# THE CITY SCHOOL BOARD.

## Each District Will Get its Proportion of New Buildings.

Patton, Lynch & Kingsley Given To all the Close of Existing Houses Temporary to Take the Needs.

The city school board held an adjourned session last night and all the members were present.

THE PROCEEDINGS.

Miss Annie M. Stewart asked for a position as teacher; received.

Contractor Moses gave notice that increasing of radiation in the Washington school had been attended to referred same reference also of notification from Midgley & Kirk that a lien for $162 had been filed against the Wasatch school building for material furnished August 11, Hemgren.

The seventeenth ward accounting association was granted until April 1st in which to pay a balance due on property purchased from the board.

W. S. Hutchinson, of Chicago, proposed to convert the board's eleven steam boiler (rosaria 1.1) water gas furnaces for $165. Committee on sites and buildings.

The matter of accepting the Jackson heating and ventilating plant was deferred.

The eleven letters in use in the different school buildings of the city were rented for $5.00 each, for three months for $110 by the Casualty & Surety company.

The committee on sites and buildings recommended that the clerk be instructed to petition of the City Council and request that the property owners on the south side of the block on which the Jackson school is situated be required to move their front fence north to the property line; that that form offered by Mrs. Green in the vacancy of the Oakers school be rented at $5 a month; that the committee be given authority to rent a room in the Whitney block on First South and Eighth West at a rental of $10 a month to relieve the crowded condition of the Franklin school. Adopted.

The committee on furniture and supplies recommended the distribution of certain desks and seats, the making of certain shelves, the preparation of the basements of the Twenty-third school for use, and an increase of $5 in the pay of the janitors of the Oakers school.

The committee on teachers and school work recommended that Mr. Dennis be allowed $15 for additional work done by him; that an additional room be given the overcrowding of Franklin school be rented; that the following teachers be engaged: L. M. Gilliam, Miss Harriet Hobart and Miss Eva Chandler.

The following report from the committee on sites and buildings was adopted on a vote of seven to three, the negative members being Baldwin, Alff and Paulsen:

Your committee on sites and buildings begs respectfully to report the facts concerning on the prospective building operations of this board.

In June, 1893, the people of this school district were called upon by the board to vote $225,000 in bonds, which would enhance the debt limit fixed by the Legislature. In addition to the voters of the district was issued, pending the election, signed by all the members of the board. That address first gave an accounting for all the bonds issued, and told in detail what had been done with the money obtained from their sale. It showed that there was a deficit of $62,700.71 to be faced on the completion of the Wasatch school. The address then proceeded:

To meet this deficiency and to supply other buildings needed, the issue of bonds is asked. The buildings already built and under contemplation were based on a prospective of a school population, and amount of the tax of fresh, all the buildings needed for the grades to accommodate the school population could not be put under control. The board made a beginning by taking in hand first the buildings where the need was most urgent. So proceeding, they have gone as far as they can with the money provided.

It is manifest that the localities not provided for have as strong claims for accommodation as those localities have supplied, since all are taxed alike to meet the interest on the bonds, and will equally provide for the ultimate payment. The location where this need yet exists may be stated approximately as follows:

Towards the east of East Temple street, north west of West Temple street.

To meet the Spanish school in the Ninth ward.

In the Tenth ward, eastward from present site.

In Fourth ward, or in lower part of Seventh ward.

In North Cut Lake.

In the forty-second District south-east of the city.

Over the Jordan, east in Utah ward.

On the fifth of the outlying sites in Salt Lake, and the Western and Lake, a large majority voted the bonds asked for.

We find that the dollar expended has been more than realized, that it now is fact $62,000. There are also owned, certain as follows, to wit: (see above and above)

$5,000 on the Washington school.
$7,000 on the Wasatch school.
$7,000 on the Oakers school.
$5,000 on the Oakers heating plant.
$500 for the Oakers stables.
$12,000 on the Jackson school.
$1,000 on the Jackson school heating.
$1,000 on the Wasatch school heating.
$3,000 on the Washington school heating.
$1,200 on the Jackson school for ventilating.
$1,000 and the Franklin school heating.
$1,000 for the Wasatch stables.
$500 for the Oakers stables.

All this sum to the CAPITALIST already existing, and we find the school and prospective public discretely certain to be $62,700.71.

We have sold the $225,000 of bonds voted by the school district, for $225,000. Allowing that we shall receive less than the amount we have stated, and that the expenses, after paying the outstanding on old contract, will be $225,000.

Out of this sum we have to pay for the people expect us to build the school houses mentioned in the three sets of resolutions of those sub. All within the school area, now amounts that we may expect the time said resolutions and those sub. of our ward, and the school houses to supply or meeting purposes. We cannot be responsible for adoption of the whole expenditure.

However, that is very nothing as to be with than, the tax of citizens will make, as we have stated, the tax of citizens of the school district, and the proportion of the total is to expenditure, the tax of the school district, and the proportion of the total is to expenditure, the tax of the school district, and the proportion of the total is to expenditure, the tax
