26th inst., says the Ogden Standard. He states that he expect the company were working extension here, running three shifts, twelve the miners and one in the mine. They have a solid six foot vein of gold bearing rock which assays $10 in gold and a very good return in silver and copper. The company are erecting a concentrating plant on the ground this fall.

At the Jupiter mine in Dugtown, near Angels Camp, California, on Saturday, Oct. 28, Mr. H. E. Newsom, who claims an interest in the mine and was in possession, attempted to arrest Wm. A. Keeney, a claimant, and was entering on the premises, by capturing a loaded shotgun at him. A man named Longstreet came to Mrs. Newhouse's aid, and several shots were exchanged with Keeney, who was twice wounded in the head. Mrs. Newsom and Longstreet were arrested.

A Calistoga, Cal., dispatch says: A new power mine has recently been discovered in Agua Caliente valley by Robert and Fountain, old miners. The present location is eighteen miles up Calistoga from Calistoga, in the Cannabis vicinity where two quartz mills are now being built. The country where the discovery was made is a rolling valley of several thousand acres. The dirt prospects low at three hundred miles to the ton and values were still richness. Much excitement is created over the discovery.

Nephi Courier: Messrs. Geo. C. Wright and J. L. Poole returned from their Fair visit Monday. Mr. Wright left Utah a short time since for the east with a train of eighteen cars of coal, cattle, blackening 120 head. Of them he sold to Denver and the remainder were shipped to Omaha. He reports having had excellent success in his shipment, carrying no loss whatever. From Omaha, in company with Mr. Poole, he continued to Salina to the Windy City. Mr. Wright will probably ship another train load of cattle during the winter.

Bingham Bulletin: Work has again been resumed on the Mohawk tunnel. This tunnel is to be between 400 and 500 feet, and will be driven about north-northeast. Salt Lake parties leasing the contract. The miners are still working and shooting, striking a rock at times. The local news from them is to the effect that Bob Graham, the Indian who is at work just above Lowline found a nugget of gold that is worth $13. The rumor regarding the resumption of work on the Big Niagara mines seems to have been well grounded, for the necessary machinery for working the same has been hauled to the mouth of the tunnel.

Virginia City, Nev., dispatch, 26th: A little excitement in the Consolidated Virginia, suspended some time ago, was renewed this afternoon when Foreman Charles Harper with a force of seven men. Three shifts of four men each will be engaged in making repairs to the shaft down to the 1000 foot level. It is expected that the shaft repairs will be completed early in the coming month, when an extra hoist will be employed to expedite operations, and operations in the West Consolidated will be commenced, which will be worked through this shaft. Little depletion in the stock will be necessary until the 2400 foot level is reached. The resumption of work at the Consolidated is regarded as the harbinger of more prosperous times in the Comstock.

Mountain Democrat Chronicle: A regular court term will be given by the Walker lake in the H. M. Ogden House at Aurora on the first Monday, November 6th. Parties will come to their expense.

SAVINGS BANK.

Utah Title Insurance & Trust Co.

everything stolen, being in other words, all of your wants will be taken and sold. Four prizes for cards and four for lunch. For the prize the prizes will consist as follows—First—3 bushel wheat, second—1 bushel of oats. Third—1 bushel of potatoes. Fourth—25 lbs. sugar, one dollar. Ladies will receive elegant prizes for something not precisely to be seen. All those in prize will be taken, passage will be made to contest; in fact it will be a regular all nonsense. A fine time is assured, and all are cordially invited. Conditions for admission for the prizes will be since known inside the home.

Articles of incorporation of the Big Wan Mining company have been filed with the county clerk. The incorporators are John J. Daly, George J. Salisbury, William S. Stevenson, Arthur Brown and Allen Fowler, all of Salt Lake. Their object is to do a general mining, milling, smelting and reduction business. They show their capitalization $1,500,000 divided into 75,000 shares of par par value of $20 each. The officers are: John Daly, president and treasurer; G. J. Salisbury, vice president, and Allen Fowler, secretary. The company's property is in the Dublin mining district, near Park City.

Beaver Beacon: Prospecting parties have gone into Beaver to hunt for gold near Farnsworth, Iron county, several nuggets having recently been found in the neighborhood that place. Within the past week Sergeant Major H. F. Hood has charge and a great many are taking advantage of the opportunity to try all their city taxes. Albert G. Campbell will not remove any portion of the Silver mills to Goose Springs, Ut. He will only ship what machinery is necessary to operate the mines from a place called Newton, being which money to mines at Vanderbilt. The machinery was left Monticello to move the mills, have returned.

J. C. Keen Van Es, manager of the Footman group of mines at Silver City, Idaho, has great faith in the success of that locality as a mining region. He says: "I am satisfied from long experience in that section that a tunnel such as it is proposed to pass through the heart of the mountain below Snake creek will cut fissures or ledges of far greater dimensions than any we ever uncovered there. I have been going down at the time and I know the ore becomes richer with depth. On the Golden Chariot ledge at 100 feet and the Footman at 150 feet below the surface and I will warrant that the ore taken out of the ledge are pointed will go down in history as the rich of the richest and richest ever seen in the world." He also says that a few days ago the vein on the Footman opened up full nine feet with a vein of the richest ore ever seen there. The ledge is spotted with specimens of native silver. Some pieces have been picked from the face of the mill that were almost pure gold, among it the yellow metal holding the quartz together. Specimens have been picked that assayed over $100,000 to the ton. Mr. Keen Van Es says that at some depth is very little of this, but that the entire ledge will average $50 to $200 a ton. He states that he will shortly increase his mill force to operate his fifty stamps ground in present capacity.

Nothing.

Judge Hall was in attendance as usual at the Federal Court this morning, but up to the noon hour neither attorneys nor their clients had made any call upon him.

Lead and Irrigation Co.

This morning there were filed with County Clerk Maloy articles of incorporation of the Clear Lake Lead and Irrigation company, the incorporators of which will be in this city.

The capital stock is placed at $100,000, divided into three thousand shares of the par value of $100 each.

The incorporators are C. W. Allison, with office address R. K. L. Cooke, O. N. Powers, Will Hall Parke and Walter Brown are made each. With the exception of Mr. Cooke, who is now at Tooele, Utah, all these gentlemen are living in Salt Lake City.

The object of the corporation is the building and purchasing of reservoirs and canals, the selling of land and in connection with the same, the cultivation of crops, the buying and selling of grain, and the manufacture of lumber for building and other purposes, to buy and sell cattle, hogs, horses and mules, and to irrigate.

C. W. Allison will be president, R. K. L. Cooke, vice president, and Walter Brown secretary and treasurer.

The Church Case.

By a private dispatch received in this city Oct. 28, it is learned that no decision has been handed down in the Church case involving the property of the Church. The news which reached Ogden, however, that everything is all right.

ROBBED OF $20.

Mrs. Lagosch is Relieved of Her Purse and Her Money.

This afternoon Mrs. Lagosch, of this city, was relieved of her purse of gold. She had for money in her purse, in a purse, intending to pay an assessment of dues, she called on a lady on the way to the assessor's office, and then went down to the union place. There the assessor's office, but the purse was gone, and she immediately returned to the place of her visit. There she ascertained that a young woman who had been in the house at the same time had been conversing, the matter, but as it was supposed to be no one nothing was said.

The young woman who passed at the mention has been engaged for a period gill in the northwestern part of the city, and it is said was asked to work for tonight money. Mrs. Lagosch notifies the police, and no officer starts out this afternoon in search of the supposed culprit and the cash.

FOR SENATE TODAY.

The Last Struggle in Behalf of Silver.

Washington, Oct. 30.—This has been one day in the Senate. No more interest has been manifested at any stage of the long struggle than was shown today when the question of hour was practically decided and the minute were simply awaiting the final vote to be taken. Before 11 o'clock the galleries were crowded with people and a number of foreign representatives looked down from the diplomatic gallery. The room on the floor was crowded. Nearly every seat was occupied, while a hundred representatives from the lower house were ranged against the wall. The impression still seemed to be in spite of the recent fall of the Sherman silver forces they believed that Senator Gorman would be victorious. Two hours were given to the debate, and it was at the end of this time that the question was put. Every one seemed to feel relief from the result of this great preliminary struggle. It was brought with considerable prominence to the country, and that the policy of the Democrats was for the repeal or sale of sixty-seven millions of people.

Gorman announced last Saturday that he would call for a final vote on the repeal bill at 2 o'clock today, but as it was known the bill was still open for amendment this morning there was much speculation as to what proposition might be launched at the last moment by the silver men. Why had nothing to lose and everything to gain by a serious onslaught on the repeal bill. The morning following, were not preparing for a vote so early as Voorhees anticipated. Several western senators had expressed a desire to speak and as the time to be consumed in such a war rather indefinite the Democrats were more likely to be delayed than if the vote had taken place on Tuesday. There was a general desire on the part of the repeal men to have a vote as soon as possible without violating parliamentary courtesy.

Roll call showed the presence of Republican senators. When considerable time had elapsed Gallinger and Hoskins (Dem., Va.) called for a vote for unconditional repeal, and then to reply to join his friends in the fight for silver.

Cameron (Rep., Pa.) said neither side has made any concession worth to be called so. He was in favor of repeal, but he had absolutely no faith in the silver people. Pettigrew, he said, had absolutely broken faith with the silver people.

Stewart (Rep., Nev.) said he was for free coinage, and he had absolutely no faith in the promises of the silver people.
