TELEGRAPHIC.

RUSSIA ADVANCING.

Another Step Taken Towards the Boundaries of India.

SOLDIERS OCCUPY KASHGARI.

China Not in a Position to Resist the Invasion—The Emperor Afraid of the Bear.

NEW YORK, June 12.—The North China *Herald*, of Shanghai, in its issue of May 11, has a letter from its Hsienli correspondent containing the following:

The latest news is that the Russians are in possession of the territory of Kashgari, that secures an open and uninterrupted contact with Indian possessions. An encampment of three hundred Russian soldiers are actively fortifying the region. They refuse to proceed farther than fifty li to the west of Kashgari city. In answer to the question, "Why don't you drive them to the frontier and forbid trespass and present occupation?" the answer given by an official from the spot was this: "Alas, we're afraid of the consequences. Should we initiate an encounter at Kashgari the possibility is Russia would retaliate in the north. She is prepared, China is not. Besides we in office have to act only as instructed by the Tsung Li Yamen. That body listens to the emperor and his majesty's will is submission."

Then you must be placed in a very undesirable position?

Indeed, we are. We have neither law, force nor freedom. The fact is, unless some foreign power intervenes Russia will make a gradual and unconditional conquest of the western boundary states and Corea."

Her way will then be open to the seaboard on the east and India on the south. From this vantage ground her European and Asiatic position would be more than a "bear's paw."

CROCKER CAUSES TROUBLE.

He Wants to Withdraw His Money From the Pacific Pool.

SAN FRANCISCO, June 12.—The *Chronicle* revives the story that George Crocker is causing trouble in Southern Pacific railway circles and that he has positively demanded the privilege of withdrawing his share of the great Crocker estate from the Southern Pacific pool. The *Chronicle* says young Crocker has made a formal demand upon the Crocker heirs, whose interests are managed by the Crocker company, to withdraw every cent of his money and his share of his father's estate from the railroad. He wants to have nothing to do with the transportation companies.

When Charles Crocker died, the story goes, his affairs were so arranged that George Crocker was not to receive his portion of the estate for five years, and then it was conditioned that young George must cease his dissipation.

For five years the young man has led a quiet life and as a result he has received $600,000 in the last few months. This placed him in an independent position, and now he is demanding what he claims to be his rights.

The *Chronicle* states that C. P. Huntington's practical usurpation of all power in the Pacific Improvement company has agitated Mrs. Stanford as well as George Crocker, and that both are determined to withdraw. Their demands for an accounting, it is said, will be resisted by Huntington, who is said to have threatened that if they withdraw from the Pacific Improvement company they must dispose of their shares in the open market. No decisive action is looked for until Crocker, who was recently married in New York, returns from his wedding trip to San Francisco.

Killed by a Negro.

BUNKIE, La., June 12.—News has been received here that ex-State Representative Bond, of this parish, was killed in a difficulty with a negro on Bayou des Glaises. The point at which the killing occurred is forty miles from the railroad and no particulars have been received.

Morton is Willing.

NEW YORK, June 11.—A very close friend of ex-Vice President Levi P. Morton says that, should the state convention name Mr. Morton for governor and his present good health continue, he will not refuse to run.

Another Wealer Drowned.

DENVER, June 11.—Dr. Parcell, of the Coxey army which left Denver on boats on the Platte river, was drowned today below Brighton by the swamping of a boat. Of those drowned last week only three bodies have been recovered, and the number of fatalities was probably less than was supposed.

Giants Unearthed.

MINNEAPOLIS, Minn., June 11.—An Egan, S. D., special to the *Journal* reports a valuable pre-historic find in a mound at that point. A tomb has been uncovered lined with cement. In the tomb's compartments were twenty-two male skeletons averaging eight feet in height. A rude altar and many bronze utensils were exposed.

Earthquake Shocks in Andalusia.

MADRID, June 11.—An earthquake shook several districts of Andalusia today. In the towns of Granada and Alvora many houses were destroyed and several persons were killed.

Another President Deposed.

NEW YORK, June 11.—The *Herald's* Buenos Ayres dispatch says: News has been received that the Brazilian government forces under Colonel Sampaio have been surprised and defeated by the rebel forces under General Pius in Curitaneys.

One hundred and fifty men were killed or wounded in the fight. General Lorenzo, the president of the rebel provisional government in the state of Santa Catharina, has been captured.

The coup d'etat in Paraguay on Saturday ended peaceably. Not a shot was fired.

Generals Escobero, Gabellero and Egusquiza, each of whom is a candidate for the presidency, entered into a conspiracy with the minister of war to overthrow President Gonzales. When the president, accompanied by the minister of the interior and the chief of police, was entering the congress in Assumption, he was suddenly surrounded and arrested by armed men, who compelled him to resign his office.

The vice president, who is a nephew of General Cabellero, at once assumed the powers of president.

The object of the coup d'etat was to destroy the official candidacy of Dr. Decoud, Paraguay's minister to Uruguay. A fight for spoils between the three generals who want to be president will probably commence in July, during the election of senators.

IN MOROCCO.

The Sultan's Death May Cause Serious Troubles.

TANGIER, June 11.—Additional advices regarding the death of the sultan says he suffered from fever for four days previous to his death, and he died while giving orders. For some time before his death he began vomiting and continued to suffer in this manner when he expired. It is added that the symptoms of his disease point to poisoning.

MADRID, June 11.—Advices from Morocco say trouble is expected throughout Morocco and especially around Melilla and Ceuta.

The Spanish government has requested the European powers to act in concert in Morocco to avert a civil war. The powers, including France, have given notice of their acceptance of this suggestion.

LONDON, June 11.—A dispatch to the *Standard* from Madrid says: All the Spanish officers and diplomats here who have recently been in Morocco apprehend serious trouble if the fanatical party headed by Muley Mahommed, the eldest son of the late sultan, should resist the proclamation of his brother as sultan. Four brothers of the late sultan are also likely to prove a source of trouble.

THE WEAK ARMOR PLATES.

A New Move on the Part of the Investigating Committee.

Lieutenant Ackerman's Testimony Locating the Defective Spots in the Various Ships.

WASHINGTON, June 11.—The armor plate investigating committee intends to make a new move towards locating weak spots on warships. It is expected the navy department will be asked to take off certain plates of the gun boat Machias and subject it to tests. The Machias is now in the Brooklyn navy yard for the purpose of recommissioning. Her condition is such that it is believed certain defective plates can be traced by certain specific numbers, and when located can be put to a test.

Lieutenant Ackerman was again before the committee today.

The witness said the Carnegie company knew in advance what plates would be selected from the groups for tests. The irregular cold water baths secretly given to plates as disclosed by some of the informers, would make the plates structurally weak and subject to be cracked by a shot.

Chairman Cummings read from the evidence of one of the informers. This was to the effect that he had secured the government stamp from Lieutenant Wilner, who was in charge of the steamship. Kountz, in this testimony, went on to give numerous hearsay reports as to witnesses' habits. It was stated the lieutenant played cards and drank during the evening at a hotel near the works. A young woman employed at the hotel had told the informer of having helped the officer to his room on one occasion.

As to the armor of the Terror, Lieut. Ackerman said he had visited the ship and located two plates containing the defects disclosed by the informers. The plates contained small holes which had been plugged up.

LIST OF DEFECTIVE PLATES.

Lieutenant Ackerman located a number of plugged plates in the Monterey. Another plugged plate was located in the Cincinnati. Another defective plate was said to be in the Machias. Lieutenant Ackerman presented a statement which was regarded by the committee as very important, as it gave the various ships of the navy on which the defective armor plates are located, with the exact location of each plate. Of those plates the defects are of various kinds and degrees of seriousness.

Lieutenant Ackerman believed the superintendent of the works responsible for the irregularities.

AN AGREEMENT REACHED.

Operators and Miners Adopt a Scale of Wages.

COLUMBUS, June 11.—About 5:30 p. m. the scale committee announced an agreement had been reached and was drawn up. The compromise was on a basis of 60 cents for Ohio, and 69 cents for western Pennsylvania. The agreement is not to take effect until Monday, June 18th.

At the joint conference tonight the agreement was ratified. A. A. Adams, president of the Ohio miners, who was a member of the scale committee, refused to sign the agreement. The settlement, however, is final. The scale agreed upon is as follows: Pittsburg, thin vein, 69 cents; thick vein, 60 cents; Hocking Valley, 60 cents; Indiana, bituminous, 60 cents; Indiana block, 70 cents; Streator, Illinois, 62½ per summer, and 70 for winter; Bloomington, Ill., 77c for summer and 85 for winter; La Salle and Spring Valley, Ill., 62½ for summer and 60 for winter.

Other sections in northern Illinois fields are at prices relative to the above.

The scale of prices will be in effect and bind both parties thereto beginning June 18, 1894, and continue until May 1, 1895, provided the above named scale of prices for the districts shall be recognized.

Condition of the Treasury.

WASHINGTON, June 11.—The cash balance in the treasury today is $118,[illegible],721, of which $69,357,535 is gold reserve. This amount will be further reduced by $1,550,000 engaged at New York today for shipment tomorrow, leaving the true amount of the reserve, $59,875,535.

NOTICE TO COXEYITES.

Sheriff Burchfield Will Prevent Him From Coming to Denver.

DENVER, Col., June 11.—Sheriff Burchfield has decided that no more Coxeyites will be allowed to enter Denver under penalty of arrest and imprisonment for vagrancy. Until the commonweal movement has subsided, special deputies will board incoming trains and patrol all public highways leading into the city, and no one unable to give a satisfactory account of himself will be permitted to pass the boundary line.

The action is made necessary by the fact that Denver's extreme generosity and hospitality in the past have been heralded to all commonwealers throughout the northwest, several thousand of whom are now headed this way.

Bitten by a Lion.

CONEY ISLAND, N. Y., June 11.—Miss Heather, the young lion tamer who was bitten by a lion yesterday, has grown very much worse. The wound has begun to inflame rapidly, also there are symptoms of lockjaw. Her tongue is swollen so that it fills her mouth. She is unable to speak and swallows liquid food with difficulty.

THE GOVERNMENT CLAIM.

The Attorney for the Stanford Estate States the Position of the Widow.

NEW YORK, June 11.—Russell J. Wilson, attorney for the estate of the late Leland Stanford, speaking today of the claims of the United States government against the stockholders of the Southern Pacific and the filing of a claim against the Stanford estate, said:

"Senator Stanford died on June 21st, 1893, and the first notice to the creditors of his estate was published July 27th following. By the law of the state of California all claims not presented within ten months after such publication are barred by limitation. So the government, after waiting until the last day, suddenly tendered a claim into my office. This was on May 26th, a Saturday, when business hours close at noon. Afterwards it was claimed the statute of limitation did not run against the government anyhow. I offered them the privilege of withdrawing the claim and testing that little point, but they did not care to do it.

"Our position is that the government has no right over the outside property of the stockholders. If a man owes you a debt secured by mortgage and promissory note and you hold the security under foreclosure and the proceeds do not pay the note, you still have a claim on him for the balance, but if you merely have a lien on certain of his property, all you can do is to sell that; you have no further rights against his property.

"We claim the government has merely a lien on the railroad property. They can take it at the proper time if they wish, but they can't proceed farther against the stockholders."

"If the Stanford estate had to pay this claim, would there be much left?" was asked.

"Oh, yes," Mr. Wilson said. "There would be what would be a very big fortune to most people still remaining."

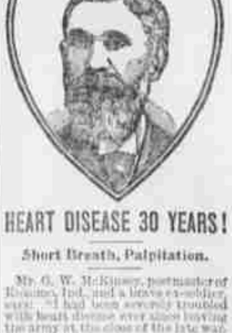
THE STANFORD MILLIONS.

Representative Geary of California Has a Word to Say.

WASHINGTON, June 11.—Before the House committee on Pacific railroads today Representative Geary argued strongly the act creating the Central Pacific railroad contemplates that the gov't. takes possession if there is default in the payments. Heretofore the company never has been in a position to proceed against dishonest directors, but if the government took possession it might reach back to 1862 and recover all the money diverted through construction companies or otherwise, returning it to the public treasury. "I do not know," said Geary, "why we should put poor old Coxey, who trod on three or four blades of grass, in prison and let go another criminal, because of the enormity of his offenses, one who filches millions, and defy him because in the last moment he erected with his money and the peoples' money a university. We of California are proud of that university, but ashamed of the motives that built it. It was erected from motives of revenge to destroy another university, because the graduates refused to make the founder a trustee. Would you wink at the crime through which that institution was erected? No respect for men living or dead should blind us into leaving monuments to criminals that should be a monument to the people."

Coxeyites Threaten to Burn a Town.

VALPARAISO, Ind., June 11.—Sheriff Stoddard, at 11 o'clock tonight, was telegraphed to come to Chesterton at once, as a Coxey army, composed of 300 men, had struck that town and were all drunk. They threatened to burn the town unless they were fed and lodged. The sheriff left at once with a posse.



HEART DISEASE 30 YEARS!

Short Breath, Palpitation.

Mr. G. W. McKinsey, postmaster of Kokomo, Ind., and a brave ex-soldier, says: "I had been severely troubled with heart disease ever since leaving the army at the close of the late war. I was troubled with palpitation and shortness of breath. I could not sleep on my left side and had pain around my heart. I became so ill that I was much alarmed, and fortunately my attention was called to

Dr. Miles' Heart Cure

I decided to try it. The first bottle made a decided improvement in my condition, and five bottles have completely cured me."

G. W. McKINSEY, P. M., Kokomo, Ind.

Dr. Miles' Heart Cure is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at $1, 6 bottles for $5, or it will be sent, prepaid, on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.

Sold by all Druggists

HAVE YOU A DOUBT

AS TO WHO ARE SALT LAKE'S LEADING SPECIALISTS, IF YOU HAVE READ THE EVIDENCE OF YOUR FRIENDS AND NEIGHBORS.

If you have been a constant reader of this paper for the past few months and have noticed the evidence published by Shores & Shores and the kind specialists, you will see that Drs. Shores & Shores have each week given the public one or more new statements of patients who have been cured by their new treatment, while our would-be competitors have given you old, so-written statements of people who have ordered their names withdrawn; but these would doctors can't cure a patient in six months with their treatment, as the results of the newspapers will prove, as they resort to all kinds of schemes to deceive the public.

Drs. Shores & Shores live on their own reputation. They use their own system of treatment. They do not advertise some man's system and use another. Drs. Shores & Shores' reputation for the past six years in the Territory of Utah is a guarantee of honest and skilful treatment.

Drs. Shores & Shores are having the success made of patients who have been "gulled" by these misfit doctors, and as soon as they are ready for publication you will receive some inside history as to the treating and methods of treatment used by these would-be specialists.

This week Drs. Shores & Shores present the testimony of two of the oldest residents of the territory. Hear what they say; go interview them, and they will tell you the difference between the real and the imitation.

MRS. BERTHA CHRISTIANSEN, Residence [illegible] Second South and Fourth East Streets, City.

COULD NOT SWALLOW.

The Alarming Condition of Mrs Christiansen—She is Cured in One Month by Drs. Shores & Shores' New Treatment.

To say Mrs. Christiansen was a sufferer is putting it mild. When she placed herself under the care of Drs. Shores & Shores, it was doubtful if she could ever be made well; her case had run so long that the catarrh had thoroughly undermined her entire system; her throat was so raw and irritable that it was with the greatest difficulty that she could eat enough to keep her alive. Here is her signed statement word for word:

SALT LAKE CITY, Utah, May 31, '94.

To Whom it May Concern:

This is to certify that I came to Drs. Shores & Shores a wretched sufferer with catarrh of the head and stomach. I was so very bad that I could not even take a drink of water or food in any shape without the greatest pain, and I can now truthfully state that after one month's treatment I am a well woman.

These are the class of troubles Drs. Shores & Shores cure daily. This is the class of troubles that have made them famous over the country, and this is the class of trouble that the misfit doctors try to treat, fail, and then advertise they are doctors.

Drs. Shores & Shores.

Specialists,

Zion Medical and Surgical Institute

34 E. Second South Street.

Specialties: All Diseases of the Eye, Ear, Nose, Throat and Lungs, Female, Rectal and private diseases. [illegible]
