FRAGMENTS.

ELDER ANTHON H. LUND, president of the Manti Temple, is in the city.

JUSTICE GEE had only two unimportant cases before him in the Police court today.

UNTIL the Supreme court adjourns the Third district court will not be in session running order.

NOT a solitary suit had been filed in the office of the Third district court up to three p. m. today.

ONCE again the case of Fergus Greenwell has been postponed, a continuance having been secured this afternoon until 11 o'clock tomorrow.

THE case of James N. Nelson, charged with permitting his cattle to infest the waters of Parley's canyon, was heard by Commissioner Pratt's court today.

EX-COUNTY CLERK ALLEN has about finished with the county court office now, and Clerk Maloy is settling down to the business with all the tact and conscience of an experienced officer.

THE charge of embezzlement brought against Marshall Brunker, a canvasser, by the local agency of the Singer Machine company has been dismissed by Commissioner Pratt, on application of the prosecution.

THE Rev. R. R. Lewis, Congregational minister of Scranton, Penn., known as *Jeremiah Calliste* among the Welsh people, is in town and was an attentive listener in the Tabernacle services on Sunday.

JOHN MITCHELL, a convict, committed from Provo for burglary on October 18, 1892, whose term expires tomorrow, and Katherine A. Bowman, yesterday adjudged insane by Judge Daroch, were taken to Provo asylum today.

IN the Third district court in the case of J. M. Stout vs. J. J. Greenwald judgment in favor of plaintiff for Receivers in the sum of $5248.12; $250 attorney's fee and costs has been entered. Louis Hyams et al. vs. Simon Bamberger et al. Judgment in favor of plaintiff for $[illegible] and against plaintiffs for costs amounting to $64.

LARNED CUTLER (once more) went before Commissioner Norrell yesterday on a charge of ill-treating his wife. He was found guilty and fined $50 and costs. In default he was sent to jail. Cutler is already under a $500 bond in the same commissioner's court to keep the peace. In addition, his wife is suing for a divorce in the Third district court.

MR. H. A. SMITH, a graduate of Ann Arbor, Michigan, and Mr. B. F. Lloyd, formerly a law student in the office of the well known attorneys, Richards & Moyle, have formed a law partnership and will practice their profession together. Both gentlemen are well known in this city and have a host of friends who wish them success.

It is understood that owing to the anxiety of the Supreme court judges to proceed with the cases on the calendar for the present term, a telegram has been dispatched to Washington urging the importance of the nomination of Judge Bartch being confirmed by the Senate at the earliest possible date. Deference to this matter was made by the chief justice, from the bench, today.

In the suit brought by Claude M. Raybould against W. H. Jacobs et al., a suit to foreclose a chattel mortgage of $200, a demurrer was argued in Commissioner Martin's court yesterday afternoon and taken under advisement. The defendants demur upon the ground that the case is an equity proceeding, hence the court lacks jurisdiction, and further allege that the property covered by the mortgage is exempt, and that the mortgage is, therefore, void.

House Burglarized.

An unknown robber entered the residence of John Shurer on Fifth South street, near Thirteenth East street, yesterday afternoon during the temporary absence of the family. As a result of his visit Mr. Shurer mourns the loss of $60 in cash.

An Accession to the Legal Ranks.

Among the successful applicants for admission to practice at the bar of the Territorial Supreme court is Mr. Joseph T. Richards, son of Hon. Franklin S. Richards, of this city. The committee appointed to examine as to the qualifications, etc., of candidates—Judge Sutherland, E. R. Criddlow and Ogden Hiles—reported of Mr. Richards in highly favorable terms upon recommending his acceptance.

Mr. Richards (who will at once become a member of the well-known law firm of Richards & Moyle) is a graduate of Cornell University, where he studied hard for two years, and returned home last June. He was warmly congratulated by his brethren at the bar upon joining them in the inner circle.

OPPOSITION TO JUDGE BARTCH.

Local Attorneys Telegraph to Washington Protesting Against His Honor's Appointment.

The nomination of Probate Judge Bartch by the President as an Associate Justice for the Territory of Utah does not appear to have found complete satisfaction among the local members of the bar. Yesterday, after the adjournment of the Supreme Court, a number of the attorneys got together and came to the conclusion that a protest should be sent from them against the confirmation of the appointment. Who are the prime movers in the step has not transpired, and secrecy seems likely to be observed. At any rate, a lawyer of some standing at the bar volunteered the information to the court reporter of the NEWS this morning that he saw a telegram which was sent to the chairman of the judiciary committee at Washington last evening strongly urging that efforts be made to set aside altogether Judge Bartch's nomination, on the ground that he did not possess the requisite legal ability to fit him for the office.

"I was asked to sign my name to the petition," said the informant, "but I declined to do so, whatever I may think. But I can tell you that it was pretty freely signed, nevertheless."

Despite further inquiries, this was all the NEWS representative could learn upon the matter, though it is evident there are others who could "talk" if they only chose to do so.

LOOK OUT FOR THEM.

The Lightning Rod Fiends Getting in Their Work on the Unsuspecting.

Of the numerous sharpers who make a living by practicing their tricks on an unsuspecting public there is none whose operations and representations are more to be dreaded and avoided than the average lightning rod agent. This particular class of individuals is now at work in this county and as a result a number of well known farmers have lost a considerable amount of money and gained a corresponding amount of experience.

A couple of well-to-do gentlemen who reside over Jordan called at this office last evening and related their grievances by reason of having come into close contact with a man who attempted to make them believe that the only way to escape unfortunate atmospherical disturbances during the progress of a thunder storm was by the purchase of the latest improved, cheapest and best lightning rod in the market, which was guaranteed to prevent their homes against the most fastidious freaks of the death dealing electric fluid. The victims of the salesman showed signs of the most complete air his efforts to dispose of his stock in trade, but they strongly object to the manner in which he defrauded them.

One of the gentlemen said when he gave his order he was assured that the cost would only be $[illegible]. When the rods were put up—such was done immediately after the order was signed—the price was larger over to a book for collection. Judge of the signer's surprise when his order—which was negotiable and a kind of note—was presented to him, calling for $[illegible] which he was compelled to pay.

In the other case the swindle was worked in a similar manner, only victim No. 2 is out for $[illegible].

Eclectic Medical Society.

The annual meeting of the Eclectic Medical society of Utah was held in this city last evening. The attendance was larger than ever before. The following were elected officers for the ensuing year: President, Dr. Bryant; Humphrey, vice president, Dr. A. L. Davison, Mt. Pleasant; secretary and treasurer, Dr. J. W. Taylor, Salt Lake; Board of examiners—Dr. G. A. Gardner, Salt Lake; Dr. R. Stringham, Ogden; Dr. E. A. Tobie, Salt Lake.

Blaine in No Immediate Danger of Death.

GREAT EXCITEMENT IN PARIS.

Difficult to Get a Jury in the Wyoming Cattle Case.

JOHN ALTGELD'S INTERVIEWED.

Two Presiding Officers in the Kansas House—Congress—Local Medicine.

WASHINGTON, Jan. 10.—Another set nibbling and unexpected improvement in the condition of Blaine occurred in the early hours this morning. At 1 a. m. the physicians announced that he had been worse since 8 p. m. and at that hour was still losing strength. The family then gathered in the room adjoining, leaving the writer, but the patient soon rallied from the low ebb and at 2 a. m. he was sleeping quietly with normal indications of more fluid discharge and the family retired. He continued quite weak until daylight.

At 8 o'clock Dr. Johnson said that Blaine was likely to die at any time, but at 5 he said there was no probability of death for some hours at least. Half an hour later, on leaving the house, he said there was no immediate danger of death.

Dr. Johnson returned to the house at 10:30 and remained half an hour. On leaving he said Blaine was better than during the night and his condition was as favorable as could be expected. He continued to take nourishment.

FRANCE'S SCANDAL.

It Leads to the Resignation of the Cabinet Ministers.

PARIS, Jan. 10.—The ministry has just resigned, owing to differences in the cabinet over the arrest yesterday of ex-Minister of Public Works Baihaut, and other matters. People throng the streets and the greatest excitement prevails. The police is out in force dispersing the crowds.

President Carnot has charged Ribot with the duty of forming a cabinet. It is openly charged that Ribot and Carnot are not in earnest in the Panama prosecutions, and have no intention of bringing the bribe-takers to trial, and that the prosecution of De Lesseps, Fontaine, Cotu and Eiffel will be nothing more than a farce. It is also charged that efforts are being made to plead for the exposure of certain guilty parties until the law of prescription has taken effect.

It is understood that Ribot will retain his office as premier, but will exchange the ministry of foreign affairs for the ministry of the interior. It is also reported that Loubet, minister of the interior, and Freycinet, minister of war, will probably not be found in the reconstructed cabinet.

Ferdinand De Lesseps, although absent on account of the state of his health, is convicted today as one of the defendants with Charles De Lesseps, Fontaine, Cotu and Eiffel, accused of complicity in the Panama canal frauds.

The trial opened in the first chamber of court of cassation, as the court of appeals was called. Poirivier presiding, and Procureur General Tanon conducted the prosecution.

KANSAS POLITICS.

Conservative Populists Gain a Victory.

TOPEKA, Kansas, Jan. 10.—After wrangling over the various plans proposed until after 1 o'clock this morning, the Populist caucus adjourned with victory for the conservatives. Durnbaugh, the Indian Democrat, was made the caucus nominee for speaker and Ryan, Union Democrat, for temporary speaker. It was further agreed that state officers, democrats and representatives of the press be admitted to the hall. The matter of organizing by force was fought to a finish, and the victory of the conservatives was overwhelming. The Populists still contend that they will be able to organize the house, but the Republicans say there is no longer any doubt about the election of Douglas. The recognition of Brownlow and Ryan is favorable to the success of a Indian Democratic United States senator.

Senator Perkins is here looking after his fences.

United States District Attorney Adams is here in the hope of getting the United States marshalship in case the Republicans organize the house.

The clash has come and the House has two presiding officers.

When Secretary of State Osborn appeared in the house he said, unless injunctions were issued, he would assume the chair while the roll was being called. Douglas, Republican candidate for speaker, objected, claiming that if anybody is to preside, as there was no house, that body not being in session, he said the Populists were entitled to organize the house and we objected to their voting when seats are contested. No understanding could be reached and the parties separated, each organizing its own house.
