# MINES AND MINING.

## The Stock Market Firm With Some Advance in Prices.

### MAMMOTHS SHOWS GREAT STRENGTH

### Sunshine Going Up and Swansea Well Thought Of—Mammoth Items—Dips and Spurs.

The mining stock market was quite firm today and as a general thing prices ruled higher. Trading, however, was very light, although it did not demonstrate any slightly any special degree of activity. The first transfer made came to an exchange of 10 shares of Eagle at 11 cents, which was closely followed by another sale of 100 shares at a cent below the previous selling figure. Mayflower came to the fore in the day's business in a contribution of 600 shares at 15 cents. Mammoth showed great strength and at one point of the game it looked as though sales of the stock would be brought about, but a change of a cent and not be obtained and it closed at $3.52 asked and $3.49 bid. Meerut remained about stationary and crested to quite interest during the call while Sunshine took a leap upward and elicited much attention from the brokers. Centennial-Eureka ran high, demands of $10 being made for the stock while bidders showed their willingness to load up at $9.

The call in tandem brought out Swansea as a leader and it proved a good one by being recognized in the sale of 100 shares, which went at $2.10. The stock displayed much strength and sale at $2.05 in the face of demands of $2.10, were quite plenty, but no further sales were recorded. Honorable Absolute completed the trading in the unlisted stocks, 2,000 shares of which found takers at 11 cents. Numerous other stocks were brought out on the board, but with little quotations being given, by-and-by we put in the proceedings.

The closing figures were as follows:

LISTED STOCKS.

| NAME. | Asked. | Bid. |
|---|---|---|
