DESERET EVENING NEWS.
Wednesday, May 10, 1893.

THIS COUNTRY AND EUROPE.

The difference between this country and the countries of the Old World is never more strikingly illustrated than in the matter of homes. There, few people ever expect to own their own roof; still fewer to ever have title to the land on which their house stands. On the contrary, in this country, any man possessed of health, energy and intelligence is sure that before many years he may set only until himself a home; but may also own the land surrounding it. Are you content to listen upon yourself and your innocent children the system of tenantry that ages of feudalism fastened upon the countries of Europe? Do you pay rent? If so, why not pay that amount upon the purchase price of a home for yourself in Forest Dale? In this delightful suburb you can buy land, build your house, and pay for it with little more exertion than is required to pay your landlord. If you rent, every nail you drive, every weed you pull goes to improve your temporary quarters, but eventually results only in benefiting him whose tenant you are. If you buy a home, every shrub, flower or tree you plant grows for you and your children. If you have money enough, pay all cash, and get discount therefor. If you have only your wages, buy on the installment plan, paying so much each month; and your wife and children will gladly help you save rather than live in a rented house.

We have at Forest Dale the best of soil, first-class water, both from springs and artesian wells, district schools, Sunday schools and good neighbors. You may buy land by the rod, by the lot or by the acre. Depth of lots varies from 120 feet to 40 rods. No trouble to show property. Call at room 331 Constitution block, and make arrangements with my agents. Correspondence solicited.

GEORGE M. CANNON, OWNER.

FRAGMENTS.

PROBATE JUDGE BLACK made a few unimportant orders this morning.

THE trial of the Cottrell divorce case occupied nearly the whole morning in Judge Zane's court.

PROBATE JUDGE BLACK yesterday afternoon united in marriage Charles Kohler of Salt Lake and Elma Schneider of Payson.

SECRETARY S. W. STARR of the Chamber of Commerce today received a photographic request from Mr. H. P. C. Oates, who is back east, for more pamphlets and newspaper information about the copper works.

President Woodruff's Condition.

The health of President Woodruff continues to steadily improve. He is able to sit up a short time each day, and to sitting in a rough. This morning he sat up in a chair and partook of breakfast. Last night he obtained a refreshing sleep, and altogether his condition is most hopeful for a speedy restoration to health.

A MEMORABLE RIDE.

John White Claims Heavy Damages from the Union Pacific Railroad Company.

Shortly before noon Judge Zane and a jury were called upon to try the damage suit brought by one John White against the Union Pacific Railroad company in which the plaintiff seeks to recover $10,000. This is the second trial of the case, the facts in which have already appeared in the columns of the NEWS. It appears that the plaintiff was stealing a ride on one of the company's freight cars in the state of Wyoming, some time in the year 1890, when it is alleged he was discovered about daybreak by one of the men in charge of the train and very roughly handled. He was unmercifully beaten, according to his own story, forced on to the caboose, a rope placed around his neck, he was thrown overboard and dragged along in that way for some distance. Something is also said about his having been fired at by one of the company's employes.

Attorney J. A. Williams is the plaintiff's attorney; the defendants are represented by Williams & Van Cott.

ARRESTED FOR ADULTERY,

But Discharged by Commissioner Greenman for Want of Evidence.

About 5 o'clock last night Deputy Marshal Bowman Cannon went out to Forest Dale and there arrested Victor P. Lindquist and Matilda Torgenson on a charge of adultery. The male defendant is about thirty-eight years of age and has a wife and several children living in Piute county; the woman is a widow, is somewhere in the neighborhood of forty and has a family of four children who reside with her. The complaint was sworn out by Lindquist's father-in-law. The accused were taken before Commissioner Greenman this morning, and Assistant District Attorney Stephens was there to prosecute; but the evidence was altogether insufficient to warrant the commissioner in holding the defendants. They were therefore set at liberty.

CITY COUNCIL WORK.

Action Favoring the Combination Brick and Concrete Gravity Sewer.

SHADE TREES TO BE CUT DOWN.

The City Engineer Reports the Estimated Cost of the West Side Sewerage System at $93,000.

There was a regular session of the City Council last night. The members present were: Rich, Folland, Hardy, Moran, Kelly, Hoge, Wanland, Lawson, Simondi, Bell, Horn, Kerrick, Evans, President Loofbourow occupied the chair.

THE PROCEEDINGS.

Sanger & Lent asked for the privilege of conducting a "Dent show" on Pioneer square at $50 per day on May 23th and 31st. Committee on public grounds with power to act.

J. C. Cutler asked for waterwaits extension on West Temple street south of Ninth South street. Committee on waterworks.

D. P. Tarpey and others asked for an electric light at the intersection of Seventh South and Eleventh East Street. Committee on improvements.

John Nagler and others asked that their sidewalks on east South Temple street be accepted in lieu of special tax. Board of public works.

Isabella McKean asked for a rebate of employment license. Committee on license.

The Rio Grande Western announced the appointment of a flagman at Second South and Sixth West and Third South and Sixth West. Filed.

George A. Harney and others asked that a sluice box be constructed to convey irrigation water from the Jordan canal at the intersection of the west line of said canal and north line of Wilson avenue. Committee on irrigation.

L. Schimdt asked permission to run a merry-go-round at Liberty Park. Denied.

H. A. Imbentual asked that certain repairs be made on Fourteenth West street. Committee on streets.

L. C. Hamilton and others asked for an electric light on Fifth South street and Eighth West street. Committee on improvements.

William Naylor asked permission to pile building material in front of his premises on State street. Granted.

Kelsey & Gillespie called attention to a petition asking that Eighth East street be opened south of Tenth South street. Committee on streets.

D. A. Lawrence asked for relief from a tax sale in Highland Park Addition City Attorney E. W. Tayler and others asked that Second South Street be cut down to regular grade between Ninth and Tenth East Streets. Committee on streets.

H. Thompson and others asked permission to dump refuse on certain lots in block 25 plat A. Sanitary committee with power to act.

S. Hays and others asked permission to lay their own sidewalk on the north side of the Waite House on Second south street. Committee on streets.

The Jennings Investment company and 30 others asked for the speedy improvement of First South street, west of East Temple street. Laid on the table temporarily.

The Fifteenth Ward ecclesiastical association asked for relief from sale of certain lands for taxes.

Thorne & Pinchin asked privileges to exhibit their cosmorama in the city for thirty days "Grea gnas,s." Denied.

Mrs. M. G. Clawson et al asked that the Metropolitan Stone Company be allowed to construct a sidewalk for them on the south side of South Temple street, between State and Fourth East. Board of public works.

P. T. Nystrom stated that he was about to put in a flagging walk in front of his premises on the corner of Commercial and First South streets, and asked that the Council put in a similar walk at the intersection. Board of public works.

A. R. Duke petitioned for a lease of the city gravel beds. Committee on public grounds.

C. Harris et al asked that an irrigation ditch be constructed on Second West street from Paxton avenue to Ninth South street. Referred to committee on irrigation and watermaster, with power to act.

A. Watson et al asked that the furnishing of labor and material used in macadamizing streets be awarded to the lowest bidder. Committee on streets.

The county court petitioned for the appropriation of $22,000 to the county for a sewer constructed on Second West street. Committee on claims.

R. E. Burton asked for permission to pile building material in front of 317 west First South street for a period of thirty days. Committee on streets with power to act.

Dean Fritz et al asked for permission to use a portion of Fourth South street for the purpose of loading sand. Committee on public grounds.

F. Auerbach et al asked that the Metropolitan stone company be permitted to lay sidewalk for them on both sides of South Temple street. Granted.

A similar request was made with reference to First South street, between Eighth and Twelfth East. Granted.

N. F. Newell et al asked for watermain extension in Inglewood subdivision. Committee on waterworks.

The Metropolitan Stone company asked that the awarding of sidewalk contracts on South Temple, First South and Second South streets be postponed for thirty days in order that they might bid on it, it accordingly with other petitions before the Council. The request was made on the grounds that the city should favor Utah stone instead of imported cement.

E. W. Cleveland asked to be appointed a policeman. Committee on police.

The Salt Lake and Ogden Gas & Electric Light company asked that S. Swanson be appointed a special policeman without pay. Committee on police with power to act.

W. C. Parkes and others asked that retaining walls be erected on Center street. Committee on streets.

The Salt Lake Press club sent in an invitation to the Council to be its guests on Wednesday, the 10th inst., during the reception and entertainment of the California Press association.

MORAN—I move that the petition be granted and that the council accept the club in entertaining the visiting newspaper people. Carried.

CAPITOL GROUNDS STREET RAILWAY.

H. M. McCarney sent in a communication in which he represented that he was the owner of a large tract of land adjoining the city on the north and that he was anxious to establish communication between it and existing street car lines in the city. He therefore asked for a franchise to build, maintain and operate a street railway (the most complete to operate) either by cable or electricity and extending over the following route: Beginning at the southwest corner of the Capitol Grounds and running thence northwest by along the West Capitol street to the northwest corner of said Capitol Grounds, thence by the most feasible route in a northwesterly direction through plat J and the lands owned by Salt Lake City, to a point on the north boundary of said city in section 13, township 1 north, range 1 east. City engineer.

FROM THE MAYOR.

The city recorder announced that a board of equalization be appointed in the matter of sidewalks on West Second South street between Fifth West and Jordan river. The usual intent on and ordinance levying the tax having been published, and further recommending that the board sit from May 15th to 20th. Sanger, and Kelly, Folland, Lawson, Horn and Simondi were appointed as such board.

The Mayor reported that water main intension No. 1.0 had been published as provided by law. The usual order was made.

SIDEWALKS ACCEPTED.

The board of public works recommended that the sidewalks of W. H. Preston on First South street, Charles Crane on Second South street, Frank Harrigan on the corner of East Temple and First South streets, be accepted in lieu of the tax. Adopted.

INSPECTORS APPOINTED.

The board of public works called attention to the fact that they appointed D. Estes, S. H. Cutler, T. F. Griffith and D. J. Moran as inspectors on street improvements some time ago, and asked that the council confirm the appointments as the men are needed immediately. The appointments were confirmed.

ONLY TEN FEET.

The board of public works reporting in the matter of the petition of the Tribune Publishing Company, asking that the stone block pavements on West Temple street be not more than ten feet wide, and of H. W. Lawrence et al, asking that they be twelve feet wide, recommended that the pavements be ten feet in width. Adopted.

GALLEAZZI'S MONTHLY PLEA.

The dog tax collector sent in his monthly report showing that the revenue to the city for dog taxes for the month of April was $510, and that half of that amount and $69 additional for killing dogs should be appropriated to him. Adopted.

GRAVITY SEWER.

A communication was received from the board of public works with reference to bids on the proposed gravity sewer, both upon brick masonry exclusively, and the combination brick and concrete, the bid of Houghan, Griffith, Morris, Hobson and Williamson being the lowest in both cases. They reported that a resolution was presented by Mr. Clawson to the effect that the sewer be constructed of combination brick and concrete masonry, and that the contract be let to the foregoing bidders. On a vote the resolution was lost. Mr. Downey then moved that the board recommend to the council that the construction be of brick masonry and the contract awarded to the same bidders. The resolution was adopted by the following vote: Yeas, Conklin Noble and Downey, 3; nays, Haines and Clawson, 2. In connection with this report a communication was also read from the Associated Trades and Labor Council, in which they stated that they had passed a resolution to the effect that a preference should be given to all contracts wherein all labor could be benefited, and that the Council be petitioned to adopt the majority report of the board of public works recommending an all-brick sewer; it was further resolved that the action of all public officers who opposed cement construction be heartily endorsed, as too much money would be sent out of the city if cement should be used, whereas the construction of an all-round brick sewer would encourage home manufacturing and give employment to a large number of home mechanics and laborers.

FROM A LABOR ORGANIZATION.

The Utah Federated Trade and Labor council sent in the following:

GENTLEMEN—At a special meeting of the Federated Trades and Labor council the following resolutions were adopted:

That, Whereas, it is the sense of this council that in all public work of Salt Lake City, that a preference should be given to all contracts labor whereon all labor can be benefited; be it

Resolved, That the Federated Trades and Labor council in a special session assembled do hereby ask the honorable Mayor and City Council to adopt the majority report of the board of public works in recommending an all round brick sewer; and be it further

Resolved, That we heartily endorse the action of those public officers who so manfully opposed the cement construction of the gravity sewer whereby so much money would be sent out of the city for cement, at the same time injure the cause of organized labor and the public generally in Salt Lake City; and be it further

Resolved, That in the construction of an all round brick sewer we are encouraging the home manufacture of brick and thereby giving employment to larger numbers of home mechanics and laborers.

Filed.

Simondi moved that the contract for the proposed gravity sewer be awarded to Houghan, Griffith, Morris, Hobson & Wilkerson, and that the said sewer be constructed of brick and concrete masonry, according to the plans and specifications of the city engineer.

Carried by the following vote: Yeas—Bell, Evans, Folland, Hardy, Hoge, Horn, Kerrick, Kelly, Lawson, Loofbourow, Moran, Rich and Simondi—13. Nays—Wanland—1.

WEST SIDE SEWER SERIES.

Rich called for the reading of the following report from the city engineer:

In some cases with your instructions relative to plans for sewering that portion of the city which lies below the proposed gravity outlet sewer, I beg leave to report that in my opinion the most practicable plans is to remove the old pumping station from its present position to a point on the river at the foot of Ninth North street and from there construct a main sewer up and along the general course of the river to Tenth South and Roper street. Into this main all the sewage originating between it and the gravity sewer can be conducted by the ordinary lateral pipes to be laid along both sides of the streets.

From the pump the iron pipes now laid west of the river and used for a similar purpose should be laid along Ninth North street to a connection with the gravity outlet sewer at some point on Fourth West street, and through this main sewage from the entire sewer district should be pumped into the gravity main, and by it be carried off.

I estimate the cost of this work, including the removal of the pump, and of taking up relaying the iron pipe, at about $93,000. The sewer south of Ninth South street will not be necessary at present and without it the cost of the work will be reduced to about $80,000.

The execution of this work in addition to that of the gravity outlet sewer, will afford sewer facilities for the entire city east of the river and will provide a most complete and efficient system.

I will, at some time in the near future, present plans showing location, size, inclination, etc., of the proposed sewer along the river. In the meantime the above is submitted for your information and consideration. The petitions of J. A. Morris et al relative to the same subject is herewith returned with the recommendation that the request be granted and the work ordered to be started as soon as the so the plans can be perfected. Adopted.

DOBBIN'S PROTEST.

The following from the city engineer was filed: In view that the proposed gravity outlet sewer can be constructed of concrete and brick for about $14,000 less than it will cost if built entirely of brick, and as the concrete construction will be more durable than the brick, and as there are various other good reasons why the concrete and brick should be used instead of the brick alone, I must respectfully ask that my protest against the plan of construction recommended by the board of public works, be allowed to appear upon the records of the City Council, as I have no other way of recording my position in the matter.

"WOODMAN SPARE (NOT) THAT TREE!"

The city attorney reported in the matter of the Pacific Paving company in reference to the removal of trees which interfere with the paving of West Temple street, some of the trees standing directly in the line of where the curb stone is to be placed, that in his opinion the shade trees will have to be moved and that the city has the right and power to remove them, or cause them to be removed. He opined that the same rule would apply where trees stand on the street proper and outside of the sidewalk or curb line. Where trees stand inside of the sidewalks or curb line a sufficient distance from the curb as not to interfere with they paving they should not be interfered with unless in the future it should become necessary to remove them. He recommended the adoption of the following resolution:

Whereas, Pavement is being laid on West Temple street between South Temple and Fourth South streets in Salt Lake City by the Pacific Paving company of Utah under a contract with Salt Lake City; and

Whereas, Certain trees are on said street and on the curb line thereof as located by the city engineer of said city, and so as to interfere with the proper paving of said street; now, therefore, be it

Resolved, That the said trees so continuing on said street constitute a nuisance and an obstruction to paving and that the Pacific Paving company of Utah the contractor for such paving be and it is hereby directed and authorized to remove all of said trees so situated on the curb lines as aforesaid.

Adopted.

MISCELLANEOUS.

The city attorney reported in the matter of J. H. Shammeykay's petition for relief from tax sale recommended that the petition be granted. Adopted.

The city attorney recommended that various sidewalks under process of establishing sidewalk grades be refunded. Adopted.

The committee on waterworks reported that they had received bids as follows for fifty tons of pig lead at the following prices per ton:

Utah and Montana Machinery company	$87 50
Utah Smelting company	87 50
Hogan Lead company	88 00
George M. Scott & Company	88 00

They also reported that they had accepted the bid of George M. Scott & Company, according to permission given by the Council, and asked that the amount be placed on the appropriation list and that the treasurer be instructed to withhold the warrant until the superintendent of waterworks presents the necessary voucher. Adopted.

The committee on irrigation reporting on the matter of the petition of Isabella Davis that she be allowed to tap the Jordan canal between Ninth and Tenth South streets, recommended that the same be granted under proper restrictions. Referred back for further report.

A journed until Friday evening at 7:30.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.
Royal Baking Powder
ABSOLUTELY PURE

To Denver and return $25, via Union Pacific.

These dull times even money is getting scarcer because it is being sent away for Eastern made goods, everyone should buy home-made clothing. The money for manufacturing the goods when paid to Utah wool growers, Utah workmen at the mills and Utah tailors to make them up, in turn is paid out by them to the Utah farmer for provisions of all kinds, thus keeping the money at home. John C. Cutler & Bro., agents of the Provo Woolen Mills, have just received a fine line of Spring Suitings. Call and see them. No. 36 Main street.

Removal Notice.

The attention of the public is called to the fact that Odell & Knight have removed their Carriage and Wagon Shops to their new building at 140-147 E. 1st South Street, half block east of Theater.

New and Fast Service to the Coast.

Commencing May 7th, the new time card on the Rio Grande Western becomes effective. The time on the night train is shortened eight hours, improving the service in all respects on both through trains. The schedule is arranged as follows: Morning train leaves Salt Lake at 8:00 a.m., arrives in Denver 7:45 a.m., the 47 hours over 23 hours, arrives in Chicago at 2:15 p.m. The night train leaves at 7:30 p.m. (instead of 10 p.m., as formerly), arrives Denver at 8:40 p.m., Omaha 4:00 p.m., Kansas City 8:00 p.m., St. Louis 7:00 a.m.; Chicago 8:00 a.m. Through Pullman Palace Double Drawing Room Sleepers to Chicago. This is great service and commends itself to the traveling public who seek speed, safety, and last, but not least, comfort. While this fast and elegant service has been put on mainly to accommodate the large World's Fair travel over the Rio Grand Western line, it has come to stay, and will be a permanent schedule.

Auction.

At G. D. Amos' Ranch, south of copper plant and west of south Salt Lake, on Tuesday, May 16th, at 11 o'clock a.m., at auction, without reserve, 40 young, new milch cows, also 17 head just coming in, 2 polled Angus bulls, 2 blood mares with colts at the side, 2 fine two year old colts, 1 yearling colt, 2 pair good work horses, 4 and 5 years old, 2 buggy horses, 4 and 5 years old, 2 buggies, with single and double harness, horse, buggy complete, 2 medium spring wagons, 1 lumber wagon, 50 milk cans, 100 chickens and turkeys, 1 mowing machine, plows, harrows and farming utensils of all kinds; also a lot of household goods.
