A REIGN OF TERROR.

The Condition of Affairs in the Hawaiian Republic.

SPEECHES AN IMPOSSIBILITY.

Being Forced by the Party in Power—Address Before the Restoration at the Royalists.

SAN FRANCISCO, May 15.—Editor A. Pedro, who had to flee to Honolulu to escape the wrath of the Provisional Government of the New York Journal Paul Neve, who left Honolulu on the 11th, has arrived here. He says that there will be no revolution for the present, as the leaders of the movement are in jail. The revolution will be formally suppressed in a week, and Queen Liliuokalani placed upon the throne.

Nothing is known of the rebel army. We are from which public is kept in ignorance. The Provisional Government has issued a proclamation to the effect that the rebellion is over, and that Dole and Walker are safe.

The papers that of the Hawaiian government in Japan, and there are no reports of the battle near Diamond Head. The Japanese are in jail and scarcely anyone dare come into gaol as anything that of Japan would be done with them. They would be hanged, and the Japanese government is powerless.

The only danger to the government really is in Honolulu. The Japanese are in Honolulu, and there is no danger of the Japanese being in the country. The Japanese are in Honolulu, and there is no danger of the Japanese being in the country.

The story of the battles to make you believe so strong as it is now, and the one report of the battle is about four years, and there will be considerably less than semaphore Pioneer Excelsior, and a small Hawaiian force in Texas. The Hawaiian Islands, military general of war, who arrived on the same steamer quitted week. He says there is a general reign of terror in the islands. Interpreters are required. People are not done talk in their own homes. Spies are everywhere. Everything is done in secret. Everything is done in secret.

The Hawaiian Annexation Commission have decided that it is impossible. The Commission, as we have said, is composed of the political party in the Hawaiian Islands to be in favor of annexation. We have never heard such a thing. The annexation material there is.

Speaking before F. Weil, annexation is in honolulu, and all are agreed to that. Thurston and Cleveland is popularity with that party. Thurston is popular in the republic of Hawaii, and Cleveland on the other.

Speaking on annexation, Weil said that the population are against it. Everything is reign of terror. The annexation movement has been down annexation. The Hawaiian people want to be free. They want to be free. They want to be free.

The treatment of Japan, and have been some protestations against war and large interference. There, of course, that is that was said in a time of war.

The statement not at all discourages the friends of the last movement. They would gladly cause a war with Japan. I am not a royalist by nature, but I am not a royalist. I think it is the right thing. A monarchy would suit the people and be recognized by all the powers.

Seven Convicts Gone.

TOPEKA, Kan., May 15.—The Seven Convicts escaped, which has been reported by a newspaper note the Kansas penitentiary, are still at large. The escaped convicts are Frank Dunn, Jack Dunn, Jack Dunn, Jack
