

**CHRISTIE AND
MCARTHY BOUT**

Fast Boxers Scheduled to Go 20
Rounds Tomorrow Night.

BOTH IN FINE CONDITION.

Men Will Weigh in at Ring Side at
155 Pounds—Each is Confident
Of Victory.

After taking no part in a flat contest for more than a year, Jack Christie, champion middleweight boxer of Utah, will step into the ring arena tomorrow night to do battle against Jerry McCarthy, the Walkerville pet, who has made quite a record for himself during the last few months. This contest has been talked of for a long time and has aroused considerable interest, and the ring followers expect to see one of the prettiest contests of the kind ever pulled off here. The bout will take place at the Salt Lake Athletic club under the management of Jack McGinnis. The men will weigh in at the ring side, and each must weigh more than 155 pounds or forfeit \$100. The rule will be under Marquis of Queensbury rules, and as the articles have been framed up, the men will be pretty evenly matched. They are now both in first class physical condition. Each has trained faithfully for several weeks and claim to be within the weight limit. Christie is the taller of the two, has a longer reach and is considered more clever than McCarthy. But the latter has an advantage in strength and endurance and the style of hitting agreed upon suits him best, so that after all neither one has any marked advantage over the other. McCarthy has been training at the first department headquarters, where he has had a most convenient gymnasium. He has made many friends over there and if he loses, none of the boys will be a loser. Christie has been doing his preparatory work at Eugene Thompson's gymnasium and he has had that the right because the Salt Lake players are paid a salary while the others are paid on a percentage basis, and it is believed that if the same scheme was applied to the local team they would play better ball and run away from Ogden. It is noticed that when Ogden is a big crowd, the Ogden crowd usually carry off the long end of the money bag. They will be well paid to play together and for it. The local team can do the same.

ON PERCENTAGE BASIS.

Good Scheme Thought Of For Players on Maroon Team.

Certain ones who are deeply interested in the Maroon team, and who notice that Ogden is head of the local bunch in the matter of games, have suggested the idea that it would be good if the local players were put on a percentage basis. The Salt Lake players are paid a salary while the others are paid on a percentage basis, and it is believed that if the same scheme was applied to the local team they would play better ball and run away from Ogden. It is noticed that when Ogden is a big crowd, the Ogden crowd usually carry off the long end of the money bag. They will be well paid to play together and for it. The local team can do the same.

NO SUNDAY FISHING.

It Will Be Permitted Until Monday Morning.

Those who imagine they will be permitted to fish next Sunday will be a big mistake if they try it, for all the streams will be lined with game wardens and those who try to catch the sporty trout will be arrested. The law plainly states that fishing will be permitted only between the 10th day of June of each year and the 15th day of December. Understood that this means it will be unlawful to fish until Monday morning.

BIKE RACES TONIGHT.

Another Big Match Race Is On the Program.

Manager Scheff of the Salt Palace track has a good program for the cycle fans tonight. The main event will be a three-mile paced race between young Hopper and Orlando Stevens, two of the fastest men in the city, and the race promises to be a hair raising affair. The professionals will have a chance at the money in a five-mile race with prizes at each lap and at the end of the race, and several sprint events will be participated in by the amateurs.

Ogdenites Were Beaten.

Postmaster Thomas' boys in grey ran rings around the Weber county Savages at Lagoon Sunday afternoon to the tune of 2 to 15. The Ogdenites were not in it at any stage of the game, and the race they got was merely a glorified walk. Howdy Young's pitching was the feature of the game, as he is only 17 years of age, yet he has been in the line tearing up the atmosphere in one-two-three order. Salt Lake pumped all over every pitcher Ogden tried and backed them out of the box. Randolph's ball tossers were "it." The lineup follows:

Salt Lake, Ogden, Davis, Young, Heath, Crookwell, Leaven, Randolph, Neuen-Knowlton, Trent, Detroit, New York, Washington. Score: Salt Lake, 25; Ogden, 12. Um wire, Smoot.

KISSED AND MADE UP.

Martin Julian and Bob Fitzsimmons Have Barred the Hatchet.

New York, June 8—When Bob Fitzsimmons enters the ring again to battle with him in all probability he will be under the management of his brother-in-law and corner man, Martin Julian. The latter and Fitzsimmons had not been on very friendly terms for a couple of years, but the recent death of Mrs. Fitzsimmons, who was Julian's sister, seems to have brought the two men together again, and from all appearances they are once more the best of friends. The other day Fitzsimmons and Julian attended the races together, and a friend who was with them at the time said that Julian's management, having won the championship from Corbett at Carson City, Julian still thinks there are many good fights in the Cornishman, and he holds the opinion that Fitzsimmons can defeat any man in the profession who is with the possible exception of the present champion, Jim Jeffries.

While Fitzsimmons may be well along in years he nevertheless possesses the one essential qualification for a fighter—the punch. He has a wonderful whang which no opponent except Jeffries has ever been able to withstand.

CHANGE IN RULES.

Football to Be Different According To Water Camp.

New Haven, Conn., June 8—The football rules committee, which held a meeting in a dining room at the Water Camp, after a revision of rules, reached an agreement to make alterations in the rules, according to a statement by Walter Camp, chairman of the committee. Mr. Camp said:

"We practically agreed to make changes in the rules governing the number of men who are to be kept in the rush line and with regard to the quarterback. We will wait one week to see how the new rules require that between the two 25-yard lines from a one 25-yard line to the other there will be required in the line inside the 25-yard line there will be no such requirement.

"The rule will allow the quarterback in the same section of the field to run with ball provided he cross the line of scrimmage at least five yards from where it is put in play.

Trotting Horses Sold.

New York, June 8—Twenty-five trotting bred carriage horses have been disposed of at a public auction sale in this city for \$19,125. The highest price, \$4,000, was paid by St. Hywater for a pair of chestnut bays, one of which won the Blue Ribbon in single harness at the Durland Horse Show last spring.

Drake Gets Gray.

Chicago, Ill., June 8—John A. Drake has signed Jockey Charley Gray for the remainder of the present season at a good salary and the boy will wear the Drake colors at Saratoga and the other big eastern tracks where Lester Reiff is not permitted to ride. Drake can make the most of Drake's horses in the Derby and Lester Reiff on the other.

Savable a Favorite.

Chicago, June 8—John A. Drake's Savable, at present the favorite in the American Derby, gave McKinstry a beating at Harbison today in one of the best late run races of the year.

Chicago, June 7—Savable, the candidate of John A. Drake of Chicago, and Irish Lad, the property of Harry Payne Whitney and Hermann Jureys of New York, are running neck and neck as favorites for the American Derby.

What He Left Her.

"Big" Jim Kennedy has a rooted dislike to what he terms "fools who make money only built for questions." He closed the mouth of one of these questioners somewhat effectively last week. A well-known acquaintance had just died and the

inquisitive man was discussing the sad occurrence with Kennedy.

"Had a wife, hadn't he?" asked the man, referring to the deceased.

"Yes," said Kennedy shortly.

"Pretty rich, wasn't he?"

"Yes."

"Do you know what he left his wife?"

"No."

"Well, you tell me; I'll keep quiet about it."

"Well," confidentially, "what did he leave her?"

"A widow," growled Kennedy, turning away.

RIVER NOW RECEIDING.

Crest of Mississippi Flood Has Passed St. Louis.

St. Louis, June 8—At the rate of from eight to ten miles an hour the Mississippi river, over half a mile wide and 90 feet deep in the channel, is pouring past St. Louis toward the Gulf. For a week the river, slowly at first, and then rapidly, has been coming out of its ordinary confines until on June 8, 1903, it had established a high water mark of 37.5 feet, the highest flood tide since the same mark was unofficially established in 1858. The river is now receding. Thirty feet above low water mark is the danger line for St. Louis and the river rose 7 1/2 feet above the danger line.

The crest of the flood has passed St. Louis and any further destruction to be wrought will be from the possible crumbling of undermined buildings, and to the counter-blowing point, danger of which is lessened by the spreading of the river over the low lands.

Rapid falling of the water, it is expected, will quickly drain the mud from the section of the Illinois side, where the property loss will be heaviest and repairs to the damaged property will soon be possible.

Reports are coming in from Madison, Granite City and Venice, which indicate that the death list may be larger than first estimated. At least 20 people have been drowned in that vicinity. A report was received early today from New York, a small town three miles from Granite City, that a school building in which are sheltered 10 children was tottering and threatened to collapse at any moment. Appare was being made for assistance but there was no way to reach them from St. Louis or East St. Louis, the only place that can now render aid.

City Atty. Robert Hageman of Venice, is reported by his relatives to be missing and they fear he perished when the city was overwhelmed. Deputy Coroner William Balch of Madison county and his son, who lived in Venice have been given up as lost. William Anchor and Mrs. Clifton and her infant have been missing for several days and it is thought they perished.

In one party of refugees near Edwardsville, four cases of smallpox developed yesterday. The officials of Madison county are doing all in their power to locate the cases and prevent a spread of the disease.

Numerous families, penniless and having no friends to whom to go, refuse to leave their flooded homes. In many cases these people are actually starving and food will be furnished them by men in shifts at once.

MIDWAY ISLAND STATION.

U. S. Tug Iroquois for It to Assist Cable Ship.

Honolulu, June 2—(Special Correspondence of the Associated Press.)—The United States tug Iroquois left on May 28 for Midway Island, which will be a cable station. The Iroquois will assist the cable ship. In any way possible and Capt. Pond, who goes on board with Capt. Rodman, commander of the vessel, will report on a site for a light house. It is expected that the island will be used as a calling place by vessels when it is in cable communication with the world. Capt. Pond will also make a report on plans for fortifying the island, it is stated.

Collector Chamberlain of the Internal revenue office has received orders to send to Washington a report of his office in connection with the registration of Chinese. About 80,000 Chinese were given certificates of registration by Chamberlain and duplicates were kept, which will now be sent to Washington. There are nearly 200 which were never called for and the local Chinese consul is publishing a list, in the hope of having the owners call for them before the documents are sent away.

HARVARD SCHOLARSHIP.

John K. Bonnell of Stanford Gets It This Year.

Stanford University, Cal., June 8.—The graduate scholarship at Harvard University, given each year by the Harvard club of San Francisco, has just been awarded to John K. Bonnell, of Stanford, who recently received his diploma from the English department with the class of 1903. The appointment will enable him to continue at the eastern institution the literary and artistic work which has made him well known here. The scholar has received to open to students of both Stanford and the University of California.

It has been given annually by the Harvard club for the past 15 years, but has been more frequently allotted to graduates of the state university. Bonnell came to Palo Alto in 1895 from Philadelphia.

Chicago Laundry Trouble.

Chicago, June 9—At a meeting of the Laundry Workers' union last night it was voted to reconsider the agreement made by the union in reference to open shops, the vote standing 257 to 170.

The agreement containing this clause was signed last Saturday night, and terminated the long laundry strike.

The action taken last night was the forerunner of a vote that will be taken at a special meeting to be held when the "open shop" proposition will be submitted to a final vote.

Much dissatisfaction was expressed at the meeting over the "open shop" agreement, which it was said would ultimately result in the wedding out of all union employees.

An Irish Meeting Suppressed.

Dublin, June 9—An Irish National league meeting announced to take place at Falso, Waterford, Sunday, was suppressed by the police. The members of the league, however, assembled in a field outside of town, at which the proposal of the corporation of Waterford to present an address to King Edward on the occasion of the king's proposed visit to Ireland, was denounced.

To Convert Italian Rentes.

Rome, June 9.—The minister of the treasury has presented to the chamber of deputies a bill to convert the 4 1/2 per cent Italian rents into 3 1/2 per cent. The minister, moreover, asks authority to eventually convert the 5 and 4 per cent into 3 1/2 per cent without requiring to apply again to parliament.

Police Measuring Machine Defective.

New York, June 9—An investigation has been started by the civil service board and Commissioner of Police Greene, into a charge first made that the machine, which has been used at headquarters for years for measuring applicants for the force is defective.

If the machine is as far wrong as alleged, there may be found to be many policemen on the force too short for their jobs. According to an official inspection of the machine, it appears that the apparatus can be so manipulated that a man being measured can add half an inch to his height, which necessarily must be five feet seven and a half inches. It is asserted that a scheme has been found possible whereby the electric mechanism showing that the person being measured is

standing squarely on his heels can be manipulated by the pressure from one heel, enabling the applicant to raise himself a trifle beyond his true height.

"Yes," said Kennedy shortly.

"Pretty rich, wasn't he?"

"Yes."

"Do you know what he left his wife?"

"No."

"Well, you tell me; I'll keep quiet about it."

"Well," confidentially, "what did he leave her?"

George O'Brien Arrested.

Kalispell, Mont., June 8.—George O'Brien, who killed John Flynn at Rexford, on June 1, has been arrested at Tobacco Plains and is in custody of Deputy Sheriff George Rich. With him was arrested John O'Neill, known as Dempsey, who is wanted at Fernie, B. C., for murder. The men were in a railroad grading camp when caught. O'Brien killed Flynn for the money in the till of his store and saloon.

Scientists Going to Alaska.

Seattle, Wash., June 8.—Frederick A. Cook, a scientist of New York; Robert A. Dunn, a young geologist of Harvard, and Ralph Shumway, a young biologist graduate of Columbia, forming the Cook expedition en route to Alaska, to make an ascent to the summit of Mount McKinley, the highest peak on the American continent, arrived in Seattle. The party has secured 15 pack horses which will be taken to Cook's Inlet tomorrow.

Included in the 1,200 pounds of food supplies will be special preparations for use while on the ascent. The equipment consists of alpine axes, glacial ropes, alcohol and petroleum stoves, a silk tent, weighing less than three pounds, capable of accommodating the party, sleeping bags, which may be used as overcoats, cameras, etc.

Should the summit be reached, as every confidence is expressed by each of the party, the atmospheric conditions will be first observed.

Ladies and Children Invited.

All ladies and children who cannot stand the shocking strain of lavative syrups, cathartics, etc., are invited to try the famous Little Early Biscuits. They are different from all other pills. They do not purge the system, even a double dose will not grip, weaken or sicken. Many people call them the Easy Biscuits. They are made of pure sugar, and are different from all other pills.
