MINING, BUSINESS AND STOCKS

WEAKNESS IN MARKET TODAY

Local Mining Stocks Suffered a Slight Reaction During Early Calls.

MAY DAY AND UNCLE SAM.

Came Down in Sympathy—Some Trading in Unlisteds— Closing Quotations.

The mining stock market showed an inclination to weaken today and a shrinkage in prices was noted all along the line. Beck Tunnel Consolidated, Colorado, Crown Point and Iron Blossom were all on the toboggan. May Day and Uncle Sam also weakened some in sympathy with their neighbors, but Sioux Consolidated held its own. Seven Troughs continues in the sluggish condition that has characterized that stock for some time, while Mountain Lake dropped to 68 cents, which was the closing sales price. Daly Judge, which has held remarkably strong for several weeks, wavered and a 600 share lot was thrown into the pit for slaughter at $6.50. Some believe this to be a very reasonable price for it and one which is sure to result in profit taking later.

There was not much doing among the unlisted stocks. Standard Copper displayed some activity and sold from 43 up to 48 cents, for Ohio Copper, $4.70 was bid, while the lowest offering was at $5. The closing quotations and sales were:

WALKER ON YERINGTON.

Boston Authority Says Nice Things About Nevada Copper District.

George L. Walker, the well known copper authority, who visited western copper camps recently, has expressed himself in very favorable terms about the Yerington district in western Nevada. He says:

"The surface and near-surface showing in the Yerington district is one of the best I have ever seen, and I have seen nearly all of the important copper districts in the United States, Canada and Mexico. For the amount of work that has been done an astonishingly large amount of commercial ore has been developed. There are innumerable small piles of good shipping ore, 8 per cent to 20 per cent copper, by the sides of prospect holes, and tunnels throughout the camp. There can be seen on every operating property, except those of the few wildcat companies whose properties are chiefly in the granite formation where no ore exists, or out on the desert in the sand. Yerington ores run low in gold and silver, carrying an average of 75 to 80 cents to the ton."

"Tests have made recently which demonstrate that Yerington ores will smelt readily, and also that when 60 per cent to 75 per cent of the charge is sulphides they are self-fluxing. The quite extensive development work done during the past year or two has opened more or less sulphide ore in every mine of importance in the camp. It therefore seems probable that the necessary sulphide will be supplied by the time that smelting operations begin. Magnetic concentration has been tried on the low grade sulphide ores with very satisfactory results. Systems of leaching are being considered also, as apparently very large deposits of carbonates, silicates and oxides, which will average 2 per cent to 3 per cent copper will be developed on the surface.

"The surface showing on the property of the Nevada Douglas Copper company is one of the most remarkable to be found anywhere. Over the tops of the hills, which occupy about the center of its group of claims, there is one continuous, unbroken area of mineralization. An engineer who sampled and measured it carefully says that there are 1,800,000 square feet of area which is underlaid to within two to four feet of the surface with carbonate and silicate ores which carry an average of 2 per cent to 3 per cent copper. This ore probably averages five to 10 feet in depth, with the body breaking up into veins and deposits of richer ore below.

"Commercial ore is exposed in more than three-quarters of the openings on the Nevada Douglas property. There are so many faces of good ore that it would seem an easy mater to put the property in shape within a few months to supply a smelter with 1,000 tons of ore daily. Before erecting a reduction plant, however, a good supply of sulphide ores should be available, and the development work now under way has this object in view.

"Mason Valley copper is developing what promises to prove a very large body of massive iron sulphide copper ore. Assays so far taken indicate that it carries about 4 per cent copper and $1 in gold and silver. It was encountered in the company's tunnel, which is now about 1,000 feet long and cut through and drifted upon. Apparently it is a great lenze or replacement body which has been opened near its top. At the tunnel level it is 70 feet long by 50 feet wide, and it promises to be still larger at greater depth."

INYO STOCK LISTED.

Property Situated in Inyo County, California.

The stock of the Inyo Gold Mining company has been listed on the local mining exchange and was called for the first time today. The application made to the listing committee shows that the company is capitalized for $1,000,000 in $1 assessable shares; that 300,000 shares were placed in the treasury, and that 52,000 shares of this allotment have been sold. L. Holbrook is president of the company and J. R. Twelves is secretary and treasurer. It is shown that the company has an indebtedness of $15,250, and that there is no money in the treasury.

The company owns 17 claims in the Echo district, Inyo county, California, which have been surveyed for patent. The ground is 16 miles from a railroad and is equipped with a hoisting whim, blacksmith shop, bunk house, mining tools, etc., and seven men are now employed at the property. Development, according to the statement, consists of 350 feet of shaft work, 700 feet of tunneling and 75 feet of crosscuts. No shipments have yet been made from the property, but the statement says the estimated amount of gold-silver ore in sight is calculated to be worth $650,000.

CITY ROCKS ELECTION.

The annual election of the City Rocks Mining company was held in this city yesterday. During the ensuing year the official family of that organization will consist of W. S. Cleaves of Hancock, Michigan, president; John Edwards, Hancock, Michigan, vice president; James P. Edwards, Houghton Michigan, secretary; W. S. Zehring, Salt Lake City, assistant secretary and manager; who, with Norman Nair of Houghton, Michigan, comprise the board of directors. Robert E. Smith has been retained as mine superintendent. President Cleaves and other directors went to the mine today on a trip of inspection.

NEW OIL COMPANY.

Strong Organization Formed to Operate in Virgen Field.

Articles of incorporation of the Southern Utah Oil company of this city were filed in the county clerk's office today. The company is capitalized at $1,000,000, divided into shares of the par value of $1 each. The company owns 10 oil claims in Washington county, Utah. Harry H. Clark is president; Burt L. Smith, vice president; C. D. Porter, secretary and treasurer. These, with E. L. Ferrer and D. J. Smith, compose the board of directors.

NEW COPPER CAMP.

Lime Mountain, Near Tuscarora, Attracts Attention.

Lime mountain, situated about 36 miles from Tuscarora, Nev., is attracting quite a little attention and according to recent advices from there, some rich copper as well as gold ore has been found. Several properties have changed hands lately and the owners of an attractive copper proposition last week refused to take a cash offer of $25,000 for it.

TINTIC'S NEW LEAD SMELTER

Manager Bela Kadish Says Good Progress is Being Made With Construction.

WORK ON RAILWAY LINE.

Grading Almost Done and Ties and Locomotives Have Arrived.

Manager Bela Kadish of the Tintic Smelting company is in the city today and reports splendid progress being made with the construction of the new lead smelter in the Tintic district. The sampling mill, which is one of the essential parts of the equipment of a well regulated smelting plant, is taking on form rapidly and will be ready for commission several weeks before the furnaces are ready to be blown in. It is expected the smelter will go into commission about the first of the year.

The grading outfits which have been working on the new Eureka railway for some time past have practically completed their work; the ties ordered for the road some time ago have been delivered; the locomotives to be used on the line have also arrived and the steel rails are expected to come in almost any time now.

At the Ogden smelter of the Utah Smelting company, of which Mr. Kadish is also manager, things are going along in a very satisfactory manner. The plant is running up to its capacity right along, on ore sent to it for treatment principally from the camps of Utah and Nevada.

ANOTHER FLORENCE STRIKE.

The Florence Leasing & Mining company of Goldfield has made another good strike on the Florence property. The find was made in a raise from the 378-foot or bottom level, on what is known as shoot No. 2.

M. J. Monette is the owner of a controlling interest.

GOLD CIRCLE DISTRICT.

Nevada Region is Showing Up With Some Good Ore.

Something new in the way of rich finds to be chronicled every week from the Gold Circle district, says the Tuscarora Mining News. This time no less than three strikes are reported. A. W. Sewell has been out to the new country and only has the best of praise for the section. Mr. Sewell is interested in a number of claims and while there prospected his holdings, he got excellent returns from everything he had tested and from one ledge 300 feet wide got an assay of the average that went $8.50. The rock from this claim was not expected to run as high as it did, but the porphyry looked as if it would contain mineral and the result was simply astounding. As there is an unknown quantity in sight and power can be easily and cheaply installed, this would make a big proposition for a mill as the rock is free milling, in fact all the ledges uncovered are free milling, running nearly all in gold.

Other assays obtained by Mr. Sewell from ground belonging to other parties were as follows: Pemburthy, owning a claim on which a large ledge is traceable for about a mile, is about 50 feet wide and assayed $6.4½. What is known as the two Mac's ground about, one mile southeast of the main strike gave average returns of $17.17 to $27.50 from a large ledge. Picked samples from this ledge will run into the thousands. Paul Ehlers, owning ground joining the main strike on the north, got an assay of $59. The opinion of most people is that the main mines will be found in the foothills, where most of the high grade ore is now being opened up. If this is the case, the district will have mines stretched over an area three miles long by one mile wide, as good prospects have been opened up all over and more reports are coming in every day.

ROAD TO COAL FIELD.

Product of Gebo Mines Will Soon be Available.

Special Correspondence.

Worland, Wyo., Sept. 1.—The branch railroad being built from Worland to the Gebo coal mines is now within a few miles of the mines, and will be completed and placed in operation before snow flies. With the arrival of the tracks at Gebo, development on the coal properties there will be pushed, and the mines will probably begin shipping about the first of the year.

FUEL SITUATION.

Smelting Concerns Confronted With Hand-to-Mouth Proposition.

The fuel situation with the local smelting concerns has resolved itself into a hand-to-mouth proposition. Managers of the various plants don't know what minute they will be compelled to shut down and no matter how hard a "kick" they make, the complaint is still heard that they are not getting enough to supply the demand for it. Every smelter in the valley, it was learned today, is running under capacity in hopes that it will not be necessary to quit business entirely pending relief from the transportation companies.

One smelting man declared today that his company had received positive assurance from the Utah Fuel company that conditions at the mines were such that orders could not be filled if the railroad company could supply the cars, which it does not seem able to do.

At the Garfield smelter on Tuesday the supply of coke ran dangerously short and had it not been for the diversion of some cars billed to other points, the plant would have been compelled to "blow out" before night.

With the sugar beet harvest about to begin, the outlook for the next few weeks is none too bright for the mine and smelter managers.

SAN FRANCISCO MARKET.

James A. Pollock & Company furnish the following quotations on Nevada mining stocks from San Francisco today:

COMSTOCK.

Ophir, 1.07½@1.10; Mexican, 57@58; Gould & Curry, 30@31; Con. Va., 80@81; Savage, 99@1.00; Hale & Norcross, 1.05@1.10; Yellow Jacket, 1.10 bid; Belcher, 24@25; Sierra Nevada, 48@49; Union, 43@44.

Bend Ext., 14@15; Gt. Bend Annex, 9 asked; B. B. Bonanza, 6 bid; Kewanos, 68@70; Esmeralda, 10 bid; Portland, 21 bid; Crackerjack, 21@22; Red Hills, 56@57; Mohawk Exten., 10 bid; L. Dillon, 12 bid; Tiger, 21@22; Grandma, 17 bid; S. P. Exten., 5@6; Col. Mt. Exten., 3@5; Goldfield Con., 7.45@7.50; D'field Triangle, 20@21.

CONCENTRATES.

H. H. Green of the Western Utah Copper company has returned from a trip east.

Samuel Newhouse is expected to return from Europe shortly. He is due in Salt Lake the last of the month.

The ore and bullion settlements reported late yesterday by McCornick & Co., were: Crude ore and concentrate, $93,000; base bullion, $40,000.

The Guggenheim interests have recently purchased a large tract of land on Bull's Head Point, adjoining the smelter of the Mountain Copper Co. on San Francisco bay, near Martinez, and it is possible that they will erect a smelter at this new location, which would give them a tidewater landing and is specially suited for the smelting industry.

Utah-Idaho Sugar Co. Dividends.

The Articles of Incorporation provide for payment of a dividend of 1¾ cents per share on the preferred stock Sept. 30th, 1907, and quarterly thereafter. The par value of the stock is $10 per share.

Dividends on preferred stock are cumulative; that is, if not paid at end of any quarter must be made up and paid to the owners of preferred stock before any dividend can be paid on common stock.

We can buy you a reasonable amount (from 1 to 1,000 shares) of this stock at about $9 per share. When money is normal in all parts of our country the opinion of men best qualified to judge is that this stock will readily sell for from $13 to $11 per share. The time to buy is when you can get the stock CHEAP. THE TIME TO BUY IS NOW.

GEORGE M. CANNON CO.

Real Estate and Commercial Stocks and Bonds. We desire your orders for anything in our line.

Rooms 512-513 Templeton Building. 'Phone Bell 57.

LOCAL MARKET REPORT.

The local market receipts today, include a car of Utah potatoes, two cars of Utah cabbage, a car of sweet potatoes, a car of lemons, two cars of watermelons. The express shipments include fine consignments of Tokay, Muscats, Black Prince and other varieties, as excellent in condition and flavor as any grapes ever shipped in here. The Thompson Seedless is coming into favor, especially with children, from the fact that they have no seeds. There are some slight reductions in hay and grain—to be expected at this time of year. But the general market continues changeless. The following prices obtain today:

RETAIL.

Timothy, per cwt	.90
Alfalfa, per cwt	.80
Corn, per cwt	1.50
Wheat, per cwt	1.60
Oats, per cwt	1.75
Barley, rolled per cwt	1.50
Family flour, per cwt	2.20
Flour, straight grade, per cwt	2.30
Flour, high patent, per cwt	2.50
Bran and shorts	1.10
Straight shorts	1.20
Corn meal, per cwt	2.40@2.50

MEATS AND POULTRY.

Dressed beef, pound	12½@15
Dressed pork, pound	15@17½

Brook trout, each	15
Crabs, each	30
Halibut, per pound	15
Salmon, per pound	20
Barracuda, per pound	20

HILL AND HARRIMAN STOCKS WERE WEAK

Dealings on Moderate Scale at Prices Lower Than Yesterday's Close.

BUYING ON DECLINE TO COVER

Brisk Rally Sent Things Up, but Demand Soon Subsided—Later Market Became Feverish.

New York, Sept. 5.—First prices of stocks were lower than last night, prices in London helping on the depression. Northern Pacific fell 1½, Canadian Pacific 1¼, Union Pacific, Great Northern preferred, Reading, Amalgamated Copper and Anaconda 1, and Southern Pacific, American Smelting and Brooklyn Transit large fractions. Dealings were in only moderate volume.

Buying to cover on the decline caused a slight rally, but the higher prices induced heavy selling and the market sagged to below the opening. The principal weak features were the Hill and Harriman stocks, Reading, the local tractions and copper stocks. The market was a little steadier and quite dull at 1 o'clock.

A brisk rally carried prices today about last night's level, American Smelting rising ⅝ and Union Pacific and Kansas & Texas. Sugar preferred sold at a decline of 2¾ and Erie and Great Northern Ore Certificates and Third Avenue ¾. The demand subsided and prices receded again.

The market was feverish but eventually rounded to the high prices of the morning. Burlington sold at 258 compared with 258 for the preceding sale in April last. The announcement of a stock exchange failure led to short covering. Reading got up 1 and North American 1½.

LIVESTOCK.

KANSAS CITY.

Kansas City, Mo., Sept. 5.—Cattle—Receipts, 11,000, including 1,500 southerns. Market steady to 10c lower. Native steers, 5.00@7.00; southern steers, 3.25@4.85; southern cows, 2.25@3.40; native cows and heifers, 2.10@5.50; stockers and feeders, 3.25@5.50; bulls, 3.50@4.00; calves, 3.50@6.75; western steers, 3.60@5.50; western cows, 2.25@4.00.

Hogs—Receipts, 7,000. Market steady. Bulk, 5.85@6.30; heavy, 5.75@6.90; packers, 5.80@6.15½; pigs and lights, 6.10@6.50.

Sheep—Receipts, 5,000. Market steady. Muttons, 5.00@5.75; lambs, 5.00@7.50; range wethers, 5.00@5.90; fed ewes, 4.50@5.40.

CHICAGO.

Chicago, Sept. 5.—Cattle—Receipts, 5,500. Market steady. Beeves, 4.10@6.25; cows and heifers, 1.90@6.25; Texans, 3.50@6.00; calves, 6.00@7.75; westerns, 4.00@6.00; stockers and feeders, 2.90@5.00.

Hogs—Receipts, 16,00. Market 5c higher. Mixed, 5.90@6.45; heavy, 5.40@6.05; light, 6.10@6.52½; rough, 5.40@6.00; pigs, 5.50@6.35; bulk of sales, 5.70@6.30.

Sheep—Receipts, 14,000. Market steady. Sheep, 3.25@5.80; lambs, 5.00@5.75; yearlings, 5.50@6.30.

WOOL

ST. LOUIS.

St. Louis, Sept. 5.—Wool, steady. Territory and western mediums, 20@25½; fine mediums, 19@23; fine, 18@20.

PRODUCE.

CHICAGO.

Chicago, Sept. 5.—The wheat market broke wildly at the opening today, the initial quotations being all the way from 1 to 1½c below the close of yesterday. Liverpool cables were lower and it was reported that a heavy slump had taken place in the Berlin market. The result was that nearly everybody on the exchange was anxious to sell. Commission houses threw large quantities of wheat on the market and the small holders were frantic in their efforts to dispose of their lines. Shorts covered so thoroughly yesterday that the market in the early stages had little support, prices, however, rallied somewhat at the end of the first half hour. December wheat opened 1 to 1⅝c lower at 89⅝@⅞ and sold up to 1.00⅛. Local receipts were 206 cars.

The corn market was much steadier than wheat because of a big demand for cash grain and good buying by pit traders. December corn opened unchanged to ¼c lower at 61¼ to 61⅛c, and sold off to 61⅛c.

Trade in oats was light, but prices were firm because of light offerings. December oats opened ⅛c lower to ⅛c higher at 33⅝ to 34c, and held around the latter figure.

The provisions market was firm on large shipments and good buying of January lard. October pork opened 10c higher at 16.30; lard was up 8c at 9.30; October ribs opened unchanged at 8.70.

SUGAR AND COFFEE.

New York, Sept. 5.—Sugar, raw, firm. Fair refining, 3.42; centrifugals, .96 test, 3.92; molasses sugar, 3.06.
