A BATCH OF TIES

Four Councilmanic Candidates at Ogden, Not Elected.

Lots To Be Cast for Several Other Offices at Yesterday Ogden's Election.

Secretary Richards late this afternoon notified by letter Andrew P. Ellison and William Walterson, of Logan, both Democratic candidates for councilmen to appear at his office on Tuesday next at 10 o'clock a. m., to cast lots for the office of city councilor for the next two years, they having received the votes of the last election.

N. S. Whitney and John Kyle of Ogden, who also tied for the office of city recorder at that place, have been notified to appear in person or by proxy at the Secretary's office on Wednesday, the 20th, to decide by a similar method which of them shall be entitled to the office.

On the above case the contests for superintendent of schools for Tooele county, M. H. Dailey and Henry Leigh, are expected to present themselves for the same end.

The right to the city collectorship in Morgan must be determined in the same way as the same office in Kanosh, between William W. Wilson and J. C. Bowen.

The most difficult matter connected with the deluge of tie votes at the last election comes from Monroe, Clarke county, where a quadruple contest exists. Robert Stewart, Moses Allen, Geo. Gardner and John A. Walker, all receiving the same number of votes for councilmen. Secretary Richards has notified the clerks that warrants will be issued for different candidates to draw lots, the says, so neither of them have received a majority of the votes the people have elected no one. In that event it will be a case of hold over for the present officials.

EDUCATIONAL MATTERS.

A Loss of $10,000 Obtained for the Twenty-ninth School District Improvements.

Today a representative of the News called upon Mr. John M. Whitney, chairman of the board of trustees of the Twenty-ninth school district, and questioned him as to the negotiation for a loss of $10,000 on the bonds of that district. Mr. Whitney said that while in Chicago the latter part of October, in behalf of his board, he negotiated the loan with the firm of N. W. Harris & Co., bankers, at interest 5 per cent per annum.

The board sold the bonds at par with a small commission to the firm for handling them.

"The people in our district," said Mr. Whitney, "realizing the needs and always supporting the trustees in the work of improvement in school facilities, were almost unanimous that bonding was the best thing to do under our conditions, and so the trustees proceeded in accordance with their wishes. This loan would cover the entire debt of the district. We built last year a fine central building for a high school, which when completed will cost about $19,000, on Fremont Dale also last year at a cost of $1000. We have purchased the Pleasant View school building and two acres of ground, and we are about to purchase, and early in the spring erect, a primary in the northwest part of the district. The loan, with the special school taxes we have had for the last two years, will cover all the indebtedness and pay for all outstanding obligations for furniture. It is our aim to increase the standard in every grade each year, and grade up to the high schools, and there prepare students for university and college work.

The negotiation concluded, the loan came to hand last evening.
