BRYAN CONDEMNS IMPERIAL POLICY

This Nation Must Choose Between an Empire and a Republic.

AN EXPENSIVE ENTERPRISE

Philippines Will Never Offer a Home for Surplus Population—Cannot Endure Half Citizens, Half Vassals.

WINNEMUCCA, NEV., AUG. 28.—Hon. William Jennings Bryan passed through Winnemucca this afternoon on his way to California, where he will call the Vamoosix. He will remain a week in the valley.

Mr. Bryan was met at Golconda, 40 miles east of here, by Hons. George S. Nixon and a representative of the Associated Press. At Winnemucca, the time was too short to enable Mr. Bryan to deliver an address to the large crowd that had gathered. Mr. Bryan spoke briefly concerning the policy of expansion as proposed by the present administration. In part, Mr. Bryan said: "We are told that we have never been in any better shape than at present. Of its all questions of the complexion of life we are stronger than we were during that campaign. On the now question we are gaining steadily.

"The Chicago platform at the convention next year will be reaffirmed intact. In fact, I should a doubt any amendment to the platform will manifest itself in the convention at all.

"The two greatest of the new issues that are before the country are the trusts and the Philippine question.

"In fact, quorum can scarcely be called now, but the trusts have been so satisfied that the question assumes no importance which it did not have in 1896.

"Many methods have been suggested for the extermination of trusts. The best feasible, it seems to me, is to prevent corporations from obtaining a license from the federal government unless they have shown that they have complied with the laws of the State in which it is organized.

"No license can be granted under conditions which will expose the water out of the stock and perverts the consolidated of any interest.

"The nation must choose between being a republic or an empire. This is the issue, and one more simple than it appeared. While same were carried away by the sentiment attending the war, I am sure that the people will think on the part of the people will do them to accept any departure from the principles of self-government as set forth in the Declaration of Independence.

"An imperial policy cannot be defended on any grounds. From a financial standpoint it will be an expense to a large majority of the people and a profit only to the capitalists who would receive exclusive contracts to develop the Philippine islands.

"The idea that we will never offer a home for our surplus population. The white race will not live in the tropics. Only the negro can do that. The white race in India not of 100,000 after 150 years of English possession.

"The imperialistic demands an increase of 25,000 men in the standing army, and a cost of $2,000 will cost the people not less than $100,000,000 a year. That money spent in colonizing the islands of the West would be a source of wealth for far more American citizens than will ever locate in the Philippine islands.

"Talk a religious point of view it cannot be defended. A question at least to be considered with a free government in the United States. This government is ended within half the people are citizens and half vassals."

Blood Poisoning Turns Corn Parting.

VANCOUVER, B. C., AUG. 28.—John Campbell, a pioneer of New Westminster, died today from blood poisoning caused by pricking a corn.

Mrs. Dobbin Gets a Stay.

SAN FRANCISCO, CAL., AUG. 28.—A further stay of execution was granted in the case of Mrs. Cornelia Dobbin, who was to be hanged today so as to permit the completion of the bill of exceptions in the appeal which is to be taken to the supreme court. The bill of exceptions is a very bulky document.

CAPT. OBERLIN CARTER'S CASE.

Counsel McVeagh's Brief Throws Him on a Federal Court Decision.

CHICAGO, AUG. 28.—Frank P. Blair, counsel for Capt. Oberlin M. Carter of the United States regulars corps, in the court-martial trial of Carter, charged with robbing the government, and two years to be dismissed from the army, in a five years' term in the penitentiary, and to pay a fine of $10,000 and costs, a brief was prepared for the court by Wayne McVeagh, of Pennsylvania, minister to Italy during the Garfield administration, and filed today by Colonel Carter, assisted by Colonel Blair, who is expected to review it and make an opinion on the case to the President.

The brief of Capt. Carter's attorney takes the ground that the case of Judge Jon Overton, Mr. McVeagh urging that there is the closest analogy in the case of the man, who, in Judge Overton's case, is a considerable proportion of his time were in attacking municipal corporations.

Mr. McVeagh believes that his client has not asked and will not ask for a pardon, but he believes that he is a victim which he is demanding, but a trial and the orderly and natural outcome of the case, which he will submit special, the appointed "no power of the President," where it has been taken.

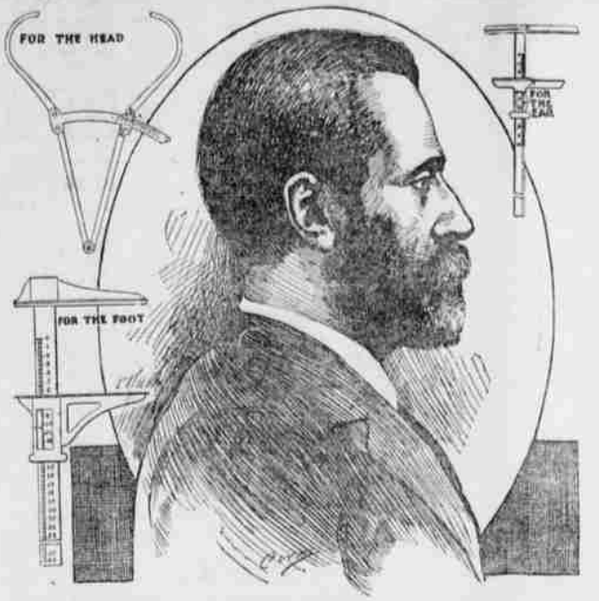
Under the circumstances, however, the brief concludes forward with a strong impeachment of the court whose case is the prison of a civil court.

Walter Wellman Improving.

London, Aug. 28.—A cablegram of this city who has been consulted by Walter Wellman, who arrived in London yesterday after his return from exploration of Franz Jacobsen, reports that Mr. Wellman is improving rapidly. Mr. Wellman was seriously hurt by a fall into a crevice covered everyone will soon be personally, and that he expects Mr. Wellman will be quite well in a few days. The patient will, however, have to undergo two operations. It is thought he will remain here.

Germany and the Dreyfus Case.

Berlin, Aug. 28.—The Cologne Gazette today in an inspired article, replying to the French press says: After the failure of Maj. Parlanetti and Col Schwarzkoppen to continue the people, Colonel Schwarzkoppen intervention in behalf of the unfortunate Dreyfus would be futile, especially as the Dreyfus case has already done more than could be expected by Count von Bulow's adroit handling, which were given as regarding the empire and the emperor, and the Schwarzkoppen's word of honor in his declaration in November, 1897, that he never had any relations with Dreyfus. The Tagblatt says the government might pass the final sentence.



M. BERTILLON AND HIS ANTHROPOMETRICAL INSTRUMENTS.

M. Alphonse Bertillon, whose testimony as a handwriting expert is causing such interest in the Dreyfus case, is well known he would owe as the inventor of the famous Bertillon system for identifying criminals. The arms, legs, hands, feet, ears and other portions of the criminal's anatomy are measured; the measurements are placed upon a card which is arranged so that any one can read and profile photographs of the criminal and, in the measurement of the same or of another, identification is made. The Bertillon system is infallible. There seems to be considerable doubt, however, whether M. Bertillon is as great an expert in calligraphy as he is in anthropometrical records of criminals.

THE LAWYERS IN SESSION

Senator Lindsay Addresses the American Bar Association on Expansion.

Form of Government Has Not Changed—Reports on Commercial and International Law.

Buffalo, N. Y., Aug. 29.—When the American Bar association resumed its session today the auditorium chamber of the city hall was filled with distinguished delegates and ladies of note from different sections of the country, who had assembled to listen to the address of Senator William Lindsay of Kentucky. The senator spoke on the Philippine problem. He concluded his address as follows:

"We have extended our jurisdiction and across the Pacific, but we have not changed the nature of our government, or the character of our institutions. Ours is still a Union of American States and will an equal union to the end. The bond of union by which the States are held together was ordained and established as the 'Constitution for the United States of America.' Our policy, our traditions, our institutions and our glory alike forbid the admission into the Union of any other than a North American state."

The committee on commercial law made its report and proceeded to report next year upon the subject of bankruptcy bankruptcy.

REPORT ON COMMERCIAL LAW.

The report of the committee on commercial law is embodied in the following:

"Your committee on commercial law are of the opinion:

"1. That a bankrupt law is wise and beneficial legislation.

"2. That the general feature of the present bankrupt law should have the approval and support of the bar and the commercial community.

"3. That whatever amendments are made to the provisions of the law relating to voluntary bankruptcy should be in line of a fuller protection to the creditors against fraud in the bankruptcy proceedings.

"4. That the amendments to the provisions of the law relating to involuntary bankruptcy should be along the lines of a better remedy for the creditor for fraud, which is contemplated on the part of the debtor previous to the institution of bankruptcy proceedings.

"5. That the chief bankrupt law is one that let allows every honest debtor to obtain a speedy discharge from his obligations upon the surrender of all his property, which is contained in a complete remedy against actual or contemplated fraud on the part of the bankrupt, by creating the right on the part of debtor or creditor with reasonable severity."

The recommendation of the committee on international law in favor of international arbitration was unanimous is adopted.

INTERNATIONAL LAW.

The report of the committee on international law, under the arbitration agreement concluded between the kingdom of Italy and the Argentine republic, and also the conclusions reached by the Hague conference, at the Hague. Concluding the report says:

"Your committee feel that it is significant which has thus attended the various endeavors that have been made to secure the nations of the civilized world that it is both their duty and their interest to adhere to peaceful measures, when such it may be possible, all causes of difference between them is a subject of great consequence, so far as we have been able to see, in this important movement.

"It marks a distinct advance in the progress of civilization. At the outset you will see very sensible that such measures be found to conduce and inform public opinion on this subject. The treaty negotiated at The Hague is not yet ratified. It is of the first importance that it should be ratified, and ratified by a decisive vote. We, therefore, upon every member of the association, to do all in his power to arouse public attention to this subject and to direct it to the end. The ratification by the Senate of the United States of the action of the delegates of our country at The Hague, and presented for adoption by the association the following resolution:

"Resolved, that the American Bar association renews with emphasis the action of its members made in 1896 and in 1897, in favor of adjustment of controversy between nations by the method of enlightened and civilized arbitration, expresses its great satisfaction that the efforts which have been made to establish an international court have culminated in the adoption of The Hague, and wishes and sincerely expresses for this result and its earnest hope that the Senate of the United States will approve the convention at The Hague and that the administration will take such steps as may be proper to carry it into effect.

The committee on grievances offered a resolution of sympathy with Milton Labert, the defender of Dreyfus on a vote taken on a show vote.

The committee on law reported recommending that law reports be in association in order to secure uniformity of style in law reporting.

At the afternoon session Mr William B. Kennedy, a justice of the Sixth court of justice of England, was introduced and delivered an address on "State Punishment of Crime."

GRIGGS AND CARTER CASE.

Sigh Attorney Will Make His Report Very Broad.

Washington, Aug. 28.—Attorney-General Griggs is expected to return to Washington tomorrow but it is possible that he may not reach here until next Monday. No one knows when the attorney-general will make his report to the President on the Carter case, although there are persistent intimations that it will be made soon. There is some ground for the belief that the attorney-general's report, when it is forthcoming, will be much broader than has surrounded been intended. It is said in some quarters that it will not end with the case of Capt. Carter as shown by the record, but will point out the universality of cases with the case and direct specific attention to them. This, if it proves true, will account for the long period the attorney-general has seen fit to take in the preparation of his report. The record is exceedingly voluminous and the labor and time involved in its examination simply to the bearing on Capt. Carter alone would be immense.

SOVEREIGNTY OVER GUAM.

Captain Leary, Governor, Issues His Proclamation to the Inhabitants.

Informed that a New Political Power Exists—Freed from the Domination of the Clergy.

Baltimore, Aug. 26.—Capt. Richard P. Leary, U. S. N., a native of Baltimore, has arrived at Guam, Ladrone islands, and has established the sovereignty of the United States. A letter received in this city contains a copy of the first proclamation of Capt. Leary as governor of the island, to the natives. It is in part as follows:

"That you, the inhabitants of Guam are hereby informed that in establishing a new political power the authority of the United States will be exerted for the security of the persons and property of the people of the island and for the confirmation of all your private rights and liberties. These all political rights heretofore exercised by the enemy in dominating the people of this island are never abridged, and everyone is guaranteed absolute freedom of worship and full protection in the free exercise of life, and in long as the protection is deserved by actual submission to and compliance with the requirements of the government of the United States.

"The full public lands and property and all rights and privileges on such shore, or in the contiguous waters of the island that belonged to Spain at the time of the surrender now belong to the United States, and all persons or associations that may be entitled to any such rights must present their claims to proper authority for the purpose of the United States government. That for the present preservation of law and order the existing laws not conflicting with the provisions of this proclamation shall continue in force, unless modified or amended by competent authority, and all persons are enjoined to render prompt obedience to the same in order that the blessings of good government, coupled with the security of property for the greatest good for the greatest number may be the heritage of all residents of the island as worthy citizens of the island of Guam, under the free flag of the United States."

TEA CULTURE EXPERIMENTS.

Prof. Elwood Mead Take Charge of These by Irrigation.

Cheyenne, Wyo., Aug. 28.—Prof. Elwood Mead, irrigation expert in charge of irrigation investigations, was seized this morning by the department of agriculture, that he is to take charge of the proposed experiments in tea culture by irrigation in the United States. Prof. Mead, the special agent in charge of the experiments, has been directed to report to Prof. Mead for instructions in the matter of conducting the experiments, and is authorized to expect $50 for the purpose of necessary expenses for the work. There is $100 available for experimenting in this matter. Secretary Wilson of the department of agriculture is greatly interested in the experiments, and every effort will be made to determine whether tea can be cultivated profitably in the United States. The annual importation of tea into the United States is 90,000,000 pounds, valued at $10,000,000. At the present time no tea is grown for commercial purposes in the United States. The best tea are grown by irrigation in climates, elevations and soils similar to the same conditions. Which, if it be proved, may be found in the United States, the tea plants for experiments are looked upon as the starting point of a new and profitable home industry.

REVOLUTIONISTS PIONEER TOWNS.

Consul Simpson at Puerto Plata Sends In Notes the State Department.

Washington, Aug. 28.—The state department has received the following dispatch from Consul Simpson at Puerto Plata, Santo Domingo:

"Puerto Plata, Aug. 23.—News has reached here from Santo Domingo confirming the report of the defeat by the revolutionists of the Dominican troops, commanded by the government forces, who had thirty men killed and forty-five wounded, carried off. In addition, Gen. Pepin was compelled to abandon a course of procedure to Puerto Plata. Gen. Jimenez has taken over Monte Cristo from the revolutionists under Gen. Desarro and the government troops commanded by Gen. Guillin.

WYOMING AND IDAHO TROOPS.

Transport Grant Arrives in San Francisco With Them.

FIVE DEATHS ON VOYAGE.

Total Number of Persons Aboard is 1,610—Vessel Was Fumigated at Nagasaki.

San Francisco, Aug. 29.—The United States transport Grant, bearing the Idaho, North Dakota and Wyoming volunteers arrived here tonight exactly before midnight. The troops left Manila on Aug. 1, touched at Nagasaki and Yokohama, and left the latter port for San Francisco on Aug. 16th. Owing to the absence of the boat the regular quarantine officer did not board the steamer, and proceeding her immediately she will be in the stream, and will be boarded in an early hour tomorrow morning.

Taxis was the longest delayed voyage for the reception of the returning soldiers, the whole number, including those from Manila, being 1,610. The Grant fumigated and taken under Health Officer. The reception party included a breakfast for the boys on the day of their debarkation, and a banquet on the evening after they reach their waiting quarters.

Before the transport was started, orders had been given for Maj. Gen. Merritt to the Dakota of the Pacific Coast Infantry and to Maj. Eller of the California artillery to deal their companies in readiness to receive the men coming in on the Grant from the wharf in the Presidio.

The ship lands at San Francisco in officers and its enlisted men of the First North Dakota infantry, U. S. V., 38 officers and 1,0 enlisted men of the First Idaho Infantry, U. S.
