STAGNATION IN MINING STOCKS.

Business Remarkably Dull on Both Exchanges Today.

SALES WERE 48,271 SHARES,

Value of $15,545.67—Four Aces the Feature in the Pit and On the Curb.

The stagnation of the stock market was well displayed on the exchanges today, sales on both reaching a total of but 48,271 shares, which had a value of $15,545.67. Business was remarkably dull, especially so on the old board where good records are most looked for, the transfers here being 16,671 shares for $12,422.36. In comparison the new exchange did fairly well, sales there amounting to 32,200 shares for which tippes paid the sum of $3,123.27. On the curb this afternoon Four Aces was bids and stood in good demand at 41 cents a share.

FOUR ACES THE FEATURE.

This Stock Sells Strongly at an Advance—The Market Firm.

Four Aces was easily the feature of today's sales on the Salt Lake Exchange, the stock selling freely at an advance, and going to 41½ before transfers came to a halt. It started at 34½ and gradually crept up to the higher figure, when sales amounted to 16,700 shares, toll spot and half for future delivery. The upward tendency was only in evidence to the good reports emanating from the mine, some of which have been very glowing the past few days.

The day's sales were rather light, reaching only 16,671 shares, which sold for the sum of $12,422.36. If anything, the market was in better tone, business was done on a higher basis than the previous day, and the tone was firmer throughout. Alta sold at $1.45 to 48c and was followed by Daly-West, which changed hands at $12.50 and Mammoth at 70c. The sales were: Four Aces, after which Daly West could get $12.50 bids, Mammoth at $1.45 and closing at 48c to $1. Northern Light could not get a bid at $1.20 and Ontario was bandied at 48 to 41. Sales also were made at $1.25 and $1.30 for a few minutes at $1.65, a block of 500 above going at the latter.

In mining stocks Boston-De La Mar sold into the first notes this day, Cedar Hill selling at 1 cent a share. Everald was taken at 13c, while Gold Hill did business at 1c. Jim Butler at 2c, Seller and Beaver Extension at 9c, the stock going with a bid of 7c. Kromer, in the Ontario Highland society, sold at 9 cents and Little Pittsburg at 8 cents, the latter being taken up right Brown following at 6c, and Vale at $1.05, after which this stock sold back and forth.

The closing figures were as follows:

Will be Called Tomorrow.

The listing committee of the Salt Lake exchange held a meeting directly after today's call, and decided to place Gold Cable and Hidden Treasure stocks among the unlisted stocks. They will therefore appear tomorrow. Both are mining stocks, the first being located in Mercur, and the latter at Tintic.

Loan Gets a Seat.

J. J. Hamburger was the successful bidder this morning for a seat on the old exchange, the same having been sold under the hammer for $350. It is understood that the seat was bought for H. C. Lomas, formerly in the banking business at Ellery, Iowa, but now a resident of this city. Mr. Mr. Lomas will go on to the Mercantile Exchange and operate on the old board.

BAD BREATH

"I have been using Cascarets and CAN'T SPEAK TOO HIGHLY of them. I suffered with a bad breath for years, which was so bad I was ashamed to talk to anyone. I tried everything I could hear of without avail. Your one dollar box of Cascarets has done me more good than all the other medicine I have taken in the last year. They are a great boon to the human race." Geo. H. Mott, Mgr. Mott Iron Works, 10 Rinehart St., Cincinnati, Ohio.

ON THE NEW BOARDS.

Business Fairly Good with Figures Well Maintained.

Tomorrow was fairly good on the new exchange today, the sellers not hesitating some of the prices on the stocks on the board. The sales amounted to 32,200 shares with a value of $3,123.27.

Four Aces continued to lead in good demand, while Joe Bowers was taken at 17½ and Lower Mammoth advanced to 71c. Gregory-Bryden sold at 12 cents, and Daisy was taken at 41c. Grand Central found takers at 11.50, 11.75. White Star held steady at 1½, Midnight Bowers at 4, Silver City Consolidated 1 cent above 1, and Golden Eagle at 4 and 4½.

Lomas, formerly in the banking business at Ellery, Iowa, but now a resident of this city. Mr. Mr. Lomas will go on to the Mercantile Exchange and operate on the old board.

A MOST MURDEROUS BATTLE.

[North American Review.]

To an army so physically infirm into the first disruption of ranks generally comes after rude conquest is a great number of individual prisoners. The ratio of the dead to the wounded is 1 to 3. Of the wounded, one out of six or eight dies, or half as that of a plant. On the road from Manila to the lake, hundred and scattered from French soldiers could hardly drag themselves along, and provided numbers, make the carabin bullets strike back out of bullet range.

But the medium of remaining strength that still enabled to pull a trigger would have failed to draw the arrow of a Parthian war bow, and a sound-to-body, fight body deep would have been impossible. Hence the bottle carnage, it seems, ended by a basis of atavistic barbarism.

In a 60 to 80 mile square of American battles, Gettysburg is mentioned as a be plus ultra of destructive fighting—which, according to Swinton, was perhaps by the number of men engaged, perhaps the most murderous battle on record."

GOOD NEWS FROM DEEP CREEK MINES

Important Discoveries in the Last Chance and Vulcan.

OTHERS IN SPLENDID SHAPE

Golden Star's Annual Meeting—Uncle Sam and Humbug Selling Mines Will Resume.

Word from Deep Creek brought in by Harry Joseph this morning, bears with it the pleasing intelligence that in the Last Chance mine, adjoining the Utah and Hidden at Fish Springs, an important discovery was made a few days ago. The ledge is now assaying 20 ounces silver and $1 per cent lead to the ton. In the Vulcan mine, underlaid to Great Hector, a chute of ore has been encountered which assays 20 ounces silver and 12 per cent lead, while from the Mines, located west of Fish Springs, and owned by John Dean and associates, the miners are exhibiting a high grade of ore, for the fourteenth of which the owners are expecting now planning the erection of a mill.

Mr. Joseph went out several days ago for the purpose of inspecting the mines, one which he promises to make appear, the prospects are in a condition to make bigger shipments, the showing been especially good on the Last Chance at a depth of 70 feet. While out at the mine the gentlemen let a contract to extend the shaft 100 feet farther, this giving a depth of 400 feet. In development, the miners have opened up several chutes of high-grade lead ore, and the owners of the property believe that with good roads, as a ground, shipments can be continued right along.

Mr. Joseph went into the Utah and Hidden at Fish Springs, which he pronounces an excellent place of work. It is now 240 feet deep and affords a splendid vein of ore, the ledge being continued to good depth for the number in which he is putting work on the property. He says that the workmen, but the Burkhart at Dugway is about to start up, has Gibson, the principal owner, being put into shape, and preparing for an early resumption. The mine is an old property and will likely make good shipments as soon as work is begun.

GOLDEN STAR MEETING.

Excellent Showing Made by this Property—Mill to be Built.

The stockholders of the Golden Star Gold Mining company assembled in convention at the office of the company this afternoon, the bulk of the company's stock being represented. The election resulted in the choice of Timothy Hay, Patrick Ryan, Patrick Cuing, H. V. Boyle, Jr., Thomas Ryan, Jr., and Thomas Ryan, Sr., as directors for the ensuing year, the gentlemen were to have held a meeting late afternoon for the purpose of electing officers.

The report of Secretary H. E. Hoskins showed that during the year the company had received from sales of ore, $12,700.14, and from other sources, $9,000, a total of $21,700.14. The total amount on hand at last report, made a year ago, was $14,384.21. From this, expenses were paid to the amount of $21,084.35, leaving a balance on hand of $14,999.86. The other assets consisted of $14,384.21. From this, expenses were paid to the amount of $21,084.35, leaving a balance on hand of $14,999.86. The other assets consisted of $2,987.20 equipment, $13,775 labor, $8,200.11 dividend, paid in, $1,000, $2,500 Bright and Golden, $1,000 assessing and recording, $50.75, cash, $12,000 time expired, $2,000 in bond of Lord—April 15.20; May 15.20; Hills—April 15.20; May 15.20.

Sterling Mines Will Resume.

A few days ago the Sterling Gold Mining company, operating at Morrison, Bergen county, suspended operations, the stock being placed on the market. Some were inclined to the belief that the company had gone under, but Chas. Neff, Nicholas Dickel and others in the trade, the company being composed of Mr. Neff, the office it is stated that work will be resumed on the 15th, as the company has plenty of coal and will have the machinery in the shape of time going it. This will be welcome news to those who imagined the mines had been shut down for good.

THE VICTORIA MINES.

New Manager Appointed and Development Work Will be Pressed.

Special Correspondence.

Provo, April 5.—The directors of the Victoria Mines, Ltd., whose ground lies in the Grand Central, and whose stock is largely owned by Provo and Central stockholders, held a meeting here yesterday afternoon and arranged for development work on their property. C. F. Lowe was appointed manager and directed to commence sinking on the property. This will be done and it is hoped that the ledge, which is known to be there, will be reached in a few weeks. Another Grand Central on its hands.

George L. Nebo (Brown) has been elected president of the Nebo Mining Co., Ltd., and J. Stoddard is the Springville mining capitalist.

The Red Wing has increased its capital stock from 250,000 to 500,000 shares, the issue consisting of 8 cents a share, half of the issue being to be applied in the purchase of the Columbus, Mount Hill, Pole, Hurricane, Hawkeye, Junior, Tribune, Daily Blade and Red Walker mining claims in West Mountain, which the company has recently bought, and the remainder will be used in carrying on the work of development work.

HUMBUG AND UNCLE SAM.

Both Mines Making Regular Shipments—The Day Strike.

Jenny Knight, owner of the Hundred and Uncle Sam mines at Tintic, was in the city today consulting with friends of the long acquaintance. He says: "Never reports so states that both properties were in excellent shape, each furnishing the usual amount of high-grade silver-lead shipping ore, and notwithstanding the Day strike, we are in good ground within them.

"The Day strike, he says Mr. Knight, is genuine, and has so reported to the News—at the time of its discovery. In the Uncle Sam, we have a vein of ore which will come in to be our best lead and silver mine in time. In the Yankee mine, there is a vein of ore which the strikers are reported to the Tribune and Herald, which is a good one, and we are working on it. In the Yankee mine, Mr. Knight says it is the intention to be employing with the Richmond-Anaconda people, and we are working on a sample work in the mine, to be conducted at a meeting to be held in this city on the 20th of May next.

MINES AND MINING, MES.

John Penn will likely return from Harvey to Tintic.

There are three in mining circles who expect a dividend from the Mercur this month.

Red Tramore was called on the Utah Exchange today, the stock getting a lot of new owners, with offerings at par.

The Dividend Hill at Bingham is commencing from the bottom of the shaft to catch the ore body. Their shipments will be good.

A discovery left a little east of the Delay on the West Dip, is raising considerable excitement in that locality. The ledge is 18 inches wide, and shows good silver values as well.

There was considerable morning business in Grand Central stock at 78 cents a share, as one lot kicked themselves. Yesterday was the last day for delivery, and it is quite evident that over 1,000 shares went back to the company, which is now selling between 62 and 78 cents a share.

The annual meeting of the Boston Consolidated Mining company was held in this city yesterday and resulted in the re-election of the officers of Charles Van Brunt and Gordon Allen, with the addition of Mr. Hoskins, who was recently appointed and acted in the position. It was stated that there is no truth in the rumor against Mr. Hoskins's resignation.

The Big Valley Gold Mining company has been incorporated. The company owns the Big Valley, Blind Fancy, Blind and Jackson claims in Piute county, and has a capital stock of $1,000 in shares of 10 cents each. H. T. Lloyd is president, D. C. Dunbar, secretary, and H. T. Lloyd, secretary and treasurer. H. H. Perry, Jr., and H. H. Hampton make up the directory.

Superintendent Ryan of the Ontario has been found in the Homestake group on the Mercur West Dip.

NOTHING LIKE RED TAPE.

[From the Lower Tintic Herald.]

It is stated that one morning recently a young fellow who had just secured a clerkship in a government office was considerably startled by a little scene that he witnessed. As an elderly man, one of the senior clerks in the room, suddenly rose from his desk, dragged the comfortable chair on which he had been seated, out into the middle of the room, stood a while, and, attaching the chair with great care, succeeded in breaking it into a pile of kindling. When he was done the pitiful gave a sigh of relief and flung the chair into a corner of the room. The bewildered junior's first thought was that his senior had suddenly taken leave of his senses, and he almost expected that his colleagues would pay him some restraint, but to his astonishment the other clerks heartily voted their eyes while the work of destruction was in progress. The young man afterwards was told that he was sought information from one of his fellow clerks, who said:

"Can you tell me?" said he, "why Mr. Dash carried on in that extraordinary manner? I mean, of course, when he broke a perfectly sound leg off the chair in which he had been sitting."

"Why, you see, he's right, right off the other with a sounding laugh. A rather long story, but I'll tell you. Dash's chair, and, you know, his leg, his leg's not provide us with some cushions; they will attach to the chair, but that is about as far. So Dash had to break one of the legs in order to get his chair put right at the public expense."

A Mother's Duty

is to see to it that her children begin early in life to take Scott's Emulsion regularly once a week. It cost little, is pleasant, after the hair is thoroughly dry, some will handle giving it, but should be used to the extent to assist in creating the best possible growth of nutritious tissue, which is the most important factor in the making of the man (physically) and laying the foundation for a long, successful and healthful life. Scott's Emulsion has for more than fifteen years, the

7 Sutherland Sisters Scalp Cleaner

has stood at the apex of all shampoo washes. Sold by druggists, or sent by express, prepaid, on receipt of price, $1.00 per bottle.

Woman vs. Whiskey.

It was the snake that ruined the earlier Eden. It is the snake—alcohol—which is the Arabic El Cohol, meaning the Devil, which ruins the later Eden—the home.

Women and whiskey are natural antagonists. For has been the greatest sufferer from its influence. It has ruined her home, dampened her children, blighted her life. Women organized the first effectual movement against intemperance. Women have prayed, and still and stayed through all successive temperance movements. It is woman who must meet this new aggression of alcohol against the peace and purity of the home.

THE SNARE INTEMPERANCE

is a subtle baste. Drive him out of the door, he comes in at the window. Driven from the cellar, he appears upon your kitchen, he now returns wearing the "livery of heaven," assumes to be a medicine, and presents himself as a remedy for human ills. It is the opinion of eminent physicians that alcohol has done its deadliest work in this disguise. Sick people are weak, and alcohol finds them an easy prey. They wave in their hands the serpent which wakes to sting them. The danger of intemperance is in the first sip of alcohol. A knowledge of this danger caused women to banish from their table wine jellies and brandy sauces.

They saw the danger of the snake fell on their children. How much more perilous is alcohol disguised as medicine! Sick people will take its stings before they will take a medicine to the label "medicine" borne by what is in reality a whiskey bottle. "Hard" cider has been called

"The Devil's Binding Wood."

What then are pure alcohol, whiskey and rum, covered with a flavoring of some herb or root? Medical men of large experience have said that alcohol in the guise of various patent medicines is one of the most

profitable causes of intemperance. It was alcohol in the form of bitters, creams the alcohol craving, and it does this in the very homes where every door is supposed to be closed to it. Alcohol is to be said in patent medicines.

Let the Mask be Torn Off.

As "Tonic," the leading temperance journal says:

"Compel every patent medicine manufacturer to put on the wrapper of his bottle the quantity of alcohol it contains."

There is no desire to be unjust to patent medicines. Temperance people only ask that alcohol shall not be introduced into the home under a false name, that whiskey shall not mask as medicine.

It is idle to contend that alcohol is necessary to the preservation of the virtues of medicine. The claim is disproved by the fact that Dr. Pierce's Favorite Prescription and Dr. Pierce's Golden Medical Discovery are absolutely free from alcohol in any form and yet preserve their health-giving and pleasant properties in our climate and under all conditions. The safety and sanctity of the home demand that women shall more fully for the new crusade against whiskey medicines.

DRUNKENNESS!

Dr. CHARCOT'S TONIC TABLETS

are the only positively guaranteed remedy for the liquor habit. Guaranteed to cure any habitual drunkard to entire sobriety.

WE GUARANTEE FOUR BOXES

to cure any case with a written guarantee to refund the money, and to cure when no one else is treating or cured.

THE TABLETS CAN BE GIVEN WITHOUT KNOWLEDGE OF THE PATIENT.

STRONG DRINK causes Misery, Poverty, Sickness and Death. Do not hesitate any longer for fear of offending a friend. Cure that friend by giving him the Tablets in coffee or food, without his knowledge, and he will thank you for the act. Sent by mail, $1 per box. Six boxes for $5.

TIMOTHY'S STOMACH.

The advice given to Timothy to "take a little wine for the stomach's sake" has been a favorite excuse of those who felt the need of offering an apology for the use of intoxicants. As a matter of fact there is nothing to show that the wine advised for Timothy's stomach was alcohol, or anything else than the pure unfermented grape juice, the common "wine" of every day use. But whether that may have been, it remains true that it has been established by the most eminent physicians that there is nothing that alcohol can do for the body which cannot be better done by something else, and that even alcoholic medicines are unnecessary as they are unsafe. Apart from the danger of establishing the alcohol habit, the use of alcoholic medicines is a positive injury to the stomach in every case where the dignity and nutritive system is enfeebled.

"STOMACH TROUBLE."

What is popularly called "stomach trouble" or "weak stomach" is a condition in which the stomach and other organs of digestion and nutrition are performing their work partially and imperfectly. The stomach is the power house of the body. It is from this that the energy is created which becomes the vital force in man. It is for the stomach and its allied organs that the food which is eaten is converted into nutriment, and the special force of nourishment required by the general organs of the system obtained. Upon the stomach, the brain, the nerves, the spinal cord, rest here their supply of phosphorus. The bones must have their lime. The blood must have its several salts all duly prepared and ready to feed the body's growing cells. Derangement of the stomach, therefore, strikes at the very root of the tree of health. "Weak" stomach must do work well and it does. It does not trouble sufficient nourishment for the general organs of the body, but it does not do the work which it should perform. Sometimes it almost entirely fails to separate some of the required elements. The nerves for example go without their phosphorus. In the blood, the phosphorus, lime, and salts, which the nerves cry out in their starvation and their cry is pain. It may be head pain, heart pain, lung pain, liver pain, but if you follow that pain back to its source you will find that it is not living its work properly. You'll avoid sure the pain until you cure the stomach where the cause of the trouble lies, and the first step to that cure is the use of Dr. Pierce's Golden Medical Discovery.

Some of these facts look at the stomach as the source of weakness. The poor stomach is not strengthened but spurred into action. It needs to be fed but it is flogged with

A WHISKEY WHIP.

It goes on a little faster for a time, but stumbling and staggering like an exhausted horse goaded toward the goal by whip and spur. Look at the fact in this light. Suppose your horse "picks up" a some or a mill and begins to pull a load. Will you whip him for his power? Or will you feed him till he rests? You know that would rate him, probably lame him for life. What you will do is to get down and exercise the horse's feet and remove the cause of tiredness. Doubt's the way to treat the stomach. It's no use to spur it with alcohol, or whip it with whiskey medicines, which may rain it for life. The cause of the trouble must be removed and then the stomach will take care of itself.

COMMON SENSE TREATMENT.

It is in perfectly removing the cause of disease that the great temperance medicine, Dr. Pierce's Golden Medical Discovery, stands superior to all other medicines designed to restore the stomach and organs of digestion and nutrition to their normal action, and to purify the blood and increase it both in quantity and quality. "Golden Medical Discovery" cures diseases of heart, lungs, liver, blood, liver, nerves and other organs every times when nothing else will reach the case, and when the best doctors have entirely failed. It effects these cures by curing the stomach and organs of digestion and nutrition. Good blood can be made from good food only. If the stomach is bad the nourishment it distributes must be bad also, and that failure is a person which infects the blood and through it attacks the weak one in any vital organ. Dr. Pierce's Golden Medical Discovery actually purifies the blood by removing the cause of impurity. It increases the blood supply by increasing the activity of the blood-making glands.

"WEAK LUNGS."

There are thousands of people who have what is popularly termed "weak lungs." From these thousands are drawn the recruits for that dismal army of consumptives whose slaughter, year after year, makes this baneful bottle field more and more populous. "Weak lungs" need is strength, and strength comes to the parts of the body as it comes to the whole body, by food and nourishment. The food value of food depends upon the digestion and the blood nutriment of the people drink the nourishment and food value of food. The people drink the food, but it never seems to go far enough to reach the diseased lungs. The scenery for the lungs is a rich stream of pure blood. The blood is the builder. If blood is impure it weakens the body, pains of disease and invites it. Every replacement of blood-making and body-building is filled by Dr. Pierce's Golden Medical Discovery. The use of this remedy has produced such marvelous results in cases of lung disease, even when there was neither hope nor help. Men and women suffering with bronchitis, bleeding of the lungs, obstinate, lingering cough, diseases which if neglected or unskillfully treated, had on to consumptive graves, have gone to health and strength by the use of "Golden Medical Discovery." No one suffering with "weak lungs" should despair as long as the medicine is within easy reach. It is not a cure-all. It cures some diseases but not others. Any disease that is not a disease have one common root in a diseased condition of the stomach and organs of digestion and nutrition, with the natural consequence of a body insufficiently nourished and a deteriorated and tainted blood supply.

The record of "Golden Medical Discovery" warrants the statement that there is nothing "just as good." If you want the results which follow the use of the "Discovery" you can't have them unless you use that medicine. Therefore refuse all substitutes.

THE TESTIMONY OF THOUSANDS

can be produced to prove the marvelous efficiency of the "Discovery." The following are only specimens of the thousands of letters on file:

"Words fail to express what I suffered for three years, with old chills, palpitation of the heart, shortness of breath, and low spirits," writes Miss A. J. Thomas, Collinsville, Madison Co., Ill. "I tried seven bottles of your 'Golden Medical Discovery,' and I now feel as good as any girl of my age, and really thought I would soon die. That a peculiar nursing through my head all the time. Was so exhausted one week I could not feed myself. My aunt undertook to feed me by force. I was sick I had five different physicians."

Grant Thorn, of Bainbridge, Green Co., Ills., writes: "My wife had a severe attack of pleurisy and lung trouble; the doctors gave her up to die. She commenced taking Dr. Pierce's Golden Medical Discovery and she began improving from the first dose. By the time she had taken eight or nine bottles she was cured, and it was the cure of a large amount being sold here. I think the 'Golden Medical Discovery' is the best medicine in the world for lung troubles."

Mrs. L. Bridgeman, of Dorset, Collingwood Co., Texas, writes: "I was troubled for seven or eight years with indigestion and liver complaint, and received more benefit from the use of Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets' than any medicines I have ever tried."

YOU CAN WRITE

to Doctor Pierce if you are sick and consult him by letter, absolutely without fee or charge. Every letter is held as strictly private and sacredly confidential, and all answers are sent in plain envelopes, bearing on them no printing of any kind. Address as below.

Dr. Pierce's Common Sense Medical Adviser, 1008 pages, 700 illustrations, is sent free on receipt of stamps to cover expense of mailing only, cents in paper covers, 21 cents; cloth, 31 cents. Address, R. V. Pierce, Buffalo, N. Y.
