

MOYER STILL REMAINS IN JAIL.

Warrant for His Arrest Charged
Him With Desecrating the
American Flag.

GOVERNOR PEABODY'S PLAN.
It is to Deport from Southern Colorado
Coal Fields All Non-
Residents.

Denver, Colo., March 27.—Because of a vigorous censorship in force at Telluride and Trinidad, where martial law prevails, dispatches from those places are necessarily brief and considerably delayed. Information arriving tonight indicates that conditions are peaceable and quiet.

President Moyer of the Western Federation of Miners, who was arrested at Ouray yesterday and taken to Telluride on the charge of desecrating the flag, is still in jail at the latter place. He is awaiting the arrival of counsel from this city. News from Trinidad tells of the arrest of two Italians by a detachment of the military because they would not tell of the hiding places of several boxes of firearms that were shipped in since martial law went into effect. Maj. Hill, in command at Trinidad, traced the alleged shipment through a receipt given to an express company. The deportation of "Mother" Jones, William Wardon, Joseph Paggini and other strike leaders is the sole topic of discussion. President Mitchell of the United Mine Workers of America has been communicated with and it is expected he will take some action to have all returned to Trinidad under permission of the military authorities.

MOYER ARRESTED.
Ouray, Colo., March 26.—On instructions received here from Sheriff Rutan at San Miguel county, Sheriff Maurice Corbett of Ouray county placed President Charles Moyer of the Western Federation of Miners under arrest today. Moyer was placed in jail to await the arrival of Sheriff Rutan.

Fearing an attempt by the miners to release Moyer, Sheriff Corbett ordered that Moyer be taken to Telluride. Upon arriving at that city Mr. Moyer will be locked up in the San Miguel jail under a guard of soldiers from troop A.

It is not expected that any effort will be made by the civil authorities there to have him released on bonds. Even should Mr. Moyer secure his release tonight he would probably be at once taken into custody by the military authorities and thrown into the bullpen.

The warrant upon which he was taken into custody charges him with desecrating the American flag and the complaint was sworn to by M. A. Wood of Telluride.

The alleged desecration consisted in using pictures of the flag with inscriptions printed between the bars as posters.

A dozen men took a wagon and drove to Ridgway after President Moyer's arrest. It was reported that they intended to intercept Sheriff Rutan and his prisoners, but it turned out that they intended to go to Telluride to test the injunction. When they arrived at Ridgway they were met by the Meeker cavalry troop and told not to go to Telluride.

ARRIVAL AT TELLURIDE.
Telluride, Colo., March 26.—Sheriff Rutan arrived here this afternoon, having President Moyer of the Western Federation of Miners in custody. Moyer was at once arrested and waived preliminary examination. He was bound over to get bail tonight, and he will remain in prison until Monday.

While waiting for the bail to be fixed Moyer was taken to the bullpen, where he was surrounded by some unknown parties from the surrounding hills. No one was hurt. A detachment of 60 soldiers are searching the hills for the men who fired the shots.

MITCHELL'S ADVICE.
Trinidad, Colo., March 26.—The decision reached unanimously by the delegates to the coal miners' convention to continue the strike in the southern Colorado fields was in accordance with the advice of President John Mitchell. A telegram was received from Mitchell in which it is understood, he expressed the opinion that the part of the local strike leaders to give in at this time when the military had superseded the civil authorities. He urged the local union to observe religiously all orders and mandates delivered by the authorities, and that they should not begin the commission of any overt act, no matter what the provocation.

The resolutions adopted impotently the national board to devise ways and means to extend the strike into Wyoming and New Mexico, and renew the offer to confer with the operators.

IF YOU WANT TO KNOW WHAT AILS YOU

the S. S. mail will bring you the best medical service only the cost of writing material and stamps.

Many people owe their present good health to the fact that they consulted Dr. Pierce's letter, giving him all possible information about their condition, symptoms, etc., and received in return good medical advice which they followed. Write to Dr. R. V. Pierce, founder of the Invalids' Hospital and Surgical Institute, Buffalo, N. Y.

Dr. Pierce by no means confines himself to prescribing his well-known medicines. He tells you in the most common-sense way what ails you, what you ought to do, what line of treatment should be followed out in your particular case, and if your case does not indicate the need for this proprietary medicine, he tells you plainly and frankly what you do need, and the best possible method of improving your health.

Dr. Pierce treats many chronic cases at a distance, through the mail and all you have to do is to write him your symptoms.

"During my two years of married life I have not had good health," writes Mrs. Daisy Reed, Kansas. "I was all run down, and my husband used to write to Dr. Pierce. I got an early reply from him, and he told me to take his Pleasant Pellets. I did as he said, and in a few days I felt all my work and did not feel tired like I used to. I have taken eight bottles of the 'Favorite Prescription' and feel like a new woman."

Dr. Pierce's Pleasant Pellets cure dizziness and sick headache.

the district two-thirds of the strikers will return to work.

EVICTED MEN.
Denver, March 26.—Gov. Peabody said tonight that the 12 men who went from Ouray to Ridgway to make an effort to return to Trinidad, under Judge Stevens' injunction were allowed to go to Telluride, and that tonight they were in their homes.

Montana Cattle Suffer.
Butte, March 26.—The storm which broke Wednesday morning and swept the entire state was one of the most severe during the present winter. From two to eight inches of snow fell in various parts of the state and the thermometer ranged from a few degrees above to 20 below zero. Reports from various stock counties tell of poor range conditions and state that cattle are in poor condition to stand a severe cold snap, being very weak from the long hard winter and the scarcity and unless warm weather comes shortly severe losses are anticipated.

The storm extended over into the Dakotas and train service in that state is badly delayed. Dispatches received at this city tell of a train being held up in the Montana night stage that the westbound Northern Coast limited and President Elliott's special train are tied up somewhere east of the Montana line by snow. Indications today are that the snap is broken, the thermometer having risen to about 30 above zero.

Killed for Sixty Cents.
Spokane, Wash., March 26.—George Stevens, landlord of a rooming house in the Marion block, on Riverside avenue, was killed this morning during a fight with three roomers over 60 cents.

Rolling English, a man named Harrison, and another, said to be known as Smith, had broken a pitcher and the landlord in trying to force payment, locked them out of their room. During the fight Stevens was struck on the back of the neck with a slungshot and died almost instantly, his neck being broken.

Stevens was formerly a rancher in the Palouse country and came here five months ago. He leaves a wife and six young children. The murderers escaped and are being pursued by the police, who believe they are still in the city.

Son Kills His Father.
Choyenne, Wyo., March 26.—August Pacheco, 29, killed his father, Juan Pacheco, 60, with a shotgun, near the Wood Sliding Larimer county. Pacheco has been shot and killed by his 14-year-old son.

The father, it is said, threatened to kill his wife, who refused to transfer property to him.

Sanitation of Isthmus of Panama
New York, March 26.—Benjamin N. Harrod of Louisiana, a member of the Panama Canal commission, has arrived here to join the other members of the commission who will start tomorrow for the isthmus on the steamer Allanca. Accompanying the commissioners will be Col. W. C. Gorgas of the medical department of the army, who is to have charge of sanitation on the isthmus. Mr. Harrod said: "We are going to study the situation at Panama thoroughly. Just how long we shall remain on the isthmus I can't say, perhaps two months. The ventilation of the canal, the water and formulate definite plans for the beginning of actual work on the canal."

IRROQUOIS THEATER FIRE.
Chicago, March 26.—Information showing new light on the fundamental cause of the Irroquois theater disaster has come to Chicago in a report from the Association of Civil Engineers of upper Austria, which has made exhaustive experiments with a theater model. Ambassador Benjamin Storer forwarded the document from Vienna.

The Austrian association holds that the fundamental cause of the Chicago calamity, as well as that of the Ring theater in Vienna, is to be found in the expansion of air under heat and resulting increase of pressure. To Frank Neuman, acting director of the Imperial State railways, the association gives credit for having first called attention to this fact. The engineers assert that the theater fire causing great loss of life started from the stage and that such fires are becoming more frequent from year to year because of the demand for more elaborate scenic and light effects.

The engineers from their experiments allege: "If there are not enough openings on the stage to allow for the expansion of air to give outlet to the gases of combustion, the expansive force will push the curtain, if let down, through the proscenium into the auditorium."

The engineers declared that "attention should be directed to the fact that probably no iron curtain will be strong enough to withstand a one-sided pressure of 1-20 to 1-30 atmosphere. The curtain will be bent and the heated air and gases of combustion will enter the auditorium through the openings produced at its borders."

This can be accomplished only by the covering of the shafts with an easily combustible material like canvas covered with paper and varnished, celluloid, etc. To help the combustion of the shaft covering it should have a central hole one and a quarter inches in diameter.

Smallpox Epidemic in Siberia.
Irkutsk, Siberia, March 28.—Smallpox has become epidemic in the interior of this province. The authorities have taken measures to stamp out the disease, which has not as yet affected the troops.

THE PASSION PLAY.
Given in Chicago by Members of Catholic Church of Assumption.

Chicago, March 28.—The Passion play has been given its first presentation in Chicago by 300 members of the Roman Catholic Church of the Assumption at the church school.

The leading role of the play—that of the Christ—was assumed by John Mannino, a carpenter whose face bears a striking resemblance to the countenance attributed in art to the Savior. Mannino and all the others in the cast except two children are natives of the town of Vicari, Sicily, and emigrated to America in the body taking up their residence in the North Side Italian quarter of Chicago.

The play was produced exactly as those who took part in it had seen it enacted many times by professional actors in religious drama in Vicari.

There were present several church dignitaries, including Father Barry, T. W. O'Connell, archbishop of Chicago, Fathers Pellegrino Grandi and Frederick Anzeluti presided.

Each scene was attended with solemnity both on the part of the actors and audience. Many persons went during the performance to the altar and took the death of the Savior.

In all 12 scenes were given and the play lasted four hours. It was given for the benefit of the parish school.

THE AMERICAN NEGRO.
Booker Washington Says His Progress is Without Parallel.

New York, March 28.—"I have not the most profound belief that no race in ancient or modern history has ever equalled the American negro in development in all directions," said Booker T. Washington, the architect of the Tuskegee institute, at a meeting here of the Society for Ethical Culture. He expressed the opinion further that the colored man should be encouraged to remain in the south. He said:

"Because of the negro's progress in the present and my faith in his future I was never prouder than I am today of being a negro."

"One of the most important sources of protection that any race of people can have is the respectability of the community in which they dwell. Service is the secret of sovereignty."

"Nine-tenths of the intelligent members of our race will agree that the great body of our people are at the present time the race of slaves. Since this is agreed on it naturally follows that the negro should in every praiseworthy manner cultivate the friendship and the sympathy of the people by whose side he is to live. Any man who is not a friend of the colored man is not a friend of himself, and is a natural and logical enemy."

"In saying this I do not mean we should suspect to injustice. No one respects a strong honest character more than the southern white man does. At the present time the race of slaves is a white friend it can command, whether he resides at the south or the north."

"The problem before us are not to be settled by emigration, extermination or amalgamation but by sympathetic co-operation between the races."

Walter Bishop Suicides.
Seattle, Wash., March 28.—Walter Bishop, recently private secretary for A. Christensen, manager of the Wells Fargo Express company in the City of Mexico, and later in the employ of the same company in some confidential capacity in the City of Mexico, committed suicide in a rooming house Saturday night, and his body was found last evening. The man had come here from Mexico. He has a brother in Kansas City.

Will Tie Up Legacy.
New York, March 28.—New legal complications promise to again tie up the legacy of \$50,000 left by Jose Sevilla, a wealthy Peruvian, and one of the residents of New York, who wished to establish a home for poor girls near this city. During the 18 years since Sevilla died the bequest has grown to nearly \$500,000, and meantime the executor of the will has been trying to straighten out matters so that the money could be available.

Just as this seemed probable a new contest has been started by Carmen Sevilla, widow of the deceased millionaire's brother. She seeks to recover possession of a piece of valuable real estate. Action also has been brought by another sister relative to recover a legacy of \$250,000, which she claims never had been paid. The estate was worth \$5,000,000 when Sevilla died.

WILD MAN CAUGHT.
Seattle, Wash., March 27.—A special from Dawson to the Post-Intelligencer, says:

"The wild man who has been set throbbing at Noms by the capture of a wild man of barbarous appearance, totally unable or unwilling to give an account of himself. He is commonly known as 'The Wild Man of Noms.'"

believed to be an escaped Russian exile from Siberia. The man had been in custody but a few days when the last advice received here from Noms left that place. He was a strange, weird creature, with beard and hair to his waist, and nails long and twisted. He looked like a wild animal and talked nothing intelligible. The Noms Nugget brings out the suggestion that the man may be a survivor of the Andre party.

Dowie Insulted King Edward.
Adelaide, Australia, March 27.—In consequence of a speech insulting King Edward the government has refused the use of public buildings to John Alexander Dowie. The mayor of Adelaide wrote to Dowie telling him he was a disgrace to the nationality.

New York, March 28.—The remarks accredited to John Alexander Dowie of Zion City, Ill., which have led to the issuance of orders forbidding him to use any public building, were made at Adelaide, says an American dispatch from Sydney N. S. W. Dowie is quoted as saying King Edward will "only get to heaven by the skin of his teeth," and that "nobody imagines Edward VII has any religion to spare."

The premier followed up the action of Adelaide's mayor by ordering Dowie kept out of the government buildings, and the manager of the exhibition building returned Dowie's contract and canceled the engagement. Therefore, Dowie practically is debarred from any rostrum in the colony. It is not probable, however, that he will try to speak as the American consul has been requested to persuade him to leave Australia before public irritation culminates in personal violence.

Dowie has disappeared from his hotel in Sydney.

Fatal Automobile Accident.
New York, March 27.—Four persons in an automobile, owned and driven by Jerome Yeager, were thrown out while the car was swinging around a sharp curve in Central park today. Miss Florence Maas of the Hotel Endicott was picked up unconscious and died soon after being taken home, and Solomon Strook was seriously injured. The others escaped unhurt.

Mrs. Jeff Davis Rallies.
Atlantic City, N. J., March 27.—Mrs. Jefferson Davis, widow of the president of the southern confederacy, who came here from New York after an illness, has been rallied here by her supporters.

her remarkable vitality Mrs. Davis rallied today and no apprehension is now expressed.

CASTORIA
For Infants and Children.
The Kind You Have Always Bought
Bears the
Signature of *Dr. J. C. Williams*

ONCE I HAD A HUSBAND
Is the worst disease on earth, yet the easiest to cure. W. H. E. N. O. U. DO. Many have simple spots on the face, pimples, itching, and all sorts of skin troubles. DR. BROWN'S BLOOD PURIFIER, 25c per bottle; lasts one month. Sold by all druggists. F. C. Schramm, First South and Main Sts.

The Manhattan Life Ins. Co.,
