DESERET EVENING NEWS.

5 O'clock -EDITION.-

TRUTH AND LIBERTY.

NO. 207. SATURDAY, JULY 28, 1894, SALT LAKE CITY, UTAH. VOL. XXVII.

CROPS DESTROYED.

Results of the Hot Wave in Kansas and Nebraska.

FARMERS ABANDON THEIR HOMES.

The Highways Thronged with Disheartened Settlers Who Are Moving East.

DENVER, July 28.—Travelers from the flood report widespread destruction of crops in Kansas and Nebraska by hot winds. Corn will have to be shipped into many counties of Nebraska to enable the farmers to live until another season. The highways are thronged with disheartened settlers who have abandoned their homes and are moving East. No similar scene has been witnessed since 1875.

SUTHERLAND ARMOR PLATE.

Intended for the Indiana and Massachusetts.

PHILADELPHIA, July 28.—The machine was run at the Indian Head proving grounds of the big 18-inch armor plate erected from a green mass at Bethlehem, Pa., for the hull of the battleship Indiana, marks an interesting epoch in the battleship construction in this country, because its delivery will enable the builders of the big modern fighting ships to get them ready for sea. There have already been delivered at Cramp's ship yards twenty-two big plates weighing about 400 tons intended for the Indiana and Massachusetts and within the next ten weeks nearly 1,500 tons more will be received. The Indiana's side armor will weigh 600 tons and work was received today that four 18-inch plates, weighing forty tons each, more or less, in this ship, will be sent from Bethlehem next week. A gentleman who visited the big iron works says the plates are in excellent shape and fit to the bolt, notwithstanding the severe pressure they undergo while being harvested. The work of putting the side armor plates on the Indiana will not be begun until all have been received at the yard. This delay is necessary because it is proposed to fit the plates together on the stocks, alongside the dock to which the ship floats before attaching any of them to her sides. After they are placed in exactly the position they will rest when on the Indiana, the heavy wood backing on the ship will be stripped carefully, shaved and fastened to correspond with every slight irregularity in the metal that is to be placed over it. The idea is to fit the armor on the ship just as the same manner that a shoemaker fits his leather on a last. This work of arming the battleships will be most interesting and is expected to attract to Cramp's ship yard many men interested in naval construction both in this country and in Europe. Some idea of the massive character of the armor may be obtained from the statement that the bolts which secure it to the ship's sides weigh from eighty to a hundred pounds each. Notwithstanding the fact that all of the Indiana's armor will be delivered by the middle of October, it will not be possible to have her official trial before next spring. The delay is due entirely to the failure to deliver the armor. When she does go on her trial trip, however, she will be entirely complete probably with her big 13-inch guns in place and ready to go into a battle.

The construction of the Indiana was started at the same time work on the Columbia and Minneapolis was begun and her work ought to be completed before the armor had been delivered. The contract for her building does not insure the plates, which are furnished by the government.

A Whole Menagerie.

NEW YORK, July 28.—Just what Mr. Oliver Belmont Perry Belmont is about to do with a large collection of rare and interesting wild animals and birds that arrived today in the steamship Elysia from Gibraltar is a matter of speculation.

Mr. Belmont is in Newport and his friends and others interested phone an amazing ignorance concerning the ultimate use of the menagerie. But from the nature and extent of it, it looks as if Mr. Belmont is about to forswear horses, and enter a model sphere in the traveling show business. The Belmont menagerie was whitened about in outside stalls as soon as the Elysia swung to its anchor off quarantine. Upon the deck of the steamship, amidships, the menagerie was stowed away to a monument of crates and cages. There are three camel, one six antlered mule, two wild deer, one a needle tailed, the other mongolian, six Indian partridges, eight pheasants, eight cranes, two moose deer, about as big as a black and tan dog; Indian kites and Chinese ducks, forest hawk owls, a squirrel resembling of a cat in size, some jungle cats and golden pigeons. They came from Singapore.

Stopping Torrens.

KALAMAZOO, Mich., July 28.—A number of people in Tekonsha Michigan engaged in stopping a carload of the Philadelphia Press. The Philadelphia people really think the Lithings are sea serpents.

Fire in a Freight Office.

LACROSSE, Wis., July 28.—At 1:30 this morning fire broke out in Reynold's freight office and destroyed it and the city warehouse adjoining. The hotel Young, next door, was filled with smoke and all the inmates driven out. Loss, $1,000.

A NEW DISEASE.

Physicians in a Kansas Town Find No Remedy for It.

ALLENCE, Kan., July 28.—A new and strange disease which baffles the skill of physicians has caused the death of three residents of Minneiviale, three miles south of this city, within the last two weeks. John Mortimer was the first victim, the doctors pronouncing his case blood poisoning. Tom Lorgh Freeman was taken ill with similar symptoms and died last Sunday. Doctors from this city and Cheyenne were called in consultation and pronounced Freeman's disease blood strangulation. They were unable to treat it successfully. Mrs. Lewis Pennock, who assisted in nursing Freeman, had a sore finger and contracted the disease and died last night. It is supposed she caught it through the wound on her finger. Mrs. Ada Rogers, a weak woman, is not expected to live with the disease, having contracted it by washing linen. Three other cases are reported and the citizens of the place are frightened.

She Wants $10,000 for Her Husband.

BRADLEY, Ind., July 28.—Mrs. Marietta Kress, wife of Thomas Kress, who was murdered by Charles Cooper, June 12, 1893, has filed suit in the circuit court for $10,000 damages against her husband's slayer.

The defendant is now serving a five years' sentence in Jeffersonville prison for the crime. He is the son of Elias Cooper, one of the wealthiest farmers in the country and an eminent minister of the Baptist church.

THE EXODUS TO EUROPE.

The Current of Emigration Turned Back to the Old Countries.

Between Twenty and Thirty Thousand Steerage Passengers Leaving Every Month.

CHICAGO, July 28.—General Manager Whiting, of the Central S. S. line in Chicago, who has just returned from New York, said:

"The exodus to Europe which began in the early spring still continues and increases. Nothing like it has been known before. It is not confined to steerage passengers. The business in cabin passage is in full proportion to the steerage business. The Parisian, of our line, left Boston last Saturday with 520 steerage and 200 cabin passengers. Every line will be taxed to its utmost during the present summer.

"When you come to telling how many people are going abroad, it is not easy to do. For a rough calculation I would say there were ten lines, each carrying 500 steerage passengers. From that at a mere guess I would say that there were 20,000 or 30,000 steerage passengers leaving this country every month. As to the character of these passengers they are the best class of mechanics and working people.

"While as a rule I have to attribute the cause of the exodus to the fact that they do not have to look far to find several plausible explanations. Cabin passengers are more numerous because some people are just returning to Europe from the exposition and others going abroad to view the exposition detained there here last summer. A great many of the steerage passengers, when times were good, sent money to their friends abroad and now when times are hard here, they go abroad to live on those friends for awhile. But, after all, there is more or less mystery about the movement.

ADVENTURE WITH A BURGLAR

The Interview was Brief but Pleasant.

CHICAGO, July 28.—Mr. and Mrs. Burke, well known residents of the Sixth side, who are spending the summer at Waukegan, Wis., had a lively war dance last night. Awaking from slumber they discovered a masked burglar industriously searching the pockets of Mr. Burke's trousers. The owner remembers with pleasure that his current cash balance was slim and was disposed to take matters coolly.

"Try the right pocket of the vest; you'll find a $10 bill there," he chirpingly suggested the third.

"Thank you; good night now, please," demanded Mr. Burglar, politely, as he took possession of the bill.

"If is at the jewelry I you'll find a ten cent watch he left on the dressing case."

The robber transferred the worthless timepiece into his pocket and proceeded to examine the little change on the mantel.

"Pretty warm night," volunteered Mr. Burke, who did not relish the silence.

"It is rather cool here," replied the gentlemanly burglar, as he vanished into the darkness.

A SUIT ABOUT TAXES.

Archbishop Katzer Refuses to Pay Dues on the Episcopal Residence.

MILWAUKEE, Wis., July 28.—The city of Milwaukee will soon have a big fight on its hands with the Milwaukee archdiocese as defendant. Archbishop Katzer, who is now absent, appeared before the board of review to argue against the taxation of the episcopal residence in this city. The property is assessed at $400,150. Archbishop Katzer stated that it was the property of the church.

"It had been the custom until the year 1891," said he, "for the archbishop to hold in fee simple the property of the church. In 1891 the law in our church was altered so as to allow the incorporation of dioceses, but the Milwaukee diocese was never incorporated. I hold this property in my name, but it is held in trust and is not my own. It is the church's." Long arguments were made by the attorney for the church and the city in which case were cited in this city where the property of three Protestant clergymen which was used as parsonage was exempted this year.

An Indian Sniper.

SPOKANE, Wash., July 28.—Jack Owal, a nephew of Chief Moses of the Colville reservation, is an outlaw, killer from Indian and white man's station. He is sulking in the mountains of the Western part of the reservation, and Chief Moses has given orders that he is to be shot on sight.

On the 20th of July he killed his own mother, Nilkilik, a half sister of Chief Moses, and the old chief is grief stricken.

To Call the Strike Off.

SAN FRANCISCO, July 28.—The local lodge of the American Railway Union decided to call the strike off at a meeting held yesterday. Speeches were made favoring a continuance of the organization and the men were urged to stand by the union notwithstanding they had lost the strike.

THE WAR IN ASIA.

Japanese Naval Successes Reported Again.

A CHINESE IRONCLAD ESCAPES.

All This Looks Warlike Enough, Yet Some Day Says War Has Not Been Declared.

SHANGHAI, July 28.—In addition to Hugh Mathieson & Co.'s steamer Kow Shung, sunk by a Japanese cruiser, all the Chinese troops on board being drowned, the Chinese Trading company's steamer Tonnesa, also being used as a transport, has been sunk by a Japanese war ship. All steamers of the Chinese Trading company now here and Chinese merchant steamers have been ordered to remain here until orders from Tien Tsin.

The Tonnesa was a vessel of 2,000 tons, commanded by Captain Lowe, and belonged to the China Merchant Steam Navigation company, she was chartered by the Chinese government to transport troops to Corea.

ROME, July 28.—The following dispatch was received from Tokio today: The Italian minister, acting in concert with the British minister, has presented the Japanese minister of foreign affairs the proposals made by China, looking to the settlement of the affairs of Corea. The Japanese government has reserved its reply.

THE JAPANESE STATEMENT.

YOKOHAMA, July 28.—The Japanese government has issued the following official statement:

"In consequence of severe provocation three ships of the Japanese squadron were compelled to engage the Chinese fleet of Pontier, off Round Island. They captured the Chinese war ship Tsao Kiang and sank a Chinese transport with soldiers on board. Unfortunately, one of the largest Chinese iron clads of the northern fleet, the Chen Yuen, escaped to China and the Chinese torpedo cruiser, Hsian Tse, escaped to Fusan, Corea. The Japanese war ships engaged escaped without injury."

LONDON, July 28.—The Chinese legation has received a dispatch from Tien Tsin saying that the king of Corea was captured by the Japanese on July 23. The Chinese minister informs an Associated Press reporter that there has been no formal declaration of war and it is hoped a peaceful settlement will be arranged.

An Appeal For Help.

WEST SUPERIOR, Wis., July 28.—Mayor Woodward today received the following telegram: "Our city is entirely destroyed by fire, leaving 3,000 people homeless, without food or shelter, take steps to send help."

PHILLIPS, Wis., July 28.—Three thousand people have been made homeless by forest fires. Not a building is left standing in town, and property valued at between $1,500,000 and $2,000,000 has been swept away. Hundreds of men toiled with the fire without success. The pine forests were dry as patchwood and the flames leaped from tree to tree with such rapidity that the air seemed ablaze. The blaze will sent up sap that ignited and the atmosphere seemed fleeing. When the fire reached the city it swept from house to house and in an hour had wrapped the entire village in flames. The people were hastily conveyed by trains to neighboring towns. Nothing but a few personal effects were saved. There are rumors of loss of life, but in the confusion they cannot be confirmed. The heaviest losses by the fire are those of John H. Davis's lumber company, $500,000 and Fayette Shaw, timber, $200,000.

A public meeting was called to take action for relieving the unfortunate inhabitants of Phillips. Liberal responses will be made. The same state of affairs exists at Maladore, Sherry and other points west of here, but all sufferers greatly less than one year ago from forest fires. The progress is now comparatively slight.

A RIVAL IN THE FIELD.

The Oregon Railway and Navigation Company in San Francisco.

SAN FRANCISCO, July 28.—Fred W. Cosgrave, formerly connected with the Milwaukee railroad, was yesterday appointed general agent of the Oregon Railway and Navigation company in this city, and the company is to open an office in San Francisco within a few days for the transaction of freight and passenger business. W. H. Hurlburt, general passenger agent of the company, has been in town for the past few days making plans for the new arrangement, and in a few days the Southern Pacific company will find an important rival in the field entering to overland business.

An Unwelcome Visitor.

CINCINNATI, July 28.—A most unusual affair attracted hundreds to the Philomena's church on Pearl street last evening. A servant girl in the employ of the priest went into the cellar under the church and found a big bear lying on the coal. She screamed and the negro ran into the yard and up stairs into the attic. The girl's cries attracted a big crowd and two policemen went into the church to arrest him. A complete search was made and the bear was finally located in a dark corner. A man named Mullens, who was with the police, discovered him lying on a bank and threw a stone which struck the negro and knocked him off. Jumping to his feet he fired several shots at Mullens in the hallway door. He ran out and down the steps to the chorir loft, jumped forty feet to the floor below, a rang up and ran to a door leading to the steeple, up which he disappeared and remains hidden in its height, fifty feet between the earth. He will be starved out.

Asks for Removal of a Receiver.

HOCK CITY, Ia., July 28.—The Hocks valley Deposit and Trust company of Iowa filed an application in the Federal court for the removal of H. C. Cheney as receiver of the Union Mutual Life company. It is alleged that Cheney is not managing the property for the best interests of the bondholders and other creditors.

The Britannia Won.

PEZENANCE, July 28.—The Britannia won the race with the Vigilant today.

A Welcome Rain.

DULUTH, July 28.—Heavy rain last night effectually checked the forest fires in the vicinity of Duluth. Proctor Knott, a village threatened with destruction, is out of danger.

Carnegie About Protection.

LONDON, July 28.—Andrew Carnegie in an interview in the Sigmaring Zeitung is quoted as saying that he does not think that the United States requires protection which he claimed is of little use for revenue purposes as the manufactured imports have fallen so low.

A Meteor.

TRACY, Cal., July 28.—At 7:30 last evening a bright meteor was seen falling in the eastern portion of the heavens from an altitude of sixty degrees to near the horizon. It was a bright ball of fire, leaving a bright white light behind, and at a height of about fifty degrees it left a white luminous body that resembled stationary star for some time. Twenty-five minutes after the meteor disappeared a loud explosion resembling a clap of thunder was heard in the northeast and the white track of the meteor could be seen.

Married a Viscount.

NEW YORK, July 28.—Miss Caroline Jones, daughter of Nathaniel H. Jones, was married to Viscount Benoist De Ary, of France. The bride wore a superb tiara of diamonds, the gift of the bridegroom. The viscount's great grandfather was minister of state under Charles XX, and grand tribet of the president of the Chamber of Deputies when that body met at Bordeaux in 1871.

THAT BILL.

Conference Committee at Work on the Tariff.

WASHINGTON, D. C., July 28.—The Democratic members of the conference committee on the tariff bill resumed their session today. All were present except Chairman Voorhees, who is ill. The indications are that there will be numerous changes in the less important schedules, as agreed upon tentatively in the former conference. It is believed there will be no material changes in the wool schedule. Before the committee meeting the President sent for Chairman Wilson and held a long conference with him. It is generally believed as between the Senate bill, with such modifications as can be obtained, and the McKinley bill, the President and Wilson will accept the former.

Just after 1 o'clock the Democratic conference adjourned for the day. The House members, however, intended to have a meeting today to prepare a reply to the ultimatum of the Senate conferees.

Immediately after adjournment Mr. Montgomery had a conference with Speaker Crisp, and it is understood that the Democratic leaders of the House will convene tomorrow fully. It is said that the House members of the conference were very reticent today and intended without comment to the statements made by the senators. There was no joy or exultation exhibited by either side and the House members present said the situation was critical.

A member of the ways and means committee, who is not one of the conferees, stated that a strong sentiment was developed in the House in favor of recalling the House conferees and passing the Senate bill, as grave fears were entertained that it was dangerous to continue the contest much longer. He said that in all probability a call for a caucus would be circulated today and that if an agreement was reached by Tuesday night, the caucus probably would be held at that time with a view to pass the Senate bill with such changes as could be gained.

THE FIRE IN WISCONSIN.

Further Damage Reported in Various Places.

GRAND HAVEN, Wis., July 28.—Forest fires are raging along the Chicago, Milwaukee, St. Paul and Green Bay and Minnesota roads in this section. Daily dispatches sent out a large force of men to fight the fires in the vicinity of the saw mill located four miles from Centralia. Argus Bros. had considerable log turned out there and sawed matches are endangered. It is feared a repetition of the disastrous experiences of last fall will result if rain does not come soon. Late reports are that 125 acres of Spoffard and Frederick's cultivated cranberry marshes have been burned. F. G. F. Willes is also a heavy loser. Other marshes are on fire.

NORTH WISCONSIN ALL ABLAZE.

MILWAUKEE, July 28.—Reports of forest fires in northern Wisconsin received today by the officials of the railroads show a serious condition of affairs; but there was a couple of a heavy rain during the day.

Fires are burning between Channing and Peat, Michigan, on Lake Superior division. The Rhodes camps four miles from Channing are reported destroyed and fire are burning rapidly through the woods. Tramps are picking their way through the burned sections slowly.

New York Stock Market.

NEW YORK, July 28.—Sugar was the only stock actively traded in at the opening, it rose 2, to a point 1. Union Pacific declined 2 per cent.

Weekly Bank Statement.

NEW YORK, July 28.—Reserve, decrease, $2,209,950; loans, decrease, $1,008,900; specie, increase, $401,800; legal tender, decrease, $1,078,600; deposits, decrease, $5,000,700; circulation, decrease, $100,900. The banks now hold $71,920,750 in excess of requirements.

Nine Buildings Burned.

CHILTON, Wis., July 28.—Nine buildings were burned at Hilbert this morning.

BOUGHT THE BONDS.

Home Securities in Increasing Demand by Home Institutions.

A GOOD SALE OF CITY PAPER.

Copper Plant Bonds Purchased By Zion's Saving Bank & Trust Co. for Par and Accrued Interest.

That home capitalists are putting more confidence in home securities was again proven today when Zion's Saving's Bank and Trust company, through its cashier, Mr. George M. Cannon, purchased the $25,000 city bonds commonly known as the "copper plant" bonds.

The sale was a good one, too, for the city, and Mr. Cannon is fully satisfied with the transaction. The bonds are of the regular municipal issue of 1890, with coupons up to July 1, 1904, detached. The price paid for them is par and accrued interest amounting to $26.25.

The sale was made by Treasurer Duke and caused several of the Gentiles to open their eyes and congratulate Mr. Duke on the result, as some of them had been saying the bonds could not be disposed of at a figure above 95 cents, and they even doubted that they would bring that much.

Mr. Cannon stated this afternoon that he had not made the purchase without due consideration. It simply showed the confidence that he took place in Salt Lake securities, and evidenced the fact that money was "getting easier" in Utah. While he considered the price a very still one he could have disposed of the bonds from afternoon at a premium on what he gave for them.

THE STATEHOOD CELEBRATION.

Complete List of Speakers for the Big Non-Partisan and Patriotic Jubilee.

The Statehood Day celebration does promise of being an affair of immense proportions. That the attendance will be very large is certain. Highly colored hangers have been posted in every town on the Rio Grande Western between Ogden and Salina, while in this county every precinct has been made aware of the importance of the event.

The Rio Grande and Salt Air officials look for a big rush to the lake and have already commenced to govern themselves accordingly. Utah's best speakers and most melodious and popular singers will do their utmost to please and entertain those who attend the great jubilee, which will be non-partisan and patriotic throughout.

Today Dr. Iliff was added to the list of speakers which completed stands: Delegate Rawlins, Judge Dickson, Hon. George Q. Cannon, Dr. Iliff, Chief Justice Merritt, Judge Goodwin and Hon. John T. Caine.

"NOW YOU'VE GOT ME."

An Inebriated Machinist Surely Puzzled As to His Nationality.

Officer Gillespie today arrested a machinist whose name is Coffey, and had him carted to the city jail in the patrol wagon. Coffey was what is known by the police as a "dead drunk."

When first taken in tow he was as helpless as it was possible to imagine. His ride to the hall, however, was a rather rapid and hard one and the shaking that he received was pretty severe and when he emerged from the somber portals of the patrol conveyance he straightened up somewhat and commenced to joke.

He answered all questions in a jocular strain that were put to him concerning age, occupation, etc., but stopped short and looked puzzled when his nationality was called for. Finally he stammered, "Now you've (hic) got me. My mother is (hic) Dutch, my father is Irish and (hic) I was (hic) born in Mexico, and so I (hic) don't know a thing about it." As he had thus delivered himself he was thrown into the "drunk house" to ponder over his nativity, the status of which appeared to puzzle him so much.

For Swimming in the Jordan.

"The Jordan is no place for the public, or anyone else for the matter of that in which to bathe," is the notice to effect that the police authorities have caused to be served.

Sometime ago a lot of youngsters were arrested and convicted in the police court for swimming in the Jordan. After that for a time the offenses were simply less frequent and not by any means stopped, as the boys determined to bathe in its treacherous waters sought more secluded places in some bend or reach in the stream behind clumps of willows.

Today another kind of a case was reported when Mounted Policeman Sheahan arrested a man who gave his name as Dobson, who he found in a compromising place in the river bathing without his clothes on. He was carried to the police station, where he was charged with indecent exposure. He put up $5 and was secured his own release.

A Long Party.

The lawn party given in honor of Miss Susie Eddy by the Misses Savage at their beautiful home last evening was enjoyed by all who were present. The natural beauty of the grounds was enhanced by the brilliant illumination of Chinese lanterns and several large engine headlights. The decorations were artistically and tastefully arranged and all pleasured a beautiful picture to those fortunate enough to view it. The hostesses were untiring in their efforts to afford enjoyment for their guests and the refreshments they spread before the party were lavished and enjoyed for quality and beauty of arrangement. The affair was a gratifying success and all present spent a delightful evening.

What It Should Be.

In a report of accidents returned from the Friendly Islands, published a few days ago, it was stated that Alva A. Butler, of Lewiston, Idaho, was one of the number, and that he left home in October, 1891. It should have read Alva J. Butler, of Bullsville, Salt Lake county, who left home May 25, 1891.

Woman's Free Fish Meeting.

The Utah Woman's Press club will meet at Dr. Bishop's residence, No. 15 south East Temple street, on Wednesday, August 1st, at 3 o'clock p. m.

Outside Summer Schools.

Prof. Stewart leaves on Monday for Tooele, where he will assume the work of instructor in the official institute of that county. Mrs. Hyde will assist Prof. Stewart.

Prof. Whiting will be one of the lecturers at the Tooele institute.

Dr. Babcock and Miss Babcock will take prominent parts in the summer school at Manti, and expect to enter upon their work on Tuesday.

Judge Merritt's Vacation.

Chief Justice Merritt will leave early next week, for Alaska, on a holiday trip, and will be absent probably about three weeks. During the interval Associate Justice Barich will be on hand to meet any "emergency" that may arise.

Visiting in the East.

Judge Powers and family are at present visiting Mrs. Powers's relatives in Iowa, and will proceed from there to New York, where the judge's friends reside. They will not return to Salt Lake for a couple of weeks, or more.

As to Fish.

Editor Deseret News:

Kindness please find a copy of the fish and game law, passed by the late assembly. I will send a copy gratis to any one desirous to obtain it, all I ask is the name and address. To keep them out of future trouble, I have put copies into the hands of our local fish and game wardens.

A number of persons think the fines imposed lately for the first offenses upon Messrs. Longberg and Brown excessive. From all accounts the line and patch are becoming very numerous in Utah lake. No doubt much of their food consists of the spawn and fry of carp. I ask for the interesting law, carp and common fish sold now to sold in this city at four cents a pound. The public waters are fairly teeming with carp, but selling, except under expressive conditions, is indulged, and spearing is pot against the law. I regret this, as the great mass of consumers should have them on their tables.

The action put into the law are also showing up nicely.

Respectfully, etc.,
S. MILTON MCMEEN.

SALT LAKE, July 25, 1894.

At Saltair Beach.

Mr. Mennin has issued the following list of excursions for Saltair:

Tuesday, July 31st, Eleventh ward Sunday school.

Wednesday, August 1st, Statehood day, and Manticos club.

Thursday, August 2nd, Society ball.

Friday, August 10th, Smalley school day, 10th, 1st and 7th.

Saturday, August 4th, Saturday Night club.

Tuesday, August 7th, Tabernacle Juvenile choir.

Wednesday, August 8th, Utah Pioneers' excursion.

Thursday, August 9th, Mizpah Temple Cythian sisters.

Friday, August 10th, Scandinavian society.

Saturday, August 11th, Republican day.

Tuesday, August 14th, Y. M. C. A.

Wednesday, August 15th, Tenth ward Sunday school and band.

Thursday, August 16th, I. O. O. F. territorial excursion.

Friday, August 17th, Y. M. and Y. L. M. I. A.

Tuesday, August 21st, Tabernacle choir.

Several others under way.

Farmer's Ward Entertainment.

The concert given by the choir of Farmer's ward Friday evening is spoken of as a grand success, and was well appreciated by a good-sized audience.

The choruses rendered by the choir were sweet and difficult, but were executed in a creditable manner. The two selections by the Cannon Mandolin and Guitar club called forth hearty encores. The reading of the Misses Zenobia Cannon and Alice Woodruff was exceedingly good. The two solos of Elmer Cottonwood were so loud a storm of applause and a well-earned encore. The cornet solo of Mr. Howell, and the violin solo of Victor Christensen were well received. The duet of Misses Maude Twigg and Olive Van Cott was a rare exception and beautifully rendered, while sweeter music is seldom heard than the ladies' rendition of "Pull Stripers," Mother's Lullaby, Home Lady, by Messrs. D. E. Cutler, Thos. Bailey, Elmer and Wilford Cottonwood, met with a hearty applause. Mrs. Alice Calvert and Miss Sarah Ady accompanied on the piano and organ respectively. The tableau, Goddess of Beauty, performed by nine young ladies was one of the gems of the evening, and concluded an enjoyable evening's entertainment.

THE COMING FAIR.

The Indications All Point to a Most Successful Exhibition.

MORE SPECIAL PRIZES OFFERED.

The Manufacturers' Committee to Meet Tonight—See a Premium List and Coupons for Prizes.

The success of the coming Territorial Fair is already assured from an artistic standpoint. Of course no one can predict the outcome financially, but every indication points to an unusually large attendance, and that means financial success.

Every day brings up some new features to be shown at the Exposition Grounds, and business men are rearranging their great schemes for Fair week. The inducements for the people to attend will be many, and standing at the door of Gladstone every one will be anxious to see just what this Territory's resources are—what the people have got to justify them in the claims for independent sovereignty. The Fair like many before it will be one of the physical proofs that Utah is ready for this great boon, for it will bring to the people a realization of the fact that this Territory is or can be self-supporting in every particular.

WILL THEY SUBMIT.

The manufacturers committee of the Utah Territorial Fair, consisting of Frank W. Jennings, Jacob Moritz, George S. Ford, H. F. Grant and Geo. Romney Jr., will meet tonight at the Fair office, and decide decorations and assignment of space in the department of manufacturers.

GET A PREMIUM LIST.

If you are interested in the Fair and the industrial progress of Utah send to the secretary for a premium list, and when you get it, compare for the prizes offered and get your friends right interested.

ILLUSTRATED ESSAY PRIZE.

A member of the Salt Lake City Board of Education today made the following offer of a special premium:

I will give one Webster's International Dictionary for the best illustrated essay, not to exceed five hundred words, on nature with flowers of Utah, the essay to be written by a pupil of the public schools of the Territory, of the seventh and eighth grammar grades, to be competed for at the Territorial Fair of 1894. The illustrations are to be pen or pencil sketches or brush productions in colors as the competitor may elect. The number of flowers must be limited to five, in presence of varieties of the pupil's own selection.

CASH PRIZES OF DR. MILLSPAUGH.

Superintendent Millspaugh of the Salt Lake City schools today made the following offer:

To Geo. D. Pyper, Secretary U. A. & M. society:

I will give a Dispatch prize for the best piece of horse made appearance or carving done by a boy between the ages of 12 and 15 years, and a second prize of $5, case, to be competed for by boys between 15 and 18 years, to be competed for at the Territorial Fair of 1894.

J. F. MILLSPAUGH.

FAIR BONDS.

The notes for the premium list for the Utah Territorial Fair is just from the press of the Salt Lake Lithographing company. It is an artistic piece of work and represents the leading industries of Utah vigorously. The Utah Fair building is pictured in a frame or an easel and each corner of the frame is arrayed in a circle in which is shown beasts of the week. A mining scene adorns the space between the standards of the easel and fruits and vegetables fill in profusion from the top of the picture. The upper right hand corner is turned down and on the new leaf are the figures "1894."

Julius L. Clawson will exhibit a number of electrical inventions of his own at the October Fair.

Victor H. Burnham's will make an elegant exhibition of stationery goods in the department of manufactures.

Sam Levy will show by hand and machinery how his "Famous" cigars are made.

Suing for the Balance.

In the Third district court today the Deseret Savings bank began proceedings against Margaret T. Mitchell, Fred A. Mitchell and Elijah M. Wesley, to recover $1,065.08 balance alleged to be due on a promissory note for $5,000, with interest at 10 per cent per annum and costs of suit.

Consent Given.

In the probate court this morning, in the matter of the estate of Frank Crocker, deceased, hearing (without notice) was had on the petition for power authorizing the administrator to consent to the condemnation of certain real estate. The order was granted as prayed.

Will be Busy Monday.

The county court will be in session next Monday and will have a good deal to clear up in the way of actions, no meeting having been held for the last two weeks.

This is the Last Day.

The county board of equalization will consider its siftings at a late hour today. Before adjourning a decision will be given in reference to the petition for a reduction of assessment on the capital stock of the city banks, presented by the local bankers last Thursday.
