DESERET EVENING NEWS.
Wednesday, May 5, 1897.

LIGHTING THE CITY.

Proposition of The Utah Power Company Before the Council.

THE ICE ORDINANCE CONDEMNED.

O'Mears Refers To His "11 Minutes"—Lloyd's Vehicle Sign Ordinance Passed—Miscellaneous.

Last night's Council proceedings lasted until within a few minutes of midnight. All the members were present except Councilmen Le Fevre. A good deal of business of one kind or another was transacted. Considerable time was wasted over the discussion of unimportant questions. A communication from John Stubbs and a question of removing a grinder from off the street consumed twenty-three minutes' time before being disposed of. Hon. Roger Farrer, president of the Provo City council, was an interested spectator at last night's meeting. The contention of the Council were extended Mr. Farrer, on motion of Councilman O'Mears. The Utah Power company submitted another proposition which was finally referred back to the committee on improvements. Councilman Lloyd's ordinance, requiring all licensed vehicles to have framed licenses, passed on a vote of 11 to 4. Councilman Dale and President Sowell made a bit over a question of parliamentary usage, which promised for a while to be interesting, but a smile from the president had the effect of quieting matters. Councilman O'Mears made reference to the sprinkling contract, and sarcastically spoke of his "influence." The fire and police chiefs asked for an increase of three men on the force. The board also called attention to the fact that Chief Pratt had not received any compensation for his services since his appointment, and recommended he be paid. After a short debate the question was referred to the committee on finance. Councilman Romney informed the Council that he had in contemplation a trip to Europe, and would be gone for about three months. He asked for a leave of absence, and wanted it recorded on the minutes that he would not draw pay for the time he was absent from the city. On being put to a vote Mr. Romney's request was granted. The recorder was instructed to notify the auditor of the Council's action, with respect to Mr. Romney's salary. After the reading of the appropriation list, Council adjourned.

THE PROCEEDINGS.

Chairman Armstrong of the Utah Power company sent in another communication, relative to street lighting. It is as follows:

We have examined the two drafts of the proposed contract between the company and the city for street lighting.

That drawn by the city engineer we cannot accept. Its conditions are unreasonable and it affords no protection to us in case the city should fail to purchase the wires and lamps from us after we have paid for them and put them in place.

We are willing to enter into the contract with very slight modifications, as drawn by the city attorney, because that is in line with the suggestion originally made to us when asked to advance the money to purchase the wires and lamps, and is substantially in accord with our communication to the special committee on electric lighting, dated April 19, 1897.

It seems to us that there is unnecessary delay in arriving at a conclusion in this matter. If we must prepare to light the city, machinery and other apparatus must be purchased and, if practicable, some of it will have to be manufactured for that special purpose so that time is of the first importance, and these suggestions ought to be pushed to a conclusion at as early a date as possible.

If, instead of the city owning its own wires and lamps, it prefers to enter into a three years' contract with us, at a certain price per lamp, we are willing and thereby give the city the option of either entering into the contract furnished by the city attorney, or we will supply and own as our own property, to be managed in our own way, the necessary machinery, pole lines, wires, lamps and other appliances and light the city with 44 arc lamps, for $2 per lamp per month for a 2,000 candle power light, to be run every night, excepting five nights in each month, at which time moon is full, in the year between the hours of sunset and sunrise. One of these propositions must be accepted by the city within five days, or we shall withdraw from any further negotiations and leave the corporation free to deal with such other parties as it may desire.

Councilman Callister explained that the contract referred to in Mr. Armstrong's letter was drawn by the committee on lighting. Mr. Callister gave it as his belief that the committee and the company would not get together, and the question was therefore referred back to the same committee.

PROTESTS AGAINST ICE ORDINANCE.

The Kinsman Legislation and thirty-three other business houses presented grievances on the working of the ice ordinance, which, it was asked, that amendments be made so as will afford protection to them. The petition says:

By it (the ordinance) nearly all the ice put up in the Salt Lake valley is excluded from the market, thus necessitating shipments from distant mountain districts, which entail considerable expense, and which we, as consumers have to pay.

We would not, for pecuniary gain, jeopardize the health of the city by using ice made from polluted water, but we pray your honorable body to admit to the market a large quantity of ice cut up from ponds, which have heretofore been one of our chief sources of supply. This ice, we are thoroughly satisfied is of such a quality as to be quite satisfactory to consumers. It has been on the Salt Lake market for sixteen years and its purity has never been questioned, notwithstanding a refusal by the health department to grant a permit for its sale this year. We refer to the ponds of Mr. A. Hill of Mill Creek, and invite an investigation of the same by you.

We respectfully direct your attention to the report of Prof. Kingsbury in the Deseret News of March 17th, on the conditions governing the purity of ice.

The ice harvest last year was very light, and unless our local supply be admitted, we shall be at the mercy of those who are interested in the suppression of our home product, that they may secure unreasonable rates.

They are already asking about forty per cent more than their usual rates, and unless their reference designs are frustrated, it will work us to great hardships, and ruin our business.

Referred in committee on sanitary rules and quarantine.

SPRINKLING CONTRACT.

Allen introduced a resolution instructing the city recorder to advertise for bids for irrigating the city with our sprinkling carts. It was shown in the resolution that the sprinkling of the seventy-three blocks set included in the sprinkling district was costing $5,932.50 per year, and that the work could be done for about $1,800 per year by the purchase of the four carts.

O'Mears moved that it be referred to the sprinkling committee. He said he was a member of the former Council and it was their custom to let the contract by districts, and "that's where I showed my influence," he said. It was thought that as action as suggested by Allen's resolution might interfere with the Griffin contract, but the city attorney said it would not and the resolution was adopted.

LLOYD'S SIGN ORDINANCE.

Councilman Lloyd's ordinance requiring all "wagons, trucks, vans, express and job wagons, carriages, cabs, coaches, hacks, omnibuses, or other public vehicles," to have the license thereto affixed and covered with glass and securely attached to the right-hand side of the vehicle, was passed on a vote of 11 to 4. Those voting against it were O'Mears, Sowell, Malvey and Wheelwright.

MISCELLANEOUS.

William M. Scott, chairman of hall committee of the Christian Endeavorers, asked permission to string a canvas sign across the street to a telephone pole from the front room of their headquarters at 65 West Second south street. Granted under the regulations of the chief of police.

Samuel Brookbank asked permission to place boats on the lake at Liberty park for a term of three years. Committee on public grounds.

M. Marks asked permission to place a hat block stand in front of his place of business at No. 10 east Second South street.

E. Barrows and others protested against sewer connection on Second South from Second to Fourth East. Filed.

L. C. Cone asked permission to use galvanized iron water pipe on his property at 1374 south Tenth East street, instead of lead pipe. Committee on waterworks.

John Stubbs asked for a rebate of water tax and offered to work it out. Committee on irrigation.

J. T. Peck asked to be appointed to the position of special police officer at Liberty Park. Mr. Peck presented a numerously signed petition. Committee on public grounds.

John A. Smith asked for a release of tax sale. City attorney.

H. Berryman asked for an extension of liquor license at his place of business, 19 E. Second South. Committee on license.

Hoyt Park, executor of the estate of J. M. Williams, protested against the paving of Finkle street between Fourth and Fifth South streets. Committee on streets.

Carl A. Erickson asked for a free license to sell ice cream upon the streets during the summer months. Committee on license.

John R. Williams asked for a free license to sell fruits, etc., on the northeast corner of the Temple block. Committee on license and licenses.

G. S. Holmes asked for permission to make sewer connection with two buildings on the rear of the Holmes building on State street. Committee on sewers.

The police and fire board recommended that the name of Corporal Pence Paul be placed upon the official pay roll.

Bids for the construction of a bridge across Emigration creek just south of the Fort Douglas military reservation were received as follows: H. H. Rolfe, $1,661; Andrews Bridge Company, $495. The bid of the Andrews bridge company was accepted.

The police and fire board recommended that the name of Corporal Pence Paul be placed upon the official pay roll.

Bids for the construction of a bridge across Emigration creek just south of the Fort Douglas military reservation were received as follows: H. H. Rolfe, $1,661; Andrews Bridge Company, $495. The bid of the Andrews bridge company was accepted.

The police and fire board recommended that the force of firemen be increased by three men, two patrolmen and one mounted policeman. Committee on finance, to report at the next meeting.

The superintendent of waterworks recommended that the mayor be authorized to solicit bids for two miles of water pipe. The recorder was instructed.

The city roundkeeper reported that the receipts from stock sold during the past quarter amounted to $46.30, and that the expenses and damages caused by the stock taken up aggregated $119.50. Filed.

The board of health asked to have created the office of meat inspector to inspect meat. Sanitary committee.

The board of health asked permission to employ a man with power to dump garbage in restricted portions of the city.

The clerk of the police court reported fines and forfeitures aggregating $1,231. Filed.

Upon the recommendation of the committee on waterworks, a number of waterworks extensions were ordered in various portions of the city.

Adjourned.

A JUBILEE SUGGESTION.

Give us a "Float of the Nations" by all Means.

SALT LAKE CITY, May 5, 1897.

To the Editor:

It is gratifying to observe that many interesting features are being introduced into the program for the coming Jubilee celebration, illustrative of the work accomplished by our noble Pioneers. Every effort to portray Utah's condition in 1847, when the weary foot-sore pilgrims emerged from Emigration canyon undoubtedly will be applauded by the majority of the citizens, while every institution whose "continuous existence" or a counter a second edition of last year's carnival will be viewed by many with disgust.

The commission invite suggestions from all who are interested in the jubilee event; hence these lines are penned with best wishes for the success of the celebration, that it may prove all that the name implies—Pioneer Jubilee. Friends from afar have expressed to me their surprise, when have referred to the cosmopolitan character of Utah's population. Truly we have come from all nations. Some years ago this peculiar characteristic was illustrated by representatives of various countries in our communities interesting. Probably no other State in the Union can make as good a showing in this character.

Therefore, why not introduce this feature in the program for the coming jubilee and give us a float of the nations?

Among our residents may be found English, Scotch, Irish, Welsh, Germans, French, Dutch, Spanish, Negroes, Indians, Swedes, Norwegians, Russians, Italians, Australians, Islanders, Chinese, Japanese, Samoans, Hawaiians, Maoris, and probably many others. It, then, in suitable costumes, could be seen in the parade, upon a float appropriately decorated, it would prove a most interesting and instructive "living picture."

PHOENIX.

FOUR OF A KIND.

And All Brainy.

For business men are talking in an office, when the subject of food and drink came up.

One said that he had suffered for some six months from a pecuiar sensation in the head and had been under the care of a physician until he happened to read an article on the coffee impera at Paris, in which the testimony of a number of physicians was given, to the effect that coffee contained the same poisonous constituents as strychnine, morphine, tobacco and whisky, but in smaller quantities.

This set him to thinking, with a result that coffee was left out of his diet, and in less than a week the head trouble was gone. Each of the other three gentlemen subject to nervousness to the effect that coffee had proved a sty and testimony instead of a friend, as in each case it stimulated, over or nervous tribbe and had been produced by even moderate coffee drinking.

One added the remark that "it was hard to give over coffee, but I found some Postum coffee, made of grains at Battle Creek Mich., and it is so perfect in color and taste that I am enjoying my coffee now daily, as are also my wife and children, for Postum is made of pure grains, (wheat, etc.) and is nourishing and palatable, a pure food-drink, and another feature not to be despised is the fact that it goes about three times as far as coffee, although, of course, the economy is not nearly as great a question as that of health and comfort for myself and family."

There is but one genuine original Postum Cereal coffee, with a multitude of imitations offered as "just as good."

Half Rate East Via Union Pacific.

For the accommodation of a large number of teachers and their friends, the Union Pacific as usual will make rate of one fare for the round trip to Missouri River, Chicago and St. Louis. Tickets on sale June 8th, 9th and 7th, good until Sept. 5th. Call at Union Pacific ticket office, No. 201 Main Street, for any additional information.

Dr. Theodore Meyer reopened office at Progress Block.

The Best Remedy for Rheumatism.

From the Fairbanks (N. Y.) Register.

Mr. James Howard of the village station has for twenty-five years been a sufferer from rheumatism. A few nights ago she was in such pain that she was nearly crazy, she sent Mr. Howard for the doctor, but he had read of Chamberlain's Pain Balm and instead of going for the physician he went to the store and secured a bottle of it. His wife did not approve of Mr. Howard's purchase at first, but nevertheless applied the Balm liberally and in an hour's time was able to go to sleep. She now applies it whenever she feels an ache or a pain and finds that it always gives relief. He says that medicine which she had used ever did her as much good. The 25 and 50 cent sizes for sale by Druggists.

Heber City, Utah, April 7, 1897.—We are never without a bottle of Hood's Sarsaparilla in our house, for no other medicine can take its place as a blood purifier and health restorer. We have taken it in sleeping sickness and we find that good health is the general result. My aged grandparents have used it for years and would not be without it. Minnie Murdock.

Hood's Pills are the favorite family cathartic. Easy to take, gentle, mild. 25c.

CASTORIA

For Infants and Children.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

The Westfield (Ind.) News prints the following in regard to an old resident of that place: "Frank McAvoy, for many years in the employ of the C., N. A. & C. Ry., here, says: 'I have used Chamberlain's Colic, Cholera and Diarrhœa Remedy for ten years or longer—in never without it in my family. I find it the best of all the testimony of the kind manufactured. I take pleasure in recommending it.'" It is a specific for all bowel disorders for sale by Druggists.

PIONEERS OF 1847.

I AM ANXIOUS to secure the portraits of the living pioneers of 1847 as a memento of the jubilee year and for a second edition of my book of pioneers.
