ORGANIZATION.

THE PROBLEM THAT HAS AGITATED WOMEN FOR MANY YEARS.

What Organization Has Done for Females—the Writer Says That It Is a Mistake for Women to Regard Men as Enemies—Men Have Helped Them.

The problem of organization is one which has agitated women who work ever since the sex has been regarded as a factor in industrial competition, and [illegible]

The Cook Was All Right.

"Do you like the dinner, John?" anxiously inquired his wife. "I cooked it all by myself."

"Yes," said John, trying to be kind and truthful at once, "but I'm afraid, dear, that there must be some [illegible] in the cookbook you use."—Free Baptist.

Lake Erie, it is said, produces more fish to the square mile than any body of water in the world. This is because of the result of the good work done by the fish commissioners.

THE AGE OF PAPER.

The Time Is Coming When Paper Will Be the Only Useful Thing.

The world has seen its iron age and its bronze age, but this is the age of paper. We are making so many things of paper that it will soon be true that without paper there is nothing made. We live in paper houses, wear paper clothing, and sit on paper cushions in paper cars rolling on paper wheels. If we lived in Bergen, Norway, we could go on Sundays to a paper church.

We do a paper business over paper counters, buying paper goods, paying for them with paper money, and deal in paper checks on paper margins. We row races in paper boats for paper prizes. We go to paper theaters where paper actors play to paper audiences.

As the age develops the coming man will become more closely connected to the paper net. He will awake in the morning and creep from under the paper clothing of his paper bed and put on his paper dressing gown and his paper slippers. He will walk over paper carpets, down paper stairs, and [illegible]

Tuberculosis in Rats.

[illegible]

I could find next to nothing about the rat in books, so the thought growing upon me that the disease so fatal to the rat might be made dangerous to the rat's nearest neighbor, man himself, I undertook a series of experiments. My first rat subject was a sick one which I captured in the yard of the glass works without any exertion. [illegible]

My next subject was a healthier and more active rat. [illegible] —Dr. S. L. Weber's Lecture.

Changes in an English School.

In 1821 Mr. Milnes Gaskell writes from Eton that an upper boy "got spurs and rode many of us (lower boys) over a leap positively impossible to be leaped over with a person on your back, and [illegible] —National Review.
