MINING, BUSINESS AND STOCKS.

YANKEE CON. WAS STRONGER.

The Stock Sold Up to 21½ on the Exchange Today.

VALEO WAS MUCH HIGHER.

Sold at 15¼—Star Con. Not So Strong—Daly-West Firm—Lower Mammoth Weak.

TODAY'S METALS:
SILVER 63¾
LEAD. $4.00
CASTING COPPER 15¾

The mining stock market was fairly active this morning. Nearly 12,000 shares changed hands for the sum of $9,888.70. Daly West recorded one sale at $19.22½, which was slightly lower than the highest price obtained last week.

Grand Central also appears on the sales sheet today. Three hundred shares were released on a bid of $5.00 per share. Lower Mammoth was also active, though the prices are lower than those of the past few days. It has not been decided that an assessment will not be levied which may account for the stock weakening again today.

Mammoth was in good demand at prices ranging from $2.22 up to $2.23¾ per share, an odd lot going at $2.25. May Day remains quite weak around 40, while Sacramento sold from 33¼ down to 33 cents per share. Northern Light made a sale at 6¾ per share.

Star Con. cut quite a figure in the day's trading. Nearly 6,000 shares were sold at from $1.02 to $1.04¾ per share. At the outset the stock sold at $1.02, but it steadily advanced until the closing sale was made.

Valeo was much improved today. After making a sale at 15½ the stock closed with 14 bid. Yankee Con. was also stronger. Sales were made at from 20¾ to 21¾.

Closing quotations were posted as follows:

Sick Headache Quickly Cured.

Indigestion, bad stomach, constipation, sick headache. That's the program. Next program, Cascarets Candy Cathartic, instant relief. Druggists, 10c, 25c, 50c.

You can spell it cough, coff, caugh, kauf, kaff, kough, or kaugh, but the only harmless remedy that quickly cures it is One Minute Cough Cure. F. C. Schramm.

Happiness depends very much on the condition of the liver and kidneys. The ills of life make but little impression on those whose digestion is good. You can regulate your liver and kidneys with HERBINE and enjoy health and buoyancy of spirits. Price, 50 cents. Z. C. M. I. Drug Dept.

LIFE OF A PIONEER.

Autobiography of Capt. James S. Brown, 520 pages, bound in cloth. Price $2.00; for sale at the Deseret News. Special terms to agents.

DeWitt's Little Early Risers are prompt, palatable, pleasant, powerful, purifying little pills. F. C. Schramm.

A "stitch in time saves nine," and a dose of BALLARD'S HOREHOUND SYRUP at the beginning of a cold will save you many weary hours and even days of distressing and harassing cough. Price, 50 cents. Z. C. M. I. Drug Dept.

THE CON. MERCUR DIRECTORS MEET

Plans for Handling the Ore More Economically Being Completed.

THE MAMMOTH LOOKS WELL.

Ore Chute May be Tapped on the 900 With Any Shot—The Lower Mammoth—Ore from Scipio.

A majority of the directors of the Con. Mercur Mining company met today, according to schedule, and adjourned until the 15th inst., at which time the full board will be present and the first dividend will be announced.

A letter from Supt. George Z. Edwards announced that ore is now being conveyed to the big mill through a winze, which was recently made to connect the Resolute and Electric tunnels. This move will greatly decrease the expense heretofore incurred in handling the Mercur ores, much of which has been handled as many as five times since the consolidation was effected. Now the ore will be hauled through the Resolute tunnel to the winze, from which it will be received into cars at the Electric tunnel and conveyed to the Golden Gate mill, where it is dropped to the Mercur pocket at the Saw Mill Tunnel level, and thence conveyed to the crushers in skips. Thus far the management has only been taking ore from the face and winzes of the Ruby drift and also from the Resolute stope, where the large body of base of ore exists. With this new connection made, the management will extract ore from the Lizzie, Lulah and other claims in the south end of the property.

THE MAMMOTH MINE.

The Dividend Paid Today—Conditions Encouraging on the 900 Level.

President Samuel McIntyre of the Mammoth mine came in from Tintic today to sign the checks in payment of the dividend of $20,000, which is due today. Mr. McIntyre says that there is nothing specially interesting at the mine though he expects to hear at any moment that the big ore chute on the 800 level has been tapped on the 900 level. The winze from the 800 is down 55 feet and the appearance of things is said to be very encouraging in that part of the mine. Connection has now been made on the 1700 level, with the winze from the 1600 level. This winze followed the ore all the way and the management will now begin to explore what promises to be a nice body of ore, the values of which are largely gold.

ORE FROM SCIPIO.

John S. Ferris Reported to Have Found a Big Gold Vein.

Editor N. H. Mix of the Eureka Republican was in the city today, after spending some time in the mountains near Scipio, where he met the veteran prospector, John S. Ferris. Mr. Ferris was very enthusiastic over a big gold find which he says he has struck in the mountains west of Scipio. Several shafts are said to have been sunk on the claims, which cover the vein for a distance of several miles. The deepest of these shafts is only down thirty-five feet. At that depth he has not only found a big vein, some twenty feet in width, but he claims to have found ore which assays all the way from $1.80 to $1,600 in gold per ton.

THE DAISY OF WEST DIP.

The Outlook for Starting Up is Quite Favorable Today.

Receiver A. T. Moon, of the Daisy, of West Dip, was at his desk today after spending several days at the mine last week. No special changes are reported at the mine. A few men are employed there but no attempt has yet been made to start up with a full force. The outlook for the future is said to be brighter than it has been for some time, and it will not be surprising if the mill is started up within the next two weeks. Nothing has yet materialized regarding the rumored consolidation of West Dip properties.

ITEMS FROM PARK CITY.

At the California—Important Strike in the Victor—Shipments.

W. A. Wilson, the mining expert, came up Thursday to take a look through the Anchor, preparatory to the Daly-West and Anchor suit which is docketed for October 4th.

Whether or not the rich gold vein in the Silver King is the cause of stimulation, King stock has gone up to $60 on the market, with no sales recorded for the reason that everybody who holds this stock evidently thinks it is good enough to keep.

It is reported that the Morgan group of mines, lying northeast of the city, have been leased and bonded by a company of eastern capitalists, who will begin work on the property at once. We were unable to learn the figures, but understand it was a good round sum.

Thomas Roscamp, down from the California mine this week, reports the property looking first class, the mill running right along and everything working satisfactorily. The water, he says, is now all out of the upper workings and sinking is going on. The new raise to connect with the upper workings has now reached the vein, and in a short time will be through. This raise will leave ore in each side for stoping, of which there is plenty in sight. In the upper workings a body of ore is exposed forty feet wide and sixty feet long, and in the lower workings they are drifting along the wall south. Here there is a strong copper vein free from zinc, and altogether Mr. Roscamp says he feels exceedingly well satisfied with the outlook.

W. J. Gray, who is putting in the machinery at the Comstock in Thaynes canyon, says the engine is planted, the smokestack set, and all that remained to be done was to make the pipe connections and the machinery could be put in motion. This will be done in a few days. It is needless to say that Superintendent Hickey will lose no time in putting the machinery at work and making a good showing for itself. He has so managed the affairs at this property that no delays will be occasioned by unfavorable weather, for he anticipated such conditions some time ago, and has everything on hand to prosecute the work now mapped out, and with the new and ample machinery in place development work will go along at a rapid rate. Mr. Hickey is a thorough miner, and never overlooks a point.

A very important and valuable strike was made Wednesday in the Victor claim at the mouth of Thaynes canyon, which may lead to the opening up of what a number of good miners believe a section that contains a large mineral ledge right next this camp. This new strike at present consists of running into an ore chute on the Victor by M. J. Hall, the operator, in an incline he is now running on this property. Where the ore body was struck it is about fourteen inches across and is getting wider at every blast in it. The ore is carbonate, and is pronounced by experts as the best that has yet been encountered, depth considered. The strike was made at the sixty-foot mark in the incline, forty feet from the surface. The ledge crops out right by the cabin occupied by Mr. Hall, and while he has been working steadily on adjoining claims that comprise the group for the past thirteen years, the Victor holding was unknown, and but recently discovered, this incline being the only work done on it.

ORE SHIPMENTS.

Following are the shipments of ore from the Mackintosh sampler for the past week:

Silver King	1,456,000
Daly-West	1,217,000
Anchor Con	196,000
Ontario	153,000
Quinn	63,000
Barnes	40,000
Total number of pounds	3,125,000

THE DALTON SALE.

Is Repudiated by Officers of the Company—Is Only an Option.

The officers of the Dalton Gold Mining company confess entire ignorance of the sale of the company's property as reported in a morning paper yesterday. The property has been bonded to eastern capitalists who have been represented by a local man, but the option is for a much less sum than that of $250,000, at which the sale was reported yesterday. The fact of the matter is that instead of the sale of the property, the parties who have bonded the mine were to take hold of it today and continue development work for one year at which time the option expires. This will ensure a great deal of development work even if the deal falls through, and it will save the stockholders from assessment levies for that time.

THE LOWER MAMMOTH.

Ore Bodies Are Large but Low Grade on 700 Level.

Messrs. Simon Bamberger, James Chipman, J. D. Wood and H. S. Joseph visited the Lower Mammoth, of Tintic, yesterday and report an encouraging outlook, but not sufficiently so to enable the company to meet its indebtedness immediately without an assessment. The east vein has been tapped from the 700 foot level but the values are low as they are in other places. Spots of high grade ore occur but that is all. Mr. Wood considers the quartz very favorable on the 700 level, much more so than on any of the upper levels. It is said to be live looking stuff such as the ore usually makes in. It is not unlikely that the company will sink its shaft deeper in the near future. The machinery is said to work like a charm.

McVichie Appreciated.

President Coram of the Bingham Copper and Gold and other companies, who lately returned to Boston after seven weeks' trip in the West, is quoted by the Boston News Bureau as saying: "Perhaps the most important development at the Cochiti is the appointment of Mr. McVichie as general superintendent. He also occupies the same position with respect to the Navaho and Bingham properties. The economies which he is introducing at Cochiti I figure will be worth $80,000 per annum to that property.

"He is the best all around mining man I have met in twenty years. Under his methods it will not cost as much to handle 3,000 tons of ore as it formerly cost to handle 3,000 tons."

"After Oct. 1st all construction expenditures will be charged to operating expenses. Even treating construction work as an operating charge, Mr. McVichie's economies should reduce our cost anywhere from 65 cents to $1.10 per ton. Our electrical machinery could not run smoother than it does today. I have ordered three new 150-horse-power motors to supplement our present equipment in case a breakdown should occur at any time. Our ore continues to average in the vicinity of $8 per ton and our reserves are being increased steadily. The mine never looked better."

Big Jump in Valeo.

Rumors of improvements for the Valeo, of Park City, sent that stock soaring into the skies this afternoon. After selling as low as 10½ on Saturday it was traded in as high as 15½ on the exchange today. A spurt took place in the stock after call and at 2 p. m. this afternoon sales hade been made at 19 cents per share.

MINING NOTES.

Claude Wheeler is up from the South Swansea.

The Utah Queen, of Dry canyon, was on the market today with a carload of ore.

Seven cars of concentrates were on the market today from the Opher Hill mine.

It was stated today that the Yankee Con. ore body is eleven feet between walls.

The Hein Mining company marketed a car of ore today from its Tintic property.

A force of twelve men is now engaged in the development of the Little Chief at Eureka.

Jesse Knight's Uncle Sam, of Tintic, was on the market today with a five-car shipment of lead ore.

The Taylor-Brunton sampler reported eight cars of ore from Stockton, six from Tintic and 1 from Idaho today.

W. A. Scott, of the San Francisco Mining and Scientific Press, spent the past week in Tintic in the interest of his paper.

Sinking has been resumed on the new shaft on the Muldoon claim of the Bullion-Beck. It is now down 215 feet and the ore still holds out.

President Allen C. Washington is here from New York for the purpose of attending the Horn Silver annual meeting, which takes place tomorrow at noon.

The Blue Jacket, of the Seven Devils, district, Idaho, reached the market today with a car of high grade copper ore.

Eight cars of copper bullion was the record of the Highland Boy smelter for the past month. The output exceeds 480,00 pounds.

The last five-car shipment from the Star Consolidated was not sold on Saturday afternoon as expected. The assays did not agree and the lot will be resampled this week.

C. J. Hodge of the Last Chance of Bingham was in town today. He reports the mill changes completed and promises an increased output in the near future.

Col. E. A. Wall is back from Park City, where he has been making examinations for the Daly-West Mining company, to be used in the coming suit with the Anchor company.

R. C. Chambers was in Park City yesterday. He reports the Daly ore streak on the 1,200 increased to eight inches. The ore is lower grade, however. About 100 feet of drifting has been done since operations were resumed.

Salt Lake and Oregon men have incorporated the Silver King Extension Mining company under the laws of Oregon. The property lies near the Silver King, of Park City. Solon Spiro is president and Joseph Geoghegan, of this city, is assistant secretary and treasurer. The other officers are Portland, (Ore.,) men.

The stockholders of the Sheep Rock Mining company held a meeting on Saturday afternoon at which the capital stock was changed from 52,500 shares of the par value of $5 each to 525,000 shares of the par value of 50 cents each. The board of directors were at the same time authorized to purchase the Indian Creek company's property.

Articles of incorporation for the Margaret Mining company have been filed with the secretary of state. The company is capitalized for $500,000 divided into 500,000 shares of a par value of $1 each. The officers of the new company are James F. Muldoon, president; Grant H. Smith, vice president; W. J. Dooley, secretary and treasurer, and these, together with John B. Smithson, Josephine C. Muldoon and A. G. Bast, constitute the board of directors. The company owns four claims situated between the Johnnie and Opher properties in Stateline district.

RAILROADS IN BIG DEMAND.

Heavy Buying of Union Pacific Advances it a Point and a Quarter.

Improvements in Western Trunk Lines—Sugar Spurted to 118—Bonds Quiet and Irregular.

New York, Oct. 1.—Changes were much mixed at the opening of the stock market but were generally small. An upward movement in the steel group obtained great headway in the first hour. There was also good demand for sugar, People's gas and Brooklyn transit, which responded about a point. Very heavy buying of Union Pacific advanced it 1¼.

In the second hour railroad stocks were in larger demand than for a long time and the specialties fell somewhat into the background. Improvements of a point or more were made by some of the western trunk lines, Southwestern and Pacific stocks. Sugar spurted up to 1.18 and Manhattan to 88.

Bonds were quiet and irregular.

U. P. was carried up to 58¾ in the final hour and the general list was lifted a notch higher than on the previous rise. But realizing made the maintaining of prices difficult and when the Tennessee Coal was raided down 1½ the tone becmae easier all around. The close was very dull and heavy and showed net changes.

Boston, Oct. 1.—B. & M., 3.19; B. & B., 53;

Sheep—Receipts, 2,000; steady. Lambs, 4.00@5.20; muttons, 2.00@3.75.

DENVER LIVE STOCK.

Denver, Colo., Oct. 1.—Cattle—Receipts, 2,050. Lower, beef steers, 3.75@5.40; cows, 2.25@3.75; feeders, freight paid to river, 3.00@4.30; stockers, do., 3.30@4.40; bulls, stags, etc., 2.00@3.00.

Hogs—Receipts, 500. Market weak; light packers and mixed, 5.15@5.25; heavy, 5.00@5.20.

Sheep—Receipts, 3,600. Market steady; good fat muttons, 3.40@3.75; lambs, 4.25@4.50.

ST LOUIS WOOL MARKET.

St. Louis, Oct. 1.—Wool dull and slightly lower. Territory and western medium, 15½@17½; fine, 13@15½; coarse, 13@15.

SAN FRANDISCO GRAIN.

San Francisco, Oct. 1.—Wheat, easy; December, 1.06; May, 1.13; cash, 1.02½. Barley—No sales; cash, 75.

BUILDING AND REALTY.

Architect Ware is preparing plans for a three-story brick and stone hotel and store building, 85x70 feet, on east Second South street, immediately adjoining the east end of the Kenyon, the intention being to use the two upper stories as an annex to the hotel. The cost of the structure is placed at $10,000, and work will be pushed as rapidly as possible.

The Houston Real Estate Investment company has secured a ninety days' option on the northwest corner of lot 5, block 49, plat A, at Third South and Second West streets, which is known as the old Worley corner, owned by James Hughes. The improvements on the property are valued at $12,000, and the option price is $30,000. The Houston company paid $300 for the option, and went into the deal expecting that the Los Angeles Railroad company will get Pioneer Square for depot purpose.

Elijah F. Sheets has conveyed by warranty deed to Glen R. Bothwell and R. E. McConaughy, for a consideration of $8,000, lots 6 and 7, block 1, plat A, on Third East between Eighth and Ninth South streets.

Kate E. Farrell and John W. Farrell have transferred by warranty deed to Mannie H. Marshall, for $5,000 and subject to a mortgage of $3,500, part of lot 3, block 25, plat D, on the corner of J and Second streets, facing north and west. The deed was recorded at the request of D. R. Gray.

A warranty deed has been filed with the county recorder, conveying from the Deseret Investment company to Thomas W. Jennings, for a stated consideration of $1, part of lot 2, block 88, plat A, at the corner of South Temple street and College Avenue. The deed had $10 in stamps on it, indicating that the value of the property was $10,000. Mr. Jennings took the property in exchange for a piece west of the Lion house, owned by the Deseret Investment company.

INDIA FAMINE FUND.

Since making its last report the "News" has received a generous list of subscribers to the India Famine Fund, from the people of Haden, Idaho, through Mrs. Martha Little, its agent at that point. A ball and supper were given by a committee consisting of Mrs. E. W. Gruman, Mrs. J. A. Black, Mrs. E. S. Little, Misses Estella and Nora Little, Miss Mary Leatham, Miss Sadie Thompson and Miss Katie Black. Other donors were Joseph Gale, $1.00, G. A. Adams, $1.00 Hyrum Hochstrasser, 50 cents, Nephi Hochstrasser, 25 cents, H. Fullmer, 25 cents and Louis Leatham, 25 cents. A total of $15.00 was realized. The day's full donations are as follows:

Peoople of Haden	$ 15.00
Mrs. Luella Washburn, Duncan, Arizona	2.00
Children of Bountiful	1.20

Oscar Holbrook, Bountiful, 10 cents, Briant Page, 10 cents. Jeanette Heywood, 20 cents, May Moss, 15 cents, Earl Spencer, 5 cents, Laura Holbrook, 15 cents. Lucile Arbuckle, 5 cents, Bessie Lee, 10 cents, Octave Arbuckle, 5 cents, Moroni Corbett, 25 cents.

Previously acknowledged	$546.99
Total	$565.19

There are thousands of people, suffering untold torture from piles, because of the popular impression that they cannot be cured. TABLER'S BUCYEYE PILE OINTMENT will cure them and the patient will remain cured. Price, 50 cents in bottles. Tubes, 75 cents. Z. C. M. I. Drug Dept.

In anaemia and most women's ailments the digestion is weak, the making of color, flesh and strength out of food, is imperfect so that the patient is weak, wan, nervous and dyspeptic. This condition can be corrected by taking a course of HERBINE. Price, 50 cents. Z. C. M. I. Drug Dept.
