DEEDS OF FIENDS.

A Woman Found Hanging to a Tree, Probably Lynched.

TORTURED WITH HOT IRONS.

Members of the "Mulberry Detective Association" Kill a Supposed Thief.

LITTLE ROCK, March 11.—The colored population of Little Rock was greatly excercised this afternoon over a reported ghastly discovery made by several of their color in returning from Marche today. About half way between this city and Marche they found the dead body of a young mulatto woman, probably 20 years of age, suspended from the limb of a tree. On her bosom was a placard bearing the inscription: "If anybody cuts this body down, they will share the same fate."

Several parties reported finding the body. It is supposed the woman was lynched, but when, by whom and for what reason no one has been able to state. The body appeared to have been suspended several days.

CRUELTY AS A PASTIME.

CHICAGO, March 11.—Albert Barkowsky and George Dunn were arrested today for inflicting several cruel wounds upon Thomas T. Davis, a porter in a barber shop, with a red hot poker. Davis went to the saloon owned by Barkowsky's father, under the influence of liquor, and the injuries were there inflicted by the prisoners. Both of Davis's eyebrows were burned away and under each eye the hot iron made a mark an inch long, and there are similar wounds behind each ear. On each wrist the skin was burned away for an inch and a half, while on each leg for a distance of six inches the hot iron burned almost to the bone. In the region of the abdomen there are several severe burns, while many of his ribs are traced with the hot metal. He will probably be crippled for life. The prisoners had no reason for the diabolical treatment of the unfortunate man except pure maliciousness.

RIDDLED WITH BULLETS.

FRANKFORT, Ind., March 11.—John Rogers, a resident of Mulberry township, was killed last night by a number of members of the "Mulberry Detective Association," an organization formed with the purpose of making horsestealing and other modes of thieving unpopular. Yesterday the house of Warren Thompson was entered and a quantity of provisions taken. John Rogers was suspected and fifteen members of the association watched Rogers's house till he appeared, loaded, it is claimed, with spoils. An attempt was made to arrest him, but Rogers resisted and the next instant his body was riddled with bullets. He lived but ten minutes.

A DRAMATIC SCENE.

Mrs. Helmer Drinks Poison to Prove Her Innocence.

POMEROY, O., March 10.—Mrs. Thos. M. Helmer, who took a large dose of extract of colocynth to prove that she had not poisoned her daughter, died last night. Her daughter died from poison, and the mother was accused of having administered the fatal dose. She denied the charge, and to demonstrate her innocence she took two spoonfuls of colocynth, with the above result.

It was a dramatic scene. In the best of health, she called the rest of the family and several neighbors to the sitting room after the funeral of her daughter, to witness her swallow two tablespoonfuls of the stuff.

"Town gossips accuse me," said she, "of killing my daughter with this," she took one spoonful.

"I'll take two. You all witness this dose. See if it kills me." Forty-eight hours later she was in the agonies of death, and survived but a few days, dying in the greatest agony.

Senator Hill Smiles.

CINCINNATI, O., March 10.—A Louisville special: Kentucky society is in a flutter over the announcement of the reported engagement of Miss Letty Scott, the well-known beauty, to Senator David B. Hill of New York. Miss Scott is a niece of Vice-President Stevenson.

Senator Hill was asked about the report. He smiled and said: "That is something of which I am not talking."

Christian Anarchism.

INDIANAPOLIS, Ind., March 11.—An attempt was made to blow up the office of the *Ironclad*, an infidel paper published in this city, Saturday night. The miscreants entered the office through the cellar, and after turning on the natural gas in two stoves, lighted a lamp. The expected explosion was prevented, however, by the arrival of the editor of the paper, who turned off the gas.

Armor Plate Tested.

WASHINGTON, D. C., March 10.—The navy department has tested the first armor plates completed by the new Harveyizing plant of the Carnegie works. Only one plate was tested, being ten inches thick, eight by ten feet. Three shots were fired from a distance of 300 feet. Naval men consider the tests a proof of the superiority of the Harvey plate, although this was of extra quality. The fact that none of the seams were through the rivet holes shows that they do not weaken the plate. Either of the first two shots would have smashed a nickel plate.

McKinley Coming.

CINCINNATI, March 11.—Governor McKinley contemplates visiting the West during the next campaign. He has been urged to go to California and some of the new Western states and may conclude to do so.

Call for Republican Convention.

CHICAGO, March 11.—The official call for the annual convention of the National Republican league reads in part as follows: "Democratic control and sectional rule are again complete in the national government, and starvation for labor and ruin for capital prevail as the result of the policies and influences that dominate the Democratic party. The maladministrations of 1892 are over. Facts have upset theories and the people have now turned instinctively to that party that saved the republic in the previous hour of peril, and commemorated its memory ability by giving the United States thirty years of prosperity unparalleled in the history of nations."

The convention will be held at Denver June 26th, and will continue several days. The ratio of representation gives each state practically ten delegates at large, in addition to four from each congressional district. The total representation will exceed 2,000 delegates.

An Assassination Celebrated.

NEW YORK, March 11.—To commemorate the assassination of the Czar of Russia, Alexander II, the anarchists held a meeting in the Thalia theater tonight. The gathering was an orderly one and the speeches temperate.

The Transcontinental Rates.

CHICAGO, March 10.—A bigger war in transcontinental rates than has yet occurred is looming up. The fight, when it comes, will be between the Atchison and Northern Pacific on one side and the Union Pacific on the other. The Rock Island and possibly the Burlington will favor the Atchison and Southern Pacific.

World's Fair Buildings.

CHICAGO, March 10.—Bids for the purchase and removal of the World's Fair buildings were opened by the South Park board today. The best bid was $15,100 for ten of the largest structures.

The Idaho building was sold for $4,000. The original cost was $23,000. It will be taken to New York state for a country residence.

Ochiltree's Troubles.

NEW YORK, March 11.—Colonel Thomas P. Ochiltree, the fiery gentleman from Texas, is in trouble. A few days ago he had his valet arrested for theft and during the trial J. P. Donnelan, the valet's attorney, put many embarrassing questions to the doughty Texan. The valet was discharged.

Now comes the sequel. Mr. Donnelan, the attorney, has received a letter, containing a challenge to fight a duel, which bears the signature of Colonel Thomas P. Ochiltree. The gentleman from Texas denies that such a document was written by himself and intimates that Donnelan wrote it to himself to get his name before the public. Donnelan indignantly denies that this is true, suggesting that at the time he had every reason to believe the letter is genuine.

Another Polar Expedition.

WASHINGTON, D. C., March 11.—Walter Wellman, the Washington correspondent who organized an expedition to solve the polar problem, leaves the city tomorrow for New York, from which city he and his companions will sail on Wednesday for Europe.

Diseased Cattle.

NEW YORK, March 11.—The stock raisers of New York state are aroused on the subject of the existence of tuberculosis among cattle, and it is proposed to call on the bureau of animal industry at Washington to closely quarantine all New York state cattle pending a thorough investigation.

HERBERT'S ANSWER.

What Mr. Boutelle Thinks of the Arguments Advanced.

WASHINGTON, D. C., March 11.—Representative Boutelle of Maine tonight expressed an opinion on the reply of Secretary Herbert to the resolution asking by what authority Blount was placed in charge of the naval forces at Honolulu. Boutelle said: "The secretary in asserting the President's Constitutional prerogative as commander-in-chief of the army and navy, appears to lose sight of the fact that such authority can be exercised only in accordance with the law and the discretionary power invested in the commander-in-chief can no more be delegated to an authorized person than can the power of the President to approve bills, or to veto legislation. The irrelevancy of the few alleged precedents is also obvious, and it evidently required a laborious ransacking of the records to find them.

"The secretary's letter fails to justify an act that he must know is a flagrant violation of the law, open contempt of the explicit terms of the navy regulations and destructive of the fundamental principles upon which the maintenance of good order and military discipline must depend."

Flowers on Bourke's Grave.

CHICAGO, March 11.—The sexton of Mount Olivet cemetery this afternoon found a huge bunch of flowers on the grave of Martin Bourke, one of the Cronin conspirators. The flowers bore a placard with the word "vindicated" upon it. When Dan Coughlin was granted a new trial Bourke's grave was found strewn with large roses, tied with green ribbons.

The Situation at Rio.

RIO DE JANEIRO, March 10.—There now seems to be definite prospect of a naval battle and the prompt ending of the rebellion, so far as Rio Janeiro is concerned. The dynamite cruiser Nictheroy, the torpedo boat Aurora, the torpedo boat Destroyer and three torpedo boats brought over from Germany have arrived here. When the sun rose this morning the Peixoto fleet was seen to anchor in a small bay at the entrance of the harbor and well protected by the guns of Fort Santa Cruz.

The Nictheroy, from the position which she now occupies, is expected to be able to throw dynamite shells at Fort Villegaignon, and when Villegaignon has been silenced it is expected that the Nictheroy consort will steam up to a selected position behind the island upon which the Villegaignon fortifications stand, and will from there shell the rebel fleet, while being protected from the fire of the heavy guns of the insurgents' ships.

The Latest from Haiti.

NEW YORK, March 11.—The Herald's Kingston, Jamaica, special, March 10th says: A cable dispatch from Port Au Prince, Haiti, announces that the steam yacht Natalie, whose stealthy sailing from the United States aroused suspicion, has been captured by the Haitien warship Dessalines near Capeian. The Natalie was intercepted off Fortune island, one of the Bahamas, arms and ammunition being found on board. She was seized upon information that the munitions of war were intended for Haitien revolutionists. The entire crew have been shot by order of President Hippolyte.

THE SILVER COMMISSION.

A proposition to Call Another Monetary Conference.

Two Fresh Suggestions for Raising the Price of the White Metal.

BERLIN, March 10.—The silver commission will resume its sitting Monday next. The bimetallists have announced their intention of moving that the powers send delegates to a fresh international monetary conference, with or without the participation of England.

Two fresh suggestions for raising the price of silver will be submitted to the commission next week. It is proposed that all the contracting countries maintain the free coinage of silver and replace the present coinage by a new coinage at the ratio of 21 to 1. The other plan provides for the co-operation of the important states, not including such countries as Mexico and South American states, on the basis of a ratio of 21 to 1.

THE RUSSO-GERMAN TREATY.

The approach of the critical points in the discussion of the Russo-German commercial treaty has brought to the surface the usual crop of rumors in regard to dissensions among the ministers, and which are summed up briefly by saying that rumor has it that Chancellor Von Caprivi, Dr. Miquel and Dr. Boetticher are contemplating resigning.

Koscielski, leader of the Polish party in the reichstag, has resigned his seat because the Poles decided to support the Russo-German treaty.

In the reichstag today it was announced that the national liberals would vote for the treaty.

After a noisy debate division took place. The majority included both sections of the Freisinnige, the South German and the people's party, socialists, Guelphs, Poles, Alsatians, the bulk of the national liberals, almost half the centrist party, nine imperialists and four conservatives.

The emperor is much pleased that the treaty has a decisive majority.

AGAINST EMIGRATION.

It is understood that the Hamburg and Bremen steamship lines will follow the example of the government and press and warn the public against the agents of the Illinois Central railroad, sent to secure emigrants for the Mississippi valley. The German newspapers declare emigration to any part of America for any class of people is highly injudicious at the present moment.

Mexican Outlaws.

DURANGO, Mex., March 10.—The stock ranch of Patrocinio Sanchez, fifty miles west of here, was the scene of a desperate affray yesterday between a band of brigands and a force of employes, led by Mr. Sanchez, who made a strong resistance to the attack of the brigands.

The robbers were taken completely by surprise, and two were killed, but the remainder rallied and returned the fire, killing one of the ranch hands and wounding three. The fight was kept up three hours, and finally resulted in the bandits being driven off, and leaving four killed and five wounded.

GIVE US WORK

To enable us to put some idle men to work, we have decided to disregard profits and lay first-class Asphaltum work as follows, which is very much below the real value, and every dollar is paid to Utah workmen:

Garden walks, yards and tennis courts,	10c	SQ. FT.
Sidewalks, etc., 1½ in., 11½ c, 2½ in.,	15c	"
Alley work, etc., 4 in., etc., 5 inches,	25c	"
Warehouse, stable and cellar floors,	25c	"

Road work, etc. at equally low prices. Our Asphaltum is not slippery in winter, does not hurt the eyes in summer, and is far superior to the best cement work ever laid.

We hope everyone will file their orders with us at once for all they can afford to do, and while saving money for themselves, help to furnish labor for the needy.

We will take part of the pay in store pay that our workmen can use as a cash basis.

$5 A MONTH

For All Diseases, Medicines Furnished Free, at the Zion Medical & Surgical Institute.

TO ALL WHO APPLY BEFORE APRIL 1

Read the Evidence of Mrs. Anna Smith.

Mrs. Anna Smith, wife of John T. Smith, and one of the oldest and best known families of the Territory, says:

MRS. ANNA SMITH, SALT LAKE CITY.

For ten years I have been an invalid, being unable to go out of the house at all, and especially in the winter. If I would look out I would get a fresh cold. I was very weak and emaciated—sick headache, hawking and spitting; the mucus would drop from my head back into my throat; my chest and lungs were very sore, and I had a wretched cough, sharp shooting pains in the chest and shoulder blades, no appetite whatever, and I was too weak to work around the house. My disease had so corrupted and undermined my system that I began to lose my memory, and at times I would have to stop and think of what I had been saying.

I was such a sufferer that I often wished that I were dead.

In this deplorable condition I went to Drs. Shores & Shores. I was like many others and had no faith in advertising doctors, but I shall always bless the day I called on them for after the very first treatment the hawking ceased and today I can say that I feel better than anything I have not done in years, and I am so encouraged that I feel a permanent cure in my case is only a question of a few more weeks.

Mrs. Smith is well known in the city, resides as stated above 659 Second South between Third and Fourth streets where she can be seen and will verify her statement.

HERE YOU ARE.

$5 a month for all disease. Medicine furnished free. No matter what your trouble may be five dollars pays the bill, positively no larger fee accepted.

$500.00.

Will be paid to any person who can disprove of one of Drs. Shores & Shores's printed statements. They are genuine and given by the free consent of the patient.
