IF A BODY MEET A BODY

the result is a collision, whether "coming thro' the rye," or not. Life is full of collisions. We are constantly colliding with somebody or something. If it isn't with our neighbors it is with some dread diseases that "knocks us off the track" and perhaps doubles us for life. Women especially it seems, have to bear the brunt of more collisions and afflictions than mankind. In all cases of nervousness, bearing down sensations, backaches, peculiar pains, sick headaches, prostration, indigestion, or alienation and all "female weaknesses," Dr. Pierce's Favorite Prescription comes to the rescue of women as no other medicine does. It is the only medicine for women, sold by druggists, under a **positive guarantee**, from the manufacturers, that it will give satisfaction in every case, or money paid for it will be refunded. See guarantee on bottle-wrapper.

Copyright, 1890, by World's Dis. Med. Ass'n.

Dr. Pierce's Pellets regulate and cleanse the liver, stomach and bowels. They are purely vegetable and perfectly harmless. **One a Dose.** Sold by druggists. 25 cents a vial.

BROKEN OUT!

How often do we see this on the faces of children and also of people who otherwise are healthy? What causes it? Bad Blood. The thought is terrible; the trouble is worse. No ordinary help can remove it. It requires something unusual. Do not take cheap sarsaparilla or blood purifiers. You must have something that has proven its power in both Europe and America. General Wheaton Nelson, of London, says: "My experience in the English army, as well as in America, convinces me that nothing so thoroughly purifies the blood, or adds to the health, vigor and life, as Dr. Ayer's English Blood Elixir."

This grand Elixir is sold by druggists in all parts of America. It is a good, pure, honest medicine. Try it today.

For sale by Z. C. M. I. Drug Dept.

ADVICE TO MOTHERS.

MRS. WINSLOW'S SOOTHING SYRUP should always be used for children suffering. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhœa. Twenty-five cents a bottle. 6m8 eod

CHIEF ARTHUR

Defines His Position, by Letter, Towards the N. Y. Central Strikers.

HIS ALLEGATION AGAINST MASTER-WORKMAN POWDERLY.

National Greenback Convention at Indianapolis.—A Fatal Leap from a Train.

By Telegraph to the NEWS.

CHIEF ARTHUR

Writes a Long Letter in Relation to the Railroad Difficulty.

NEW YORK, Aug. 27.—The letter given below was written by P. M. Arthur, Chief Engineer of the Grand International Brotherhood of Locomotive Engineers, to an engineer on the Third Avenue elevated road. The letter is in response to a letter on the subject of the Central strike, and the first utterance of Arthur which fully defines his position towards the Central strikers and the Knights of Labor. The letter is as follows:

CLEVELAND, O., Aug. 25th.

E. H. Holmes:

Dear Sir and Brother,—Your letter of the 23rd inst., with Powderly's letter and other clippings from New York papers inclosed, received. In reply I will say that I have not received any letter from Powderly. He claims to have written me a private letter on the trouble and wants me to define my position. If he considers his letter, that which appeared in the newspapers, a private one I don't, nor will I answer a letter that reaches me in that way.

It is unnecessary for Powderly or any one else to ask me to define the position of the Brotherhood of Locomotive engineers in the present trouble on the New York Central. The policy of the brotherhood is well known to him and to the public, as it has been repeatedly explained from the public platform and published in the newspapers.

He says: "some time ago I telegraphed him (meaning me) that I would meet him in Cleveland and when I arrived there I

COULD NOT FIND HIM,

high or low. The telegram had been received by him; but my efforts to locate him had been fruitless."

Now, the facts in the case, as near as I can recollect, are these: Some four weeks ago I received a telegram from Powderly, inquiring where he could meet him at the Union depot in Cleveland on the arrival of a certain train on the Lake Shore road. Owing to my absence from my office I did not receive the message until after the departure of the train, and so informed him by letter, addressing it to him at Scranton. I do not believe he stopped over and looked for me. If he had he would have had no difficulty in finding me at my office, or at my house, as I am always at one or the other when in Cleveland. He tells a willful falsehood when he says that other leaders had been unable to find me when they tried to do so. Any man who tries to find me when I am in Cleveland can do so with very little effort, and no man, whether a leader or a private in the ranks of labor, ever came to my office that he was not treated courteously. While I differ with men as to the best methods to be employed to secure certain ends, I have always been liberal enough to concede to every man the same rights and privileges I ask for myself.

WHEN TROUBLE

on the New York Central first occurred, I advised the engineers to obtain from all participation in it and adhere strictly to their own business. I gave the same advice when the strike occurred on the Grand system a few years ago. My advice to the Brotherhood engineers, when men employed in other branches of railroad service have been on a strike, was to mind their own business and not do anything that did not properly belong to them as engineers. Can Powderly say the same? I think not. Whenever the engineers have been on a strike, we never asked any other labor organization to assist us. It is true that some members of the order during the Chicago, Burlington & Quincy strike asked the switchmen to quit, but they did it on their own responsibility, not by authority of the brotherhood, consequently I hold that we are perfectly justified in maintaining a strictly neutral position when others are engaged in conflicts with their employers.

Powderly accuses members of the Brotherhood of Locomotive Engineers taking the places of striking firemen. If that is true, the division of which they are members will deal with them. It is not within the province of my authority to deal with individual members. I wonder if Powderly had the Knights expelled who took the places of our men on the C. B. & Q.?

M'KINLEY'S NOMINATION.

A Tremendous Outburst of Joy in Cleveland, Ohio.

CLEVELAND, Ohio, Aug. 27.—The political demonstration at Massillon, the accompaniment of which was the nomination of Major William McKinley for Congress in the Sixteenth Ohio District, was one of the greatest that ever occurred in Ohio. The republicans of the district participated in a great enthusiastic body and practically had their candidate, without the formality of the usual delegate convention. The district has been so gerrymandered by the democrats as to give that party a natural majority of the voters within the new limits. But the republicans are determined to elect him.

About 15,000 people were in the city, which was gaily decorated. Congressman Sayres early in the day received the following telegram from James G. Blaine: "I trust your convention today will nominate Major McKinley for Congress. He has been true and tried for twenty years. On many occasions he has helped the republicans of Maine. They want to acknowledge their obligations and help him by their interest, their sympathy and friendship."

In speaking of the tariff Major McKinley says:

ANOTHER PURPOSE

we declared in Chicago another pledge we made to the people, to revise the tariff on the lines of protection. How? Let me recall the pattern. "By such revision as will tend to check imports of such articles as are produced by our people, the production of which gives employment to our labor, and release from import duty those articles of foreign production (except luxuries) the like of which cannot be produced at home."

No one questions but that the House has kept that pledge in every respect in the bill which it sent to the Senate of the United States. It has lowered duties where it was in the interest of the people, and it has had the courage to raise them when to do so was to inaugurate or promote great industries or enlarge the field of employment for American men and women. If any doubt ever existed that the House tariff bill was a piece of American legislation for the benefit of the age and for the line of the country's largest property, that doubt must have long since been removed by the manifestations of opposition which has come from the leading and competitive nations of the world.

We said in our platform of 1888, "we are uncompromisingly in favor of the American system of protection. We protest against its destruction as proposed by President Cleveland and his party. They serve the interests of Europe; we will support the interests of America." We have given legislative assertion to this declaration in the bill which has passed the House with a fidelity of purpose which even our enemies will not question.

THE PUBLIC MEETINGS

which have been held in England, and the exhibitions of temper which have been witnessed in some of the great manufacturing centres and in the parliamentary bodies of other nations, protesting against our proposed tariff bill, must have convinced the most ignorant or incredulous that our foreign rivals regard the bill, not in the interest of Europe, but in the interest of America. They see nothing in it but a diminution of their American trade and a corresponding gain to our own producers. Of course it does not please other nations; it was not framed with that fashion; the Mills bill did. President Cleveland's free trade message received only condemnation and bitter denunciation. That is the precise difference. It was not made to please other nations; it was framed for the people of the United States, as a defense to their industries, as a security to their interest and investments, as a protection to the labor of their hands, and as a safeguard to the happy homes of American workmen. If that shall be enacted into law, I venture the prediction which will be fully verified, and which thoughtful men everywhere will confirm, when I declare that it will bring to this country a prosperity unparalleled in the history of the world, and let me assure you that the bill will become a law. A republican Senate will pass it and a republican President will put upon it his seal of approval as soon as it shall reach him, and

ANOTHER GREAT PLEDGE

of the republican party will have been kept and fulfilled.

The Congress has passed and it is now a law what is known as the customs administrative bill, a part of the great tariff system of the country, which protects the honest importer in the United States against the unscrupulous, which protects our own producers and citizens from the under valuations which have been too common and which it is hoped will take the great business of importing into this country out of the hands of dishonest men and place it where it belongs, in the hands of honest merchants. It looks also to the protection of the revenue of the country, for it is a notorious fact that for twenty-five years past, by a system of misdeclarations and under valuations, and the establishment of agencies on this side, we have not collected within twenty-five or fifty per cent of the true valuation of the merchandise imported.

The republican House found two great industries in the United States prostrated by a decision of the courts, growing out of an error in the tariff law of 1883. They were the manufacturers of silk and woolen goods. They had appealed to a democratic House for relief, but had been again and again refused. Their spindles had been stopped and in the one instance gone the injury not only applied to the manufacturers and their workmen, but to the wool growers of the country. Woolen goods made from foreign wool were driving from our market woolen goods made from American wool. The wool grower was suffering as well as the manufacturer. The House responded to the appeal of these suffering industries and passed a joint resolution, which received the approval of the Senate and the President, giving immediate relief.

Fatal Leap From a Train.

CHILLICOTHE, Mo., Aug. 27.—Stephen Beck of Sullivan County, Ill., jumped from a rapidly moving New York train today and was so injured by his little daughter Lola. The father was instantly killed but his daughter lived a few hours. No cause is assigned for the deed. They were bound for Germany. On the father's person was found checks for 12,000 marks. An inspection of the dead man's effects was made. From letters it was learned that the deceased was held in the sum of $200 bail for a bastardous search upon the little girl, and he had given a check to his housekeeper to cover the amount, and then he had gone to flee the country. The man was evidently intoxicated, as there was a strong smell of whiskey on the corpse.

A Greenback Convention.

INDIANAPOLIS, August 27.—The national greenback convention convened today. About fifty people assembled and a whole of Indiana. New York sent the largest delegation, thirteen in number. Colonel James took charge of the convention. He pointed out the dangers of sectionalism and scored both of the old parties for what they had not done. He advocated a financial policy based on a fiat volume of paper money, regulated by law. He said these questions should be put to candidates of the old parties in districts where the greenback party had none, and an effort made to bring about complete reorganization of the national greenback party throughout the whole country. A long fight followed.

The report of the committee on resolutions was the signal for several scrambles. The majority report was adopted. It was in substance that money consider into the Treasury from tariff and internal revenue should be used in the payment of public debts until the circulation reaches $50 per capita, and that the government expenses be paid in full in greenbacks.

The Sick Discovery.

You have heard your friends and neighbors talking about it. You may be one of the many who know from personal experience just how good a thing it is. If you have ever tried it, you are one of the second friends, because the wonderful thing about it is, that when once given a trial, Dr. King's New Life Pills never ever after before a place in the house. If you have never used it, and should be afflicted with a cough, cold or any Throat, Lung or Chest trouble, procure a bottle at once and give it a fair trial. It is guaranteed every time, or money refunded. Trial Bottles free at Z. C. M. I. Drug Store.

A Scrap of Paper Saves Her Life.

It was just an ordinary scrap, a scrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a piece of scrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her; she bought a large bottle, it helped more, bought another and grew better fast, continued its use and is now strong, healthy, rosy, plump, weighing about 140 pounds. For full particulars send stamp to W. H. Cole, Douglas, Fort Smith. Trial Bottles of this wonderful Discovery Free at A. C. Smith & Co.'s Drug Store.

What Does It Mean?

"Do Does Our Doctor" means simply that Hood's Sarsaparilla is the most economical medicine to buy, because it gives more for the money than any other preparation. Each bottle contains 100 doses and will average to last a month, while other preparations take according to directions, one dose to a week. Therefore, be sure to get Hood's Sarsaparilla the best blood purifier.

HAPPY RECOVERY.
