MINING STOCK BUSINESS

Trading Fairly Active in the Pit of the Exchange Today.

TIDINGS FROM SNOW-CAPPED ALTA.

Mayor Dividend Paid—South Swansea Dividend Sold—Mining Affairs at Stateline.

Proceedings in the pit today were not of a stormy character, but still sufficient interest attached to them to make matters worthy of attention. Fair Lake did the first business on the call by selling at 3¼ cents, a thousand shares going at this figure. Following came sales of Geyser-Marion at 70 and 69¾ cents with a good demand for the stock at the latter figure. Activity was not so rife, however, as on yesterday, as only 500 shares changed hands on the call. The stocks mentioned did the trading for those listed, while others not included in the selling list, maintained good positions, prominent among them Grand Central, Mammoth, Ontario and Silver King.

Chloride Point was the first seller for those not used, a transfer being made at 84½ cents, with the stock in fairly good demand at 87. South Swansea was called, but did no business although the stock exhibited new strength and had a ready bid of $1.24, better was seen from this on the pit where sales went at $1.32 and $1.37, while requests continued at $1.35 bid with no offerings under $1. There was a sale of Dalton at five eighths of a cent and one of Joe Bowers at 1¾ cents, these transfers closing the business of the day. Onondaga could do good without at 12 cents and Yosemite was wanted at 6¼ cents, but neither entered the selling list.

The closing figures were as follows:

LISTED STOCKS.

Stocks.	Bid.	Asked.
Anchor	8½	1.20
Alta	37½	38
Alliance		30
Dalton Deep	1.35	1.40
Centennial Eureka	21.00	21.50
Emma	1.25	1.40
Lady Week	4.37½	5.00
Dalton & Lark	3½	10
Eureka	4½	7
Fair Area	3	4
Geyser-Marion	69¾	71
Gallows	11	20
Grand Central	6.00	7.00

FROM SNOW-CAPPED ALTA.

Signports Steadily Increasing, Says Chas. Ellis—The Albion Working.

Charles Ellis, a gentleman who spends his winters in Alta developing mines in the hidden recesses of snow-capped Alta, came in from that district last evening with stronger faith than ever in the possibilities of the camp from a mining standpoint.

Mr. Ellis says that shipments from that section are steadily increasing, mine owners having progressed so far with development as to be able to put the fruit of their labor upon the market. The gentleman states that the Albion, recently incorporated, is now well opened and undergoing a siege of exploration, while the controversy concerning a ownership is still pending in the courts. It is the intention of the company to work away all winter and to sacking some good shipments will likely be made.

Mr. Ellis's property consists of a group of three claims, which he considers a fair prospect. In a tunnel 20 feet he has a good streak of copper pyrites, specimens of which have come into a dump. The mineral carries a good value and Mr. Ellis is firm in the belief that with further work the claims will come to the front.

Mayor Dividend Paid.

The Mayor company was today distributing dividend No. 44 of $20,000, the same being the company's total to the hundred mark of $1,040,000. The Mayor mine is in splendid shape at present. It has large ore bodies in sight, and the output is sufficient to warrant the immediate enlargement of its mill to 60 tons daily—work that is now receiving attention. The stock is strong around $7.25, but cannot be bought even at this figure.

South Swansea Dividend Sold.

The novelty of buying and selling stocks before they are declared, was a feature in the pit of the exchange today, and if mining companies are wise they communicate concerning their intentions to other pens or declare dividends, the business of dealing in them promises to become a factor in local stock circles. For some time past brokers have been speculating on a good deal as to whether or not the South Swansea would pay this month. From some source the news has come straight, that a dividend would be paid, while in other quarters the matter was questioned considerably. This being the case, Henry Peay, with the assurance that one would certainly come, made an offer of bid for the September dividend on Lot quarter of South Swansea, and it was promptly accepted by Hatch brothers, who issue $10 if a dividend materializes. It is reasonably believed that the South Swansea will come to the front all right.

Mammoth Meeting This Afternoon.

The directors of the Mammoth Mining company were locked for a meeting late this afternoon, at which it was expected action would be taken on Otto month's dividend. It is understood that some decision exists in the policy of declaring a dividend but from inside sources the "News" was assured that the dividend for the regular $10,000 would be forthcoming on the 1st. The mill operates to be in good shape and this being the case there seems no special reason why a dividend should not be paid.

STATELINE MINING.

It is Picking Up and Now Looks Better—Rice Brothers' Project.

The Stateline correspondent of the Iron County Record takes a more hopeful view of the situation there and pens these words to that paper:

Since the arrival of Col. H. L. Pickett and a Mr. Milroy, about the 3rd inst., a decidedly brighter feeling prevades the atmosphere and has taken possession of the community. These gentlemen have chased two promising properties, prospected the same for the Price Diggings purchaser, and putting on a force of men the following day after the transfer, commenced work on the Clark & Troughton interest at Deer Lodge, Nevada. I have been unable to learn figures in either transaction, but know both properties to be good.

A Mr. Thompson of Milroy also sampled Pike's Degener and a portion of Stateline district, expressing himself as highly pleased with the showings. Mr. Thompson is no stranger here, this being his third visit, so we infer he has seen something attractive.

While all these deals and prospective sales are going on, there is a project being pushed which promises to develop thoroughly the Rice Brothers group of claims in this camp. Started at the lowest point possible, the last of tunnel work has been completed and with highly satisfactory results, a blast was fired the 8th ult. at this season, drifting on the vein will now be pushed and it is under the apex of the mountain, and it is calculated a 400 foot tunnel will do the trick, giving a depth of 400 to 500 feet. The projectors, Geo. A. Rice & Brothers, have the courage and the wherewith to push the work to completion.

DIPS AND SPURS.

Silver Cl. lead $1.85.

The Geyser-Marion is in with a shipment of crystics.

There were rumors afloat today of another strike in the Omaha.

W. H. Clark has been unanimously elected a member of the stock exchange.

The Oregon Short Line will announce the Confederate passenger rates and train service tomorrow.

Report has it that gold is paying quartzite has been found in the lower levels of the South Swansea.

Col. Isaac Trumbo is now in Grant county, Ore., inspecting the E. and E. mine recently purchased by him.

John W. Hatfield was today admitted to the pit of the stock exchange, on application for membership.

E. H. Perkins of the accountant's office of the Oregon Short Line leaves today for a two weeks' vacation.

P. T. Farnsworth has returned from Frisco, where he has been examining the Horn Silver and Washington mines.

The general freight office of the Oregon Short Line reports considerable movement in fruit from Payette and Boise City valleys.

Col. Preble and Otto Will, former residents of Mercur, have returned from Klondike satisfied with conditions as they are at Dawson.

Charles E. Hudson, the well-known mining stock broker, was today celebrating the twenty-third anniversary of his wedding day.

Claude S. Williams, contracting freight agent of the Chicago, Milwaukee & St. Paul, came in last night from a trip to Oregon points.

Traveling Line Stock agent Tuttle of the Oregon Short Line is in Oregon looking after the shipment of several train loads of cattle and sheep.

All the roads are now in a great hurry for freight from eastern points, caused by shippers rushing forward consignments under the cut rates.

The Treasure Hill at Tintic is producing values as high as 400 ounces silver and $24 in gold, and it is said that the mine generally is in splendid shape.

A car of ore running $21 to the ton in gold and copper has been made in the Superior mine at Wheel Utah. The vein extends across the face of the tunnel.

Mrs. J. T. Andrews, wife of Chief Clerk Andrews of the accountant's office, Oregon Short Line, leaves tonight for Omaha and eastern points on an extended visit.

Gen. W. Peckins, traveling freight agent of the Rock Island railroad, was in this morning with a train load of live stock bound east over the Rio Grande Western and the Midland.

D. S. Tuggett, the traveling agent of the Oregon Short Line, who broke his leg some time ago and had to have it amputated, is recovering nicely. He is now in Oregon spending a few weeks.

Nearly all of the employes of the Union Pacific are in their places in the general offices of the Oregon Short Line, the following returning from their holidays within a week: A. V. Smith, Harry Chipman, Alfred Peterson, Fred Bremer and Miss Essie Bremer.

Ute Indian Agent.

Mr. Howell P. Myton, who for over a year has been one of the commissioners to the Ute and Uncompahgre reservations is in the city from Washington, D. C. Mr. Myton has been appointed Indian agent for the Utes with jurisdiction over both reservations and is now engaged in the duties of his office on the first of October.

West Sewer Water for Irrigation.

A number of Beautiful farmers will this evening make application to the City Council for the lease for a term of years of a part of the water that now flows from the sewer system. These gentlemen have observed with considerable interest the experiments that have been made by the city the past two years in raising farm products on horseless sewer land. The success of the undertaking is so marked and so great as to remove all doubts as to further efforts and Davis county farmers now want to make an arrangement by which several thousand acres of non-producing land can be reclaimed. It is believed that a majority of the Council will favor the acceptance of some proposition to this end.

Salt Lakers Get a Contract.

J. T. Green and A. E. Jacobsen signed a contract last Wednesday with C. P. Waterson, of Salt Lake City, eastern agent for the Burton & Lee Manufacturing company, for a 150 barrel steel roller flour mill. The company will be known as the Ogden Worsys Milling & Manufacturing company. The contract calls for the mill to be running by noon the 1st of January and for of February, 1899. The mill will be built in the corner of Ballard Avenue and Arizona street—Graham, Ariz., Guardian.

Salt Lake Temple.

In order to accommodate the Saints who will come to the approaching General Conference, baptisms will be performed in the Temple on Monday, Oct. 3rd, and the other ordinance work on the two days following—Tuesday and Wednesday, 4th and 5th.

The building will close on the evening of Oct. 5th and reopen the following Monday, Oct. 10th.

LORENZO SNOW,
President.

Relief Society Conference.

The general conference of the Relief Society will be held in the Assembly Hall, Salt Lake City, on Wednesday, October 5, 1898, morning commencing at 10 a. m. and 2 p. m. as usual. It is desirable that each Stake organization of the society should be represented by the president or an authorized representative. All officers of the society and of the Church are most cordially invited. The meetings of the conference are open to all interested in charitable or philanthropic work.

ZINA D. H. YOUNG,
President.

JANE S. RICHARDS,
BATHSHEBA W. SMITH,
Counselors.

E. B. WELLS,
Secretary.

St. Joseph Stake Academy, at Thatcher, Graham County, Arizona.

The St. Joseph Stake Academy begins their school year of 1898-99 on Monday, September 5. The academy is open to students of both sexes, and of any religious denomination or nationality.

The school year is divided into two semesters of eleven weeks each.

GENERAL AIMS.

To teach the principles and doctrines of the Church of Jesus Christ of Latter-day Saints, the principles of morality and the arts and sciences usually given in high schools.

The study of theology is not obligatory upon non-members of the Church.

ORGANIZATION.

The academy will be organized with the following departments: 1. A kindergarten, including a kindergarten training school. 2. An academic department. 3. A normal department.

TERMS.

Kindergarten (all material furnished by teachers) $2 per week. Kindergarten training school, $10 per semester. Academic department, $10 per semester. Normal department, $10 per semester. Special rates will be made for the five weeks' course in Sunday school work. All fees payable in advance.

BOARD AND ROOMS.

Students can find good board and rooms in private families at from $2.50 to $3.50 per week. It is advised that per sons desiring places to board come and secure them before entering school. The faculty holds supervisory power over all student boarding places.

SPECIAL ORGANIZATION.

The Polysophical society will be organized for the purpose of furthering curriculum, general information and healthful amusements for students. The society will be in charge of one of the regular teachers. Non-members of the society will be admitted by complying with the prescribed rules of the society.

EXPLANATORY.

Although students will be welcomed at any time, it is advised that if possible his their enter at the beginning of the school year, before generating admission cards will and a class formed in building, where they will be placed in the proper grade, and where they can assist them in the selection of studies and in each other matters as will be found necessary. A great deal of harm resulted from students who have expressed themselves as being too far behind to go to school; to such we would say that they participating need to avail themselves of the advantages offered by the academy, and they may be assured that they will receive every attention possible to make them feel at home. The spirit of the academy is not one of ridicule, but kind and good-will will be constantly exercised.

The academy building is very commodious, a new addition is nearly finished and the entire building has been renovated, making for the academy an exceedingly comfortable home.

The courses offered in the academy will be on a par equally with the courses given in the district schools, but on the contrary will be a continuation for those desiring to advance further than the grades of the common school. Certificates of graduation from the academy will be accepted and admittance in any of the departments of the academy.

Courses are very favorable for the success of the academy, and we extend a hearty invitation to all the young people of Southern Arizona and neighboring counties to come and partake of the benefits offered by the St. Joseph Stake Academy.

By order of Stake Board of Education.

A. KIMBALL, President.

Theory of the Kindergarten.

Lucy Wheelock, the celebrated kindergartner, explains the methods of child-training by the Froebel system in an article on "The Child in the Kindergarten" in the Woman's Home Companion.

We through his observation of real, living children, at play that Froebel discovered his child-garden, with its games and gifts and occupations. Everything which he offers as a means of education is in response to some demand of the child's nature at childhood. He was the first to divine the significance of the instinctive play of children, and his method is based on his famous dictum, 'What man in his prime of manhood is, we must strive to represent that he begins to understand.'

'In the best estate the kindergarten is the place where genuine natural childlife is guarded and preserved. The simple kindergarten gifts, appealing to the child's natural desire to construct are a delightful contrast to other gifts made indiscriminately in the home. The little box of blocks, which contains in its eight parts a table, a bed, a chair, a sofa, or maybe a house, is a revelation to the imaginative children, in common things. Froebel has again added the first building gift the circle.

'At most seem to forgotten that play is the child's serious business, and it is through the specialized activity of free play that children are gradually guided to organized activity. The kindergarten is a place where expression of the child's best feeble efforts is help in the real work of the world. A little German proverb says, 'when a child's help seems of more bother than it is worth.' Through optimism and hopefulness doing the work helps to self-expression and self-mastery. When the social play activities of children are considered in determining the exercises of the kindergarten, then it is a place of genuine effort. It was the wise Quintilian who said that he could not hope for much diligence into when a boy was not diligent at play."

CONFERENCE AND EXCURSION RATES.

Via Rio Grande Western Railway

For the Annual Conference, L. D. S., at Salt Lake City, October 6th to 9th, inclusive, and the Excursion to Salt Lake City, October 8th, 9th and 10th, the following rates are authorized to Salt Lake City and return via the Rio Grande Western Railway:

From	Rate	From	Rate
Ogden	$1.00	Gunnison	2.75
Roy	1.25	Eureka	2.75

ROYAL BAKING POWDER CO., NEW YORK.

The Cruel Knife!

It is absolutely useless to expect a surgical operation to cure cancer, or any other blood disease. The cruelty of such treatment is illustrated in the alarming number of deaths which result from it. The disease is in the blood, and hence can not be cut out. Nine times out of ten the surgeon's knife only hastens death.

My son had a most malignant Cancer, for which the doctors said an operation was the only hope. The operation which was to save him, as it was necessary to cut away a piece of his jaw bone and scrape it to the bone, was a great while the day over arranged, and before the time came for the operation he was so much better that it was decided not to cut. We gave him many bottles without any help, and finally, to the astonishment of his friends, decided to try S. S. S. (Swift's Specific), and when the last of the second bottle was taken the Cancer had begun to heal. After twenty bottles had been taken, the Cancer disappeared entirely and he was cured. The cure was permanent; now, for he is now seventeen years old, and has never had a sign of the disease. Disease is in the blood.

B. F. Rodgers Sr., Dallas, Texas.

Absolutely the only hope for Cancer is Swift's Specific.

S.S.S. For The Blood

as it is the only remedy which goes to the very bottom of the blood and forces out every trace of the disease. S. S. S. is guaranteed purely vegetable, and contains no potash, mercury, or other mineral.

Books on Cancer will be mailed free to any address by the Swift Specific Co., Atlanta, Ga.
