OVERDOING THE STOCK BUSINESS.

The Fact Becoming Quite Apparent to Brokers.

TRADING IS FALLING OFF.

Market This Morning Was Firm—Golden Advances and Triumph Makes a Hit.

That the Salt Lake Stock and Mining Exchange is overdoing the thing in conducting two calls a day, in the process of an afternoon session by the new exchange, is gradually making itself apparent. Today numerous expressions of this kind were heard among the brokers, not a few of them freely asserting that it was an unwise policy to hold so many calls for the amount of business required to be transacted. They believed it would be harmful to the mining industry, and that before long orders would be so scarce as to warrant a reconsideration of the matter. What should have been done, they argue, was to increase the membership of the exchange as has now been decided upon, and then, say they, there would have been no need for a second exchange, or even a second call.

Business is gradually diminishing on the local stock market, whether due to competition or not, is not known, but the fact remains that the sales now made, all told, scarcely reach the volume credited to the morning call several weeks ago. This morning there was a dearth of trading, the sales made reaching but 25,000 shares, which had the nominal value of $6,136.37. Also was the first seller and changed hands at $1.30 and $1.31. Centennial-Eureka came next with five shares at $5 each, after which Chloride Point was dealt in, the stock selling at $1.40, and continuing in good demand at this figure. Dalton & Lark made transfers at 11½ cents, while Hecla-Marion sold at 7 cents, and Galena was in the ascendant with sales up to 60½ cents. Mammoth was practically stationary in the trading. Northern Light sold low, and Sacramento was freely dealt in between 48 and 47, these sales being followed by one of Scandinavia, which found a taker at 48½ cents.

Talisman was held by a trader in Bright Light which sold at 3 cents. Columbus stood stationary and changed hands at 18 cents, while Dalton was shelved at 3 cents. Prince at 15½ and Golden Eagle between 4 and 5. International made a transfer at 6 cents, after which Joe Bowers was handled, this stock being sold at 17 cents, to be followed by sales of Jeweers Extension at 11½ cents. May Day developed activity with sales between 36 and 37 cents, while Manhattan made transfers at 2 cents, and Shoshone Consolidated changed hands at 35½ cents. Triumph created quite a furore and was heavily sold in between 16 and 17 cents, the stock closing with a bid of 16 cents, to be greeted with a withdrawal of all offerings.

The closing figures were as follows:

MARKET REPORTS.

NEW YORK MARKETS.

STOCKS AND BONDS.

New York, Feb. 7.—The exhilaration of the peace treaty produced favorable sentiment towards Americans in London, and the market there was described as active and buoyant. The home market opened with heavy buying of all classes of securities, improvements approximating a point being made in sugar, Northern Pacific, Federal Steel, Atchison preferred and Pacific Mail. The professional traders who had generally adopted a bear attitude in expectation of favorable treaty action, threw over their stocks to realize, resulting in a rapid decline all round, all around. London took some stock, but its absorptions failed to arrest the downward course of the speculation.

Near 11 o'clock the market rallied sharply on commission house and short covering buying. Liberal offerings of the leading shares prompted short sales by the traders in other properties, and the market being made to depend this stock, sagged slowly. The weakness was most marked in sugar, the Pacifics and lead traction shares.

The bond market was quiet with small changes either way.

COMMENDING VOLUNTEERS

Change in the Text of the Proposed Resolution for Utah Troops.

Last evening the special committee on a resolution to be sent to the Utah volunteers at Manila, met and made some changes from the proposed resolution furnished the "News" by the committee. It was agreed to have the matter come up in joint session today, and to have copies of the resolution mailed to the members of batteries A and B, instead of calling the document, as that would be very expensive. The resolution as finally agreed on by the committee reads:

"Whereas, In response to the call of their country, many young men of Utah enlisted to fight for the principles of freedom, for the faith and with Spain, cheerfully breaking their homes, families and friends to undergo hardships, if need be, even the offer of their native land; and

"Whereas, This Legislature appreciates their loyalty, patriotism and fidelity to country; therefore be it

"Resolved, That the thanks of the Legislature be, and they are hereby, extended in behalf of the commonwealth represented by the members thereof, to the officers and enlisted men at batteries A, B and C, Utah light artillery; First troop, Utah volunteer cavalry; troop I, Second volunteer cavalry, and of the Second regiment, United States volunteer engineers, enlisted in Utah, and to those soldiers in this State who are serving in any command.

"Resolved, That a printed copy of this resolution be sent to each officer and enlisted man, by the Governor, in the name of this State.

"Whereas, In the course of duty, Corporal Geoge G. Lorenz of Battery A, Private George H. Hamilton of battery B, Private Albert Loff, First troop, Utah Cavalry, and Private Mercer Hale, and others of the Utah troops, were called to the eternal camping ground; therefore, be it further

"Resolved, That this legislature extend to the families of the deceased soldiers its condolence and sympathy, and that an engrossed copy of this resolution be sent to each of the families of the departed heroes."

BURGLAR GETS TWO YEARS

William Churchill Sentenced by Judge Cherry Today.

Pleaded Guilty to Breaking Into the Temple Barber Shop—Came Along from England.

William Churchill, who pleaded guilty on Saturday last to burglarizing the Temple barber shop, was sentenced by Judge Cherry today to two years in the prison.

When asked if he had anything to say before sentence was pronounced, Churchill said he had, for months past, been unable to get work of any kind, and that he committed the crime because he was in need of food. He was sorry for what he had done and did not realize the enormity of his offense until after he had been arrested. With quivering voice and trembling lip, he begged for leniency.

In answer to the court, Churchill said he was twenty-five years old, and unmarried. He was a native of Falmouth, England, where his aged mother resided. He came to America about four years ago, arriving in Utah last spring. His occupation was that of a common laborer, but he had done no work for the past nine months, for the reason he had been unable to find anything to do. When asked if he had ever been arrested before, Churchill said he was convicted before Justice Sumner last May of petit larceny and sentenced to 329 days in the county jail.

Deputy County Attorney Ray Van Cott addressed the court in behalf of the prosecution. He called attention to the prisoner's past record and refused to make any recommendation for leniency. The court then imposed sentence.

Churchill will be taken out to the State prison in the morning.

FEDERAL COURT.

J. W. N. Whitcomb was appointed referee in bankruptcy by Judge Marshall of the Federal court. He will carry in Utah county.

J. M. Bird was admitted to practice practice in the Federal courts.

J. C. Pack was also admitted to practice in the Federal court.

The hearing of the Hessey infringement case was set for February 20th.

In the case of J. W. Shinning vs the North American Loan and Investment society the motion to remand to the State court was argued and taken under advisement.

In the Bingham bankruptcy case the time to answer was extended five days.

H. J. Mortensen, a voluntary bankrupt, was allowed to amend the schedules as filed.

Several other motions came up before the court but were set for hearing at the further term of the court.

An adjournment was taken to Feb. 11th.

POLICE NEWS.

Yesterday was so cold that even the evil doer had left the enterprise to devote his propensities. There was not a single arrest in twenty-four hours. To keep up the police record, however, Detectives Shortt and Hillespie rallied forth and landed in the city jail in the other line. They captured an Jim and John Smith, respectively, left $50 each with the desk sergeant, and then drifted back to their gambling dens.

HE STOLE FLOUR.

When Mr. Charles Peck entered his store at the corner of First West and South Temple this morning he found that he had been forestalled by an enterprising early riser. He had broken into the premises and appropriated 200 pounds of flour. As nothing else was taken, the police have a theory that the burglar is a family man, who was driven to perpetrate the crime by the sheer force of necessity to keep the wolf from the door.

GRAND CENTRAL WILL PAY FRIDAY.

Directors Meet At Provo and Declare a Dividend.

SILVER KING AND SWANSEA.

Gold Values in the Northern Light—The Triumph Triumphant—Miscellaneous Items.

The directors of the Grand Central met at Provo today and declared the regular dividend of 2½ cents a share or $45,250, the same payable on the 15th inst. This gives the company a total of $931,750, and is distributed at a time when the mine is in excellent condition. On Friday also the Silver King of Park City will pay the sum of $15,000, giving it a total of $1,980,000, while the Swansea will come forward with its usual $5,000, this raising the aggregate paid to date to $106,000, which total will likely grow during the month.

Grand Central Dividend.

The directors of the Grand Central Mining company met at Provo today and declared a dividend of 2½ cents per share, amounting to $45,250. This makes a total of $931,750 paid by the company since its inception. The mine was reported as very satisfactory, and prospects for the future bright.

Centennial Eureka Meeting.

The annual meeting of the Centennial-Eureka Mining company was held at the company's office in this city late this afternoon. At it Manager Moyle submitted his report showing the mine to be in excellent condition and making regular shipments. The report also disclosed the pleasing information that the company had resumed the payment of dividends, and that the property was in a condition to pay 50 per cent distributions. It was expected that the meeting would result in the posting of a February dividend of $75,000.

Excellent Gold Values.

This morning's report from Superintendent Long of the Northern Light gives the mine a better impression than ever. Mr. Long says they are now sacking ore running from 30 ounces and from $12 to $17 gold to the ton, and adds that a shipment of this ore will be made as soon as the roads are in better condition. Another shipment is preparing and will be in in a few days. The work continues in the rich streaks of gold mineral. Superintendent Long says there is no scarcity of material, and only regards that conditions are not such as to make its transportation more easily accomplished.

Cold Spell Has Its Effect.

This freezing weather is having a bad effect on mining and milling at Stevens, reports from the camp indicating that progress is very much retarded in the operation of the Lower properties. Mr. Lewis of the Bureau of Geyer-Marion, says these mines are running on half capacity, conditions being such as to render it impossible to handle the ore as they would like to. According to Mr. Hersey mill is working somewhat better, the cold not having the effect on the machinery it was putting through in the neighborhood of the mine. This condition, obtaining at other properties, will materially decrease the month's profits and may have its effect on the distribution of dividends.

Ore from the New Strike.

That the new strike in the Lower Mammoth affords a good grade of shipping ore, is evident from the sale today of a car which showed assays of 41 ounces silver, 6½ per cent copper, 22 per cent lead, 12 per cent zinc, and $1.60 in gold. This ore is from the new workings on the 300 and 400-foot levels and was shipped as it was broken down in the mine. Mr. Joseph, the superintendent, Manager Joseph expects to get out to the mine tomorrow, for the purpose, as stated in last evening's "News," of making a survey to connect the levels that are now to be taken out between them.

Triumph Triumphant.

Triumph triumphed in the pit today, the stock selling quite a considerable for a time, and selling freely between 16 and 17 cents a share. This stock represents a promising piece of ground at Silver City in the Tintic district, a control of which is owned by Theodore Brubach. The claims have been developed to some extent, and the locality in which they lie is noted for high-grade ore bodies, which it is believed, the miners will get into at no distant date. The stock, therefore, is looked upon as a good buy at present figures.

MINES AND MINING MEN.

The heavy mill at Bingham is now running on full time, Mr. Wing.

The pump has taken hold of Watson M. Wedel Sr., superintendent of the Bullion-Beck Tunnel.

The Bullion-Beck continues shipping, but the output is not as heavy as it was last year.

Sales on the exchanges yesterday amounted to 110,610 shares, which had a selling value of $32,612.

Fred Mitchell will leave tomorrow for Nevada, where he goes to examine his mining interests.

The manager of the Valley View in Idaho, reports that the miners will break into good ore very shortly.

P. T. Farnsworth and M. C. Morris left this morning for an inspection of the Washington mine near Pioneer.

Two companies have sold the Joe Bowers Extension, they claiming that their bonds were threatened with sales against the company.

With the coming of spring weather the Dubuque Mining company, operating in Rush Valley, will begin the erection of a mill.

The old exchange has decided to discontinue its two calls daily, and the minimum price being fixed at $250 each. This will make its membership 32.

Those interested in the Beaver Lake mine are confident that the Dr. Dodge contract now being made, will cut the vein and expose a good showing of ore.

The 60-foot contract on the Copper Mountain mine in the Beaver Lake district, is now nearly completed. Mr. A. J. Moffitt expects to do down on the 50th to look into the condition of the mine.

The Mammoth Mining company held its annual meeting in this city this afternoon, at which time reports of the condition of the mine were secured by the shareholders, and officers and directors were elected for the ensuing year.

R. E. Jenkins has secured his commission with the new exchange, and made application this morning for membership in the old one, as a trader for Ben D. Lane. Pending a vote, Mr. Jenkins will enjoy the privileges of the floor.

"Bingham Bulletin: The strike in the Bi-Metal of the Old Jordan has spoken out until it is tumbling. Every shift throws new light on its importance. It came at the opening of the year, as a fitting climax to the achievements of Bingham's mines during the year. The market of the Old Jordan has Galena group during 1898, should the load market need steady, bids fair to be the harvest in its history.

Speaking to the Park County Republican, M. T. Surrey says the Daly-West is again practically active. There is a big ore strike in the Copper King, the Crude is about to resume operations, a United mine has been uncovered in the Ward Valley and the Superior is producing ore, as is my nothing of the famous Silver King, the greatest silver-lead ore producer in Utah, whose work is actively awake to-date.

Archibald of incorporation of the West Mountain Gold Mining company, have been filed with the county clerk. It has a capital stock of 1,000 in shares of 10 cents each. Charles Coleman is president; W. F. Smith is secretary and H. J. Young secretary and treasurer. Trustees with Henry Hanemann, William H. Wallace, L. D. Wallace and James Clifford constitute the board of directors. The claims owned are the Mountain Gem, Scotch lad and Gulch in Tintic district.

BRIBING CHILDREN.

Wrong Motives Being Set Temporary Goodness.

"It is never wise to bribe a child to perform a good deed," writes Elizabeth Robinson Scovil, in an article in a recent number of the Ladies' Home Journal. "There are many motives to be appealed to, and we should be constant how we accord the reward for a higher one. When bedtime comes, it is often a struggle for the small people to get off cheerfully and promptly. When we allow have to do things not at all more disagreeable to us, we indulge in wrong motives, in scandals or otherwise—and a good deal of selfpity. It is not to be expected that our children will take up their beds with more cheerfulness than we do earthly. Yet we seek to their are not enough to endeavor and earnest, they may be grumpy indeed, or hindered in doing it.

"It is time for Charlie to go to bed now," mamma is fair enough to persuade him to do so without outbreak. But just as he approaches the bedside he is seized with a sudden and unaccountable sympathy. He wish to stay, and he refuses. What is to be done in this case? His mother can promise Charlie him to go to bed by means of a piece of candy or crystallized pleasure, but she lost time the quantity of candy he has able to do right assumed than he was at first. His mind will naturally revert to this bribe, and he will want another.

"A quiet talk, gentle arguments and persuasion, appreciation of the good everyone has to do disagreeable things sometimes, because they are right, will usually prove effectual. But, if not, the reason a matter of obedience that must be enforced even at the cost of pain. It is an ugly subject to deal with, but the side of right doing so that the child shall conquer himself and yield a willing obedience, we have accomplished our part. Let us teach them by every effort in our power that virtue is its own reward."

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and Substitutes are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Harmless and Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulence. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.
