FORTY-SEVENTH CONGRESS.

SENATE.

WASHINGTON, 11.—After remarks by George, Morgan and Sherman, Conger's motion prevailed, and the liquor bill was taken up—yeas 26, nays 24—a party vote, except that Maxey and Davis, of Illinois, voted aye with the republicans. Mahone also voted aye; Merrill voted no with the democrats. The pending amendment of Bayard was lost by a party vote—ayes 24, nays 25. Cameron, of Wisconsin, and Davis, of Illinois, voted aye with the democrats. The bill was then reported to the Senate from the committee of the whole and the number of the commission fixed at seven in order that the diverse sentiments on the temperance issue might be sufficiently represented, and the time within which the commission shall report fixed at 18 months. The bill then passed—ayes 34, nays 14.

Kellogg, Jones, of Nevada, Windom, Cameron, of Wisconsin, and Teller paired with Farley, Williams, Davis, of West Virginia, Jackson and Johnson against. Brown paired with Saunders. The bill provides for the appointment by the President and confirmation by the Senate of a commission of seven persons, not more than four of whom shall be of the same political party, to be advocates of prohibition, to hold office not exceeding two years, who shall investigate the alcoholic liquor traffic, its relations to revenue and taxation, and its general economic and criminal, moral and scientific aspects, in connection with pauperism, crime, social vice, public health and the general welfare, and who shall inquire into the principal results of license and prohibitory legislation. The commissioners are to serve without salary, and report within 18 months after the passage of the act. An appropriation of $10,000 is made for their expenses.

A protracted struggle for precedence of consideration for pending measures, in which the respective merits of the tariff commission bill, Japanese indemnity fund and Presidential count measures were debated at length, and occupied the remainder of the day.

The charge by Beck that protectionists were seeking tod elay action on the tariff, and that journals owned by them had made avowals to this effect, was made by counter charges.

The chair ruled the discussion out of order, as involving the merits of bills not under consideration.

The motion to proceed to the Japanese indemnity fund bill was negatived, yeas 14, nays 34, and then, on motion of Bayard the tariff bill was taken up an informally laid aside as unfinished business for Monday.

Voorhees introduced a bill appropriating $125,000 for the improvement of the Wabash River. Adjourned till Monday.

AMERICAN.

Missing Papers.

WASHINGTON, 11.—Francis O. St. Clair, chief clerk of the consular bureau, State Department, testified he would recognize the right of the chief clerk or Secretary to withdraw any papers from his custody, but no other persons. Some time after witness was made Chief of the Bureau, a call was made for certain letters of the Shepherd correspondence. I made search for a certain letter indited in my handwriting, and asked Blaine if the Secretary had it. He said he did not know but would see if it was at his house. After this I did not hear any more about it. I was under the impression that either Trescott or Secretary Blaine had called for the papers. In August the disclosure was made that several letters were missing. I failed to find any of them. I never said anything to the Secretary on the subject and never heard anything further from Walker Blaine. Trescott frequently called for papers, and we used to let him have them without orders from the Secretary. I understood that Trescott was employed by the department as counsel. No original papers are permitted to be taken from the department. Trescott was investigating Chili and Peru, and my impression is that he called for them. No persons other than those known to be employed in the department are allowed in the department. It is my impression that Trescott was assigned the duty of preparing drafts of letters on the Chili-Peru affair. He had a room in the department, but I don't know of my own knowledge if he had any official position in the department He appeared to act in confidential relations with the Secretary. I presume the letters were found at that time in August, and it is my impression they will be found now at Trescott's house in this city. They were marked "Private. Return to—Sheperd." Trescott never called on witness for any papers; never saw Sheperd at the department; never heard of his having been there.

Representative Belmont called attention to the gravity of the subject under investigation, reading from the statutes. The punishment for such an act is that the offender shall pay a fine of not more than $2,000, or suffer imprisonment at labor not more than three years, or both.

New Planet.

The Smithsonian Institute received from Prof. Foester, of Berlin, announcement of the discovery, before Palisa, the 10th of March, of a planet of the 13th magnitude, 11 hours, 10 minutes, right ascensions, 8 deg., 18 minutes north declination; daily motion four seconds.

The Chinese Bill.

The Chinese bill passed by the Senate was sent to the House of Representatives this afternoon and given its proper place on the Speaker's table. There are thirty-five bills ahead of it, the first being the anti-polygamy bill, and the fifth the Grant retirement measure. Beside these there are fifteen private and public bills and six public measures of small importance. All of these bills, except the anti-polygamy and two or three unimportant measures, will, when reached, be referred to the standing committee of the whole, under the rule applicable to all bills which involve an appropriation of money or other public property, and a motion to proceed to the business on the Speaker's table is in order and may be carried by a majority vote on any day except Monday and Friday, immediately after the morning hour. It will thus be seen that in case the consideration of the House committee's Chinese bill is delayed much longer than next Tuesday, for which date and from day to day thereafter it has been assigned, subject to the regular appropriation bills, there will possibly be an opportunity to pass the Senate bill directly from the Speaker's table, about as early a period as could then be found available for basing parliamentary action upon the House bill.

House Bills.

All democrats cannot be depended upon to oppose the proposed change in the House rules. Several democratic members have been in consultation with a view to calling another caucus to procure a change in the programme of opposition, so as to suggest a modification of the proposed amendments instead of unconstitutional opposition to them. It is evident to all that under the present rules scarcely any bill calling for the expenditure of money will stand any show of passing. Members interested in new public buildings, the improvement of the Missis-ippi, etc., are very loth to go home without something being done for their measures. Messrs. Robinson and Reed are very confident the proposed amendment will be adopted when their intent is more fully understood.

Washington's Admission.

Delegate Brent's bill, to provide for admission into the Union of the State of Washington, has been reported from the House committee on Territories, with amendments, which wholly strike out the provision for including part of Idaho Territory within the boundaries of the proposed State.

Crow Indian Children.

Agent Armstrong has been instructed by the Secretary of the Interior to send 100 Crow children, under his care at the Crow Agency, Montana, to certain farmers in Ohio, to be educated and reared up to usefulness.

Deficiency Bill.

The urgent deficiency bill, as finally passed by both Houses and approved by the President, provides an additional vault in the San Francisco mint, and also appropriates $1,000 for repairing and enlarging vaults and safes of the San Francisco sub-treasury, and to pay for one additional watchman.

Call for Bonds.

Secretary Folger contemplates issuing a call for bonds of continued 6s to the amount of $15,000,000, payable in three parts of about $5,000,000, on the 3d, 10th and 18th of May.

Troops for Nebraska.

The President authorized the use of troops to aid the Governor of Nebraska to suppress disturbances in Omaha. Orders are sent to General Sheridan.

Female Bicycle Rider.

ST. LOUIS, 11.—Miss Armada covered 102 miles in her 600-mile bicycle contest against time, making 316 miles for three days.

The Omaha Rioters.

OMAHA, 11.—Col. Colby, with eight companies of State militia, arrived this morning, and Captain Adams, of the Fifth Cavalry, will arrive with three companies of regulars this noon from Fort Sadler. The laborers will resume work at noon, and it is believed these forces will suffice to protect them from the strikers. The latter have begun Boycotting men who refuse to contribute to their relief funds.

Chinese Voters.

NEW YORK, 11.—On the question of Chinese, the *Tribune* says: The interest which Chinamen in this city take in the question, and the fact that they read the papers, was illustrated in the office of the clerk of the Court of Common Pleas yesterday. Three of them hurried in and wanted to get at once their papers to "votes," but Jarose, clerk of the court, found that they had never declared their intentions, and therefore they had to stop at that point, and will have to wait two years before they can "votee." Of course, if the bill is passed by the Senate and the amendment becomes law, it will prevent the State as well as the Federal courts from issuing any more naturalization papers to Chinamen, but the fifteenth amendment to the Constitution protects those already naturalized.

Mason Sentenced.

The finding of the court martial of Sergeant Mason, who shot at Guiteau last September, was made public yesterday by an order issued by General Hancock, from headquarters of the department of the East, at Governor's Island. The court martial find him guilty, and pronounces sentence as follows: "To be dishonorably discharged from the service of the United States, with loss of all pay now due, or to become due to him, and then to be confined at hard labor in such penitentiary as the proper authorities may direct for eight years." The order issued yesterday states that the findings have been approved, and that sentence will be duly executed. The penitentiary at Albany is designated as the place of Mason's confinement. He is now at Washington, and will be held there until further orders. The selection of the Albany penitentiary as the place of imprisonment for Mason, is subject to the approval of the Secretary of War.

New York Trade.

Business in the general market progresses slowly, though in some departments there is a quicker movement, and with the advent of settled weather, the prospects are for an active season. Wheat remains firm. Market reports were of rather better purport from Europe, but not enough so to compensate for higher prices ruling here. Export dealings appear for the time to be checked by the extreme views of holders, which, however, are largely built upon the unsubstantial foundation of speculative influences. Barley remains quiet, nominal. Provisions rather more active and firm. Rio coffee, moderate demand, but firmly held. Refined sugars, quite active and very firm. Teas offered freely at auction, and prices mostly in buyers' favor. Foreign fruits, very moderate demand. Valencia raisins and prunes firmly held, other goods about steady. Dried apples, better demand, prices steady. Borax, fair request, firm. Quicksilver dull, 41 cents. Molasses, quiet, sales 200 bags; California yellow, 2 2-3. Hides, dull, holders refusing to make concessions. Leather, light demand, prices about steady. Turpentine, dull, easier. Rosins, good demand at full prices. Petroleum, quiet, cases easier. Crude sperm and white oils very quiet, but firmly held, full prices. Hardware, fairly active and prices maintained. Nails, dull, prices easier. Pig iron, unchanged. Pig lead, slow, at 5@5.05. Tin plates, dull, easier. Wool, very dull, prices entirely nominal. Sales of California include 38,000 pounds spring at 26@28; 115,000 pounds fall at 14½@29. Dry goods, moderate demand, prices firm.

Longest Railroad in the World.

BOSTON, 11.—The *Post* says that after two days' negotiation, the Atchison, Topeka & Santa Fe Railroad Company have purchased the Sonora Railroad and secured an independent line to the Pacific. The contract of the sale provides that the Atchison shall guarantee the interest upon the first mortgage 7 per cent. bonds and issue one share of Atchison stock for two shares of Sonora stock. This gives the Atchison road a valuable property for guaranty upon the bonds, providing that the subsidy is fully paid. The subsidy paid and to be paid amounts to $2,608,200 in gold, while the Atchison road gives but $2,700,000 in stock at par for Sonora stock. This purchase gives the Atchison system an independent Pacific coast outlet and completes the longest continuous railway in the world. All stocks had a boom on this information to-day.

Wool.

There is a steady demand for wool, and under the influence of favorable advices from England, prices are well sustained. The sales of the week have been 2,500 pounds in all.

The Mississippi 50 Miles Wide.

MEMPHIS, 11. — Captain J. M. Lee, appointed by the Secretary of War to ascertain the condition of affairs in Mississippi, returned tonight from Arkansas City. He said that no idea of the true condition of the country overflowed can be imagined without been seen. From a point twenty miles below Memphis where the first break in the levee occurred, the entire country is one vast sea of water. People all through the submerged region are utterly destitute, and in a starving condition. Their stock has been drowned, and they are living in gin-houses, hay-lofts and upper stories of cabins. Hundreds subsist on hard corn. Many have been temporarily relieved by the distribution of government rations, but others could not be reached, and suffering is very great. The levee along the river front is broken in forty different places between Memphis and Arkansas City, and at some points the river is fifty miles wide. All published reports have fallen far short of giving any idea of the damage done, or destitution prevailing. His first estimate made to the Secretary of War that 260,000 rations would be required to feed the 18,000 needy in the State of Mississippi will, he says, fall short, as the destitute will probably be double the number first estimated. Captain Lee will telegraph Secretary Lincoln and await further instructions here.

Two Acres of Ground Sink.

WILKESBARRE, Pa., 11.—This afternoon at the Baltimore mines, owned by the Hudson Canal Company, over two acres of ground went down, the gap widening constantly. No one was injured, the people living near leaving their houses. Men are busy endeavoring to stop further disaster.

Fatal Wind Storm.

BOLIVAR, N. Y., 11.—A three story building was dismantled by wind yesterday, and the whole structure collapsed, burying four men. Frank Richy is reported dead, and Brad. Philips cannot live.

Suspended.

RACINE, Wis., 11.—Bevier & Reid, the heaviest tanners in the city, suspended by United States Marshal Fink, of Milwaukee, yesterday, on a promissory note given to Henry B. Endicott and Henry L. Williamson for $11,000. They will resume by the aid of friends.

Asking Pardon.

CINCINNATI, 11.—A petition for presentation to President Arthur, for the pardon of Sergeant Mason, has been circulated to-day, and is receiving a large number of signatures of prominent business men. The grounds proposed for the exercise of Executive clemency are the excitement under which the shooting was done.

FOREIGN.

Skobeloff's Rebuke.

LONDON, 11.—A Berlin telegram, reporting the Czar's rebuke to Skobeloff for his recent utterances, reports that the Czar also said: Even Turkey raised her head and refuses to sign the convention for the payment of war expenses. She hopes war will soon break out between Russia and Germany and Austria. You desired to be useful to the Slavs, but having irritated Germany, you have destroyed even that neutrality which alone was feasible under the present circumstances. Germany, as a neutral power in the Slav question, is not in the Eastern question. She was thinking of proposing to act as mediator. She now firmly refuses to aid the Slavs. Thanks to you, Russia feels herself derided, hooted at and completely isolated in Europe.

Important Mission.

PARIS, 11.—An arrival is expected here shortly, which is likely to revive the suspicion and bitterness of the German press. A St. Petersburg correspondent telegraphs the Adjutant of Gen. Ignatieff left St. Petersburg for Paris Thursday on an important mission for the French Government. Just as he was about to start, Ignatieff brought him his last instructions from Gatchina. The Prince remains here only 48 hours.

The Canal Country.

PANAMA, 11.—Editor E. Parkener, of Guatemala, has been arrested for printing an article offensive to the United States minister to Central America, Dr. Logan. The article was not important, but Logan complained to President Parrios, of its unfriendly tone, and the President had the editor arrested and suspended the publication of the paper without an investigation. American residents are displeased with Logan's action in the matter.

President Nunez, in a message to the Columbian Congress, expresses the hope that the American government will not insist upon Blaine's interpretation of the treaty of 1845, and his idea of an American protectorate over the Panama canal.

Cuban Affairs.

MADRID, 11.—Gov. General Prendergast insists on resigning in consequence of the severity with which the Creole liberals are blamed by the Madrid government. The cabinet has determined to send to Cuba Concha Jovellar or Castello, with positive instructions to show no preference to either conservatives or liberals in future.

I have interviewed a journalist who was recently exiled from Cuba. His account of the state of the island is not favorable, but he declares that the Creoles and colored people are loyal to the mother country, and have hopes of reforms being granted to Cuba.

BRIEF TELEGRAMS.

The first packet of the season, the *Josie Lewis*, left Dubuque yesterday.

Laredo, Mexico, has appropriated $100,000 for a military post at New Laredo.

Max Maretzek has left the Cincinnati College of Music, claiming a violation of contract.

The Mexican press is almost unanimous in denouncing importation of negro labor for railway work.

The Nihilist prisoners are allowed till the 27th to appeal. It is thought the sentences of death will be carried out.

Eight hundred individuals unprovided with passports, have been expelled from Moscow within a few days.

At Cleveland, Mrs. Tempsey Davis Sam, wife of a Chinaman, was found dead, fearfully gashed with a razor.

In consequence of a threatening letter received by the police inspector who arrested Maclean, the Windsor police is reinforced.

Skobeloff, in reply to the Czar's rebuke, expressed contrition and declared he had no intention of becoming a political agitator.

The New York general democratic county committee denounced Kelly and Tammany and their alliance with the republicans.

The material of the *Dallas Daily Gazette*, the defunct republican paper started a year ago by a cousin of General Grant, was sold to-day by the sheriff, under execution for $1,080.

Negotiations for a copyright convention between Great Britain and the United States are suspended, President Arthur and Secretary of State Frelinghuysen not sharing Gen. Garfield's views on the subject.

The Navazota Gulf, Colorado and Santa Fe Railroad, to day purchased the Courney and Montgomery Railroads, as a feeder to the main line, twenty-eight miles long, and it will be extended to the Long Leaf pine region in Southeast Texas.

Captain Cunard, of the steamer *Catalonia*, at Liverpool, from New York, reports that when off Point Lipas on her outward passage, his vessel came in collision with an unknown barkentine, owing to a dense fog, and he believed the latter sank with all on board.

Sir Henry Halford calls upon the foremost shots among the British volunteers to practice with special reference to participating in the international shooting match. He adds: "Nothing short of the best work of the best men the country can produce will assure success for the British at Creedmoor."

The French Senate to-day, after discussing compulsory primary education, rejected by 167 to 123 an amendment by Jules Simon, requiring schoolmasters to teach pupils duty towards God and country. This amendment was voted by the Senate before the last senatorial election, but rejected by the deputies.

St. Jacobs Oil

THE Great German REMEDY FOR RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, BACKACHE, GOUT, SORENESS OF THE CHEST, SORE THROAT, QUINSY, SWELLINGS AND SPRAINS, FROSTED FEET AND EARS, BURNS AND SCALDS, GENERAL BODILY PAINS, TOOTH, EAR AND HEADACHE, AND All other Pains AND ACHES.

No Preparation on earth equals St. Jacobs Oil as a safe, sure, simple and cheap External Remedy. A trial entails but the comparatively trifling outlay of 50 Cents, and every one suffering with pain can have cheap and positive proof of its claims.
