The Evening paper is the paper of Today, the morning paper is the paper of Yesterday.

DESERET EVENING NEWS.

5 O'clock EDITION.

TRUTH AND LIBERTY.

NO. 241. FRIDAY, SEPTEMBER 15, 1893. SALT LAKE CITY, UTAH. VOL. XXVI

WISCONSIN BURNING.

A Third Part of the State Threatened With Destruction.

THE SMOKE DARKENING THE SKY.

A Score of Cities Surrounded by Flames—Millions Worth of Lumber Consumed.

MILWAUKEE, Sept. 15.—Dispatches this morning from a score of northern Wisconsin cities tell stories of a great loss by forest fires. Marshfield Junction, Dexterville, Prentiss, Spencer, Medford, Rhinelander, Steven's Point and other places with a population of from one to six thousand are surrounded by flames and in greatest danger of being wiped out. Everything between Dabley, Wood county, and Necedah, Juneau county, on the Milwaukee & St. Paul railway is burned. Dexterville is threatened with annihilation. Hundreds of scattered dwellings are known to be in the path of the flames and are doubtless burned. No loss of life is reported, but that all the settlers in the burned districts have escaped is impossible. Every square mile of the vast timbered district of Wisconsin is dry as tinder and the flames are sweeping without check. The losses will doubtless run into millions. The district already fire-swept and that threatened includes nearly one-third of the state. Wisconsin is overhung by a pall of smoke reaching from Lake Michigan to Lake Superior, from the extreme eastern border of the state to the Mississippi river.

BARELY ESCAPED WITH THEIR LIVES.

MARSHFIELD, Wis., Sept. 15.—Last night, driven by terrific winds, two great forest fires the one north and the other south of the city, swept everything before them. Once the fire reached the city limits but the bucket brigade staid the progress there. However, the station at Two Mill north of here contained a dozen families. It was wiped out. The inhabitants barely escaped with their lives. Two children of Frank Cudel are reported suffocated. McMillan, five miles east, is surrounded by fire, but it is believed it will be saved. Many settlers' families have lost everything. The danger, it is believed, has passed this city.

SMALL PLACES IN DANGER.

Milwaukee.—Advices to the railway offices here are to the effect that the flames swept everything between Babcock and Necedah, a distance of twenty miles. The country is sparsely settled so the damage is only to timber. The fires are very bad around Merrill, Pine Ridge Heights, Coolie, Dancy, Runkles Mills and Rudolph, all small places.

BURNED TO DEATH.

MILWAUKEE, Sept. 15.—Near Merrill today, two children of Fred Wegge were burned to death in the forest fires.

A VILLAGE DESTROYED.

SPENCER, Wis., Sept. 15.—Mannville, a village with 200 inhabitants, is destroyed by the fires. No loss of life is reported.

A SETTLEMENT WIPED OUT.

MERRILL, Wis., Sept. 15.—Pine River, a settlement near here, has been wiped out. A score of buildings were burned. People saved themselves by descending into wells and covering themselves with wet blankets.

IN CONGRESS.

Consideration of the Repeal Bill Resumed.

WASHINGTON, Sept. 15.—The Senate this morning resumed consideration of the repeal bill. Lindsay, Ky., Dem., addressed the Senate in support of the bill.

At the conclusion of Lindsay's speech Morgan, Dem., of Alabama, spoke in opposition to repeal. He was followed by Higgins, Rep., of Delaware, in favor of repeal.

Adverse Report.

WASHINGTON, Sept. 15.—The Senate committee on Indian affairs had ordered an adverse report on the nomination of a man from Mississippi as Indian agent at White Earth, Minn., and a man from Illinois as Indian agent at Yankton, South Dakota. The committee also voted, six to two, that it would reject all nominations where the appointees were from one state or territory into another, unless satisfactory to the representatives of the state or territory where sent.

A Fatal Accident.

GALLIPOLIS, Ohio, Sept. 15.—The boiler of a threshing machine at Loyins Acre, Ohio river, exploded, killing the engineer and three men.

Arguing for Protection.

WASHINGTON, Sept. 15.—Importers of hosiery, glove manufacturers, plush and velvets, cotton yarns, pearl buttons, fans, gold beaters, straw hats and pearl workers were represented before the ways and means committee on the tariff arguments today.

Rabid Anti-Chinese Speakers.

SAN FRANCISCO, Sept. 15.—The meeting under the auspices of the anti-Chinese league was largely attended here last night. Some speeches were intemperate. President Cleveland was denounced and many radical resolutions passed. One demanded the impeachment of the President. A memorial to Congress demands funds to enforce the Geary law. Protest was entered against the extension of the time of registration.

THE EVERETT BILL.

A Reason Why it Will Be Fought in Congress.

WASHINGTON, D. C., Sept. 15.—The action of the sub-committee on foreign affairs last night refusing to accept Geary's amendment providing for absolute means of identification by photographing or otherwise in order to prevent the use of Chinese register certificates by others resulted in a decision of the Pacific coast members, led by Geary and White, to fight the bill tooth and nail. It appears that although this identification provision is deemed essential to the Everett bill for the extension of the time of registration, that there is an underlying and private reason for the determination to fight the extension measure as there is fear the new law will be again carried to the Supreme Court. This would reopen the whole question and might result in a decision by the Supreme Court that the Geary law is unconstitutional. The decision by which its constitutionality was upheld was only rendered by a majority of one in the Supreme Court, Justice Harlan being absent. He is now here and it is feared that in case the matter should again come before the court, the former decision would be reversed. Geary declares that while it may be impossible to defeat the Everett bill in case the committee on rules brings in an order, it can be defeated in the Senate.

ANOTHER TRAIN ROBBED.

Seven Bandits Secure $70,000 Without Fighting for it.

HANCOCK, Mich., Sept. 15.—A train on the Mineral Range railroad was held up between here and Calumet by three masked men this morning and robbed of $70,000 in Calumet and Hecla mine money. Everything was in turmoil but no shot was fired.

The Mineral Range road is a narrow gauge running between Houghton and Calumet, with several branches. The Calumet and Hecla mine employs two thousand men and pays them on the 15th of the month. The money was sent today from Eastern banks. The robbers were evidently acquainted with the circumstances. There were four highwaymen. Two covered the engineman and the others ordered the express messenger to put the contents of the safe in a bag which the robbers carried. The messenger handed out $75,000. The robbers ordered the engineer to go ahead in a hurry which he did. The deed was accomplished so quickly that the passengers were unaware of the trouble till after the train had started. Light guards and sheriffs are scouring the country. It is believed the robbers had horses near and a boat at the lake to take them across to Canada.

Jack King, a wrestler, and Jack Kehoe, a sport, are arrested on suspicion of connection with the robbery.

Celebrations at the Fair.

CHICAGO, Sept. 15.—The weather was bright and much cooler with a breeze from the northwest. Incoming trains landed thousands on the Fair grounds this morning. This is Vermont day. The celebration was missed in the absence of the governor and other state officials, who were prevented from being present by important duties at home.

It is also Costa Rica day and that nation celebrated the anniversary of Central American independence with jollification.

Mexico's celebration was scheduled for today but postponed till October on account of the fact that it was necessary for the commissioners to be in Mexico to celebrate independence day.

Kansas continued last week's celebration and the Keely graduates joined in making merry, as it was their day also. In the line were Keely men in uniform from many soldiers' homes, including those from Milwaukee and Santa Monica, state delegations and delegations from foreign countries. Dr. Keely was among the speakers later.

THE BOMBARDMENT OF RIO.

Greater Damage Done than at First Admitted.

BUENOS AYRES, Sept. 15.—It is almost impossible to obtain additional news of the bombardment of Rio Janeiro. After the bombardment on Wednesday the authorities of Rio admitted that the damage done was more severe than they at first were willing to admit. The government no longer attempts to conceal the fact that a few people were killed and some buildings damaged.

It is known that numerous buildings were struck, but whether the shells were intended for the city or for the arsenal cannot be determined though it is known the firing was very wild. The rebel gunboats fired from a shelter behind the islands which dot the bay so the fire from the forts was ineffective. The firing is said to have been resumed yesterday with about the same result as the day before.

THE CONGRESSIONAL FIGHT.

Filibustering in the House Continued Today.

WASHINGTON, Sept. 15.—The battle in the House over the Tucker bill to repeal the Federal election law was resumed this morning, the Republicans again filibustering.

Burrows renewed his motion to dispense with the call of the committee, in order to prevent the bill from being reported.

Roll call was ordered.

Reed walked up and down the aisles shaking his head. The Republicans obeyed their leader and refrained from voting. The anti-initiation Democrats fled to the cloak room to avoid answering to their names.

The vote resulted, yeas, 1; nays 137. No quorum. It developed a gain of 40 votes for the Democrats, leaving them 31 short of a quorum. A call of the House was ordered.

The call developed the presence of 257 members.

The filibustering was ended by the arrival of the time for the special order for eulogies of the late Representative Chipman, Michigan. A number of eulogies were pronounced.

DAMAGE BY STORM.

Many Lives Lost in Spain.—Corpses Recovered.

MADRID, Sept. 15.—The province of Toledo has been swept by violent storms. Great damage is done to large tracts, and many lives were lost. Forty corpses so far have been recovered. Twenty-five miles of the southern railway are submerged. Relief trains are sent from various points.

At Villa Canas the death roll is said to be appalling. The peasants sought refuge from the waters in caves on the hillsides for the night. When all were sleeping the waters rose suddenly and flooded the cave and drowned the sleepers. Blanosas is a raging torrent, carrying death and destruction. Blanosas is also flooded, doing much damage. Some small villages and groups of houses are washed away. Some persons were rescued in boats. Those captured by floating trees and driftwood and the occupants were drowned. A number of villages are cut off from the rest of the world. Death is staring them in the face. In one village only eight out of 61 are known to have escaped.

Bismarck is Worse.

BERLIN, Sept. 15.—A private report from Kissingen says Bismarck is worse.

Another Yellow Fever Case.

WASHINGTON, Sept. 15.—Another yellow fever case is reported at Brunswick, Ga.

FOREWARNED.

An Intended Raid to be made on Kansas Banks.

KANSAS CITY, Sept. 9.—The Star's Arkansas special says: A scout from Hollister's ranch this morning and notified the banks that the remnant of the Dalton-Starr gang was camped thirty miles south. He said the intention of the gang was to raid the banks here tomorrow after the people had left town for the border. The banks organized a strong posse to defend the property. They will close the doors till Monday.

SHORTAGE IN A MINT.

Thousands of Dollars in Gold Gone from a Vault.

PHILADELPHIA, Pa., Sept. 15.—Weighing of the gold in one of the reserve vaults of the mint shows a shortage of a hundred and five thousand dollars. The vault was sealed in 1887. The seals show that the door has not been opened. If there has been an abstraction it must have been through a breach in the walls. The mint officials refuse to talk.

To Make a Vigorous Protest.

WASHINGTON, Sept. 15.—The state department has been notified by the United States consul at Lisbon that Portugal has declared quarantine against the United States on account of cholera. Gresham has instructed the consul to make a vigorous protest.

THE STRIPPERS INCREASE.

Another Booth Established for the Home Seekers.

ARKANSAS CITY, Sept. 15.—A registration booth for strippers was established here this morning. Great crowds gathered about. A large force of clerks pushed the work rapidly and the number at the booth on the border was reduced to twelve hundred, but the number there is steadily increasing.

Another Race for a Cup.

ISLE OF WIGHT, Sept. 15.—The yachts Navahoe and Britannia left this morning to take part in the race for the Cape May cup. Course from the Needles to Cherbourg and back, a distance of one hundred and twenty miles. The race began at noon. There is very light wind and it will probably take twenty-four hours to complete the race. The Cape May cup, like Brenton's Reef cup, which was won from Britannia by the Navahoe last Wednesday was won from the American yachts in the races at New York in 1885 and carried to England by a British yacht owner, where it has remained ever since.

RECEPTION TO THE CHOIR.

A Demonstration in Honor of Utah's Sweet Singers at the Tabernacle on Monday.

Just as the NEWS goes to press it transpires that there is a movement afoot headed by Governor West, who has wired his hearty endorsement, Mayor Baskin, Judge Zane, Elias Morris, Colonel Winder, General Burton, W. E. Hubbard, President of the Chamber of Commerce; Wendell Benson, President of the Business Mens' association; J. C. Conklin, President of the Real Estate exchange, and many other prominent citizens, to tender the Tabernacle choir a reception at the Tabernacle on Monday night. The affair will be in the nature of a concert as well as a reception, the choir and the individual artists who accompanied it on its recent tour, all being expected to participate. Addresses of welcome and congratulation will be delivered by several prominent citizens, and Mr. Stephens will make a brief response on behalf of the choir.

AMUSEMENTS.

Jennie Yeamans, who is to appear at the Theater next Monday and Tuesday night, in Jane, is acknowledged by the dramatic profession generally to be the best American comedienne—an actress whose versatility is something remarkable, considering her great excellence in each line. Pathos is a particularly strong feature of Miss Yeamans's ability, and she will give an example of it in the curtain-raiser which precedes the performance of Jane.

THE CHOIR EN ROUTE.

Good Photos of the Company Taken at Various Points.

C. E. Johnson, of Salisbury and Johnson, was with the Tabernacle choir on their journey to Chicago, and had along with him a photographic apparatus which he made good use of. As a result he now has a series of excellent pictures taken at various points along the route. These include views of the choir on the Temple site at Independence, the procession, with President Woodruff's carriage in the lead, entering Independence from the railway station, the Temple site, exterior and interior of Trinity Church at Denver, where the first concert was given, the choir serenading Henry Irving and party and many other pictures that are interesting as souvenirs of the trip and attractive as works of art. The views are of cabinet size.

MINES AND BUSINESS.

A Party of Ogdenites Start for the Henry Mountains.

PROSPECTS IN SUMMIT COUNTY.

Coal Near the City.—The Wheat Supply.—Street Grading Contracts Closing.

This morning Messrs. John Adkin, John Williams and Michael Hendry started from this city for the Henry Mountains. They are traveling by team, and left Ogden on the trip on Wednesday. They go on a prospecting tour for the yellow metal, and are equipped for a four months' trip in southeastern Utah. It is possible that before they again show themselves in Salt Lake, if their prospects in the Henry Mountains do not show up as well as they desire, they will prove on the Arizona and explore the Superstition Mountain country, about the richness of which so much has been told of late. This part of the trip, however, may never be taken, as a fair prospect in the Henrys would keep the party there, and the most recent reports from the Superstition Mountains throw doubts on the reliability of the glowing reports sent out from there.

Messrs. Hendry, Williams and Adkin intend to go south to Salina, Sevier county, where they will procure a Freeman dry washer for extracting gold from placers, and will then direct their course eastward from the line of railway direct to the Henry Mountain district.

THE WHEAT CROP.

There is reasonable certainty that the price of wheat will continue to rise until it reaches a point considerably over the present figure, and will command a good price for some time to come. The market decrease in the visible supply of breadstuffs in the country during the past few weeks is such as to cause the increase in prices to be general—a fact that gives decided encouragement to the inhabitants of the wheat-producing sections.

The report of the agricultural department at Washington shows that there will be a considerably smaller crop of wheat this year than last. It estimates the crops, in bushels, of the various states for 1893 as follows:

Ohio	[illegible]
Indiana	[illegible]
California	[illegible]
Michigan	[illegible]
Kansas	[illegible]
Missouri	[illegible]
Illinois	[illegible]
Kentucky	[illegible]
Wisconsin	[illegible]
Tennessee	[illegible]
Texas	[illegible]
Total winter	[illegible]
Minnesota	[illegible]
North Dakota	[illegible]
South Dakota	[illegible]
Nebraska	[illegible]
Oregon	[illegible]
Washington	[illegible]
Iowa	[illegible]
Other states	[illegible]
Total spring	[illegible]
Grand total	[illegible]

The crop for 1892 was 515,949,000 bushels, thus making the apparent decrease this year 105,474,000 bushels.

COAL DISCOVERY.

A discovery of coal in the mountains seventeen miles east of this city is reported by Mr. Sidney and Mr. Smith, who brought some of the croppings in to the city yesterday afternoon. It was lined and burned freely, with a strong heat. The discoverers have made a location, and expect to develop a coal vein that will prove a bonanza.

IN SUMMIT COUNTY.

B. Hulam Jr. has returned from a trip through Summit county, which he made on horseback. The outing has improved his health and given him a rugged appearance. He says that while everything in the Summit county towns is quiet the people are all busy and feel first rate. He is pleased with that section of the country, and says it is a good place for those who are unable to find employment in the cities and who have energy and pluck to make themselves good homes and a comfortable living.

THE STREET GRADING.

Watson Brothers & Burt, who have been doing the grading of the streets for the pavers, have about completed their contracts in this line. The work will be virtually finished tomorrow evening. The contractors have given work to from twenty to twenty-five teams and forty to fifty men for several months past, who those must now look elsewhere for a job and be idle in the event of failing to find one.

SALT LAKE CLEARING HOUSE.

Today's clearing house exchanges announced to $[illegible].

TODAY'S QUOTATIONS.

New York — Silver, 73¼; lead, $3.80.

London—Silver, 34¼.

ORE AND BULLION.

Wells, Fargo & Co. received today: Mingo bullion, $[illegible].

T. R. Jones & Co. received today: Bullion, $[illegible].

Tabernacle Choir Concert.

A correspondent asks: "Would it not be beneficial to the choir and also to our country brethren and sisters if the proposed concert was put off until Conference week?"

What do you think about it, conductor and choir?

LEGAL HAPPENINGS.

About That Flock of Sheep.—This Day's Probate Court.—Clerk Bache Doing Well.—Notes.

The legal machinery of the Third district court ran slowly today, all the time having been taken up with the further hearing of the sheep case, reported in yesterday's NEWS, in which White & Sons company are the plaintiffs and A. M. Woolley et al the defendants.

TOMORROW'S PROGRAM.

Judge Zane will hear the usual Saturday motions tomorrow.

MR. BACHE'S CONDITION.

Supreme Court Clerk Bache is doing nicely, but some time may elapse before he is on active duty again.

TODAY'S PROBATE COURT.

Estate of Martin Busch, deceased. Hearing on petition for distribution and decree made as prayed.

Estate of John Shackleton, deceased. Continued till Wednesday, Sept. 27th.

Estate of Edward Fairbourn, deceased. Order made allowing due and legal notice to creditors.

Estate of Frank Crocker, deceased. Hearing on final account and petition for final distribution. Proceeding.

COURT NOTES.

The damage suit of Lars Jenson vs the Salt Lake Rapid Transit company occupied Justice Whitehorn's time all yesterday afternoon. The plaintiff claims that the defendants killed one of his horses on State road near Murray, and demands damages in the sum of $115. The hearing was resumed this morning.

John C. Devine last evening filed a suit in the Third district court against Hosea M. Whitney et al to collect $13,-153.34 on a promissory note secured by a mortgage.

A transcript on appeal has been filed in the Supreme court in the case of the American Publishing company vs. the A. Fisher Brewing company. Plaintiffs are the appellants. The case, it will be remembered, occupied a long time in hearing in the Third district court some four months ago.

Y. L. M. I. A. Conference, Box Elder.

The quarterly conference of the Y. L. M. I. A. of Box Elder Stake was held in the Tabernacle of Brigham City, on Wednesday, September 13th, 1893, at 10 o'clock. President M. J. Snow and Sister Marie Y. Dougall of Salt Lake City, besides a representative of Stake officers, occupied the stand.

After the usual exercises of singing and prayer, a very interesting program, showing much care and thought, was carried out as follows:

Opening address of welcome by Minnie Loveland Snow.

Biographical sketch of Lady Somerset of England by Mrs. Minnie Jensen.

Lecture, "Immortality of the Soul," by Mary Nelson.

After the reading of the reports, Sister M. Y. Dougall addressed those congregated in a few excellent remarks. She encouraged the girls in their labors, urging them to aim at a high standard.

President M. J. Snow spoke with favor on the work we are doing.

The afternoon session opened with a large congregation in attendance.

An excellent sketch on "Women of the Book of Mormon" was given by Vinnie Ralphs.

Recitation, "The Lifeboat," by Clara Sidney.

An essay on home influence was read by Mrs. Jensen.

"Sweet Vale of Rest" was nicely rendered by a quartet composed of members of the choir.

A very comprehensive lecture on physiology and hygiene was delivered by Helena Thompson.

A spiritual treat was given those assembled in the short addresses of Sister M. Y. Dougal, Brother Kelly, Brother Dougal and President M. J. Snow.

The choir sang and the conference was adjourned for three months.

TILLIE S. HORSLEY,
Corresponding Secretary.

Weather and Crop Review.

Acting Director Maxwell, of the weather bureau, makes the following review for the past week:

The past week has been cold and rainy and has retarded the growth of crops and harvesting. Frost reported in several sections, not much damage, except at Heber, Wasatch county; Fremont, Wayne county; Loa, Piute county, and Tropic, two miles west of Losee, Garfield county; these places report considerable damage to potatoes and all tender vegetables. In Wayne county late wheat and oats damaged to great extent. High winds and hail have damaged fruit trees by blowing down and knocking off the fruit and limbs. Corn good crop. Small grain about average.

Latest Court News.

An appeal was entered in the Third district court this afternoon in the case of Isaac Oliver vs Joshua R. Stewart, in which judgment was rendered by J. W. Smith, justice of the peace of Draper precinct, in favor of the plaintiff, on August 7th, 1893.

Abstract of judgment was entered in the Third district court this afternoon in the case of George N. White vs Hardy, Young Co. The suit was tried before Justice of the Peace Hall, who found for the plaintiff for the sum of $126 and $7.25 costs.

Signing the Contract.

The county court yesterday accepted the bid of John Bryan, for the erection of an addition to the county infirmary ($[illegible]), being the lowest of six received. This afternoon all the parties interested met at the county court office to fix up the bond and sign the necessary papers.

Land Office.

George Mumford, of Beaver city, filed in the land office today an application for a homestead entry to the east half of the southeast quarter of section 28, township 29 south, range 7 west.

This afternoon Elizabeth F. Perry, of Cedar City, filed with Receiver Sherman an application for a homestead entry to 158.32 acres described as the south half of the northeast quarter of section 2, the southwest quarter of the northwest quarter, and lot 4 of section 1, township 37 south, range 12 west.

Seth M. Higby, of Castle Dale, also filed an application for homestead entry to the northwest quarter of the northwest quarter of section 13, and the northeast quarter of the northeast quarter and south half of the northeast quarter of section 14, township 19 south, range 8 east.

Samuel Wells Jr., of Cleveland, Emery county, also filed an application for a homestead entry to lots 2, 4 and 5, and the southeast quarter of the northwest quarter of section 6, township 17 south, range 11 east, 159.[illegible] acres.

Home Again.

Misses Elda A. and Grace E. Faust have just returned from California, where they have been for the last year and a half. Grace is much improved in health, and the young ladies' host of friends will be pleased to see them again.

THE GRAND JURY ROOM.

The Case of Sergt. Lintz and Private Sheffield Before the Inquisitors.

More Indictments Found.—A Chinaman Arrested and Brought In.—Work of the Grand Jury.

The most important case before the grand jury today was that in which Sergeant Lintz and Private Sheffield are accused of being concerned in the shooting and killing of Joe Leonard at Fort Douglas, some time ago. The prosecution was represented by Assistant District Attorneys Howat and Richards, both of whom were in attendance. As witnesses at the investigation there were a number of soldiers from Fort Douglas, who had been subpoenaed to give testimony. The result of the examination in the grand jury room was not, of course, made known outside.

This morning the jury went into court and reported to Chief Justice Zane that they had found two indictments under the laws of the United States and three under those of the Territory. What they were will remain a secret with Clerk McMillan until the defendants come up for arraignment.

The grand jury have a good deal of work yet to do, and this will occupy them probably two weeks longer.

Jim Ling, a Chinaman of Commercial street, had been subpoenaed to attend as a witness before the grand jury yesterday, in a case in which some boys are charged with the recent killing of a fellow-countryman of Ling. As "Jim" did not answer, a bench warrant for his arrest was issued, and this morning he was fetched in by Deputy Marshal Cummock. Long had a valid excuse to offer for his former non-appearance. He has been a very sick man, and that was the reason he was obliged to remain indoors yesterday. He gave his evidence and was then allowed to return to his Commercial street den.

The jurors are sticking close to duty, with Rev. David Utter at their head. It is a long time since a religious minister occupied the place of foreman of that body here.

To the Colored Population.

To the colored citizens of Salt Lake county and city: After a consultation meeting held on the 12th inst. it was unanimously decided that an address be issued calling a mass meeting to be held on Tuesday evening at 8 o'clock sharp, Sept. 19th, at Sandberg's hall, and every colored citizen is requested to be present to consider the late interest of the race.

ANDREW CAMPBELL,
HON. HUDSON,
J. H. SIMPSON,
WM. DEYOUNG,
WM. W. TAYLOR,
Chairman.

DIED SUDDENLY AT CHICAGO.

Hon. James Arnett, a Heavy Salt Lake Property Owner, Passes Away in the World's Fair City.

A telegram was received in this city today by W. E. Gesler, secretary and treasurer of the Salt Lake Abstract, Title, Guaranty and Trust company, announcing the unexpected death in Chicago last evening, of the Hon. James Arnett, a member of the State Board of Equalization of Illinois and a heavy Salt Lake property owner.

Mr. Arnett was a director of the company of which Mr. Gesler is secretary, and visited this city about three times a year. He had many friends here who will deplore his death. No particulars are given.

IT MAKES TEN MILES AN HOUR.

A MASSACHUSETTS MAN HAS A CARRIAGE PROPELLED BY STEAM.

(Springfield Republican.)

C. L. Simonds, of Lynn, has made a steam carriage for his own use that will make ten miles an hour. The carriage weighs only 400 pounds and can carry two persons at a time. It has the appearance of an ordinary carriage in front except there are no provisions made for a horse. The wheels are of cycle make and are four in number. The hind wheels are forty-three inches and the front wheels are thirty-six inches, with rubber tires.

The boiler and engine are just in the rear of the seat and give the carriage the appearance of a fire engine. The steam generates in what is called a porcupine boiler, which weighs 100 pounds. The steam is made by naphtha flames from three jets. The naphtha is kept in a cylinder, enough to last for seven hours, and there is a water tank that will hold ten gallons. The steering part consists of a crank wheel on the footboard, so that the engineer can steer and attend to the engine at the same time.

The Liberal Scandinavian American society are industriously at work under the leadership of their president Councilman John L. Lawson.

EXCITING INCIDENT

Dr. Dogge Prefers Sensational Charges Against a Brother Physician.

A ROW AND A POST MORTEM.

Dr. Richards, the Accused, Exonerated.—Dogge's Arrest Threatened.—The End Not Yet.

The old saying, "When doctors disagree who shall decide?" was a question which presented itself in a most sensational manner to a large proportion of the local medical fraternity today and resulted in themselves answering the query. The particulars of the case and the incidents which led up to it are as follows:

On May 21st of the present year Drs. Richards and Wilcox performed an operation on the person of Mrs. Anna Poulson of Kamas, Summit county. The operation took place in this city and consisted in the removal of an ovarian tumor of extraordinary size. On the 20th of the same month the woman returned to her home as a "cured patient."

Soon after, however, dropsical conditions developed, the ill-fated woman grew rapidly worse and about three months ago returned to this city and again placed herself under the care of her former physicians. A few days ago her husband and friends were informed that her recovery was an almost impossibility.

At this juncture of the case or soon after Dr. Dogge was called in. It appears that he did not altogether agree with the diagnosis and treatment as given by the medical gentlemen who had previously had charge of the case. He also intimated that death was only a question of a few days and proposed to hold a post-mortem examination, a proceeding that Dr. Richards also desired. This morning Mrs. Poulson died in a house at the corner of East and North Temple streets at 5 o'clock. A couple of hours later Drs. Richards and Dogge met at that place. Hot words and serious charges followed, Dr. Richards alleging that he was accused by Dogge of being responsible for the woman's death. The latter was about to proceed with the post-mortem in the presence of a number of friends, Dr. Richards insisted on participating but Dogge positively informed him that he would not even allow him to remain in the room.

Dr. Richards here forbade Dogge from proceeding with the examination; serious charges had been made against himself and he declared that he should be exonerated. The work was accordingly deferred until the arrival of Coroner Taylor and a number of physicians.

The doctors present were: J. S. Richards, Stephen Richards, Wilcox, Beer, Worthington, Plummer, Ewing, Beatty, Dogge, Hasbrouck, Stringham, Kjos and six or eight others, a NEWS reporter and the husband of the deceased.

As the party entered the house, Dr. Dogge inquired: "I would like to know the cause of this interference?"

The Coroner—There has been an accusation of crime and it is my business to ascertain if the charge is true.

Mr. Poulson—I am the husband of this woman and would like to know if I cannot say something.

The Coroner—The case is now in my hands. I propose to see what there is in it. Drs. Plummer and Worthington proceed with the work.

These doctors did as directed and alternately used the knife to ascertain the cause of death. The particular part from which the enlargement had been removed was located and found to be perfectly healed and unaffected. The doctors found that death was the result of consumption of the bowels superinduced by dropsical conditions.

Following this announcement the coroner asked Dr. Dogge:

"Are you satisfied?"

Dr. Dogge—Yes, I think so.

The Coroner—Where, in your opinion, was the seat of trouble and upon what did you base your charges that Dr. Richards had killed this woman?

Dr. Dogge here explained that there was some mistake as to what he did directly charge, whereupon Dr. Richards went directly up to him and asked: "Are you satisfied?"

Dr. Dogge—Yes, sir. The latter then stated to a NEWS reporter that death in his opinion resulted from exhaustion.

The coroner here emphatically addressed himself as follows to Dr. Dogge: "Doctor, I want you to put yourself on record as to this case. Either admit that you are mistaken as to the charges and forever after hold your peace or establish the correctness of what you have claimed?"

This demand caused a lively passage at arms between the Coroner, Drs. Richards, Wilcox and Dogge, and ended in the last named saying nothing further than "I am satisfied."

Bad blood has existed between Richards and Dogge for months, in consequence of the former insisting, as a member of the board of territorial medical examiners, to sign a certificate allowing Dogge to practice, the objection being based on charges of unprofessional conduct and not as some suppose for the reason that he belonged to "another school."

It was stated late this afternoon that Dr. Richards proposes to have Dogge arrested for defamation of character, and sensational disclosures are promised.

Delicate Operation.

Judge Lysander Gee was in from Tooele county today. He is seventy-five years of age, and stood remarkably well a surgical operation which was necessary for his restoration to health. He has been troubled for some time with a malignant growth on the tonsils which had to be removed to avoid strangulation. The operation was necessarily a very delicate one, but it was successfully performed today by Drs. Wilcox and Fowle. Mr. Gee is correspondingly happy at being relieved of a troublesome and dangerous affliction.
